PREFACE

If all the records for the 1890's should be lost, a scholar in the remote future who stumbled upon this book could obtain a fairly accurate description of American life during the last decade of the nineteenth century. The items displayed represent artifacts people really wanted and bought. Sears Roebuck did not as a rule experiment with fads. Nevertheless, the catalogue does record technological advances, changes from earlier ways of living, but changes that were rapidly becoming engrained in the American life style. Hence, the panoramic view drawn from the Sears catalogue is revealing and valid. For this reason alone, this catalogue occupies a unique place as authentic Americana, a companion to the faded family album. Today we chuckle at the wordy descriptions and repetitious phrases, but in its day the catalogue earnestly—and I think sincerely—satisfied the ravenous appetite for detail that characterized the rural mail order customer. Although Sears' catalogues from the 1890's are now collector's items, millions of Americans once considered these crowded pages as required reading.

The catalogue was designed and maintained as a business instrument. Its friendly descriptions convinced the reader how easy it was to order by mail—"in any language." "Don't be afraid you will make a mistake. We receive hundreds of orders every day from young and old who never before sent away for goods. We are accustomed to handling all kinds of orders. Tell us what you want in your own way, written in any language, no matter whether good or poor writing, and the goods will promptly be sent to you." The company offered fantastic guarantees —the sewing machine could not only sew and sew satisfactorily, but it could also sew better than any other sewing machine in the world. Sears guaranteed the bobbin, the shuttle, the treadle, the leather belt for the treadle, the solid golden oak cabinet, the varnish, and the linseed oil used to bring out the grain. Sears guaranteed safe arrival and pioneered in early status-striving motivation: "the neighbors would admire it once they were permitted to inspect it."

The Sears Roebuck Company, capitalized at $150,000 in 1895, listed its assets in excess of one hundred million dollars twenty years later. Half of the 1895 capitalization was provided by Aaron Nussbaum who had amassed a considerable sum of money selling ice cream at the Chicago World's Fair (Columbian Exposition). It was Aaron Nussbaum who subsequently brought into the business his brother-in-law, Julius Rosenwald, who became its dominant force.

Recently I decided to assign an 1890's Sears Roebuck catalogue to my students in American History survey courses so they might better understand the sense of the period. To my surprise neither my college library nor the Library of Congress, not even the Smithsonian, possessed these early volumes of authentic Americana. Used book stores referred me to antique dealers—but to no avail. Out of interest and determination, I placed classified advertisements in leading mid-Western newspapers which brought many nostalgic letters—and just one 1897 catalogue. The Sears 1897 catalogue is reprinted now (with its original, and sometimes inconsistent, pagination) because it is an authentic part of American culture, sociology, and history, an invaluable record from which we can gain insight into a by-gone era.

BROWSERS' DELIGHT

S. J. Perelman

The years 1896–1897 produced a number of best-sellers the names of which still create a ripple of recognition, if no particular nostalgia, after three quarters of a century. Frances Hodgson Burnett, Paul Leicester Ford, J. M. Barrie, and several other merchants of glucose rang the bell with such works as *A Lady of Quality, Sentimental Tommy,* and *Margaret Ogilvy*. The portentous semi-religious books of Hall Caine and Harold Frederic—*The Christian* and *The Damnation of Theron Ware*—exalted churchgoers who in the normal course of events regarded novel reading as sinful, a pastime as dubious as Kelly pool or draw poker. The top favorite of 1897, of course, was *Quo Vadis*, by Henryk Sienkewicz, which was destined for a long, vigorous success not only in print but on celluloid. It is noteworthy that of the twenty titles listed in those two years, only one achieved a semblance of immortality, Stephen Crane's *The Red Badge of Courage*—a statistic hardly calculated to inspire youth to undertake the literary life.

Of all these widely-circulated works, however, not one was read with the rapt attention, the consuming interest, paid to a bulky volume issued in Chicago and sent post-free to millions of American homes—the Sears Roebuck catalogue, or, as it was then called, Consumers Guide. The 1897 issue sports an artistic cover depicting a rather overweight divinity—Ceres, the corn and earth goddess, I judged—posed beside a cornucopia from which gush forth a variety of goodies—upright pianos, wardrobes, stoves, *et cetera.* Off in the distance is a rich farmstead, overhead a globe of the world proclaiming "Sears, Roebuck and Co. Cheapest Supply House on Earth. Our Trade Reaches Around the World." Its 770-odd pages list a dizzying variety of merchandise intermingled with sales appeals, testimonial letters, and colorful engravings illustrating the wealth of articles available to the customer. The profusion of goods shown in the index, in which there are over six thousand items, ranges through every conceivable form of artifact, from autoharps to kraut cutters, from dulcimers to teething rings, from foot scrapers to feather boas. One can well imagine some archaeologist of the twenty-fifth century scratching his head (if our posterity will indeed have heads to scratch) over this gigantic kitchen midden, vainly attempting to adumbrate a vanished civilization from its household machinery.

Though never less than awe-inspiring, the Sears catalogue exercised an effect on me not unlike Marcel Proust's madeleine and limeflower tea; whole areas of my remote youth leaped back into focus as I thumbed through its pages. There was, for example, the instrument numbered No. 14954 and known as Brown and Sharp's Latest Pattern Hair Clipper. Now, Brown and Sharp (which, incidentally, should be Sharpe) is a renowned machine tool concern in Providence, Rhode Island. I worked there throughout the summer of 1919 for what is known as a pittance, filing myriads of tiny flanges or grommets or something of the sort that later became part of a mechanism I never saw. The atmosphere and my fellow-employees were Dickensian, of an unparalleled grimness and straight out of the shoe-blacking factory where David Copperfield toiled, and I conceived such a revulsion for that apprenticeship that it haunted my dreams for years. Similarly, No. 15463 in the catalogue, Shepard's Lightning Ice Cream Freezer. No doubt it will excite skepticism if not forthright derision from young folk nowadays, but fifty years ago it was the custom to brew ice cream at home. The ingredients were mingled in a cylinder in the center of a wooden bucket, the rest of which was packed with shaved ice and coarse salt. The youngest member of the family, which happened to be yours truly by a coincidence, was then keelhauled into turning a handle attached to the cylinder until the mixture froze. Apart from the endless dreary labor of grinding, I detested the finished product; I much preferred cheap, store-bought ice cream gaudily colored like the rainbow, even though my parents asserted it was sheer poison. The warning didn't faze me in the least. One lived dangerously in those days.

Leafing through the catalogue at random, the reader gleans not only a fascinating spectrum of life in the closing years of the nineteenth century, but an astonished sense of how inexpensive it was. Take ladies' corsets, for instance (an invitation I'm sure no red-blooded male will decline). No. 24810, a model known as "Exposition", is thus described: "Perfectly shaped and a fine fitting corset, equal to any retailed at 80 cents. Price, $0.40." Could any late Victorian wolf, encircling his inamorata's hourglass waist, ever have dreamed that the treasures in his grasp were packaged in forty cents' worth of whalebone and cambric? If Milady wanted something really *de luxe*, there was No. 24813: "This corset is modeled after the finest French shapes [which, incidentally, Toulouse-Lautrec was busy immortalizing at that very point in history, brother, and hot ziggety] and will fit any lady of average proportions. It is made with soft busts and stayed with unbreakable French wire. $0.75." Unbreakable, obviously, in order to repel the forays of the above-mentioned Victorian wolf. The reader, refreshed by this stroll down Mammary Lane, can now turn to Men's Wear and find a wide selection of toggery designed for individuals of every conceivable category. No. 453, to illustrate, was "our $23.95 Broadcloth Professional Suit. Just the suit for ministers, physicians, and professional men." For flashier types—pinochle players, pool sharks, and hustlers like Get-Rich-Quick Wallingford and Blackie Daw—No. 4442 was certain to set the pulses drumming: "Fur Overcoats. $8.90 buys a regular $15.00 Spotted Dog Overcoat. Made from carefully selected black spotted pelts." Presumably these skins

were tailored from Dalmatians who had outlived their usefulness as coach-dogs and mascots on fire-engines. The text also noted that Yellow Dog Overcoats and Gray Dog Overcoats were purchasable at the same reasonable figure. Today the average person might justifiably blanch at the thought of wearing his Airedale or schnauzer to repel the wintry blast, but people took a much less sentimental view of Fido in the Nineties. He was expected to pull his weight in the boat, as No. 16922 in the catalogue evidences. This was a machine known as Lamb's Adjustable Animal Power, a treadmill operated by the household's dog, goat, or sheep that worked a cream separator, corn sheller, or dairy churn. "If you keep a dog, make him work his passage," the accompanying text growls. And somewhere in the adjoining pages, no doubt, there was a spiked club available to beat the daylights out of man's best friend if he shirked his task.

However remote Sears Roebuck's customers may have been from the main depot in Chicago, their health was safeguarded by a vast array of patent medicines and proprietary articles. Twenty close-knit pages of elixirs, specifics, boluses, capsules, chemicals, tinctures, pills, and granules undertook to combat practically any malaise on earth. A typical sample is No. G-3059—Dr. Chaise's Complexion Wafers. "Highly recommended by the celebrated Madame La Ferris of Paris and many others," the letterpress asserts. "They are unequalled for producing a clear complexion and a plump figure." That Madame La Ferris must have possessed a strikingly voluptuous figure seems implicit, but the nature of the wafers eluded me until I stumbled on No. G-3030½, which specified, "Arsenic Complexion Wafers. Can be taken with impunity, according to directions. For a clear complexion and plump figure have no equals." It is interesting to speculate how many arsenic wafers were slipped into hubby's coffee on those lonely farms, with nobody around but the dog endlessly operating the treadmill, and the hired man, who might be expected to appreciate the virtues of a plump figure. Another entry in the pharmacopeia exceptional for its downright honesty is No. G-4200, a remedy for excess poundage: "Obesity Powders. These powders are recommended for and are very successful in reducing the flesh of corpulent people. Follow the directions and do not look for immediate results." Far and away the prize nostrum of all, however, and the answer to a universal problem is No. G-4261, Sear's Sure Cure to Stop Drinking, characterized in these eloquent words: "Guaranteed to cure the habit of drinking ardent spirits, or money refunded. It is the greatest temperance worker the world has ever known. It creates a desire for food instead of drink; it supplies and satisfies the desire instantly for liquor; without so doing no man could be cured. It is not intoxicating, but stimulates the entire system to healthy action without after-prostration. It quiets the nervous excitement, vertigo, muscular trembling, etc., improves the appetite and digestion, regulates the bowels, repairs waste and makes him feel like a man again; it acts promptly, and the man who takes it when the desire comes on will find he has conquered the terrible craving. Special prices to temperance societies." Perplexed that medical science has still to adopt this panacea, I forthwith rang up my doctor and read him the entire panegyric. His only answer was a savage bark of laughter, which confused me more than ever.

The next day, however, his nurse confided to me that old Doc Savage had been on a three-day drunk. There may be something to G-4261 after all.

While the purpose of most of Sears and Roebuck's merchandise in this particular epoch is abundantly clear, there are nevertheless a few items that plunge one into a brown study. What, for example, are we to make of No. 63632: "Universal Wolf Tooth Forceps for extracting wolf teeth. Length 9 inches, weight ¾ pound; nickel plated. Price $3."? Granted our forebears were hardy folk and made of sterner stuff than today's milksops, it seems curious that they should have practiced orthodontia on wolves. And even assuming they did, what added value should there be in a toothless wolf? Perhaps the extraction was an initial step in converting him into a fur coat like No. 4442, the Spotted Dog. On the other hand, the legend of Count Dracula was fresh in people's minds in that era, and eradicating wolf molars may have been visualized as helping to stamp out vampirism. Equally mystifying in the catalogue was No. 3908, an article classified as "Ladies' Fine Felt Nullifier, Fur Trimmer". I supposed at first that this must be some sort of weapon like a persuader or blackjack, an instrument for ridding oneself of unwelcome suitors—a fur-trimmed billy, that is, or a spray-gun equipped with sneeze powder—, but then it developed that there was a Men's Nullifier as well. Eventually, a description did emerge reluctantly, *viz.*: "The Nullifier is fast becoming the most popular slipper on the market, and it deserves to be. Made from a very fine selection of tan or russet goat, etc., etc." Palpably my original suspicion had been correct; it was a boot designed to administer a kick in the *Sitzfleisch* to anyone whose society had become repellent.

Almost as perplexing an item of merchandise was the false beard, two types of which were offered—No. 24791 on wire at $1.00 and No. 24792 at $2.00, the latter described as "ventilated". It does not require the mentality of a Sherlock Holmes to reason that an individual affecting a false beard is up to no good, and whether the beard is ventilated or not couldn't matter a tinker's dam. The section on wigs attached to the foregoing, by the by, is worth passing mention. "To measure for a toupee," it states, "cut a piece of paper the exact size and shape of the bald spot." Anybody agile enough to measure his own bald spot, even with a series of reflecting mirrors, would qualify as a circus acrobat, and as for asking wife, concubine, or secretary to assist him in the task, the thought is too humiliating to entertain. To further bewilder students of the catalogue, finally, there is a version of that popular Victorian pastime, the stereopticon, that furnished 100 rather unsettling colored slides. The following were fairly representative: "Dentist drawing teeth; bull tossing dog; woman beating boy; parson carrying pig; Vesuvius in eruption; man swallowing rats; treading in father's shoes." A tasty collation indeed for the family to feast their eyes on as they sat around the parlor of a winter evening. Television with its noisy mayhem was still half a century away, but I doubt whether it has yet produced anything quite as toothsome.

The majority of the books advertised by Sears, speaking of matters cultural, were

in contrast highly moral and inspirational in that vanished period—the novels of Augusta J. Evans, Marie Corelli, Mrs. Humphrey Ward, *et al.* As might be expected, Horatio Alger, the foremost apostle of the American success myth, was represented with a good-sized sprinkling of titles, including these favorites: *"Dan the Newsboy, Frank Fowler the Cash Boy, Tom the Bootblack, Tony the Hero, Joe's Luck, The Train Boy,* and *Tom Temple's Career."* All of these homilies, which, parenthetically, I read from cover to cover in my own youth, stressed virtues like honesty, manliness, and frugality; so it is refreshing to turn from so much sugary sentiment to the boys' clothing section of the catalogue and discover that youthful egotism was kept firmly under control. "Special prices on knee pants for boys from 4 to 14 years of age," declared a streamer. "A glance at our price and you will wonder how it is possible to furnish a pair of boy's knee pants at the price we offer them (15¢, 25¢, 38¢); but in our tailoring department we have many remnants which can be used only to advantage in boy's pants." It must have been a salutary experience for some bumptious little weasel, brimful of Alger's cant, suddenly to comprehend from the foregoing that his breeches were no more than scraps.

Again and again throughout these 700 diverse pages, the reader is exhorted, besought, entreated, and begged to take advantage of the multitudinous bargains clogging the warehouses in Chicago, and the prose these appeals are couched in provides an interesting contrast with today's merchandising methods. There is, for example, the sexy approach, typified by this appeal lurking in the ladies' millinery section: "We are naming such prices as will bring out many a dollar that has been hidden away in a stocking." Then there is the fiscal ploy, inspired, no doubt, by the then current activities of William Jennings Bryan: "You can talk about free silver and free gold. Wherever high prices prevail there is little freedom of any kind of money. It's such prices as are named in this book that loosens the money market." Emotion, obviously, had got the better of the copywriter's syntax in his closing sentence, but I question whether the catalogue was beamed primarily at grammarians. Still another type of bait is the philanthropic, in which Sears and Roebuck portrayed themselves as public benefactors clothed in white samite: "It is safe to say that we are doing more for the farmer and the laborer than all the political demagogues in the country. The economy of any man's life resolves itself into a judicious expenditure of what money he has, whether the amount is large or small. Our factory-to-consumer system brings about a revolution in profits, and is in reality a profit-sharing enterprise, as the consumer benefits by the middleman's profits which are cut off by our methods of merchandising." This sanctimonious pose gives way later to one in which the firm adopts the role of a publishing titan like Pulitzer or Hearst: "Once in a while you will get circulars from us. These circulars are worth as much to you as most of the newspapers you get. They contain News that touches your pocketbook. They tell of War on prices. They tell of Killing Competition. They tell of the Science of systematic merchandising. They tell of High Art in wearing apparel. If you want news of War, Sensation, Science, and Art, read our circulars." Perhaps the most succinct policy statement of all is that contained in the

footwear division, which states flatly, "Our boot and shoe department is admirable. If we can't suit you in quality and price, there is no use looking further." In other words, go barefoot and be damned, runs the assumption, because nobody could satisfy a *nudnick* like you. It is a breath of sheer ozone, the storekeeper's basic malevolence toward the customer boiling up to the surface, and one too rarely met with in today's marketplace.

"Backward o backward, turn time in thy flight," the poet implores, and it is a privilege of sorts to reverse the clock threescore years and ten and see how Grandpa's generation lived. The automobile, the supermart, and the TV commercial, all of which were to revolutionize our existence for better or worse, lay far in the future; here, in the Sears catalogue, was a fairyland for kiddies from nine to ninety, a garden of wonders appealing to every taste. How universal it was may be summed up in a final testimonial letter embalmed in the text from a Mr. M. C. Kessler of Frametown, West Virginia, who wrote this touching tribute: "Sirs: Your shipment of the revolvers was received some time ago, but I have been very busy and did not write. They have proven very satisfactory, and if I ever want anything of the kind again, you will get my orders." Exactly on whom the writer used his purchase, what dramatic occurrence underlies his words, we shall never know, but it hardly matters. At the moment he wrote, he was a satisfied customer and a happy man, and whether in 1897 or 1968, that's rare enough.

A MIRRORED IMAGE

Richard Rovere

By 1897, we were well on the way to becoming the people we are today. The post-Reconstruction depression had come to an end, and the nation set out on a long period of accelerating industrialization and unprecedented affluence. With the inauguration of William McKinley, who favored and accomplished the annexation of Hawaii during his tenure, we became a Pacific power and something more than a continental empire. We were on the brink of war with Spain. Urbanization was the trend; roughly 40% of our people already lived in the cities. Greater New York received its charter in 1897, and work on the Boston subway began that year. There was insurrection and violence; seventy-five thousand mine workers struck for twelve weeks and won an eight-hour day; twenty of them were killed in one skirmish with militia in Pennsylvania. Politics and education became entangled. The entire faculty of the Kansas Agricultural School was cashiered for its lack of enthusiasm for Populist doctrines. What is today the Parent-Teachers Association was founded in 1897 as the National Congress of Mothers. Democracy and mass education were producing a mass society and a mass culture. In 1897, the first modern newspaper chain—the one now known as Scripps-Howard—was established by E. W. Scripps, and comic strips began with the Katzenjammer Kids.

And materialism had won the struggle for our souls—or so at least it was, and is, said, though for my own part, even after exposure to this brazen and insistent appeal to the lust for possession and accumulation, I resist the argument that we are uniquely or, as compared to the rest of mankind, excessively materialistic people. I tend rather to think that the wealth of our land and our easy success with fabrication and with the techniques of mass production has made us slightly more indifferent to mere commodities—somewhat more casual and therefore at once somewhat more wasteful and charitable—than most of our fellow men. But this is a line of argument that had best be pursued elsewhere. One can find evidence of our present vices and our present virtues in this splendid volume, but the evidence that interests me the most relates to values and developments that, in my judgement at any rate, are not to be assessed in moral terms. This catalogue is at once a product and a display of our culture, especially our mass culture in the late nineteenth and early twentieth century. The Katzenjammer Kids was an immense and

immediate success, but historians of the epoch claim to have established with certainty that the reading matter most in demand among wounded doughboys on the Western Front in 1917 and 1918 were the then current versions of the volume now in your hands.

It is a product of the culture in the sense that what had gone before made it possible and, I think I would contend, inevitable. We were already such masters of mass production that, as Thorstein Veblen was pointing out, we were creating a new demand for products that showed the mark of the individual artisan's hand even when that mark was a flaw deliberately made to establish authenticity. This sort of thing was what Veblen meant by conspicuous consumption—he cited the leisure class' demand for books issued by the Kelmscott Press, which boasted of uniformly obsolete spelling and of bindings secured with leather thongs. Unless you take the strictest of utilitarian stands and insist that all functionless adornment is wasteful and vain, you will find no appeal to conspicuous consumption here. What you will find is something quite different—an incessant incitement of the urge for what sociologists call "upward mobility". But it is this very phenomenon—call it economic democracy if you choose to, as I do—that makes for mass production and a mass market.

And consider it, too, against the background of a speedily developing system of communications and education. Roads and railroads and reasonably efficient postal services were prerequisites for the flowering of this particular business activity. Rural Free Delivery was established in 1896. There was as yet no parcel post and freight rates were high—exorbitant in the minds of all but railroad shareholders—but it became possible for a firm like Sears Roebuck to compete with retailers all over the country. In a society that had not reached the point ours had in 1897, such competition would have been altogether out of the question. Putting aside all the natural and social advantages the retailer had—propinquity, the immediate tangibility of the goods he had, the pleasures of passing the time of day in a real store—the odds would still seem against the faraway mail-order firm, even though it proclaimed itself "The Cheapest Supply House on Earth". But in fact the odds favored it. We were approaching universal literacy. Most people could read and write. By looking at pictures and reading specifications, they could determine, assuming that things were as represented, whether a stove or a wagon or a suit of clothes met their requirements. They could conduct subsequent negotiations on paper. They were sufficiently sophisticated in financial and economic matters to see what advantages could be theirs by bypassing as many middle-men as possible and by dealing with companies whose turnover was large. (Practically every page of this work offers instruction, some of it shamelessly misleading, on the workings of the system.) All this may seem too self-evident to be noted, but it will not seem so to anyone who has spent much time in underdeveloped countries. For better or worse, the Sears Roebuck catalogue of 1897 is a document of a highly developed society.

It was a society in which the social contract was effectively in force. One had to take it on faith that Sears Roebuck & Co. was more than a fiction. The pictures of the warehouses, the plausible addresses in large print and the testimonials of the bankers helped, but they did not establish the materiality, to say nothing of the reliability, of the merchants. Plainly, there were doubters. In 1900, in a period of remarkable growth and solvency, the firm lured customers by offering credit, and the customer was billed following receipt of goods. "Send No Money" was the slogan on every document Sears & Roebuck released. This, of course, eliminated the question of faith—save on the company's part. And on the company's part, as it turned out, the faith was almost disastrously misplaced. Two years later, the rule became: "Our only terms are cash with order". This way always worked, before and after the "Send No Money" phase. Later there would be a new economic breakthrough, a system in which the retailer would make his largest gains through the extension of credit. But that would not come until the frontier country was no more and the economy as a whole had reached a high level of integration. Sears did not discontinue the sale of covered wagons until 1924.

The company was four years old when this catalogue was issued and not yet a giant corporation. Julius Rosenwald, who is generally regarded as the titan of the enterprise, had joined it only a few months earlier. If we are to take the word of scholars in the recondite field of mail-order retailing history, this catalogue, like all others of the period, is entirely the work of Richard Sears, a former railroad station agent and watch salesman. Alvah Roebuck, his partner, had been recruited as a watch repairer. I find it hard to believe that a man running a business of even modest size would have been capable of such prodigious labor, but even if he were responsible for the conception rather than the whole execution there would be no denying that he was a huckster of genius. It has taken the makers of television commercials two decades to realize that they must entertain as well as hector. Sears seems to have known from the start that he must appeal to more than the pocketbook. His adversary was the storekeeper who, in addition to exchanging goods for money, was an impressario and the manager of a cultural center. The American customer is and always has been a social and political animal, a connoisseur of opinions, a performer eager to test his skills as a controversialist and raconteur against those of his peers. He could not be expected to accept intellectual impoverishment merely for the sake of marginal savings. So Sears took care to provide him not only with a price list but with food for thought, with the stuff of dreams, with reading matter. And this last in enormous quantity. On first looking into this volume, it struck me that whoever was responsible for it must have had a positive abomination for white space, a compulsion to let slip no opportunity for the application of ink to paper. I speculated that this might be the Protestant ethic—waste is sinful—in operation. That may have had something to do with it (despite the fact that there is much in his work that seems offensive to the Protestant ethic), but I am more inclined to the view that he saw a relation between profits and the amount of sheer diversion he could provide. He was appealing to people who endured much solitude through the long nights and winters of what, despite the steady move to

the cities, was still a predominantly rural America. The more time they spent with his Consumers Guide, the less they would be drawn toward the fleshpots of the conventional retailers. And Sears' bank accounts in Chicago would grow at an increasing tempo if his pages were laced with harsh impeachments of the local over-the-counter tradesmen.

If I am right in thinking that Sears was bidding mainly for attention—and as much of it as he could get—it is interesting that for the most part he did so with a basically utilitarian appeal. To be sure, there was the ranting against the local competition and the patent extravagance of many of his claims, but in describing most of his wares, he was less a poet than a statistician. Aesthetics obviously played a large and, as often as not, deplorable part in the design of products, but advertising had evidently developed no aesthetic of its own. In the main, the object of the copy was to engage the mind, not the mind's eye or the imagination. The company was not above occasional exaggerations (describing a bedroom suite that seemed just the thing for an upwardly-mobile couple but in actuality was, as the purchaser learned upon receiving it in an astonishingly compact crate, doll-house furniture), but there was not much to compare in deceptive irrelevance with the singing assertion that "You can take Salem (cigarettes) out of the country, but you can't take the country out of Salem". In the case of most things that really mattered—stoves, tools, boots, and so on—Sears stuck pretty much to the facts: materials, dimensions, capabilities. Sears wanted his share of the sucker trade (a fiddle called "our Stradivarius Model" for $1.95), but he seems to have had a decent respect for the majority of his potential customers.

We live in the age of sociology, and it is difficult for some of us, given a mountain of data such as this, to abstain from solemn generalization about mores and institutions and the relatedness of things. In what I have already said, I have perhaps sinned in this regard. The temptations are numerous; given what one knows of the present, there are what appear to be omens on every page after page. Isn't the *fin de siecle* psyche calling to our own when it asks, "Are you tired of drugs? Are you sick, weak, and discouraged?" (The reader might well have been tired and made sick, weak and discouraged by drugs he had purchased from Sears Roebuck, which listed for sale all manner of presently prescribed narcotics in its 1896 catalogue, though it is doubtful if he could have got much relief from the "Heidelberg Alternating Current Belt", which was being offered as a help in kicking the habit and shucking the blues.) Today's humor is often black—or sick. Does this mean that the same was true seventy years ago when Sears offered a lantern slide sequence described as follows: *"Rat Catcher,* man sleeping, awakes and swallows one rat after another in quick succession." (Very laughable?) One could go on, but to what good purpose, apart from the pleasures of such speculation, I do not know. Manifestly, our epoch was in its infancy in 1896 and 1897. Sharp eyes and minds will find all manner of signs as they consider the artifacts represented here in pictures and words. That is largely the point of the exercise. But we are all more than products of a particular society and a particular epoch. It is not because we are

twentieth century Americans that we find something familiar in the question "Are you sick, weak, and discouraged?" This would be a relevant question for any people at any time in human history. And black humor we have always had with us. What is mirrored here is human as well as American.

WITH OVER 500 PEOPLE
DEVOTED EXCLUSIVELY TO OUT OF TOWN MAIL ORDER TRADE.

TO OUR FRIENDS AND PATRONS

CATALOGUE NO. 104.

IN ORDERING BE SURE TO GIVE CATALOGUE NUMBER.

Through the agency of Uncle Sam's Mail we again greet you with the latest edition of our Catalogue, THE CONSUMERS' GUIDE No. 104, and we wish to thank our many friends and patrons for the very liberal patronage accorded us during the past season. YOUR PATRONAGE HAS BEEN SO VERY LIBERAL that our business has grown beyond our most sanguine expectations; in fact, we honestly believe the remarkable growth of our business is without a parallel in the history of mercantile concerns.

WE CAN ASSURE YOU THAT YOUR TRADE HAS BEEN GREATLY APPRECIATED, and at no time have we been blind to the great responsibility taken in the endeavor to fill promptly the thousands of orders and answer the thousands of inquiries that reach us daily.

WE HAVE SPARED NEITHER TIME NOR MONEY to care for our customers' every want. It has been our constant aim to so please every customer that he would become our friend, and as a friend would use his kind influence among his friends and neighbors in our behalf.

THE VERY REMARKABLE GROWTH OF OUR BUSINESS IS THE MOST SATISFACTORY PROOF to us that we have succeeded; and yet at times the volume of business offered us by our country friends has been almost beyond our maximum capacity. But experience has taught us that it is safe to anticipate the wants of our customers. Experience has taught us that the people throughout the length and breadth of the land are anxious to give their material support to a house WHERE THEY CAN BUY THEIR GOODS AT WHOLESALE PRICES, where they can send their orders and their money with the positive assurance that they will be treated in exactly the same way as we would like to be treated were we in their place.

THE THOUSANDS OF UNSOLICITED TESTIMONIALS which reach us from prominent people in every state and territory, THE FLATTERING NOTICES WHICH APPEAR IN THE PRESS, the very apparent increase in the number of orders we receive each succeeding month, demonstrate to us beyond any question of doubt that WE HAVE THE CONFIDENCE OF OUR CUSTOMERS, that they are in favor of this method of merchandising, that they are using their influence everywhere in our behalf, and in consequence of this assurance we are making very extensive preparations for the future, and, though pointing to the past with no little pride, for the future we can safely assure you even better values, prompter shipments, and we believe such treatment in general as can be secured from no other concern.

OUR FACILITIES FOR HANDLING MERCHANDISE on a very large scale, and yet on a most economical basis, are unexcelled.

WE OCCUPY ONE OF THE LARGEST BUSINESS BLOCKS FOR BLOCKS AROUND. The above illustration engraved from a photograph will give you a very good idea of the appearance of the building. It was built expressly for us, and to facilitate the accurate, rapid and economical handling of merchandise. The building extends one whole block long on Desplaines St, reaching from Fulton to Wayman, and about half a block on Fulton St. It has six full stories and basement, and we occupy it entire. We also utilize other space in other buildings for storage.

IN THIS BUILDING WE EMPLOY BETWEEN 600 AND 700 PEOPLE, whose entire time is devoted to the wants and needs of our country customers who send their orders to us by mail, and receive in return the merchandise by freight, express or mail; in other words, OUR BUSINESS IS DEVOTED EXCLUSIVELY TO THE OUT-OF-TOWN MAIL ORDER TRADE.

Consumers Guide

NUMBER 104

SEARS, ROEBUCK AND CO. INCORPORATED

CHEAPEST SUPPLY HOUSE ON EARTH

OUR TRADE REACHES AROUND THE WORLD

THE POLICY OF OUR HOUSE

It is the Policy of Our House to Supply the Consumer Everything on which we can save him money, goods that can be delivered at your door anywhere in the United States for less than they can be procured from your local dealer; and although our line covers about everything the consumer uses, there is scarcely an article but what will admit of a saving of at least 15%, and from that to 75%, to say nothing of the fact that our goods are as a rule of a higher grade than those carried by the average retailer or catalogue house, and we earnestly believe a careful comparison will convince you that we can furnish you more and better goods for your dollar than you can obtain from any other establishment in the United States.

We Aim to Illustrate Honestly and Correctly Every Article, So far as possible, illustrations are engraved from photographs taken directly from the article. Our illustrations and descriptions are such as will enable you to order intelligently; in fact, so that you can tell what you are getting as well as if you were in our store selecting the goods from stock.

We Employ No Agents, By the aid of our numerous catalogues our customers can deal with us direct. Thus the **Farmer, Miner, Mechanic, Business Man,** in fact anyone, can send in his or her own order and save money.

Our Terms are Alike to All.

Our Employees are Instructed to Treat Every Customer at a Distance Exactly as They Would Like to be Treated were they in the customer's place; in fact, if you favor us with your patronage we will feel under obligations to do everything in our power to merit your trade, and no matter how small your order may be it will receive the same prompt and careful attention as if it were ever so large.

We Aim to Treat Our Customers in a manner calculated to secure their permanent patronage. **The unprecedented growth of our business proves** that we have succeeded in supplying the wants of the people in a satisfactory manner and at lower prices than they could possibly secure elsewhere.

We Deem that the Best Advertisement Any Firm Can Have is a well satisfied customer. **We aim to bring the manufacturer and consumer closer together.** The closer the relation between the manufacturer and consumer, the more economy to all concerned, and in a great measure it does away with the long chain of profits in the handling of merchandise.

We are Able by Reason of Our Enormous Output of Goods to make contracts with representative manufacturers and importers for such large quantities of merchandise that we can secure the lowest possible prices. To this we add the smallest percentage of profit possible, and through the medium of catalogues offer the goods to our customers, and on our economic one-small-profit plan, direct from manufacturer to consumer, a large percentage of the merchandise we handle is owned by the purchaser at less than local dealers can buy in quantities.

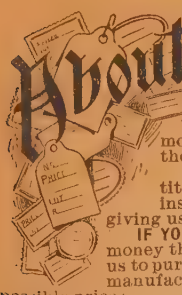
A Trial Order Will Convince You of the Saving worked by our economic one-small-profit plan. If you contemplate purchasing any article of merchandise, we would consider it a privilege to quote you our lowest price, irrespective of whether you buy from us or not. **It will be a safeguard against your paying someone else too much money.** It will also open up a correspondence between us, and may eventually lead to our selling you some article of merchandise by which we may be able to demonstrate the saving of our method.

WHERE WE SELL GOODS

Our Catalogues and Other Printed Matter may Fall into the Hands of those Living at Remote Distances who will not think of buying owing to the great distance. **Don't think you live too far away. THERE IS NOT A TOWN IN THE UNITED STATES WHERE WE HAVE NOT SOLD GOODS. Our goods go into every city, town and hamlet in every state,** as well as to **almost every country** on the globe. **DISTANCE CUTS NO FIGURE.** We can serve you at any time and in any place. Our largest trade is in Pennsylvania, next in New York, third Illinois, fourth Ohio, and so on according to the population of the different states.

Freight and Express Rates are Usually Low and we have special facilities for shipping, carefully consulting the various classifications so as to pack your goods in such a manner as will entitle them to the lowest possible transportation charges.

Get Other Information Concerning Express and Freight Rates on the following pages, and you will see that the transportation amounts to next to nothing as compared with what you save in price.



Consider You Pay Freight or Express no matter Where You Live or Where You Buy, You may as well pay it to the railroad company and be dealing direct with first hands, as to pay it in the way of an exorbitant price to local dealers.

ABOUT UNPROFITABLE SHIPMENTS.

We Not Infrequently Receive Orders which we Term "Unprofitable" Shipments, For example: A party living far distant may order a dollar's worth of sugar to go by express. The express charges would equal the cost of the sugar. We occasionally get an order for heavy hardware, the order amounting to perhaps less than $5.00. The goods weigh 100 pounds. We are asked to ship them by express. This is usually an unprofitable shipment. A single pair of heavy cheap boots to go a great distance by express, or of very bulky woodenware, or furniture, or other merchandise, might be what we term an unprofitable shipment.

We Would Advise Our Customers to Study the Freight and Express Rates as given on the following pages, for we do not wish you to send us a dollar for anything unless we can save you money on the purchase.

Orders that Would Be Unprofitable to Ship by Mail or Express May Be Very Profitable When Sent by Freight, but as 100 pounds is usually carried by freight for the same charge as 10 pounds, by adding other merchandise to your order, either for yourself or by getting your neighbors to join you in making up a large order, **it will make the shipment very profitable.**

About our Prices

It will ever be our aim to maintain the reputation we have earned as **THE CHEAPEST SUPPLY HOUSE ON EARTH.**

WE EMPLOY THE MOST COMPETENT BUYERS that money can obtain, and their long experience with us places them in a position to understand our customers' wants.

WE PAY CASH for all goods, no matter how large the quantity, and our established reputation gives our buyers the inside track with every manufacturer in the country, thereby giving us the benefit of first choice on the market.

IF YOU BUY FROM US you will get your goods for as little or less money than your local dealer does. As our immense trade requires us to purchase in such large quantities from American and European manufacturers, and always for cash, we are assured of the lowest possible prices.

THEN WE SELL FOR CASH, having no bad debts, no traveling men's expenses, no expenses for collections, hence we can sell at a far lower margin of profit than any other dealer, and when you buy from us you are not helping to pay for all such useless expenses,

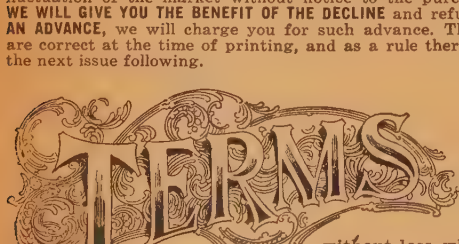
OUR BUYERS ARE ALWAYS ON THE ALERT FOR SPECIAL SALES. If there is a manufacturer or importer who is temporarily embarrassed and must have money, we are ready to buy, and our customers always get the benefit of our bargains.

FROM TIME TO TIME YOU WILL BE OFFERED MERCHANDISE, even many of the articles quoted in this catalogue, at less money than the actual cost to produce. **Our bargains are our customers' bargains. No matter how cheap we buy,** we add the smallest percentage of profit possible consistent with honest goods and honest representations, and that is our net price to one and all, the price against which **no other concern can compete; prices that establish us as the CHEAPEST SUPPLY HOUSE ON EARTH.**

About our Reliability

As this Catalogue may fall into the Hands of some who are not Acquainted **WITH OUR REPUTATION FOR FAIR AND HONORABLE DEALING** and do not know of our financial standing, would say we are authorized and incorporated under the laws of the State of Illinois with a cash capital and surplus of $250,000.00, paid in full.

WE REFER BY SPECIAL PERMISSION to the NATIONAL BANK OF THE REPUBLIC, to any Express Company in Chicago, any old reliable business house or financial institution in this city, or, if you have any friends residing in this city, write **them** and ask them concerning our house.



ON ANOTHER PAGE we show a fac simile copy of the letter given us by the **National** Bank of the Republic. Such a letter would not be given to any concern unless **their** reputation was beyond any question of doubt. **Should you write for information** to **any** of the references given, be sure to enclose a two cent stamp for **reply.**

WE GIVE YOU THIS PRIVILEGE: IF YOU HAVE ANY DOUBT as to our reliability you can send **your** order and money to the National Bank of the Republic, or any express **company** in Chicago, with instructions not to turn it over to us unless they know **us to be** thoroughly reliable and a concern that will do exactly as we agree.

RULES, CONDITIONS OF SHIPMENT, TERMS, ETC.

PLEASE READ THE FOLLOWING RULES AND CONDITIONS VERY CAREFULLY: To conduct our business in a gratifying, prosperous and beneficial manner, it is necessary that **we** establish certain rules to govern our movements so as to enable us to handle **all** orders and correspondence in a successful and satisfactory way. To prevent **any** misunderstanding we therefore ask your careful attention to the following rules and **conditions from** which we cannot deviate under any circumstances.

The Prices we Quote for Goods in Our Store. All expense of transportation **of goods** and Money **MUST BE BORNE BY THE PURCHASER.** All quotations are **subject to** fluctuation of the market without notice to the purchaser. **IF THERE IS A DECLINE WE WILL GIVE YOU THE BENEFIT OF THE DECLINE** and refund the **difference. IF THERE IS AN ADVANCE,** we will charge you for such advance. The prices quoted in this book are correct at the time of printing, and as a rule there is very little variation until the next issue following.

TERMS

We Desire to Make Our Terms of Shipment as Liberal as Possible, consistent with absolute safety and without loss, which would otherwise add to our selling price.

ALL GOODS EXCEPT CUT PIECE OR DRESS GOODS will be shipped by **FREIGHT** or **EXPRESS C. O. D. subject to examination where a sufficient amount accompanies the order to cover transportation charges both ways,** in case goods are not accepted, and unless otherwise specified one-fourth the amount of bill should accompany the order, the balance to be paid after goods have been received.

WE POSITIVELY REQUIRE CASH IN ADVANCE for goods and postage when goods are to be sent by mail. Send enough and we will refund the amount overpaid, if any, but do not fail to include enough for postage if to go by mail.

MANY ARTICLES OF MERCANDISE will be shipped by freight or express C. O. D. **subject to examination upon receipt of a very small deposit.** In such cases special terms are plainly stated under the descriptions of the article.

FOR EXAMPLE, watches are sent C. O. D., subject to examination upon receipt of a 50 cent deposit; Clothing on receipt of $1.00; Vehicles on receipt of $5.00 to $10.00, but unless otherwise specified one-fourth the amount of bill should accompany the order.

☞ **No Cash Discount will be allowed on C. O. D. Shipments.**

☞ **See our Special Offer of Discount on Cash Orders, page 3.**

Express Shipments

Goods will be Sent by Express C.O.D. (collect on delivery) and subject to examination, in compliance with our terms as above explained, and may be examined at the express office in the presence of the Express Company's Agent.

PLEASE DO NOT ABUSE THIS PRIVILEGE by occupying the agent's time, but endeavor to cause him as little trouble as possible.

WE ARE WILLING to have our customers examine the goods and be satisfied they are the same as ordered before paying for them, but that privilege is gratuitous on the part of the express company and should be appreciated.

WE USE BOXES or cases for express shipments only when necessary to insure safe transportation, but make no charge for such.

WE PACK ALL EXPRESS SHIPMENTS so as to make the lightest package possible, thus reducing the express charges to the minimum.

THERE IS NO NECESSITY OF PREPAYING CHARGES unless you are sending goods to a friend inasmuch as the charges are the same at either end of the line.

ON ANOTHER PAGE WE SHOW EXPRESS RATES on packages of different weights to different points of the United States, from which you can approximate the express rates to your place.

Freight Shipments

We will Forward Goods by Freight to Anyone who sends the money with the order.

WE WILL ALSO SHIP THE GOODS by freight in our name and collect through your express agent or nearest bank, if sufficient money is sent with your order to cover freight charges, as before explained. **Freight charges must be prepaid to points where there is no Railroad Station; otherwise it is not necessary** as the rates are the same whether prepaid or collected at destination..

REMEMBER OUR LIABILITY ceases as soon as we receive a clear receipt from the transportation company. We will make claim on the transportation company for loss or damage to goods in transit for your account if so desired, and we will cheerfully render you all assistance in our power to make prompt collection.

TO ASCERTAIN THE FREIGHT RATE on any goods wanted consult your local freight agent or compute the freight rates by the cwt. on the different classes of merchandise to the town nearest you as shown on the following pages, from which you can approximate the rate to your town; or, **when so desired, we will quote you the freight rate.**

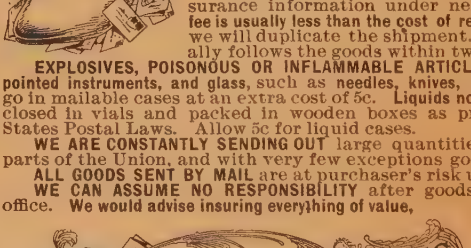
WE MAKE NO CHARGES for Boxes or Cases, but pack and deliver all goods on board the cars in Chicago, except Vehicles, which are quoted F. O. B. factory.

Mail Shipments

Postage on Goods by Mail is One Cent per Ounce or fraction thereof being 16c per pound.

NO ONE PACKAGE must exceed 4 pounds, but any number of packages may be sent to the same address weighing 4 pounds or less each.

PACKAGES CAN BE SENT by registered mail for 8c per package extra.



WE WOULD ADVISE insuring all mail shipments. (See insurance information under next heading.) **The insurance fee is usually less than the cost of registering** and in case of loss we will duplicate the shipment. The invoice or bill generally follows the goods within two days.

EXPLOSIVES, POISONOUS OR INFLAMMABLE ARTICLES are unmailable. **Sharp pointed instruments, and glass,** such as **needles, knives, pens, lantern slides, etc.,** can go in mailable cases at an extra cost of 5c. **Liquids not more than 4 oz.** may be enclosed in vials and packed in wooden boxes as provided for by the United States Postal Laws. Allow 5c for liquid cases.

WE ARE CONSTANTLY SENDING OUT large quantities of goods by mail to all parts of the Union, and with very few exceptions goods reach their destination.

ALL GOODS SENT BY MAIL are at purchaser's risk unless insured.

WE CAN ASSUME NO RESPONSIBILITY after goods are deposited in the post-office. **We would advise insuring everything of value,**

Insure Mail Shipments

We have Perfeced a Plan of Postal **Insurance** and will, until **further** notice, **insure** small packages when so **instructed** for 5¢ for each package, $5.00 or under in value; 10¢ for packages valued at from $5.00 to $10.00, and 5¢ for each additional $5.00 in value.

IF YOU WANT YOUR PACKAGES INSURED be sure to write "**insure**" in your order and inclose the insurance fee. ☞ **Prompt notification of the failure to receive packages** is necessary to secure adjustments.

When it is necessary to write us Regarding any Shipment or any portion of an Order.

AS SOON AS WE RECEIVE YOUR ORDER we notify you by postal card, giving the **invoice number** of the order.

FAILURE TO RCEIVE SUCH NOTICE indicates that your order has not reached us.

ALL CLAIMS for shortage, damage, etc., must be made within 5 days from receipt of invoice.

How to Order

Fill out Closely all the Blank Spaces in Our Order Sheet

as shown in filled out sample order blank on page 9. and if you do not have an order sheet **CLOSELY FOLLOW THESE INSTRUCTIONS:**

WRITE YOUR NAME CLEARLY AND DISTINCTLY. Many people forget to sign their name. In such case order has to be held till customer complains.

Give your **POSTOFFICE, NAME, also street address, shipping point,** and then say what **county and state. SAY FROM WHAT CATALOGUE ORDERED,** and always give the catalogue number and price of each article wanted, being particular to mention the size, color and other necessary references. Give other necessary descriptions.

STATE PLAINLY HOW MUCH MONEY INCLOSED and, after noting our rules for shipments, say how you wish your goods forwarded, whether by mail, express or freight.

IF YOU DESIRE ANY INFORMATION, or wish to refer to any other matters, **DO NOT WRITE ABOUT THEM ON YOUR ORDER,** but communicate with us in a separate letter, as our correspondence and orders are handled in separate and distinct departments.

PLEASE DO NOT FAIL TO ADHERE TO THIS RULE:
WRITE YOUR ORDER ONLY ON ONE SHEET and any letter or remarks on a separate sheet.

IT IS BEST to make **express orders exceed $5.00** in value and **freight orders exceed 100 pounds** in weight.

WE DESIRE THAT OUR GOODS shall cost you less under all circumstances than you can possibly obtain them elsewhere.

WE ADVISE SENDING CLUB ORDERS so as to make a freight order of 100 pounds or more to get lowest transporation rate **and best cash discount.**

See Cash Discounts on this page. All about Club Orders Page 4.

How to Send Money

Remit by Postoffice Money Order, Express Money Order, Bank Draft or in Cash.

IF YOU SEND YOUR INDIVIDUAL CHECK on a local bank your order will be delayed until we make collection, and the expense of collection will be deducted.

POSTAGE STAMPS will be accepted in any amount as an accommodation to our customers.

WE RECOMMEND THE EXPRESS MONEY ORDER system because it is inexpensive, of less trouble and is safe; besides this, if it should get lost or miscarried your loss will be made good. **Do not, under any circumstances, send money or stamps in a letter by open mail,** as many such letters never reach us, and in such a case a great amount of trouble and inconvenience is caused, as well as the loss you sustain. **If you prefer to remit by registered mail** we advise the use of **two envelopes, one inside of the other,** and the outer one carefully and securely sealed. **Do not send Gold or Silver coin that is defaced,** as light weight coins are worth no more than bullion, and that is less than the face value of the coin.

WHEN WRITING TO US FOR PRICES, or when ordering goods not in catalogue, be careful to give full and complete description of the article wanted.

STATE IN WHAT QUANTITIES you wish to purchase and where there is a large range in prices, about what price you wish to pay.

IF POSSIBLE, SEND A PICTURE of the article desired, or make a drawing if it is difficult to describe.

IF YOU STATE FOR WHAT USE THE GOODS ARE INTENDED, we have practical experts in each department who can often suggest something better for less money.

THE FOLLOWING NECESSARY POINTS are often not given, viz.: **Size, quality, finish, weight, color, maker's name, maker's number, material, width, height, length, depth, etc.** We are at all times ready to serve you; but, please remember our clerks are not mind readers.

About Free Samples

For the Convenience of Our Customers

who wish to see samples of cloth before ordering we have prepared special separate sample cards on the following lines: Men's and boys' clothing, ladies' cloaks and capes, ladies' and men's mackintoshes, ladies' tailor made dresses, wrappers, waists and skirts.

THE ABOVE NAMED SPECIAL SAMPLE CARDS show the choicest selections from our entire stock; and to insure prompt attention we would recommend that you send for one of these sample cards in preference to selecting any special numbers from the catalogue. These sample cards are arranged to show the lines to better advantage, and besides will prevent unpleasant delays in cases where we might be out of the exact samples you might select from the numbers. However, should you desire to see a cloth sample of any special number in this catalogue, be sure to state the exact number and ask for no other samples except the numbers in which you are interested.

WHEN REQUESTED, we will furnish cloth samples of dry goods, carpets, etc.; but we would consider it a special favor if you would confine your request to the exact numbers and styles interested in. We are anxious that you should have the samples needed to make up your order, but as matter of economy of **TIME** we are compelled to urge our customers to confine themselves strictly to the exact number or kinds and prices of the goods interested in, and not ask for samples which will be of no use to them and considerable expense to us. The **TIME** used in supplying one applicant with samples amounts to very little, but in supplying several thousand daily it is very great; and in order to prevent any delay we trust you will adhere as closely as possible to our rules above in requesting our special sample cards. Furthermore, the cost of material used in supplying several thousand requests for samples daily is considerable, and you will be benefited by preventing the necessity of advancing prices of the goods as the cost of the samples very naturally increases the cost of the goods; at the same time we assure you we will deem it a privilege to supply you with the needed samples, and we thank you in advance for this privilege as well as for your consideration in making the request for samples as inexpensive for us as possible.

How to Return Goods

The United States Postal Laws and Regulations

require that all packages of merchandise sent in the mails must be wrapped or enveloped in such a manner that their contents may be readily examined by the postmaster without destroying the wrapper.

NEVER SEAL PACKAGES RETURNED BY MAIL, but tie them securely with twine.

DO NOT INCLOSE WRITTEN MATTER of any kind in mail packages, as by so doing you are liable to double letter postage or a fine of $10.00, and we in such cases deduct the extra postage from the value of the goods.

WHEN RETURNING A PACKAGE BY MAIL, address it plainly, and in the **upper left hand corner write whom it is from,** providing you do not have one of the labels we furnish for the purpose. **Send us by separate mail** the particulars or instructions.

NEVER RETURN GOODS BY EXPRESS if the weight is more than 25 pounds, as it is cheaper to send heavy packages by freight.

WHEN YOU RETURN GOODS BY EXPRESS OR FREIGHT be sure to inclose in the package your letter of instructions or particulars.

BEFORE RETURNING THE GOODS to us in any manner, we would ask that you **communicate with us** in regard to them.

IN ALL CASES, WHEN NECESSARY TO WRITE to us regarding an order, be sure to **advise us the INVOICE NUMBER** of the order you refer to.

DON'T FORGET the letter of full instructions should be in all express and freight shipments returned.

DON'T FORGET we must always have your **INVOICE ORDER NUMBE**
Never write us about a shipment and omit the number.

Discounts for Cash.

On C. O. D. Orders no Cash Discount will be allowed.

THREE PER CENT. DISCOUNT will be allowed on all orders no matter how small **IF ACCOMPANIED BY CASH IN FULL.**

ON ORDERS AMOUNTING TO $50.00 and up to $100.000, 4% discount provided cash in full accompanies your order.

ON ORDERS AMOUNTING TO OVER $100.00 5% discount provided cash in **full** accompanies your order.

The above cash discounts **DO NOT APPLY TO GROCERIES, BARB WIRE OR NAILS. On orders for Groceries** amounting to $20.00 or over, accompanied by cash in full we allow 2% cash discount, **except on sugar. Sugar, Nails and Barbed Wire** are **NET** in all cases (no discount).

NEARLY ALL OUR CUSTOMERS SEND CASH IN FULL. It's the best way. **You save the cash discount,** save the return charges on money to us, besides we can, as a rule, make prompter shipment of **cash in advance order** than of **C. O. D.** order.

YOU TAKE NO RISK in sending **cash in full** with your order, for we will immediately refund your money if goods are not found exactly as represented.

IF YOU SEND TOO MUCH MONEY we will always refund the balance with the bill. **Please don't** forget this and **always be sure to include enough extra** to cover postage when gooods are to be sent by mail.

We Issue the Following Catalogues

OUR BIG CATALOGUE— "THE CONSUMERS' GUIDE" —is issued in MARCH and SEPTEMBER of EACH year,

and will be **MAILED or sent by EXPRESS** to any address on receipt of 15 cents to **PARTLY PAY postage or express. THE BOOK IS FREE**—the 15 cents you send merely helps to pay transportation.

WE SEND THE FOLLOWING SPECIAL CATALOGUES FREE on application: We name the amount of postage required to mail each book, and while we **will** gladly send them free on application, **WE WOULD DEEM IT A COURTESY** if you would enclose enough to pay postage. The small amount necessary to **cover postage is all you pay.**

postage amounts to but little to the applicant, but when we send out **THOUSANDS DAILY IT MEANS A GREAT DEAL TO US.**

CLUB ORDERS

OUR CLUB ORDER PLAN.

It pays for neighbors to club TOGETHER and send their orders.

IT PAYS YOU to get your neighbors to make up their orders and send with yours.

See How It Pays You Both.

Your order	$10 00		
Neighbor A	35 00	His share of discount	$1 05
Neighbor C	15 00	His share of discount	45
Neighbor D	25 00	His share of discount	75
Neighbor E	30 00	His share of discount	90
Neighbor F	20 00	His share of discount	60
Neighbor G	20 00	His share of discount	60
	$155 00		$ 4 35

YOU GET FIVE PER CENT. DISCOUNT ON $155.00, which is $7.75, and pay $4.35 to your neighbors, leaving you a profit of $3.40 or 34% on your own purchase, or in other words you get for yourself $10.00 worth of goods for $6.60, besides your neighbors save money. They get our **LOWEST PRICES** and the regular discount and **SAVE IN FREIGHT.**

CLUB ORDERS MAKE FREIGHT VERY LOW for we ship all goods together in one or more boxes to the one person. You divide the freight charges among yourselves according to the amount of each one's purchase, and for each one **YOU WILL FIND IT VERY LITTLE.**

IN MAKING A CLUB ORDER have each one ordering make out a separate order, put all the orders together, tell us whom to ship the goods to; we will carefully **PACK EACH ORDER SEPARATELY,** plainly mark each box or package for the party for whom it is intended, box all packages in one or more big boxes, and make **a freight shipment,** thus securing for you the lowest possible freight rate.

LET EACH NEIGHBORHOOD, three, four or five families join together twice a **CLUB,** make up a club order and send to us. **The saving will surprise you.**

ABOUT MISTAKES.

We make mistakes—so do all houses; but when we do make them we are always glad and anxious for an opportunity to rectify the mistake. Notwithstanding we employ every known modern convenience in conducting our business, errors will occasionally creep in, and unless our customers report such errors we have no opportunity of righting the wrong.

WE HAVE LEARNED in several cases where a small error has cost us the loss of a valuable customer, although the error was unavoidable, and we would have gladly corrected it if given opportunity. In this way we are sometimes blamed for things of which we are entirely innocent.

DON'T FAIL TO REPORT any oversight, shortage, inattention or error on our part. **Do it pleasantly, if possible,** if not pleasantly report it anyway, and you will find us quick to right any wrong.

To Avoid Unpleasant Delays, Useless Correspondence, Etc., Please Observe the Following Fixed Rules, Regulations and General Instructions:

TWO TO FIVE FIVE DAYS ARE REQUIRED to fill all orders. Consider the time for your order to reach us, the time for freight or express to reach you, then add two to five days and you will seldom, if ever be disappointed in getting your goods on time; besides freight and express matter is sometimes delayed a few days in transit. **DO NOT GET IMPATIENT—allow a little extra time—and you will seldom, if ever need to write to us concerning a delayed shipment. If necessary to write concerning a delayed shipment** be sure to give your order number as plainly written on postal acknowledgment of your order.

QUESTIONS ARE OFTEN ASKED US which are fully explained in this catalogue. **Kindly look to this catalogue** for desired information, and you may often save yourself and us delay and trouble.

DO NOT ASK FOR QUANTITY PRICE or concessions of any kind. **Our prices are fixed,** and no matter how little or how much you buy the price is the same, **the only allowance being our extra cash discount.**

AFTER WRITING AN ORDER, check it over closely to see you have figured the right prices and discounts; be sure your extensions, additions and subtractions are correct; be sure size, colors, weights or measurements are absolutely correct; be sure you have followed our rules carefully, that the proper amount is inclosed, **including enough to pay postage if to be sent by mail;** be sure your name and address is plainly written in full, that your shipping directions are plainly stated, the exact amount and kind of money inclosed is plainly stated, and you will seldom, if ever, have any delay or inconvenience.

DON'T ASK US TO SHIP ANY GOODS in any way that does not conform fully with our rules, terms and conditions.

SHOULD YOU WRITE FOR ANY SPECIAL CATALOGUE OR SAMPLES and do not receive them in four or five days, it is needless to inquire concerning them. In the rush of business we may for a few days run out of certain catalogues or samples, but they will always be forwarded to you promptly as soon as possible.

CONSIDER. We have several thousand orders and several thousand letters to handle every day, and while we have over 600 people to do this work and will gladly answer communications, the necessity of writing, unnecessary delays, time and labor may be avoided by carefully reading our catalogue and studying our terms and methods of doing business.

OUR AIM IS TO HANDLE YOUR ORDER with the greatest possible dispatch and accuracy, to treat every customer alike and that the very best we know how, and to enable us to accomplish the very best results we desire to obviate unnecessary correspondence and the unnecessary delay arising from same.

YOU ARE INVITED TO COME AND SEE US....

x x x x IF YOU EVER COME TO CHICAGO.

TELL YOUR FRIENDS

COMING TO CHICAGO TO CALL AND SEE US.

MAKE OUR STORE YOUR HEADQUARTERS WHILE IN THE CITY....

We will try and make it pleasant for you. YOU WILL NOT BE ASKED TO BUY, but gentlemanly ushers will show you through our house and we feel sure you will be interested in seeing how a GREAT MAIL ORDER BUSINESS is conducted, how 10,000 to 20,000 letters are disposed of daily, and many thousands of packages dispatched each day.

ANYONE CAN DIRECT YOU TO OUR STORE. Three car lines pass our doors; we are located at the corner of Fulton, Desplaines, and Wayman Streets. OUR BUILDING IS THE LARGEST FOR BLOCKS AROUND. You can't miss it.

.....YOU WILL ALWAYS BE MADE WELCOME HERE.....

ABOUT FREIGHT AND EXPRESS.

YOU MUST PAY THE FREIGHT OR EXPRESS, but it will **AMOUNT TO NEXT TO NOTHING** compared with what you will save in price.

THE FOLLOWING TABLES show just what the freight or express rate is per 100 pounds to different points in the different states and territories.

TAKE THE NEAREST TOWN IN YOUR STATE as given in our table and the freight or express rate to your town will be almost, if not exactly, the same rate, and in this way you can calculate very closely the freight or express charges you will have to pay.

FREIGHT IS THE CHEAPEST WAY TO SHIP, and by freight we recommend shipments of 100 pounds or more to a shipment.

IT ISN'T NECESSARY to write us for freight rates. From the table you can tell almost exactly the cost of freight or express to any point. **Almost all heavy articles,** such as groceries, nails, etc., go at fourth class freight rate. **Light and bulky goods,** such as vehicles, clothing, furniture, dry goods, etc., go at first and second-class freight rate.

APPROXIMATE FREIGHT AND EXPRESS RATES TO CENTRAL POINTS IN EVERY STATE AND TERRITORY.

	1st class freight per 100 lbs.	2d class freight per 100 lbs.	3d class freight per 100 lbs.	4th class freight per 100 lbs.	Express per 100 lbs.

SOME POINTS ABOUT EXPRESS.

All bulky and heavy goods should be shipped by freight. Whenever a shipment weighs less than 30 or 40 pounds it should be shipped by express. In most cases freight shipments weighing less than 100 pounds, **no difference how small or how light,** are charged by the railroad companies at the full 100-pound rate. In some few instances we can secure a minimum charge of less than the 100-pound rate when shipment weighs less than that amount.

☞N. B.—Where shipments are to be sent to points at which there are no agents, freight or express **must be prepaid.** In such orders we request full cash with order, together with sufficient additional to prepay express or freight.

The foregoing table also gives the official rates of express for each 100 pounds. **In most cases** the express on 50 pounds is just half of the 100-pound rate, and weights between 50 and 100 pounds are in the same proportion. Where the shipment is less than 50 pounds the rate is slightly higher in proportion to the weight. We give below, as an example, the graduated scale for various weights, where the rate is $3.00 per 100 pounds.

1 pound	$0 25
2 pounds	30
3 pounds	45
4 pounds	55
5 pounds	65
7 pounds	70
10 pounds	75
15 pounds	85
20 pounds	1 00
25 pounds	1 10
30 pounds	1 25
35 pounds	1 35
40 pounds	1 45
50 pounds	1 50
60 pounds	1 80
70 pounds	2 10
80 pounds	2 40
90 pounds	2 70
100 pounds	3 00

Up to 50 pounds the scale is graduated, and where e weight is more than 50 pounds, pound rate is charged. This rule applies where the rates are $2.00 per 100 pounds or more.

We trust that we have fully explained these matters. We are always willing and ready to answer questions relating to freight and express, but by going into detail we hope we may not only save you the bother of writing us, but may also at the same time enable you to determine just what your goods will cost you delivered in your home. We want you to feel that we will do what we say we will. **When we advertise** a thing, it's so. By our full explanation regarding freight and express, you can figure out for yourself just what you can save by taking advantage of the marvelous offers made in the pages of this catalogue.

We realize that our prices are so small that many doubts might arise in the minds of some, as to whether or not the goods we advertise are first-class, new and up-to-date. To answer all questions with a word, to set all doubts forever at rest, and to satisfy new customers of our good faith, we have arranged with all express and freight companies that many lines of goods may be examined at the depot. We have gone to the extreme of liability in terms, and in a large number of lines allow you the privilege of examining your purchase at your own depot. At the head of each department in this catalogue you will find a clear and liberal statement of the terms on which we ship each particular line of goods.

However, our trade is so established and our name so well known that nine-tenths of our orders contain full cash in advance. In sending full cash with order you not only obviate the inconvenience of **C. O. D.** shipments, but you have the advantage **on most goods,** saving express charges on return of money to us.

EXPRESS OR FREIGHT CHARGES add next to nothing to the cost of goods you order from us as compared with what you will save in price.

ONE ORDER will convince you that it pays to buy everything in merchandise from headquarters.

GROCERY DEPT

BUY YOUR GROCERIES AT WHOLESALE. In no other Line of Merchandise can you save so much money in a year. GROCERIES ARE USED THREE TIMES EVERY DAY in every family. We can not save you very much on one meal, BUT ON 1,095 MEALS, the number you and your family eat every year, WE CAN SURPRISE YOU on the amount of money we can save you. YOUR LOCAL DEALER buys at wholesale and makes money on the groceries he sells you. YOU CAN BUY AT WHOLESALE PRICES and save this profit; and isn't it your duty to buy as cheap as possible? to make your dollar go as far as possible? OUR GROCERY DEPARTMENT IS VERY COMPLETE. We carry a very large and complete stock of all the goods quoted in this Catalogue. OUR GROCERIES ARE IMPORTED DIRECT or bought from the GROWERS or MANUFACTURERS, hence we are able to offer you the same or lower prices than the largest jobbers can give to the largest wholesale dealers. HIGHEST STANDARD OF QUALITY is maintained in this department. Our Grocery Department is in charge of a competent manager who has made this business a life study. IN THE INSPECTION OF GOODS he is assisted by a VERY ABLE CHEMIST, and nothing is allowed to remain in stock or go to our customers which is not up to the highest standard of quality. FROM US YOU CAN BE SURE of getting all strictly fresh, carefully inspected, high standard goods, and BETTER IN QUALITY than the goods carried by the average retail dealer.

FREIGHT RATES ARE LOW ON GROCERIES. Most goods in this line take the lowest freight rate (4th class). (See 4th class freight rate per 100 pounds to different points on preceding page.) **All groceries should be shipped by freight** and in not less than 100 pound lots to secure lowest transportation charges. **Express shipments are seldom profitable** on anything in this line. **If your grocery order doesn't amount to 100 pounds** add the necessary 20, 30 or 40 pounds by making the weight up in **sugar, soap, coffee, syrup, fish** or other heavy goods, **it will pay you.**

OUR CLUB ORDER PLAN works nicely in ordering groceries, **some of your neighbors** would surely like to join with you in ordering, **save the retailer's profit,** make up the 100 pounds or more and secure the lowest transportation charges. **Read all about club offer on page 3.**

Old customers find the grocery department a great advantage **not only for the money they save on the groceries bought,** but in ordering other merchandise they add just enough **needed groceries, often only sugar,** 20, 30, 40 and often 80 or 90 pounds and let the goods come in one 100 pound freight shipment. **IT PAYS. Freight shipments of 100 pounds or over** are the cheapest way to receive goods.

OUR TERMS. We will ship groceries by freight C. O. D., subject to examination, on receipt of a sufficient amount of cash to cover freight charges both ways. **You can examine the goods** at your railroad station and if found perfectly satisfactory and exactly as represented, pay the freight agent **our price and charges** less the **amount sent us with order. WE ALLOW A CASH DISCOUNT** of two per cent., (2%) on all **groceries,** (except sugar, which is always net). **If you send cash in full with your order** you can deduct 2% from our prices on all groceries but sugar. **WE RECOMMEND CASH ORDERS,** you save the cash discount, avoid the expense of collection through **Bank, Express or Railroad Co.,** return of money to us, etc., besides cash orders are not so liable to delays.

TEA DEPARTMENT

ON TEA xxxxxxxxxxxxx

You can save so much money by buying direct that you can't possibly afford to pay retail prices. **Order 10 or 20 pounds**—order enough to last six months. **It will pay you,** and it will pay your neighbors to join in with you. Try to make the entire order 100 pounds and let us ship by freight. **You need not send all the money at once**—send part and pay the freight agent the balance when received.

Our Own Importations.

We are direct importers of teas and can at all times meet every requirement as to quality, style of leaf or variety of growth. For convenience of those ordering by mail we simply grade by number, and guarantee exceptional quality and values at prices quoted.

BUY YOUR COFFEE DIRECT; you can just as well save the profit of the retailer; it will amount to a great deal in a year. **Order 50 pounds of coffee,** get your neighbor to join with you on a 100 pound order of groceries and other goods; you will be surprised how much you will save in cost. **The freight will amount to very little,** especially if several neighbors order together and divide it up; 100 pounds for 500 miles will be about 60 cents, and if the order contains goods for four families, it is 15 cents for each family. Consider this, then compare our prices with your local dealer's prices. **So much can be saved** by buying coffee and other groceries at wholesale that we know one order will insure our receiving all future orders.

MAKE UP A FREIGHT ORDER of groceries and add the other needed merchandise. **Read our Club Order Inducements;** it reduces freight, **makes it cheaper for all** and you make money for your efforts. Surely some of your neighbors will order with you; **ask them. We encourage freight shipment.** It's cheap. Include all the goods you need **and don't forget the groceries.**

A delicious cup of coffee makes a good breakfast. Our coffees we import direct. Everybody praises their delicious aroma and flavor. It is very important to get fresh roasted coffee. Once the bean becomes stale and absorbs moisture, the flavor and good drinking qualities leave the bean, and render it unfit for use. Often the merchant has coffee on hand for months; in such cases it loses both strength and flavor. If you want strictly fresh roasted coffee, place your orders with us. We guarantee every pound to be fresh and crisp. Coffee must be kept in an air-tight can or jar if you wish it to retain its strength and flavor.

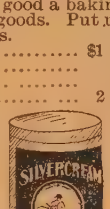
It costs manufacturers of certain well-known brands of baking powders thousands and tens of thousands of dollars a year for advertising. The tremendous cost of this advertising comes out of the pockets of the people who buy.



The ingredients necessary to make a good baking powder are not so expensive. The cost comes in, in creating a demand, and in selling the goods. Our special brands quoted below have stood the most rigid tests, and in buying them you pay for what the ingredients cost, without a high-sounding name and expensive advertising.

Home Baking Powder.

G 710 A pure baking powder, guaranteed to make as good a baking as the high priced goods. Put up in 10, 5 and 1 lb cans.

G 711 **Our Silver Cream** baking powder has no equal; it is absolutely Pure Cream Tartar Baking Powder. Superior to any so-called pure high priced monopoly baking powder. More than twenty years ago cream tartar was worth 49 cents per pound, and bi-carbonate of soda 6 cents; now cream tartar and soda about half former prices and yet the monopoly goods remain the same. **Will you be imposed upon longer?** Any lady can put up a pure baking powder. It is no secret. Will you patronize monopolies that are robbing the public when you can get perfectly pure goods at a **reasonable price?** We guarantee ours to please or money refunded.

In order that we may fully assure our customers of the best extracts and essences, we put up special brands in our own establishment. One of the gentlemen connected with this department is a practical chemist of many years experience, and he has full instructions from the house to give such values as were never known of before. Retail dealers take advantage of comparative ignorance of customers on the relative value of extracts and secure very large profits on the inferior and usually adulterated line they carry. Try our brands and you will be more than pleased.

CANNED GOODS at wholesale prices, brings even luxuries in groceries within **easy** reach of all; **it will pay you** to buy these goods **in dozen lots; two or three families** should join in making up the order so as to get the **dozen price** and the lowest freight rate and that divided up.

We are so anxious for your order, so anxious to show the value we can give, the amount you can save, that **you need not send us all the money** at once if you don't wish; send **one-fourth** the amount with your order, **pay the balance** to your freight agent when the goods are received.

Go over this Grocery List carefully, order just what you want, **no more, no less,** but don't forget the other departments, remembering a few things in other merchandise will add nothing to the freight.

Our stock includes only the **newest goods of the latest pack.** We ask you to remember that while price is a great object in buying anything, quality deserves great consideration in this department. **We claim for our goods** that they are superior, pure and new. We take particular pains that our canned goods shall be of such desirability that we may gain a customer in each sale. We have **made the prices just as low** as such excellent goods can be put on the market at, and we agree to refund every cent where goods are returned immediately, if they are not found as represented. Canned goods come two dozen in a case, unless otherwise specified. **We will assort cases** at dozen rates when not more than six kinds are ordered, thus giving you an opportunity to obtain these goods at as near cost price as possible.

The Canned Vegetables on our shelves are always up to a general high standard of excellence. When you buy of us we sell you what you pay for, and that isn't an attractive can, only two-thirds full of inferior goods. Full measure and big value is the rule in this department. Buy and you will buy again. It pays to make up a hundred pound order by adding such canned goods as you need. Freight is very little when compared with what we save you.

MEATS.

Prices of meats are fluctuating. We will charge you market rates on the day your order is received.

We handle only the best grades, and meats once cut cannot be returned. Sold only according to weight quoted. Our dealings are confined to two of the leading packers in Chicago, and we hence can guarantee that the meat when it leaves our store is pure and sweet.

We make it pay you to deal with us, for we save you the extra profits. Freight on this class of goods is very small and it will cost you very little for shipping a hundred pounds. You can almost always make up a freight order. Order such meat and flour and sugar as you will need, when you order your clothing or dry goods.

WE ARE HEADQUARTERS; our prices should interest you; **no dealer can buy cheaper;** you can save 25% to 50% in price, **20 or 50 pounds** of fish may just make up the **100 pounds** shipment, if so **be sure to add it,** even if you get a neithbor to join with you, take part of the goods and pay part of the freight.

WE PREFER MAKING FREIGHT SHIPMENT—because its cheaper for you. **We urge club orders**—because its cheaper for you. **We urge Grocery orders**—because it helps to make up the 100 pounds weight, reduces the freight charge on each article to next to nothing and will surely result in your buying everything from us.

Send all the money in advance and get 2% cash discount, or send 25% in advance and pay the freight agent the balance when goods are received.

Something for Nothing

We can't give you. But we can give you

A Great Deal for Little.

WE HAVE A SPECIAL CATALOGUE OF VEHICLES THAT WILL TELL YOU MORE ABOUT LOW PRICES IN FIVE MINUTES THAN YOU COULD GET OUT OF YOUR RETAIL DEALER IN FIVE YEARS. CATALOGUE IS MAILED FREE.

SOUPS

These Soups sell well because they are made well. They help the housewife wonderfully when she runs a little short of provisions. We sell them at prices very little above the cost to make. You can have a few cans packed with your large freight order, and you'll be surprised how little the charges will be. We will make any assortment of one dozen or more and sell at the regular dozen prices.

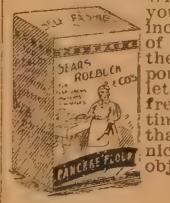
FREIGHT YOUR ORDERS.....

Save all you can, and that can best be done by making your orders of sufficient size so that it will pay to make a freight shipment

FLOUR DEPARTMENT

We want your orders for Flour. We want the orders because we are in a position to save you money on the best flour there is made. By saving money for you and pleasing you, we can count on you as a steady customer and friend. There isn't a cent in the flour business for us, and it may seem strange that we should urge you to buy goods from us on which we make no money. But the fact is, we want to encourage you to make up freight orders. You can save more money when you ship by freight than by express.



Order your flour at the same time with your suit, or some hardware, dry goods or other smaller articles, and all will come by freight at small expense.

Rice.

Don't Omit Rice

from your grocery order. Our Lousiana Rice we buy in car load lots direct from one of the largest growers of finest **Lousiana Rice. We import** direct our **Japan Goods** and can therefore name you the prices, quality considered, which can not be duplicated by any other firm.

Rice takes lowest freight rate; always fourth-class so freight adds very little to cost and in **many cases nothing.** Your order may weigh 75 pounds when you can add 25 pounds of our finest Lousiana Rice costing you $1.12, without adding **one cent** to freight charges. For the same goods your dealer would ask you $2.00. **A discount of 2%** allowed if cash in full accompanies your order, **we ship C. O. D.** if a deposit accompanies your order.

☞ **DON'T FORGET OUR BARGAINS IN RICE** when ordering groceries.

We save you from 4 to 6 cents a pound on Cheese. The freight is very small on a hundred pounds and when you buy of us you don't pay a profit on the freight. Furthermore when you buy of us, you get fresh new goods, and not such as you have been buying from the shelves of the retail dealer. We guarantee to ship goods that are all right. Each shipment is carefully examined before shipping.

TONS OF FLOUR are necessary to manufacture Crackers and Biscuit sufficient to meet the demands of our trade. Our friends have learned by personal experience the **really fine and fresh goods** we handle in this line. Not only are old customers sending in their constant renewals of previous orders, but new trade is attracted by the **high class article** and the **extremely low prices.** We shall continue to maintain this high standard of excellence. We have every reason to hope for your trade and that of your neighbor. When you need any article, no difference how small, it is well to look into your pantry and find out if **you need some groceries.** Perhaps some flour, meat, extracts, pickles, baking powder and of course, a small or large box of crackers are wanted. **You can easily make up a freight order,** and you know the **freight is little or nothing** compared with what we save you.

CANDY DEPARTMENT

A SWEET TOOTH is sure to be found amongst everyone's "grinders." To satisfy your taste for sweets we carry an extensive line of strictly choice candies. These are made especially for us by one of the leading manufacturers. **NOTE ONE FACT. We never ship** candy that has been made over a week. Fresh consignments are received daily. **The finer grades are made after the order is received.**

This insures nice, fresh, clean goods, and it is worth your while when buying candies to consider this special advantage. Most goods you can buy at retail are all the way from two months to a year old.

PRICES AND PROFITS are cut indiscriminately. We sell at the narrowest margin over the actual cost to make.

You can include a nice 5-lb. box or a pail with your freight order and you'll scarcely know the difference in the amount of your bill.

Give us one trial and we will please you.

Five Pounds Fancy Mixed Candy for 35 Cents

G 1865.

G 1865 A Pail of Fancy Mixed Candy, 30 lbs. in good wooden pail, for **$1.95.**

Buy a pail of fine candy and divide it among your neighbors. They will all want candy. Three or four order together and get a pail (30 lbs) of candy for $1.95, and you get the candy at 6½c per pound and the pail for nothing.

An Extra Quality Fancy Mixed Candy, usually sold by retail dealers at 20c per pound. Our offer of 5 lbs (in box) for **35c**, or 30 lbs in wooden pail for **$1.95**, is special, and shows how low it is possible to sell staple goods direct to consumers on our one-small-profit plan.

ORDER YOUR SUGAR FROM US. We guarantee for you the lowest importation price on day your order is received. **WE ASK NO PROFIT ON SUGAR**—we are willing to supply all our customers with their sugar at actual cost to import. **We don't want one cent of profit on sugar. SUGAR IS OUR ACCOMMODATION LINE**—our old customers appreciate it—**all new customers** will also appreciate it when they learn what a saving it is for them. **PRICES CHANGE SO OFTEN** we cannot quote prices in this book, but we will cheerfully quote prices on application, or you will find them in our **Free Grocery Catalogue.**

IT ISN'T NECESSARY to get quotations—in making up your order just say how much is for sugar and what kind is wanted, and you will get the **very lowest prices** of the market on the day your order is received **Sugar, like grain, cotton, pork or beef, is** changing more or less every day.

NO DISCOUNT (NO 2 PER CENT.) will be allowed on **SUGAR.** You will get it at **COST, no profit, no loss,** and we will save you a great deal of money in a year.

FREIGHT ON SUGAR is very low—**4th class, the lowest freight rate.** (See 4th class freight rate to the different states on page 7. **You will see freight on this class of goods amounts to next to nothing.)**

SUGAR IS THE BEST commodity with which to make up your 100-pound freight order; **a great many** of our customers make up their order of all the goods wanted from the different departments and then add **sugar** to make up the 100 pounds. **That brings the other goods practically free of all freight charges, free of all transportation cost.**

YOUR NEIGHBORS will surely take from you any **sugar** you do not want.

WE CAN GRATIFY YOUR TASTES JUST AS WELL AS THOUGH YOU SELECTED FROM A RETAIL STORE. IT IS OUR BUSINESS TO PLEASE YOU, FOR OUR FUTURE TRADE DEPENDS ON IT.

SYRUP AND MOLASSES

SYRUP AT FIRST COST means to own it at about one-half the price charged by retail dealers.

WE SELL SYRUP AND MOLASSES at lowest wholesale prices. No retail dealer can buy it any cheaper than you can buy from us. **A 5-GALLON KEG OF SYRUP** is a nice family order, **costs but little** when bought at our prices, **weighs about 40 pounds**, and takes lowest freight rate, **4th class**, which amounts to next to nothing. **JUST THINK! You can buy 5 gallons of syrup, keg and all, for about $1.00.** It goes a long way towards making up a 100-pound order, and helps you to own your groceries and other goods as cheap as any dealer can buy.

Send the full amount with your order and deduct 2% cash discount, or send 25% and pay your freight agent the balance when goods are received.

A barrel of syrup or mollasses contains 50 gallons; half-barrels, 25 gallons.

Always giue name when ordering syrup or molasses. Two and half gallon kits now take lowest rate of freight, same as barrels.

No extra charge for barrels, kegs or kits.

Oil Department

THE DIFFERENCE BETWEEN GOOD OIL AND BAD OIL cannot be measured by the difference in price. Poor oil is for most purposes worse than useless. **We avoid all complaint** by quoting and handling only the best of all grades. **The freight** on oils is at the lowest rate, and hence you can feel assured of a handsome saving in price after all charges are paid. No use paying 18 cents a gallon for what we furnish at 11 cents. No use paying 60 cents a gallon for what we furnish at 43 cents. **And we charge no profit on the freight.**

If you need a barrel of oil, have such Groceries, or Clothing, or Harness, or Furniture, or Dry Good as you need, sent along at the same time, and the **freight will be very little.**

Kerosene Oils.

We do not sell less than a barrel of kerosene oil, except our Climax oil, G 2230. No charge for barrels. Barrels contain about 52 gallons. We do not solicit kerosene oil trade in the state of Iowa, owing to the annoying inspection laws. The only oil we can ship into Iowa is our 175 degree fire test, and all kerosene oil shipped into Iowa is entirely at the purchaser's risk. Prices are subject to market changes.

DON'T PAY TOO MUCH AND DON'T BUY CHEAP SADDLES.

FOR A SQUARE DEAL SEE OUR

SPECIAL SADDLE CATALOGUE.

MAILED FREE.....

To have your House or Barn **well painted**, requires first and foremost **GOOD PAINT.** To get good paint usually requires more good money than you care to spend, and many people pay less for a poor article and find that the **job has to be done over** in a year.

In order to get good paint at a low price means that some **profit and expense must be cut** off entirely. By our economic system, we ship to you from the door of the factory. **No middleman's profit. No adulteration** to increase retailer's profits. We give you a square deal and furnish **the best paints you ever saw** and for 50 per cent less money.

The freight rate on Paints is very low. You can get your supply from us, get the best there is made, and the freight will be very little compared with what we save you. We want to get you started to buying your paints from us, we are quoting exceedingly low prices in order to keep your trade. We are selling nothing but the best. Every house, barn or buggy coated with our paint will be a lasting advertisement for us.

SPECIAL OFFER.—We will allow a **SPECIAL CASH DISCOUNT OF 5%** to each customer who buys 20 gallons or more of **House or Barn Paint,** and who will agree to put up in a suitable and conspicuous place, a small metal sign, stating that the paint for the job was furnished by us.

We issue fine color cards of our various paints; send at once, **costs you nothing** and it will **help you** in making your selection.

BE SURE TO STATE what kind of paint you want to buy when you send for the card.

Paste Paints for 1897.

Pink Label Brand.

Quality guaranteed equal to any in the world. A new departure in our paint and oil department for 1897. Paste paints are made in all colors, same as our Pink Label Brand Ready Mixed Paints, except the following four: Emerald Green, Vermillion, Dark Blue and Tuscan Red. Parties who wish to do their own mixing will find our paste paints to be the very best pigments ground in pure linseed oil, and are ready for immediate use with the addition of oils for thinning. Packed in 12½ and 25 lb. pails. Directions: With every 25 lb. pail of paste paint add 2½ gallons of boiled linseed oil for the first coat (primal coat). For every additional coat add only 2 gallons of boiled linseed oil. Price for all colors, 12½ pound pails, 95 cents; 25 lb. pails, $1.75. Color card sent free on application.

Prepared Paints.

Send for illustrated color card and hints on selecting colors of our Pink Label Brand, absolutely pure. We fully guarantee our prepared paint to give better satisfaction as to durability and appearance, than any paint mixed by hand. Write us for our 1897 color card and hints on selecting colors, showing 16 combinations, selected with careful regard to harmony which can be relied upon as being in good taste. Remember the Pink Label Brand Barn, Floor and Carriage Paints are equally as good as the house paint. We guarantee every gallon to be full weight and measure and to give perfect satisfaction if properly used, and any failure to do so will be made good. If it pleases you, as we are sure it will, kindly tell your neighbors about it, what it costs, and how they can get it.

Don't be afraid of these paints because the price is low. They are the best we could buy at any price and our label is on every package to prove our faith in the goods.

One gallon of this paint will cover (two coats) over 300 square feet of surface.

Always order by color number as well as catalogue number.

We **ANNOUNCE A TREMENDOUS PURCHASE** from one of the largest importers and manufacturers of cigars in this country. This purchase gives the greatest opportunity in the world to supply our customers with choice brands which cannot be procured elsewhere.

THE WAR IN CUBA will prevent almost all small dealers from selling genuine Havana goods from the fact that none are procurable, except from a few large dealers who have laid in a large supply.

Our **stock is now so large** that we can fill orders for some time to come with **particularly fine goods. WE DO NOT ADVANCE THE PRICE.** We do not advance prices unless there is a good reason, and this reason can only be on account of advanced cost.

We ask your careful consideration of the line quoted below.

The manager of this department is an **expert cigar buyer** and his good judgment can be thoroughly relied on for the superb quality of stock.

DO NOT BE DECEIVED by the low prices, prices that seem so much lower than goods of high quality could be made at, according to retail prices.

WE WANT YOUR CIGAR TRADE, and we want it all the time. We shall take so much pains to please you, that you cannot help but recommend us to your friends and our trade will thus be very greatly increased.

SPECIAL OFFER.

Any cigars bought of us, whether low or high in price may be returned to us, if sent prepaid, where they are not found entirely satisfactory for the price, and we will cheerfully refund what you paid for them. All such claims must be made within two days of receipt of goods.

SMOKING JACKETS.

The Newest Styles, made especially for Fine Trade.

We make prices right and you save half or more.

See Our Clothing Dept.

IT MAY SEEM STRANGE, BUT IT IS STILL A FACT THAT SOME PEOPLE DO NOT EVEN SIGN THEIR NAMES TO THEIR LETTER OR ORDER. MANY MORE FAIL TO GIVE POSTOFFICE ADDRESS. BE CAREFUL THAT YOU MAKE NO SUCH MISTAKES.

Garden Seeds.

OUR PRICES are as low as you will buy half as much inferior seed for at retail elsewhere. We are anxious for you to give this department a trial, and for that reason we have taken the utmost pains in selecting our seeds, that nothing but the very choicest that money will buy should be offered. Patrons may be sure that we have just what they want. These are no experiments. The experience of hundreds of Gardeners is sufficient to prove that there is no better garden truck grown than the products grown from these specialties. Nothing fancy about them. Good, honest, desirable varieties, that are just right.

Let us put up what you need with your freight or express order and you'll not know the difference when you pay the charges, for they will add little or nothing to the weight.

Onion Seed.

Upon no other crop does the quality of the seed have a greater influence than upon onions. Special care should be exercised by all dealers to obtain pure stock.

Sears, Roebuck & Co. Onion Seed is indorsed by market gardeners everywhere. Each succeeding year adds to its popularity with them. This is the surest indication of merit.

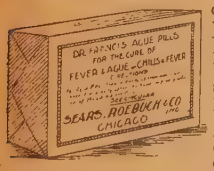
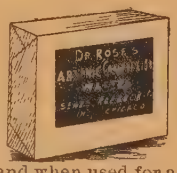
DRUG DEPARTMENT.

THIS SPECIAL BRANCH of our business is in charge of competent chemists and registered pharmacists who have had large experience both in this country and Europe in handling and compounding **DRUGS AND CHEMICALS. THEY HAVE STRICT INSTRUCTIONS TO EXAMINE THOROUGHLY** every article received in this department, to note its **QUALITY AND FRESHNESS,** to apply tests to ascertain its **STRENGTH AND PURITY,** and to reject everything which does not come up to **THE FULL STANDARD REQUIRED BY THE DRUG INSPECTORS OF THE UNITED STATES GOVERNMENT.**



WE ARE IN A POSITION and will be pleased to **ANSWER ANY INQUIRIES** concerning Drugs, Patent Medicines, etc., etc., either as regards their appearance, medicinal properties, or special purposes they are used for. **THIS INFORMATION** we will give to our customers **FREE** and it is valuable on account of the long and varied experience of our staff of Chemists and Pharmacists.

THE PRICES will be on the same footing as in our other branches—**THE LOWEST THAT IT IS POSSIBLE** to sell these goods and make only our usual small profit. We think this is a much better plan than putting the prices up to the highest figure that we might think the public would stand, as is done by many who engage in this line of business. **WE ARE SURE OUR PLAN** will be appreciated by the intelligent class of consumers. It is no crime to **SAVE MONEY,** but it is criminal to foolishly throw it away.



IN ORDERING GOODS FROM THIS DEPARTMENT **WE MUST REQUEST YOU TO SEND CASH TO THE FULL AMOUNT. WE WILL NOT SEND C. O. D.** All prices in this list are **NET—NO DISCOUNT.** Four ounce bottles of liquids and smaller sizes can be sent by mail if packed in a special box approved by the postal authorities. You must remember to allow us 10 or 18 cents, according to size, for these mailing boxes. Poisons, inflammable or explosive materials cannot be mailed.

Special Medicines.

The following special medicines, patented by Sears, Roebuck & Co., are compounded by our chemists from the prescriptions of celebrated physicians, who have made specialties of the diseases to which each medicine refers to. They have been before the public for a number of years, and have given great satisfaction to everyone who has tried them. Each one is a reliable medicine skillfully compounded from the freshest and purest materials; for merit and curative properties they cannot be excelled. We guarantee each to accomplish all that we claim for them.

D 100 **Ague Pills.** For the cure of chills and fever. We were very fortunate to obtain the recipe for these pills from a physician who had used it constantly and successfully in his practice for thirty years in the West and South. They are an infallible remedy for this disease so very common in certain parts of our States, and never fail to stop its progress, and always effect a cure when the use of them is continued.
Price, per box, **50c;** per dozen..... .....**$5.00**

D 102 **Arsenic Complexion Wafers.** These wafers are from the prescription of a famous French physician, and are perfectly harmless when used according to the directions on each box. They are an excellent remedy for rough and discolored skin. They clear the complexion and make the skin soft and smooth. They tone up the whole system and when used for a length of time will make thin persons plump and keep them so.

D 250 **The Remedial Heater or Pocket Stove.**

Designed for the treatment of ear or toothache, colic, diseases of women and children where the application of external heat is necessary. It can be carried in the overcoat pocket and used as a finger warmer. It is made of metal, nickel plated, and measures 3½x1 inch. There is nothing about it to get out of order and no possible danger of fire escaping from the heat chamber. Heat is produced by the burning of a small tablet of a slowly combustible substance, principally made up of a carbon. One of these will burn with an even heat for about two hours, and continuous heat may be obtained by replacing the consumed carbon by another.
Price, complete, packed in neat wood box, with one dozen carbons, **85c**; postage, **15c**; extra carbons per dozen, **10c.**

POSTAGE must always be included with mail orders.
When Liquids are ordered by mail, send 5 cents extra for mailing tube.

WHAT THE PEOPLE SAY.

Much Pleased with Watch.

CHAPEL HILL, N. C., Jan. 13, 1897.

GENTLEMEN: I hereby make my grateful acknowledgements to you for the receipt of the watch ordered by me some days ago. I am much pleased. So far it is all you claim for it; it's a little "Fairy Gem." It keeps splendid time. I am

Yours truly,
A. J. BARWICK.

Highly Pleased with Suit.

CHILHOWEE, TENN., Jan. 18, 1897.

MESSRS. SEARS, ROEBUCK & Co.

The goods I ordered came duly to hand. Please accept my thanks for same. My son is very well pleased with the suit and it fits him very nicely. Thanking you very much, I remain.

Very respectfully,
ELLEN MCMURRAY.

Machine gave Perfect Satisfaction.

MURFREESBORO, N. C., Jan. 14, 1897.

GENTS.—The machine that I bought from you gave perfect satisfaction. I think it was a bargain worth mentioning. It reached me all safe and in good order. Please send me your latest catalogue with lowest prices. I might need something in your line.

Yours truly,
J. S. GARDNER.

"Mighty Well Pleased With Sun."

PLEASANT PLAINS, SANGAMON CO., Ill.

MESSRS. SEARS, ROEBUCK & Co. Jan. 16, 1897.

I received your gun the twelfth. It came promptly on time. I am mighty well pleased with it. It can't be beat. It beats their $40 guns in this town. So I thank you very much for your promptness.

Yours truly,
ELI NEWBY.

Patent and Proprietary Medicine.

The following list contains only a few of the more prominent **Patent Medicines**, such as those which are kept before the public by constant advertising. This will give you an idea of **our low prices.** The number of Patent and Proprietary medicines on the market at the present time is so enormous that it is not possible for us to put them all on our list, and keep the size of this catalogue within ordinary bounds, but our facilities in buying are so great that we can supply you with **any Patent Medicine or Proprietary Article that is manufactured.** If you do not find it mentioned here, write to us about it, or send what money you think it is worth; if you send more than our price we will **return to you the surplus with the goods. Our great aim** in conducting our business is, that when we get your first order, to try our very best to keep you a **customer for life.** We can only accomplish this by **acting honestly with you; by faithfully fulfilling our promises to you;** by sending to you **exactly what you ordered of the best quality** and at the **lowest price.** Old, experienced, fully registered pharmacists employed in our drug department.

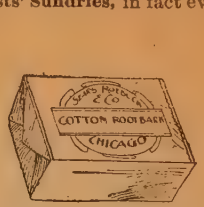
If you cannot find what you want mentioned in the above list, write to us about it. We can supply you with any patent medicine and proprietary article that is on the market cheaper than you can get them elsewhere. The most economical method of ordering goods from us is for you to look through all the different departments in this catalogue at least once a month, select every article you know you will need to have pretty soon, add to your selection what goods you must have right away, send us the order, complying with our terms printed on the first and second pages. We will select the articles ordered carefully and ship them to you without delay. At the end of the month you will be filled with astonishment at the large surplus of money you have laying around loose and with admiration for our system of conducting business and besides having all the necessaries of life of the best quality.

Prescription Department.

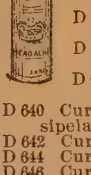


We have unequaled facilities for preparing prescriptions and family recipes. In this branch of our Drug Department we employ only **registered druggists** having long experience. Our medicines are **always fresh and of the best quality.** Send your prescriptions and recipes to us—you can always feel well assured of having them prepared with the greatest care by **competent and skilful druggists and chemists,** using only the purest and freshest drugs, and at a price **very much cheaper** than you could have them prepared elsewhere. Our prices for prescriptions in general average: **For liquid prearations, 7 cents per ounce; for powders and pills, 17 cents per doz.** These prices can be applied to the majority of prescriptions and recipes but there are exceptional cases where we charge more, but our prices are always far below the retail druggists' prices.

SAVE THE ENORMOUS PROFITS.....
OF RETAIL DRUGGISTS.

Drugs, Chemicals, Pills, Extracts, etc.

We have always in stock a full assortment of Drugs, Acids, Chemicals, Fluid Extracts, Pills and Granules, Compressed Tablets, Hypodermic Tablets, Elixirs, Wines, Liniments, Ointments, Tinctures, Druggists' Sundries, in fact every article that



is generally kept in large, first-class drug stores. You can safely send us your order for any drug or chemical, either in the crude state, or prepared in the form of Extract, Tincture, Elixir, etc., and rest assured of receiving exactly what you ordered in a fresh condition and pure quality, and at a price far below what is usually charged for such articles in retail stores, which is a very important item for you to consider. A special catalogue containing a full list of **Drugs, Patent Medicines and Drug Sundries** mailed to anyone on application.

Poisons cannot be sent by mail, and a four ounce bottle of liquid is the largest that can be mailed. As articles in our drug department do not as a rule weigh much, they can be sent by express at very little cost, but the most economical method is for you to include an order for drugs when you are ordering goods from our other departments.

Homeopathic Remedies.

Our Homeopathic Specifics are prepared under the supervision of an **old experienced Homeopathic Physician. Great care is taken** in preparing them according to the rules laid down by the highest authorities on homeopathy, and only the purest drugs used. Every one of the following specifics is a special cure for the disease named on it; the dose is on each bottle, and from two to four doses are to be taken every day according to the severity of the case.

Special Veterinary Remedies.

We have a most valuable and complete line of veterinary medicines, specially prepared for us by **a veterinary surgeon of long experience.** To the farmer, stockraiser, and to everyone who keeps animals, either for profit or pleasure, they are **worth a hundred times their cost.** When your animals are sick and out of condition, give these remedies a trial. You will find complete instructions how to use them and how to treat the sick animals with each package. When you have given them a fair trial, you will be surprised how soon your cattle will return to a healthy condition again. The following we guarantee all that is claimed for them.

D 780 **Veterinary Colic Cure.** Unexcelled for all stomache and bowel troubles accompanied with colic pains, such as Wind Colic, Spasmodic Colic, Engorgement of Stomach, Botts, Stoppage of Water, Indigestion, etc. It relieves pain and relaxes the muscular coat of the stomache, bowels and bladder, causing a normal action and free evacuation of the organs.
Each.....**$0.85**

D 782 **Veterinary Fever Remedy.** Give in all diseases that are accompanied by fever. Give early in Lung Fever, Pneumonia, Bronchitis, Pleurisy, Laryngitis, Sore Throat, Distemper, Cold, etc. It is a positive cure if given promptly in an attack of Laminitis, or Founder, and accompanied by hot poultices to the horse's feet. It will remove the congestion and effect a permanent cure in a few hours. In case of Inflammation of the Bowels, given with Star-Crescent Colic Cure, and hot applications to the belly, gives relief to the patient and cures the disease in a few hours.
Each.....**$0.40**

D 784 **Veterinary Liniment.** Recommended in Sore Throat, Laryngitis, Distemper, Pneumonia, Bronchitis, Lung Fever, Sprains of Muscles or Tendons, Sweeny or Atrophy of the Muscles of the Shoulders or Hips.

Directions:—Apply freely and rub thoroughly. Its effect depends somewhat on the amount applied, and the time spent in rubbing. In throat and lung troubles it should be thoroughly applied to the throat or sides of the chest. If the animal is feverish, use Star-Crescent Fever Cure as directed. If a cough should accompany the case, use Star-Crescent Cough Powder.
Each **$0.25**

D 786 **Veterinary Wire Cut Remedy.** Heals cuts and wounds in all parts of the body without leaving a scar. The best remedy for cuts from barbed wire. It heals them the quickest. It is an antiseptic, destroying all germs and foul odors. A preventive from flies and insects. When used in cold weather it prevents the animal from taking cold in the cuts.
Each **$0.40**

D 788 **Veterinary Cough Powder.** Star Cough Powder is a sure cure for all Coughs, Colds, Distemper, Bronchitis, Laryngitis, Pneumonia, Pleurisy, etc. **Symptoms of Distemper:** Standing coat, loss of condition, dullness, cough with redness of membrane of nose, watery discharges from eyes and nose, scanty high colored urine. Increased thirst, soreness of throat; soon a swelling arises between the bones of lower jaw, hot, tender and hard at first but gradually becoming soft and pus is formed. Breathing loud and difficult. After opening the abscess and letting the pus escape, relief is obtained.
Per box.....**25c.**

D 790 **Veterinary Black Leg Remedy.** Is a sure and positive cure for Black Leg in young Calves and Stock and a positive preventive against the disease. Black Leg, Black Quarter, Bloody Urine, extensive engorgement of a Shoulder, Quarter, Neck, Side or Breast. It is most frequent in young or rapidly growing and thriving stock, attacking first the best of the herd and rapidly running its way through.
Each.....**25c.**

D 792 **Veterinary Blister.** Unexcelled for Bone Spavin, Ring Bone, Splint, Curb, Bog Spavin, Blood Spavin, Thoroughpin, etc. Removes Wind Puffs, Calouses, etc., from kicks or bruises, Thickening of Tendons, etc.
Package..... 40c.

D 794. **Star-Crescent Lice and Insect Destroyer.** Positively kills Lice, Ticks, Fleas, Flies and all Insects. **Directions.**—Sprinkle thoroughly.

All animals—the younger ones particularly—are commonly troubled by the long hair in the winter months becoming filled with Lice. These little pests will so annoy and eat at the young animals that they will lose flesh, refuse to eat, and in many cases unless relieved, die from the tormenting of these insects. One thorough application of this Powder kills all vermin.
Package.....**15c.**

D 796 **Veterinary Tonic Condition Powders.** This Powder may be given with great advantage in all cases of loss of appetite, roughness of the hair or coart, stopping of water and bowels, Cough, Colds, Inflammation of the lungs and bowels, recent Founders, Swelling of the Glands of the Throat, Horse Distemper, Hidebound; will also backen the Heaves and in recent cases effect a cure. There is no disease among Horses and Cattle where this valuable Powder is not called for; and by its timely use will save the lives of many valuable animals. The superiority of this Powder over every other preparation of its kind is only known to those who have seen its astonishing result on horses and cattle. This powder acts upon the secretions, consequently will arrest disease promptly.
Each package.....**20c.**
In bulk.....per lb., **15c.**

D 798 **Star-Crescent Worm Powder. Veterinary.** Expels Worms from Horses, etc. Worms cause Indigestion, Colic, Constipation, Loss of Flesh and General Debility. Study the symptoms. To expel worms give one powder a day, then give one pint raw linseed oil for a physic.
Box.....**25c.**

D 800 **Veterinary Eye Water. Directions.**—Apply to the eye three times a day by dropping three or four or several drops in the ball of the eye. If the eye is red and swollen on the inside of the lids, foment it several times a day with hot water and keep the animal in a darkened and well ventilated stable. Feed on light and easy digested food, such as bran, mash, carrots, etc.
Each.....**25c.**

D 802 **Liniment. The Best Liniment for Man or Beast,** for Cuts, Wounds, Bruises, Strains, Swellings, Burns, Scalds, Sprains, Pains, Aches, Sores, Cracked Hands, Frost bites, Chilblains, Spavin, Ring Bone, Wind Gall, Sweeny, Scratches and all flesh bone and muscular ailments.
Each.....**25c.**

D 804 **Veterinary Fattening Condition Powder.** Use this Remedy in time. Do not wait until your stock is silk, but give it to ward off sickness. It pays for itself, keeping the animal in a strong, healthy condition, easy to fatten. Give for loss of Appetite, Roughness of the Hair or Coat, Stoppage of Water and Bowels, Coughs, etc. Will also backen the Heaves and in recent cases effect a cure.
Per lb.....**8c.**

D 806 **Feverine, A Safe and Sure Cure for Milk Fever.** Dairyman should ever have a bottle of this remedy on hand, and upon the first appearance of the malady follow the directions closely. There is not a dairyman in the country who has not lost valuable cows with milk fever. At last science has come to our aid and given us Feverine, a positive cure and an infallible preventive.

ARE YOU INCLINED TO BALDNESS? Is your hair thin or falling out? Does your hair come out easily and gather on the comb and brush when you brush it? Does your head itch? Do you have dandruff or scurf, and do white dust like particles settle on your coat collar? Is your hair stiff and coarse and hard to brush? Is your hair fading or has it turned prematurely gray? If your hair suffers in any one or more of these particulars, you can order a bottle of PRINCESS TONIC HAIR RESTORER as a trial, for speedy relief. Use it according to directions and you will be surprised and delighted at the good results. It acts direct on the tiny roots of the hair, giving them required fresh nourishment, starts quick, energetic circulation in every hair cell, tones up the scalp, freshens the pores, stops falling and sickly hair, changes thin hair to a fine heavy growth, puts new life in dormant, sluggish hair cells, producing in a comparatively short time a new growth of hair. If your hair is fading or turning gray, one bottle of Princess Tonic Hair Restorer will give it healthy life and renew its original color. PRINCESS TONIC HAIR RESTORER is good for both men and women. Is equally effective on men's and women's hair.

PRINCESS TONIC HAIR RESTORER IS ABSOLUTELY HARMLESS. IT IS NOT A DYE. It can be applied to the most delicate hair, it will not stain the daintiest head dress. Princess Tonic Hair Restorer is made under a special process, perfectly pure and clear, without any sediment, and containing the following named ingredients, recognized as the best constituents of highest efficiency for hair and scalp treatment for restoring them to a natural, healthy condition. Princess Tonic Hair Restorer contains in correct proportions: LEAD ACETATE, SOLUBLE SULPHUR, NATRIUM MURIATE, RESORCIN, CANTHARIDES, CAYENNE, GLYCERINE.

ORDER A BOTTLE AT 57 CENTS and if you do not find it just the hair tonic you want, stimulating the growth, cleansing the scalp, stopping hair from falling out, restoring natural color, curing dandruff or promoting a new growth of hair, return it to us at once and we will cheerfully refund your money.

EVERY BOTTLE OF THE GENUINE PRINCESS TONIC HAIR RESTORER IS STAMPED WITH THIS LABEL AS SHOWN IN THE ILLUSTRATION—OUR GUARANTEE OF HIGHEST QUALITY.

YOU WILL FIND VARIOUS SO CALLED HAIR TONICS and hair restorers widely advertised in the newspapers and magazines. Some of them possess merit and others do not. Those that possess merit are sold for two and three times the price we ask for genuine Princess Tonic Hair Restorer, and are not equal to the preparation that we put out under our binding guarantee for quality. If you have any doubt as to the merit of the Princess Tonic Hair Restorer as against the preparations advertised and offered by others, we would be willing for you to order our preparation, and then send for any other preparation on the market, give both preparations a fair and honest trial, and if you do not find the Princess Tonic Hair Restorer better by far than any other hair tonic, you need only write us to this effect and we will return your money. By using the remedy properly it will overcome almost any hair trouble, and a single month's treatment is often sufficient to accomplish result, sometimes a few weeks will do the work, it depending somewhat on the length of time the trouble has existed. 57c

ATTENTION LADIES!

The world renowned Doctor Eramus Wilson gives the following advice: "In offering the following advice on the cultivation of natural beauty, I am fully aware of the vast responsibility attending my efforts in this direction, therefore I have carefully avoided making use of any doubtful conclusions, but instead have employed wholesome practical truths only. Now if you expect to succeed in your undertaking, then the very first thing for you to observe is your personal appearance, it matters not whether you belong to the gentle or the opposite sex, this advice is applicable to either.

"My lifelong experience has perfected me to diagnose every blemish of the skin and confidently say there is nothing to equal Maison Riviere's preparations to attain the desired result.

"As the eye conveys the impression—good or bad, pleasing or offensive—therefore it is of the utmost importance that we should make friends with the eye and hold ourselves in readiness for its critical inspection. A bad complexion will immediately place its possessor in an unfavorable light and blind the eye to every other good quality, either of features or intellect. Not only this, but in many cases will stamp its victims as being vulgar and common, and make it impossible for them to rise above these impressions. We judge people immediately by their appearance.

"Now a bad complexion is always an eye-sore to any one, and if matters not how often seen, we can never help picturing to ourselves how different the person would look if she had a good complexion. Any body with the proper kind of pride should shrink from placing herself in such a position as to require her friends and those whom she is thrown in contact with the necessity of apologizing, even to themselves for her bad complexion. That is not what women appreciate; love and admiration are the two great wants in every woman's nature, and beauty alone can aid them in being loved and admired. It is against the laws of nature to admire and love those who do not please us by an attractive appearance and a pleasing manner. A perfect complexion is all that is lacking in most cases to complete a very winning personality, therefore to attain the above results, use the following, as I have much pleasure in stating Maison Rivieres' preparations are absolutely harmless and of great benefit to the skin."

FRECKLES.

G 6174 These blemishes are excessively disfiguring and annoying—more so because they invariably take possession of the otherwise prettiest complexions. They are caused by a congested condition of the coloring matter, which becomes mottled and dotted on the mucous network, and drawn to the surface by the hot rays of the sun and wind, and in many other cases cold weather will increase them. Maison Revieres celebrated and world-famed Ninon del Enclos will speedily remove all traces of freckles. Full directions on the bottle. $1.00. Our price, 75c.; per doz., $8.50.

CREME RIVIERE.

G 6175 This is a healing, cooling and penetrating ameliorative cleanser of the skin. In a single night it makes the roughest chapped skin soft and fine grained; also is an excellent wrinkle remover. This elegant preparation is unrivaled for its purity. Full directions on jars. $1.00. Our price, 75c.; per doz., $8.50.

SUPERFLUOUS HAIR.

G 6176 No worse affliction can befall a woman's face than to see a horrible growth of coarse hairs springing out like bristles, making it harsh and repulsive to the touch and disfiguring to behold. It is unwomanly and should be removed, by the use of Maison Riviere's celebrated preparation. See full particulars on bottle. $1.00. Our price, 75c.; per doz., $8.50.

CREME INCOMPARABLE.

G 6177 Think of a remedy having the power of summoning instantly to the face and neck the color and beauty of youth! It gives the face a soft, beautiful flush and brilliancy. It is fragrant and refreshing. Maison Riviere's Creme Incomparable is the most elegant beautifier known. Directions on the bottle. $1.00. Our price, 75c.; per doz., $8.50.

ROUGE ORIENTAL.

G 6178 For ladies who are troubled with pallor or have no color in their cheek, Rouge Oriental is a treasure. It is a beautiful and effective compound for tinting the cheeks. It gives a perfectly natural color, which is only removed by warm water and soap. Rouge Oriental is not affected by the bath, but remains fresh and rosy until removed by soap and warm water. $1.00. Our price 75c.; per doz., $8.50.

HAIR TONIC AND RESTORER.

G 6179. What is more beautiful than a luxuriant growth of hair in man or woman? The discovery of and successful combination of chemical forces that unite with and aid nature's subtle workings in the scalp, and which produce nourishment for and growth of the human hair is one of the marvelous discoveries of Maison Riviere. It also prevents dandruff and incipient baldness. Full directions on each bottle. $1.00. Our price, 75c.; per doz., $8.50.

DENTIFRICE.

G 6180 The most perfect preparation for the teeth. Will keep them entirely free from stains or discolorations. It will effectually remove the tartar, hardens the gums and keeps the teeth as lovely as pearls, leaving a delicious aftertaste in the mouth for hours. 50c. Our price, 35c.; per doz., $4.00.

EAU DE LA JENNESSE.

G 6181 This Complexion Bleach purifies the flesh and makes the skin fresh, healthy and beautiful, it does not bleach out the rosy color of the cheeks as its name might seem to imply, on the contrary, it increases the brilliancy and frees the skin from all foreign matter that gives one that leaden, sallow complexion so often seen, prepared by Maison Riviere. Full directions on every bottle. $1.00. Our price, 75c.; per doz., $8.50.

TRIANON.

G 6182 This elegant preparation will allay and soothe all irritation of the skin and is highly agreeable to gentlemen after shaving. $1.00. Our price, 75c.; per doz., $8.50.

POUDRE MERVEILLEUX.

G 6183 This preparation gives the nails a splendid, lustrous and rosy appearance, which enhances so greatly the charms of a lovely and beautiful hand. Full directions on the box. 50c. Our price, 35c.; per doz., $4.00.

QUEEN VICTORIA PERFUMES

.....DRUG DEPARTMENT.....

THIS SPECIAL BRANCH of our business is in charge of competent chemists and registered pharmacists who have had large experience both in this country and Europe in handling and compounding drugs and chemicals. They have strict instructions to examine thoroughly every article received in this department, to note its quality and freshness, to apply tests to ascertain its strength and purity, and to reject everything which does not come up to full standard required by the drug inspectors of the United States Government. **WE ARE IN A POSITION** and will be pleased to answer any inquiries concerning drugs, patent medicines, etc., either as regards their appearance, medicinal properties, or special purposes they are used for. **IN ORDERING GOODS FROM THIS DEPARTMENT** we must request you to send cash to the full amount. We will not send C. O. D. All prices in this list are net—no discount. Four-ounce bottles of liquids and smaller sizes can be sent by mail if packed in a special box approved by the postal authorities. You must remember to allow us 10 or 15 cents, according to size, for these mailing boxes. Poisonous, inflammable or explosive materials cannot be mailed.

OUR 60c Nerve and Brain PILLS.

GUARANTEED THE HIGHEST GRADE ON THE MARKET.

Six Boxes Positively Guaranteed to Cure any Disease for which they are intended.

THIS WILL CURE YOU if you feel generally miserable or suffer with a thousand and one indescribable bad feelings, both mental and physical, among them low spirits, nervousness, weariness, lifelessness, weakness, dizziness, feeling of fullness, like bloating after eating, or sense of gononess, or emptiness of stomach in morning, flesh soft and lacking firmness, headache, blurring of eyesight, specks floating before the eyes, nervous irritability, poor memory, chilliness, alternating with hot flushes, lassitude, throbbing, gurgling or rumbling sensations in bowels, with heat and nipping pains occasionally, palpitation of heart, short breath on exertion, slow circulation of blood, cold feet, pain and oppression in chest and back, pain around the loins, aching and weariness of the lower limbs, drowsiness after meals, but nervous wakefulness at night, languor in the morning, and a constant feeling of dread, as if something awful was going to happen.

If you have any of these symptoms our **NERVE AND BRAIN PILLS will cure you.** No matter what the cause may be or how severe your trouble is, **DR. CHAISE'S NERVE AND BRAIN PILLS** will cure you. **These pills have a remarkable effect** on both old and young. They can not be equalled by any other medicine as a cure for impotence, spermatorrhœa, night sweats, emissions, varicocele (or swollen veins), weakness of both brain and body, arising from excesses and abuses of any kind. **It will tone up the whole nervous system,** no matter how much worn out, overworked or depressed you may be; the weak and timid young man made strong and bold again; they will give youthful vigor and a new lease of life to the old.

BEWARE OF QUACK DOCTORS who advertise to scare men into paying money for remedies which have no merit. **Our Nerve and Brain Pills** are compounded from a prescription of one of the most noted German scientists, and are the same as has been used in **German hospitals** for years with marvelous success. **HOW TO CURE YOURSELF,** and full and explicit directions, are enclosed with every box. All orders and inquiries concerning these pills will be treated **confidentially,** and all shipments made in plain sealed package.

ONLY $3.00 FOR 6 BOXES. Enough to cure any case, no matter how severe, no matter how long standing, whether old or young, no matter from what cause. Send us **$3.00** and we will send you **6 boxes** by return mail, postpaid, in plain sealed package, with full instructions, full directions.

READ CAREFULLY AND FIND OUT WHAT OUR B B B MEDICINE IS

THESE THREE LETTERS STAND FOR

DR. BARKER'S BLOOD BUILDER

Nature's most wonderful remedy for destroying poisons in the blood and building up a pure healthy blood, no matter how diseased the system is.

It is universally conceded that seventy-five per cent of the diseases with which the human family suffer to-day are produced by some poisonous germs in the blood or some derangement of that life giving and sustaining fluid. Physicians tell us that one in every twenty persons is infected with poisonous microbes. It is easy then to understand how blood diseases are so prevalent and needs but little argument to show why a simple vegetable remedy, which destroys and expels these poisonous germs, is the only true blood purifier. **It will cure scrofula, cancer, rheumatism, especially that arising from mercurial poisoning; eczema and other skin diseases that arise from impurity of the blood, nasal catarrh, acne or pimples, chronic ulcers, carbuncles, boils. It is a true specific for syphilis in its primary, secondary or tertiary form, eradicating all unclean matter from the blood, removing all taint of this disease. A few bottles taken in the spring** will prepare the system to stand the heat and corrupting influence of the hot summer days and ward off sickness. Taken in the fall **it braces the system to stand the blasts of winter. As a general tonic and builder up of pure blood DR. BARKER'S BLOOD BUILDER** is the most valuable of all medicines, cleansing the system, free-it from all poisonous germs. It is a powerful remedy, yet no one need be afraid to take it, as it is purely vegetable. **It will cure you and make your skin smooth and give to it a healthy appearance.**

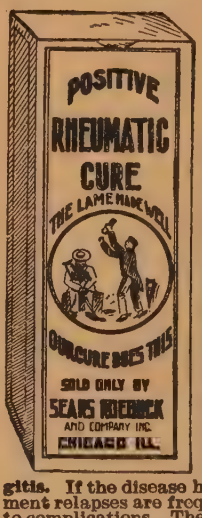
Our 50c LIQUOR HABIT CURE.



Every man can be permanently cured of the habit or desire for intoxicating drink of any kind.

WE GUARANTEE A COMPLETE CURE. Our remedy is **perfectly harmless,** none of the bad effects produced by many so called liquor cures so widely advertised. That **drunkenness is a disease** that can be cured by medicine, just the same as other diseases can, is a fact becoming well known. **Thousands of cases have been cured** by this medicine; in fact, its wonderful curative properties are now well known throughout the entire world. **We bring this cure within the reach of everyone.** It is now not necessary to go to an institute for treatment; home treatment is just as successful. The impression has been cultivated by interested parties that cures could not be effected except by hypodermic injections, but nothing is more absurd. Any medicine taken into the stomach will be as effective as if used hypodermically. **No medicine has had such a wonderful success** in this age of progress as **OUR LIQUOR HABIT CURE.** It creates an appetite for food instead of liquor, it stimulates the whole system to healthy action, it quiets nervous excitement, vertigo, muscular trembling and all the dangerous effects of excessive use of liquor. It improves the appetite and digestion and regulates the bowels. It is, in fact, a perfect cure for the drink habit.

WE URGE EVERYONE who have accustomed themselves to the excessive use of liquor, and who wish to stop the practice, to send for **even a small box as a trial. We know our remedy will cure you.** We are sure that after using a few doses you will feel the craving for liquor disappearing and a warm healthy glow spreading from the stomach over the whole system; you will have a desire for food instead of **rot gut.** This will be the commencement of the cure, and if you will follow it up faithfully for a few weeks it will effect a permanent cure. **When you have used a small box,** we know you will send for 12 more boxes for $5.00, to thoroughly complete the cure.

OUR 70c. POSITIVE Rheumatic Cure.

WHAT IS RHEUMATISM? This Dreadful disease, this scourge of humanity, is a blood disease, always due to one cause, namely the presence in the system of urea, and uric acid, which poisonous elements could not be retained unless there was a defective kidney action underlaying the Rheumatic disease. **Rheumatism may be divided into two classes, Acute and Chronic Rheumatism.** Acute or commonly called inflamatory rheumatism announces itself through piercing pains in the joints and muscles in the back, the knees, the hips, etc., and generally spreads through the whole body. **Chronic Rheumatism** on the other hand is accompanied by no fever, the joints are very painful, swolen, sensitive and often stiff. If this disease is of long duration the joints will swell or expand, and dislocaton take place. The resulting deformity and crippling of the joints can be cured if correctly treated. **We can say inflammatory Rheumatism is the most dangerous of the two,** owing to its rapid spreading over the body, implicating certain internal organs and structures, **especially the heart,** often producing **pleurisy, pneumonia, bronchitis, cerebral and spinal meningitis.** If the disease has thus far advanced without receiving proper treatment relapses are frequent and death often results, which is generally due to complications. There is but one satisfactory way to treat rheumatism and that is in a constitutional manner, by giving internal medicines which act on the blood.

Our Positive Rheumatic Cure will positively cure Rheumatism in all forms and in all its different stages, by reason that it removes from the system the urea and uric acid upon which the disease feeds. This remedy has a specific action on the blood, it increases the number of the red blood corpuscles, which are morbidly deficient in cases of rheumatism,

Our Positive Rheumatic Cure is compounded from a prescription of a celebrated **French Scientist** who spent the greater part of his life in prescribing for rheumatism in all its forms, **Our Remedy Will Cure** when all others fail. If you have rheumatism in any form you should get this remedy at once. **If you have been suffering for years** you will find quick relief and final cure in this remedy. **If your case is chronic order six bottles** for, in severe cases and cases of long standing there is a necessity to use this remedy for a longer period; several months may be needed to fully secure exemption from the disease. **We recommend ordering six bottles,** it will cause a complete reconstructon of the system.

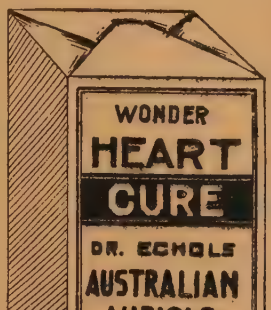
SURE CURE FOR THE Tobacco Habit.

WE CURE YOU



THIS IS NATURE'S OWN REMEDY, ENTIRELY HARMLESS. It cures because it builds up and fortifies, rejuvenates the weak and unstrung nerves caused by over indulgance in this poisonous weed. It stops the craving for tobacco by supplying instead a healthy nerve tonic and strengther; it does more, it eradicates the poisonous nicotine from the system which has accumulated from long continued use of tobacco. Nicotine is a virulent poison and the chief ingredient of tobacco. It is the cause of all the nervous troubles and general debility of smokers. Our sure cure will destroy the effects of this nicotine, chase it from the system and make weak men strong again, and impotent men gain weight and vigor, make the old feel young again. It satisfies the craving for tobacco, and its use brings great health, increasing the appetite for food, strengthens the stomach, enriches and purifies the blood, giving good general health. It is not a drug; it can be chewed the same as tobacco, or taken dissolved in coffee or hot water. It is not only a sure cure for the tobacco habit, but also one of the best tonics for sexual weakness ever made. Give it a trial and be convinced.

DROPPED DEAD!

ATTENTION! Every fourth person has a weak or diseased heart.

Dr. Echols' Australian Auriclo

A NEWLY DISCOVERED CURE FOR HEART TROUBLE.....

It is surprising that this most vital portion of the human body should receive so little attention from medical writers and investigators. The duty of the heart is to keep every part of the human frame constantly supplied with the vital fluid called blood, and the moment it ceases to beat, death ensues. It is the hardest worked organ in the body; it works incessantly from the beginning to the end of life. Day and night it labors without rest, performing such an enormous amount of work as to be almost beyond belief. With every pulsation it exerts a force equal to 50 pounds, which amounts to 3,600 pounds a minute, 216,000 pounds every hour, and the inconceivable number of 5,184,000 in a single day. All this vast amount of labor must be done, and done well, every day; if not, your health will surely suffer in consequence of the least failure of the heart to properly perform its duties. The health of the heart is therefore exceedingly important and weakness and disease of this organ are more common than people are aware of. Shortness of breath, palpitation, pain in the chest, fainting spells, etc., are attributed by them in their ignorance to other causes, and even physicians frequently make the same mistake. Every one who reads the daily papers must observe how frequent the words "dropped dead" and "sudden death" occur Scarcely a day passes without some prominent person being stricken down without warning while apparently in the best of health. We will enumerate a few of the more common symptoms of heart disease:

Shortness of breath.
Fluttering or palpitation.
Pain or tenderness in th e left breast, side or under the left shoulde blade between the shoulders.
Irregular or intermittent pulse.
Oppressed feeling in the chest.
Choking sensation in the throat.
Weak or hungry spells.
Sleeping on the side, especially the left, is often disagreeable.
Smothering or sinking spells.
Fainting spells always indicate a weak heart.
Difficult or asthmatic breathing accompany bad cases and often causes the patient to sit up in bed.
Swelling of the feet or ankles. This is a sure sign of heart disease, but not always present.
Dropsy. A large portion of cases come from heart disease.
Neuralgia in the chest, on right or left side.
Sudden starting in sleep, morbid dreams.

Weak hearts are as common as weak stomachs, lungs or eyes. Every heart that flutters, palpitates, tires out easily, aches, etc., is weak or diseased and treatment should not be postponed a single day, and there has never been found a remedy so effectual in healing, strengthening and restoring the heart as the newly discovered cure—Dr. Echols' Australian Auriclo. It is daily curing thousands in every stage of heart disease. No one can make a mistake in purchasing a box of this valuable remedy. It is worth its weight in gold a thousand times over. Remember that such simple ailments as cold hands and feet, spots before the eyes, hungry spells, etc., indicate a weak heart or a diseased one. People in their ignorance generally lay the blame elsewhere, and continue to suffer, whilst the heart grows worse and worse. Take a remedy in time and save much suffering, and remember how frequent you read the words, "dropped dead" and "sudden death," the result of heart failure. The medicine is in the form of a tablet, can be sent by mail and carried in the pocket without inconvenience.

Dr. Allan's Asthma Cure.

AN IMPORTED REMEDY which is having an immense sale in countries where Asthma prevails. Sears, Roebuck & Co. having received reports through their foreign agents of the wonderful effects of this remedy in relieving and curing asthma, determined to secure it for the benefit of their customers who might be suffering from this terribly annoying complaint. Through influence and expenditure of money they were able to control the introduction of this valuable remedy to the citizens of the United States, and become sole agents for its sale in this country. Dr. Allan's Asthma Cure is for the instantaneous relief and permanent cure of all forms of Asthma, Phthisis, Hay Fever, Bronchitis, Croup and Nasal Catarrh. It is a scientific combination of oxigenating chemicals with herbs, barks and gums, as have proven themselves effective for the relief of Asthma and other affections of the respiratory organs, attended with short, difficult or spasmodic breathing. It is the result of many years' study and experiment by a German physician who has devoted especial attention to diseases of the lungs and air passages, that has never failed to give immediate relief or effect a cure when a fair trial was given and used according to directions. This remedy is used by inhalation and as its virtues reach the air passages direct the relief obtained is instantaneous. Plain directions and valuable information is enclosed in each box, and if the sufferer will follow these directions carefully and study what the circular in the box says and act accordingly, mild forms of asthma, hay fever, etc., are often cured in a week or two, but if the disease is old seated and has obtained a firm hold on the system, the treatment ought to be continued for several months, even although the patient may believe himself entirely cured.

This great cure for asthma has heretofore only been sold in $1.50 packages, but we have been enabled to have a quantity of trial packages put up for 50 cents each.

Too much fat is a disease and a source of great annoyance to those afflicted. It impairs the strength and produces fatty degeneration of the heart, and sudden death results. All people who have obesity are troubled with sluggish circulation and labored action of the heart. The patient feels lazy and burdensome. There is a sluggish condition of the whole system; they are not exactly sickly, there is a feeling that all is not right. Nervousness, rheumatism, headache, dropsy and kidney diseases are frequent complications of obesity, and, more cause to be alarmed, the heart is always affected. Send at once for a box of Dr. Rose's Obesity Cure. It will reduce corpulency in a safe and agreeable manner, perfectly harmless. No bad results follow its use, as is the case with many of the much advertised cures. Explicit directions and valuable information for fat folks enclosed in each box.

NUTRITIVE TONIC.

Beef, Iron and Wine.

GUARANTEED HIGHEST GRADE EVER PRODUCED.

OUR PRICE 35c. Inferior grades sell at 50c to $1.00.

NO FAMILY SHOULD BE WITHOUT a bottle of **BEEF IRON AND WINE.** This is an old time TONIC, universally known for its great strength giving and flesh producing qualities.

THE GREAT TROUBLE with most of the **Beef Wine and Iron** found in the market at the present day is the poor quality of materials used in making it. It is often found in a state quite unfit for use on that account. **We take great pains** with this preparation, using only **Suling's Extract of Beef** freshly prepared, the finest imported **Sherry Wine and Pure Iron** in a form specially prepared for assimilating with and enriching the blood.

THE BEST TONIC KNOWN to be used when suffering from extreme exhaustion, produced by overwork or other causes, brain fatigue, debility of all kinds, blood disorders, salt rheum, eruptions, anemia, scrofula and cancer. **It stimulates digestion, improves the condition of the blood.** Enriches it and enables it to throw off accumulated humor, and it will give tone and vigor to the entire system. A depraved condition of the blood serves to augment disease. This condition should be a direct warning, and by taking it as such and using a corrective, much ill health can be avoided.

WE HAVE THOUSANDS OF TESTIMONIALS as to the wonderful good this medicine has done for those that are weak, nervous and debilitated. OUR PRICES ARE VERY LOW. Inferior goods are sold everywhere at nearly double our prices.

Our Celery Malt Compound

FOR 55 CENTS.

We sell the highest grade Celery Malt Compound for 55 cents in large bottles.

It retails everywhere, even in inferior qualities, at $1.00 and upwards.

We guarantee our Celery Malt Compound to be absolutely pure, unadulterated and superior to any other celery compound on the market regardless of name or price.

Our Celery Malt Compound is a true **nerve tonic, a genuine appetizer, a stimulant both for the young and old.** We do not pretend that it is an absolute specific for any chronic disease, but it has a much wider range of usefulness as it is especially beneficial in hundreds of the ills that flesh is heir to.

A glance at its composition, which we give below, will show any person of ordinary intelligence why it is such a useful preparation and should be kept in every household.

Our Celery Malt Compound contains in a concentrated form the active medicinal properties of the **Italian celery seed,** well known to physicians as one of the **best and most active controlling and strengthening agents for the nerves, also the phosphates** in the same state as found in the strong, healthy, vigorous, natural body, and in quantities approved of by the medical profession, the value of which has been so thoroughly demonstrated in all brain and nervous affections and in emaciated conditions. In addition it contains a large percentage of malt, which is very strengthening and fattening.

You will see it is an ideal combination which is not only a most useful tonic and stimulant but a delicious beverage as well.

As a brain and nerve tonic, appetizer and stimulant, it is certainly unqualed in the realm of medicine.

For insomnia, nervousness, mental or physical exhaustion, loss of appetite, impoverished blood and for that tired feeling that comes from close confinement or sedentary habits, it is really magical in its effects, infinitely better than all stimulants of an alcoholic nature.

If you are nervous, exhausted, can't sleep, or if the body is poor and your digestion imperfect and you are out of sorts generally and in a low physical condition, do not fail to try **Celery Malt Compound.** It will give you new life and vigor and build up your entire system.

Ask your neighbors about our Celery Malt Compound. Some of them doubtless have used it, and if they have they can tell you of its merits. No family can afford to be without it.

If you have bought celery compound of any other make from your local druggist, order a bottle of **Celery Malt Compound at 55 cents.** Try it. Compare it, and if you do not find our Celery Malt Compound better than any other like preparation on the market, return it at our expense and we will refund your money.

Our Celery Malt Compound is prepared under our special direction by a very able chemist. Every ingredient is carefully tested to know that it is of the very highest quality, and it is sent out under our guarantee that there is no other preparation of the kind that compares with it.

MOTHERS

Read What we Say About Our

RELIABLE WORM SYRUP AND WORM CAKES.

You can save your children from much suffering and in many cases save their lives. No other disease is so fatal to children as worms. Unfortunately they are seldom free from them, and as the symptoms resemble those of almost every other complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease in themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, obstructing the bowels and frequently the throat, causing convulsions and too often death. **OUR RELIABLE WORM SYRUP effectually destroys the worms and removes the nest in which their young are deposited.** It moves the bowels very gently, the worms being to a greater or less extent dissolved by the action of the medicine, can scarcely be recognized in the stools, but the improvement in the health of the child will be sufficient evidence of the beneficial effects of the medicine. **Every mother ought to have a bottle of the syrup or a box of the cakes always in the house.** The syrup and the cakes are the same medicines in different forms. The syrup is more pleasant to the taste and more suitable for very young children. The cakes can be given to older people, even adults can be benefitted by using them, as grown up folks, as well as children, often suffer from worms. **These reliable worm medicines** are not only worm destroyers, but act as a general tonic, destroying sourness of the stomach and producing a healthy appetite. **Mothers, keep your children healthy.**

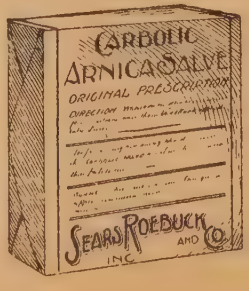
PERUVIAN WINE OF COCA.

A Genuine Rich Wine Imported by Ourselves and well known throughout Europe for its Strengthening and Nourishing Qualities.



It sustains and refreshes both the body and the brain, and has deservedly gained its excellent reputation and great superiority over all other tonics. It is more effective and rapid in its action. It may be taken for any length of time with perfect safety without causing injury to the system, the stomach and gastric juices. On the contrary, **Peruvian Wine of Coca aids digestion, removes fatigue and improves the appetite, never causing constipation.** For many years past it has been thoroughly tested and has received the endorsements of hundreds of the most eminent physicians of the world, who assure us of their utmost satisfaction with the results obtained by using it in their practice. They urgently recommend its use in the treatment of **Anemia, Impurity and Impoverishment of the Blood, Consumption, Weakness of the Lungs, Asthma, Nervous Debility, Loss of Appetite, Malarial Complaints, Biliousness, Stomach Disorders, Dyspepsia, Languor and Fatigue, Obesity, Loss of Forces and Weakness caused by excesses, and similar Diseases of the Same nature.** It is specially adapted for persons in delicate health and for convalescents. It is very palatable and agreeable to take and can be born by the most enfeebled stomach where everything else would fail.

If you wish to accomplish double the amount of work or have to undergo an unusual amount of hardship always keep a bottle of our **Peruvian Wine of Coca** near you. **Its sustaining powers are wonderful.**

It is used in most of the Hospitals in Europe, and many of our American public institutions are adopting it. After many severe tests it has been effectually proven that in the same space of time more than double the amount of hardship and work could be undergone when **Peruvian Wine of Coca** was used and positively no fatigue experienced.

Expecting a large demand for this wine we have made arrangements for an extra large shipment, which enables us to let our customers in at the very lowest price.

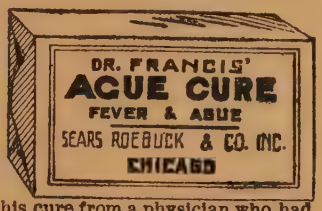
...WONDERFUL...

LITTLE • LIVER • PILLS.

ENTIRELY VEGETABLE IN THEIR COMPOSITION.

These wonderful little pills operate without disturbance to the system, diet or occupation.



CONSTIPATION, that most hideous and deathly demon of sickness, is an easy enough thing to cure if you will only persist in taking proper treatment. It is one of the commonest troubles and often thought to be a very little thing. Yet, we say that nine-tenths of all human sickness is due to this one thing. When the bowels do not move regularly the natural drainage tract in the human system is damned up, decomposition ensues and poisonous gases and liquids are carried all through the system. The result is jaundice, torpid liver, biliousness, sallow skin, indigestion, foul breath, coated tongue, loss of appetite, pimples, belching foul gases, blotches, boils, dizziness, headache, cramps, colic, etc. You can easily avoid all these troubles and keep your system pure and healthy by taking from time to time one or two of our **WONDERFUL LITTLE LIVER PILLS.** Some of our customers call them **"LITTLE GIANTS,"** they are so small in size and easy to swallow, yet so effective and mild in their operation. Whenever your stomach, liver and bowels get out of order take one or two of our **LITTLE WONDERS** and notice the quick effect and great relief you will experience. Keep a bottle always beside you. Use them occasionally and you will always feel well and look the picture of health.

Ague Cure.

FOR CHILLS AND FEVER THIS IS A TRUE SPECIFIC.

We are selling thousands of boxes to those living in the Southern and Western states and not a case of failure to cure has as yet been reported to us; we were fortunate to obtain the recipe for this cure from a physician who had used it constantly in his practice for thirty years with great success. It is an infallable remedy for this disease and those living in low and swampy localities, ought to have it always at hand. It is much superior and less harmful to the system than quinine. **It acts more promptly and the cure is more complete.** With every package is enclosed a small vial of vegetable liver pills, with explicit directions how to keep the system in condition to guard against malaria.

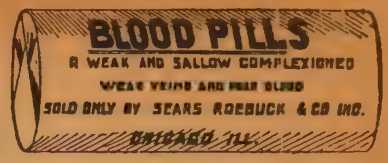
Orange Wine Stomach Bitters.

Guaranteed Absolutely Pure and the Highest Grade on the Market.

Put up in extra large bottles holding 1 1-2 pints.



DO NOT COMPARE OUR ORANGE WINE STOMACH BITTERS with the bitters that are being sold by retail druggists generally at $1.00 to $1.50 a bottle, bitters that are made from the very cheapest ingredients. Our Orange Wine Stomach Bitters are made from wine distilled from the fruit of the Seville Orange tree in combination with herbs well known for their tonic and healing effect on the stomach. **Order 1 dozen bottles.** You can sell them at $1.00 each with profit enough so that several bottles will cost you nothing.

This is a pleasant bitters. As before explained, it is made from a wine distilled from the fruit of the Seville orange tree in combination with herbs well known for their tonic and healing effects on the stomach. As an appetizer there is no bitters made that will equal it, and it is a guaranteed cure for dyspepsia when its use is continued for some time. As a general bracer up of the whole system it has no equal, and the taste is so delicious that the most fastidious enjoy taking it. **Owing to the intrinsic and widely established therapeutic value** of its chief constituents, which are necessary to good digestion, this preparation stands unequaled. While furnishing admirable means for treating gastric ailments, indigestion, want of appetite, malarial diseases, low spirits, and nervousness, it removes that tired feeling and heals the derangements generally, will purify the blood, the bones, muscles, and the nerves receive new force, brain power is supplied and health and vigor restored. It exerts a most wonderful power in sustaining the system during arduous labors and journeys. It stimulates respiration and the brain by increasing the blood supply, increases the heart's action, and under its daily use an extra amount of labor can be borne without suffering. It is an agreeable and wholesome stimulant, and imparts a pleasant taste with an agreeable sense of warmth which permeates the entire system. **Don't buy bitters from your local druggist** unless you are acquainted with the reputation of the manufacturers and thus know that the ingredients contained are of the highest grade. **Understand, every bottle of the Orange Wine Stomach Bitters is sold with our positive guarantee** that they are made from the fruits of the Seville orange tree in combination with 17 different roots and herbs in such a manner that the greatest beneficial effects are obtained.

OUR OFFER. Send us 85c for a bottle of our Orange Wine Stomach Bitters, and if you are not greatly benefitted, if you do not find it superior to any bitters on the market, return it at our expense and we will cheerfully refund your money.

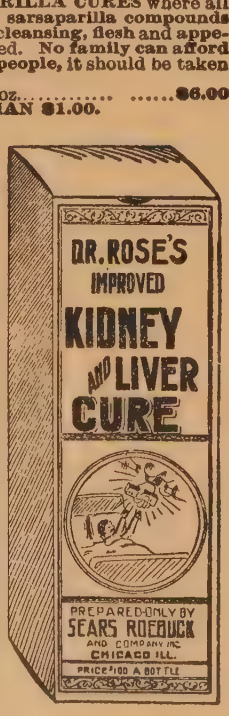
HAMMOND'S SARSAPARILLA.

Cuaranteed the Best on the Market.

There is no other Sarsaparilla made that will compare with it.

Our price, per large bottle, 59c; per doz., $6.00. Never retails at less than $1.00.

Dr. Hammond's Sarsaparilla combines in an agreeable form the medicinal properties of the most approved alterative and blood purifying remedies of the vegetable kingdom. Dr. Hammond's Sarsaparilla will not cure everything, but the fact that on the purity and vitality of the blood depends the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, lead to the conclusion that a remedy which gives life and vigor to the blood and eradicates scrofula and other impurities, as this preparation undoubtedly does, must cure and prevent many diseases. Hence the field of its usefulness is an endless one, and we are warranted in recommending it for all derangements caused by an unnatural state of the blood.



FOR SCROFULA. Dr. Hammond's Sarsaparilla is the greatest known remedy for scrofula, and there is no other disease that is so general among our population. **ALMOST EVERY INDIVIDUAL HAS THIS LATENT POISON COURSING THE VEINS.** Its alarming fatality is not realized because consumption and other diseases are reported as the causes of deaths, many of which are the result of scrofula. This scrofulous taint weakens the energies of life, and constitutions contaminated by it are more susceptible to disease and have less physical force to withstand it. Persons afflicted with scrofulous sores endure intense suffering which, like the gratitude they feel to a remedy which cures them, cannot be fully appreciated by others. Scrofulous affection is hereditary, and may be transmitted, without appearing, through several generations, and then assume its worst forms. The indications of scrofula are many and varied. The following are among its prominent characterisiics: Pallid countenance, a bluish white transparent complexion, inflamed eyelids, eruptions on the scalp and various parts of the body, irregular appetite, sometimes keen, at others, dainty; bowels irregular, a general lassitude and debility which takes away all energy or desire for action, business or labor. Scrofula is most dangerous when it seats itself upon the lungs, producing **tubercular consumption.** It is not, however, confined to any part of the body, as it attacks the lungs, liver and kidneys, also the digestive and uterine apparatus, inducing and often resulting in a long train of diseases such as **consumption, ulceration of the liver, stomach or kidneys,** eruptions and eruptive diseases of the skin, **ulcers, tumors,** eryesipelas, **salt rheum,** blotches, postules, tetter, **pain in the bones, side or head,** ring worm, scald head, **catarrh,** dyspepsia, **female weaknesses, leucorrhœa** arrising from internal ulceration and uterine diseases aggravated by low condition of the system or impure state of blood, **dropsy, emaciation, general debility, that tired feeling.**

OUR SARSAPARILLA is a purely scientific preparation. It is carefully prepared from the most powerful, yet perfectly safe and harmless alteratives and blood purifying agents, selected from the vegetable kingdom. This preparation **does not contain mercury** or arsenic in any form or combination whatever. **OUR SARSAPARILLA CURES** where all others fail. It combines the merits of all other **sarsaparilla compounds** with defects of none. **For blood making, blood cleansing, flesh and appetite** producing **OUR SARSAPARILLA** is unequaled. **No family can afford to be without it. For infants, children, grown people,** it should be taken regularly. **OUR PRICES ARE VERY LOW.**

Rr. Rose's Dyspepsia Powders.

DYSPEPSIA RELIEF SURE FOR 40c. A remedy of remarkable efficacy in Dyspepsia and all troubles of like nature. It acts upon the food as digester and transforms starchy food into soluble and easily digested principles, thus relieving the stomach and allowing rest and also giving tone to that organ. By taking a powder just before a meal you prevent many of the ills brought on by an irreliable stomach such as dyspepsia, sour stomach, heartburn, indigestion, constipation, distress after eating, belching of wind, and in truth, it can be said that it is a true assistant to digestion. It never fails to relieve, no matter how severe the case may be. A trial is all that is asked for. A single box even will convince any sufferer of the remarkable results obtained from the use of these powders.

SPECIAL FAMILY DEPARTMENT.

FAMILY REMEDIES.

Simple, Useful, Necessary, and Known to Everyone.

We list here a few useful articles which will be recognized by everyone as valuable to have in every household. We guarantee the **freshness, strength and purity of each,** as they are carefully put up by our experienced chemists in our own laboratory. It is scarcely necessary for us to endeavor to impress on every head of a family the great importance in a time of sickness of having a few simple remedies not only near at hand, but also of **full strength and purity.** Useless medicines not only waste your money but also **cause much bodily harm** and lead to more serious sickness. We will **stake our reputation on the strength and purity of our Family Remedies and Useful Articles.** Let this be your motto always, buy from a responsible house whose reputation is established for honorable dealing. We wish our customers to know that we look on them as friends and endeavor to treat them as such. We sympathize with them in their troubles, and are only too happy when we are able to help them either in **giving advice or saving them money.** Study the following list well. **Our prices are so low that the expense of having a few of them in the house is very small,** and besides having the satisfaction of knowing of their **good quality.**

OUR HOMEOPATHIC REMEDIES.

Our Homœopathic Specifics are prepared under the supervision of an old experienced Homœopathic physician. Great care is taken in preparing them according to the rules laid down by the highest authorities on homeopathy, and only the purest drugs used. Every one of the following specifics is a special cure for the disease named on it. **Adults take 6 pellets, children from 1 to 3 according to age,** and from two to four doses are to be taken every day according to the severity of the case. We ask the special attention of all our customers to these **high grade remedies.** If you have them near at hand, we guarantee they will **save you many a doctor's bill,** and what of more consequence, quickly relieve any suffering member of the family and ward off more serious sickness. **We make the price as low as we possibly can** in order that they may be within reach of every one of our customers, **only 18c each bottle,** with the exception of three rare ones which of necessity we require to make a higher price.

A SPECIAL OFFER.

As an inducement to give these Remedies a thorough trial, we will allow you to select 12 cures, including the 60c ones. Make your own selection, one or more of any kind, and we will put them in a neat case such as we represent here and only charge you $1.50. No family can afford to neglect this great offer.

A 12 BOX CASE will save you many dollars doctor's bills in a year and may save your life. No family should be without a case of our Homœopathic Remedies.

Saves Life

Sears, Roebuck & Co.'s Family Medicine Case.

:: CONVENIENT AND RELIABLE ::

No. D1827 Sears, Roebuck & Co.'s Family Medicine Case, Convenient and Reliable. A most useful and really indispensible household necessity. Wishing to save our customers every cent possible and give them the benefit of our best knowledge and experience we have had our physician and chemist prepare in convenient form a number of reliable remedies such as are daily used by the leading physicians in the country when called in to prescribe in cases of sickness. We do not wish altogether to supplant the doctor, as we consider him a necessary factor in society. But we recognize the fact that many useful lives are lost because help is not obtained in time, and therefore desire to place within the reach of all our customers at a nominal price the means to avert serious sickness, or at least hold such cases in check till a doctor can be obtained. We also know that a doctor's bill and a druggist's account is frequently a great drain on many a pocketbook, already sadly depleted by the ordinary calls of existence. We thus offer you the means to combat the simple ailments of life without such expense. The following are the remedies we have selected as being the most useful.

No. 1. **COLD IN THE HEAD**—Will cure quinsy, tonsilitis, cold in the head, influenza, and many of the milder troubles arising from cold.
No. 2. **COLIC**—Very useful for all childish pains, such as in cramps, colic, or for the restlessness of teething, diarrhœa, etc.
No. 3. **COUGH**—Valuable in coughs, bronchitis, hoarseness and any trouble in throat and chest arising from cold.
No. 4. **CONSTIPATION**—Will relieve obstinate cases of constipation, which is often the cause of headache, biliousness, offensive breath, etc.
No. 5. **DIARRHŒA**—Useful and a sure cure for any form of diarrhœa, cholera morbus, cholera infantum, sour stomach, etc.
No. 6. **HEADACHE**—Good for headache of any sort, fever, cold, nervousness, la-grippe, etc.
No. 7. **TONIC**—For any weakened condition of the system.
No. 8. **ALTERATIVE**—For impure blood, boils, scrofula, ulcers, eczema, etc.
No. 9. **DYSPEPSIA**—From any of the ordinary causes.
No. 10. **KIDNEY AND LIVER**—To remove or cure all diseases of the organs.
No. 11. **MALARIAL**—To be used when quinine fails, or when the patient cannot take it.
No. 12. **RHEUMATIC**—A true remedy.
No. 13. **NERVOUS TROUBLES**—Calms and sooths; will relieve nervousness in any form.
No. 14. **HEART REGULATOR**—A splendid tonic for the heart.
No. 15. **LIVER CORRECTOR**—For biliousness, jaundice, sallow complexion, sour stomach, &c.
No. 16. **KIDNEY DISORDERS**—Gently stimulates the kidneys and relieves urinary troubles in both old and young.
No. 17. **BRONCHIAL**—For difficult breathing, pain in the chest, cold in the bronchial tubes.
No. 18. **THROAT**—For hoarseness, tickling in throat; useful for speakers and singers.
No. 19. **NEURALGIA**—For the relief of neuralgia, sciatica, &c.
No. 20. **FEVER**—For all kinds of fever, especially that arising from cold.
No. 21. **CROUP**—For children; to be given when the first symptom appears.
No. 22. **MUMPS**—Give regularly and follow instructions in our Medical Guide.
No. 23. **PLEURISY**—For pain in the chest on breathing and coughing.
No. 24. **PIMPLES**—For skin blemishes.

OUR GREAT OFFER We will allow you to select any 12 of the above remedies, which selection we will put up in a **handsome black cloth covered case for $1.50.** We will send with each case a **book giving full instructions** how to use these remedies and containing other valuable information for the care of the sick.

FOR $2.50 we will send you the 24 remedies complete with our valuable book of instructions.

Remember that we are the only firm in the country putting up a reliable Medicine Case for family use.

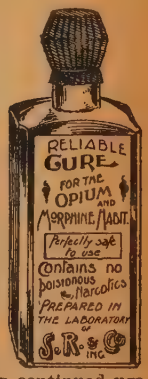
SOMONE Sweet refreshing sleep

A Reliable Remedy for Sleeplessness.



We ask any of our customers who may be troubled with insomnia, who cannot sleep at nights, to give this valuable remedy a trial. No matter from what cause the sleeplessness arises, a sound sleep will be procured by its use, and you will awake in the morning refreshed, strengthened and cheerful; no bad effects from its use. We guarantee it to contain no opium, morphine or poisonous narcotics of any kind whatever. It is a vegetable preparation composed of herbs soothing and healing to the entire system. It can be used in safety by the weakest and most delicate and is a boon to those of nervous dispositions. A single dose will strengthen and invigorate them and cause them to forget their troubles. Ladies troubled with nervous spells should always have a bottle at hand. A dose or two in time will save them many hours of agony and serious discomfort and often prevent total collapse of the nervous system. It has a marvelous effect on those afflicted with nervous prostration, acting like magic in restoring the nerves to their normal condition and causing a strong healthy feeling to prevail throughout the whole body. It quiets the nervous excitement and muscular trembling caused by the excessive use of liquor, and acts as an antidote to the liquor habit. Full directions accompany each bottle how to use it both for sleeplessness and nervous troubles,

:CURE:

FOR THE

..OPIUM AND MORPHIA HABIT..

We here offer a perfectly safe and reliable cure to those addicted to the habit of using opium or morphia in any form or manner whatever. **We guarantee this preparation to be absolutely harmless,** to contain no poisonous narcotics. Can be taken freely without producing any of the deletarious effects on the system, such as are caused by the use of opium and morphia. Immediately on taking a dose of this remedy a calming and soothing effect is produced. It acts as a tonic to the nerves; its use will completely destroy that terrible craving for morphine in those who are victims to the deadly habit of taking these poisonous drugs and free them from their bondage, restoring their health and make them feel like living again. A dose can be taken whenever a craving for morphia or opium exists; it will act at first as a perfect substitute, rendering the patient independent of these poisonous drugs, and after continued use for a short period the nerves will become strong and the general health improved, so that the remedy can be taken at longer intervals and soon altogether discontinued, then the cure is complete.

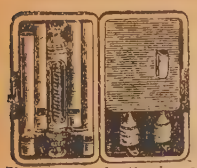
SANITARY DISINFECTANT.

A GOOD RELIABLE DISINFECTANT . . . .IS WORTH.... Its Weight .. In Gold ..



We here offer to our customers the most powerful Disinfectant, Deodorizer and Antiseptic known to science. It is non-poisonous, and when diluted with water, as described on the label of each can, it is the cheapest disinfectant ever offered to the public. Can be used to disinfect drains, sinks, gullies, urinals, water closets, farm yards and buildings, chicken pens, rabbit-hutches, bird cages, cattle trucks, slaughter houses, stables, kennels, ash barrels, garbage cans. It kills all disease germs and should be used for general disinfecting purposes. It is also one of the best insecticides; will destroy fleas on dogs and other animals, lice on chickens, cures mange on animals, makes an excellent and cheap sheep dipping; will also protect animals from the torment of flies, mosquitoes, midges, gnats, etc. It will also destroy insects on plants and trees without any injury to the plants or trees themselves, and destroy weeds on garden paths.

It will purify the air wherever it is used, remove all foul smells, destroying all germs and pests of every kind.

In order to save all the money possible to our customers we prepare this Sanitary Disinfectant in a very concentrated form. One pint will make from one to five gallons according to the purpose required. It mixes readily with water, forming a white, milky fluid. Agreeable and pleasant to use by the most delicate.

Toilet and Complexion Brushes.

D 1002. **The "Salamander" Rubber Toilet Brush.** Patented July 8, 1890. This improved rubber toilet brush having two different surfaces, makes it the best toilet brush ever made. The side with the diamond points will cleanse the hands of all mechanics, and will keep their hands soft and in good condition. Machinists, Printers, Blacksmiths, Penmen, Shoemakers, and in fact all whose hands become stained by their labor. The surface that has the heavy corrugations will clean the hands of the most delicate lady or any whose flesh is tender, without hurting the skin or making it rough. This brush will remove paint, tar or grease from clothing by simply using soap and water. All who use pumice to clean their hands will find that this brush removes the stains cleaner, and will not leave the hands sore, but soft and clean. For bath use this brush has no equal, and is the only brush that will float in water.

Highly Recommended Toilet Preparations.

Our special line of articles for the toilet cannot be equaled by any other house either in this country or in Europe, on account of their good and harmless quality and the magical effects produced. They are prepared by a **specialist who has made a life study of the science of improving and beautifying the skin, hair and teeth.** It is in the nature of the human family from the savage to the most civilized to use the best means obtainable, by which they can render themselves more pleasing and attractive to others. It is a duty and a pleasure we owe to one another. It is almost criminal to go about with a repulsive complexion, etc., when the means to render yourself attractive are so easily obtainable.

		Each	Doz.
D 1079	**Lavender Lotion.** This lotion is composed of the purest ingredients selected without regard to expense. Nothing on the market can compare to it as a beautifier of the complexion. **Full directions with each bottle**	$.75	7.50
D 1080	**Almond Nut Cream.** A cleansing, cooling, excellent face cream, clears the skin from wrinkles, tan, freckles, etc., rendering it soft and white	.50	5.00
D 1081	**Secret de Ninon.** For freckles. These blemishes are very annoying especially to those with pretty complexions. This preparation will remove freckles if the directions on the bottle are followed, and will leave the skin in a natural healthy condition	.75	8.50
D 1082	**Depilatory.** For removing superfluous hair. Nothing disfigures a woman's face so much as an unnatural growth of hair. This preparation removes all hair from the skin in one or two applications, when the directions on the bottle are carefully followed..	.75	8.50

D 1083 **Witch Hazel Toilet Cream.** Each Doz
This is an elegant preparation for the skin when it is chapped and rough. A few applications well rubbed in render the skin soft and velvety. It is also good for removing sunburn and freckles. It will prevent the skin from chapping or discoloring when exposed to the cold, if used before going out. It does not leave the skin greasy or sticky. Gloves can be worn immediately after using it without soiling them..... **$.25 $2.50**

D 1184 **Camphorated Cold Cream.** Very fine for chapped Lips, Face or Hands. Keeps the skin smooth..... **0.15 1.50**

D 1185 **Arsenic Complexion Wafers.** These Wafers can be taken without any fear of harm resulting from their use. They are an excellent medicine for giving to the complexion a clearness and brilliancy not obtainable by external applications, at the same time they improve the general health, causing the figure to grow plump and round.
Small size..... **0.40 4.25**
Large size..... **0.75 8.00**

D 1186 **Water of Youth.** Each Doz.
This is a simple preparation much used by a famous French beauty of the last century. After using it for a few days, it gives the skin a youthful fresh softness with a perfect tint.... **$0.75 $8.50**

D 1187 **Rouge.** A harmless preparation for giving color to the cheeks and lips; it gives a perfectly natural pretty color..... **0.50 5.00**

D 1188 **Face Powder.** There are a good number of powders for the face on the market, ours we claim to be the superior of any; it is harmless, almost invisible when used rightly with a very enchanting effect. It is put up in three shades to suit the different complexions, white, pink and brunette.

HARDWARE DEPARTMENT

SO MUCH MONEY CAN BE SAVED BY BUYING YOUR HARDWARE AT WHOLESALE PRICES that you cannot afford to overlook this department. FREIGHT RATES ARE LOW on this line; nearly everything in HARDWARE goes at third or fourth-class freight, especially the heaviest goods. Consult our table of freight rates on page 5 and you will see the freight will amount to next to nothing as compared with what you will save in price.

QUALITY IS GUARANTEED on everything we offer in this line. We handle only standard goods, the product of well-known and reliable manufacturers.

WE DO NOT HANDLE TRASHY GOODS; we believe the best is always the cheapest, and we can save you 25% to 50% on everything in the hardware line. If you place your order with us it will mean we will get your future orders, as well as the orders of your friends and neighbors.

IF YOU CONTEMPLATE BUILDING A HOUSE, BARN, GRANARY or other building, consult this catalogue for prices on your **Hardware, Doors, Sash, Paints etc.,** or **get your carpenter** to make out a bill of just what material you will require in this line and let us quote you prices. **We will save you money;** if we don't sell you, we will compel some dealer to sell you the cheapest bill he ever sold in his life. **WHEN BUILDING,** DON'T BUY THIS CLASS OF GOODS from your dealer until you have got our figures. **We will open your eyes in the saving.**

CARPENTERS AND BUILDERS are especially requested to consult this Catalogue for prices on **Tools of all descriptions,** and for further information **Send for our Free Tool Catalogue.** **BLACKSMITHS AND WAGONMAKERS** are invited to carefully note our prices on everything in their line and for further particulars SEND FOR OUR FREE CATALOGUE of **Blacksmiths' and Wagonmakers' Tools and Supplies.**

SPECIAL SEPARATE BOOKLETS are issued showing large illustrations and very complete descriptions of the following special lies: AGRICULTURAL IMPLEMENTS; POULTRY NETTING and WIRE FENCING; SCALES; FARM, CHURCH and SCHOOL HOUSE BELLS; LAWN MOWERS; PORTABLE FORGES; STEEL SAFES; ICE CREAM FREEZERS; REFRIGERATORS; WRINGERS; WASHING MACHINES; OIL and GASOLINE STOVES and WOOD and COAL STOVES. **THESE BOOKLETS ARE FREE** and will be sent to any address by mail, postpaid, on application.

OUR LIBERAL TERMS: All hardware (except such as must be paid for in advance) will be sent to any address by **Freight or Express,** C. O. D., subject to examination, on receipt of **one-fourth** the amount of purchase, balance and transportation charges payable after goods are received. THREE PER CENT. CASH DISCOUNT allowed if cash in full accompanies your order, EXCEPT on NAILS and BARBED WIRE, which are NET CASH in all cases.

OUR CLUB ORDER PLAN as fully explained on page 4, is especially recommended to your consideration when ordering hardware. **Your neighbors** will surely want something in this line and gladly join with you in making up an order.

NAILS

WE ARE HEADQUARTERS ON NAILS and will not be undersold by anyone. **It is a common practice** with hardware dealers to offer nails at cost or below cost **with the condition** that the other goods be bought from them. **This gives them a chance to get their profit** on nails by adding to the other goods.

BEWARE OF THIS SCHEME. Our prices on nails are without any such conditions. **If you want other goods** we will be glad to receive your order for them at our regular prices. **But we want to sell the nails anyway.**

AS PRICES ON NAILS ARE CONSTANTLY FLUCTUATING we cannot print prices which will hold for the season, **but you can always find them** quoted in our **Grocery Price List,** which is revised and issued weekly and is sent free to anyone on request. If you should send us an order for nails, they will be charged at the **lowest price on the day your order is received.**

NAILS TAKE THE LOWEST FREIGHT RATE, FOURTH-CLASS.

Cut Tacks.

Tacks are sold in packages of various sizes, known as full weights half weights, quarter weights and skins. The latter mostly paper and twine. The size known as half weights is most convenient for ordinary use and is what is sold by the best and most reliable dealers. All tacks quoted by us are guaranteed to be strictly genuine half weight papers. For ingrain carpet use 8 oz. tacks; for Brussels carpet use 10 oz. tacks; for extra thick Brussels carpet use 12 oz. tacks. To tack curtains on spring shade rollers use 1 oz. tacks. There are 370 tacks in a **half weight** paper of 8 oz. cut tacks or nearly four times as many as in **count** tacks of 100 in a paper.

He is Busy Telling his Friends and Neighbors how to Save their Dollars.

CHARLES CITY, IA., Jan. 29, 1897.

DEAR SIRS: I take pleasure in writing and acknowledging the safe arrival of the goods, and they are the best fit I ever had, and good quality combined. Now I must thank you for the prompt response, and I shall do all in my power for your future orders from this locality, and I am willing to admit that you have succeeded in capturing my future trade for one, and I hope to send in a big order soon. I appreciate what you have done for me and shall always feel indebted to you, and shall always say a good word in your favor, and I must say that if times were not so hard I would have been able to order sooner; but my neighbors say that as soon as they can they want me to order for them, as some of them cannot write but German, and others cannot write any. So I am waiting and hoping, for I am busy telling them how to save a dollar on two dollars,

Your servant.
JOHN M. BILGO.

Cape Proves Satisfactory.

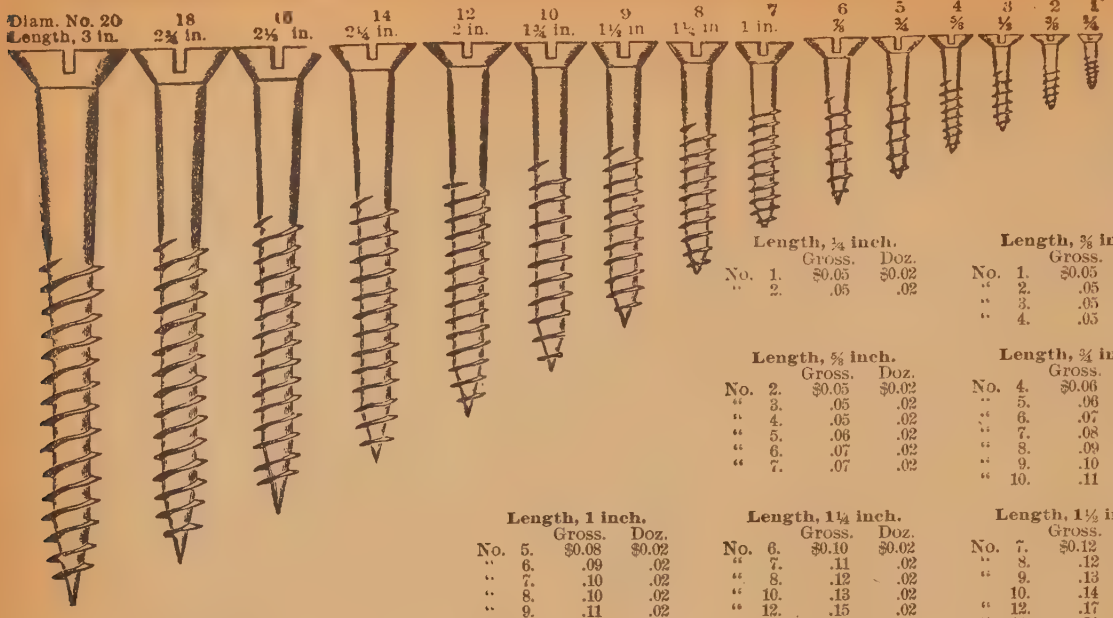
PARKERVILLE, KAN., Jan. 17, 1897.

SEARS, ROEBUCK & CO.

DEAR SIRS: I have received the cape in good order, have tried it and it proves more than satisfactory. It is as good as a $6.00 cape here. It is a perfect one and I am well pleased with it. With many thanks to you, I am, till I send for another order soon, Yours truly, E. SAWYER.

Will Recommend us to His Friends.

NO. BANNFORD. CT., Jan. 19, 1897.



SEARS, ROEBUCK & CO.

DEAR SIRS: I received things all right and must say I was more than pleased with them. Everything is more than represented to be. I shall recommend you to all of my friends. Those who have seen the fascinator say they don't see how you can sell them for such a price. You cannot get them here for that price like this. I am respectfully yours.

MISS F. BARKER.

CUSTOMERS WILL BEAR IN MIND THAT POSTAGE RATE IS 1 CENT PER OUNCE FOR MERCHANDISE. ALWAYS SEND EXTRA FOR POSTAGE.

The cut below shows exact sizes of all screws up to 3 inches in length and No. 20 in diameter. Hence in ordering wood, blued, brass or nickel plated screws, you can tell from the cut what size you will need.

"Every one Passes Compliments on my Clothes Being so Nice."

DALTON, HOPKINS CO., KY., Jan. 16, 1897.

SEARS, ROEBUCK & CO.

GENTLEMEN: Accept my sincere thanks for the suit of clothes that I ordered, lot 6 and invoice T32867. I received them in due time and they were to order just to a "T," and I am so well pleased with them. I don't think I ever got such a bargain from anyone in my life. Everybody passes compliments on my clothes being so nice and fitting so nice, and being so cheap, too. I think they will bring you in more orders as they speak for themselves and show what they are more than anyone can speak for you. I am personally acquainted with some of your customers. Mr. Lonzo Dever, of Providence, Ky., ordered a mackintosh, and he says he couldn't have been better pleased. You just ought to hear how merchants here in those retail stores run your firm down. You know they say that you are taking their customers and they preach their trade. I am not very able to purchase much, but what I do buy I expect to buy of Sears, Roebuck & Co., Chicago, Ills.

Respectfully yours, WM. Q. HODGES.

N. B. Please send me a Catalogue of your Capes and Cloaks. W. Q. H.

Will do All He Can for Us.

DE MOTTE, IND., Jan. 15, 1897.

SEARS, ROEBUCK & CO.

DEAR SIRS: The suit I ordered of you came all O. K. I am well pleased with it, and will show it to my friends and will do all I can in your behalf.

Yours respectfully, HARRY E. MOATE.

More than Pleased with our Upright Dealings. Furniture Admired by All.

OREGONIA, OHIO, Jan. 18, 1897.

SEARS, ROEBUCK & CO., Chicago, Ill.

GENTLEMEN: Bed room set No. 886 is appreciated more and more every day and is admired by all who see it. I am more than pleased with your upright dealings. I recommend your house wherever I go. You may expect orders from me in the future.

Very respectfully, L. R. ROBERTSON.

The Goods Were Carefully Packed.

HOPE, IND., Jan., 1897.

SEARS, ROEBUCK & CO., Chicago.

DEAR SIRS: I received my box of goods No. 342847 all right in good order. I am well pleased and will send you another order by and by. I wish to compliment your way of doing business. The goods were carefully packed. Yours truly, FRANK H. KEMP.

The People won't Believe that he Paid only $12.00 for a $25.00 Watch.

WHITEWATER FALLS, MINN., Jan. 18, 1897.

SEARS, ROEBUCK & CO., Chicago, Ill.

GENTS: I received the watch which I ordered of you in due time, and am very much pleased with it. It is as represented, and is an accurate timekeeper. A certain jeweler told me it would cost at least $25 here, and people hardly believe me when I tell them I only paid $12 for it. Enclosed find 15c. postage stamps, for one of your large cousumers' guides. Please send it as soon as convenient.

Yours respectfully, JOEY SANDS.

Will Recommend Our House Wherever He Can.

GREENVILLE, PA., Jan. 12, 1897.

SEARS, ROEBUCK & CO., Chicago, Ill.

DEAR SIRS:—I write you to inform you that I received the suit of clothes ordered of you some days ago and I must say I am well satisfied; they fit good, better than I had expected. I have not had a chance as yet to see and show them to my freinds but intend to do so as opportunity allows. I will recommend your house to them, as I know you will do as you say you will. I recommend your house wherever I can, and hope you will get lots of orders.

I am yours truly, JAS. E. JACKSON.

BARBED WIRE SMOOTH WIRE

POULTRY NETTING

WOVEN WIRE FENCING

WIRE GATES WIRE SCREENS

Everything in Wire at Manufacturers' Lowest Prices.

WE CAN SAVE YOU MONEY ON YOUR BARBED WIRE FENCE, YOUR SMOOTH WIRE FENCE, YOUR POULTRY NETTING, YOUR SHEEP AND HOG FENCING your wire screen cloth and screen doors. DON'T BUY ELSEWHERE until you have consulted our prices.

ABOUT BARBED FENCE WIRE. For this season's supply of barbed wire we have arranged with three of the largest manufacturers in America at JOLIET, ILL., PITTSBURG, PA., ST. LOUIS, MO., and will make shipment from the point nearest our customers. The barbed wire we offer will be the highest grade made, and our prices will be below any competition, but as the price is constantly changing we can ONLY QUOTE PRICE ON APPLICATION. BARBED FENCE WIRE will always be NET CASH WITH ORDER—NO DISCOUNT.

WOVEN WIRE NETTING FOR POULTRY, FENCE, SCREEN, ETC. WE OFFER ONLY THE BEST GRADE OF GOODS MANUFACTURED and for less money than inferior goods are sold by others.

YOU SHOULD HAVE THE BEST and that you may have the best and that at a lower price than you can possibly buy elsewhere, we have critically examined the products of each of the leading manufacturers and have selected in each line the VERY BEST GOODS MADE, WE HAVE REJECTED ALL SECOND GRADE GOODS and made our contracts for such large quantities for cash that we can name you prices heretofore unknown.

OUR WIRE GOODS WILL BE FOUND SUPERIOR to that carried by the average retail dealer or offered by other mail order houses. OUR WIRE GOODS are only the highest grade products of the very largest and most reliable manufacturers in America. WE OFFER YOU THESE GOODS IN ALL THE VARIOUS SIZE MESHES AND SIZE WIRE suitable for the different uses for the RANCH, FARM, LAWN AND GARDEN.

OUR BINDING GUARANTEE. We guarantee all our Fencing and Netting to be made of size wire as stated in our description. WHEN CONPARING OUR PRICES WITH OTHERS please remember this and be sure competing price is of the same size wire. WE GUARANTEE EACH BALE to contain quantity specified

ABOUT THE FREIGHT. Freight amounts to next to nothing compared with what you will save in price. For 500 miles it will, as a rule, add not more than FIVE PER CENT to our cost, and THIS THE CASH DISCOUNT NEARLY COVERS.

TERMS. We will ship all wire goods, except barbed and smooth wire, by freight, C. O. D., subject to examination, on receipt of ONE-FOURTH the amount of purchase, balance and freight charges payable at your freight depot. DISCOUNT OF THREE PER CENT. allowed if cash in full accompanies your order, except on barbed or smooth wire, which are net cash with order. NEARLY ALL OUR CUSTOMERS SEND CASH IN FULL.

Barbed Fence Wire.

There is hardly anyone who now uses 4-point wire, as they have found by experience that 2-point Glidden patent wire turns all stock, looks better and is not so liable to breakage. There is also a little more in length to the pound. We can furnish 4-point wire if our customers insist on having it. The hog wire has barbs about three inches apart, cattle wire about six inches apart. Price is liable to advance or decline any day so we cannot quote a price for the season. For price see our grocery list which is issued weekly and sent free on request. If you haven't our grocery list write us for price.

Barbed wire takes very lowest freight rate. 4th class; see pages 5 and 6 for freight rates.

Don't build a rod of fence until you get our latest quotations on wire, staples, etc.

It's always in our latest grocery list, revised and issued weekly.

We will save you money when you get ready to fence.

The Highest Grade Wire Fencing on the Market.

In the different sizes it is made suitable for all purposes. For lawn, gardens, orchards, cemeteries, parks, farm, pasture, railroads, or elsewhere.

The Acme is the only fencing made of the **Best Bessemer Steel** wire and having the heaviest possible galvanized plate, insuring it against rust.

This our No. 173 Fence, for lawn, garden, etc., can be made very ornamental and beautiful by adding our No. 178 fence ornaments or pickets which we furnish as low as 6½ cents per foot.

Our No. 173 Wire Fencing is especially adapted for beautiful lawn fencing, it is strong enough to stop large animals and small ones cannot get through it.

It is compactly rolled in bales of 20 rods or 330 feet.

DON'T BUY A POOR WIRE FENCE. The Acme Bessemer steel wire fencing is so far superior to all other grades, that it would be cheap at double the price of many.

The Acme will never break, never rust, and the tensile strain it will stand is simply wonderful.

When all other fences give away buy the **Acme** for your **Pasture, your Cowyard** or will endure any general purpose.

Consider our liberal C. O. D. terms and don't forget our 3 per cent discount for cash when ordering and comparing our prices with others.

Genuine Acme Galvanized Woven Bessemer Steel Wire Fencing, mesh made from No. 14 wire (see illustration on page 51 for exact size of wire), with twisted wire rope selvage made from three strands of No. 14 wire. Size of mesh 3x6 inches. This the best general purpose fence, strong enough to stop a bull, fine enough to stop dogs and other small animals.

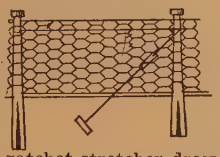
Steel Fence Post.



The strongest, best and cheapest—the only successful metal fence post—is made from a sheet of No. 16 gauge steel, cold rolled in a taper cylinder. This post is 7 feet long, 2¼ inches in diameter at the top, 3½ inches at the bottom, and weighs about 13 pounds.

ADVANTAGES.—No post holes are required; it is driven into the ground. As it is driven it spreads at the bottom and automatically anchors itself. Frost cannot heave it nor fire burn it. It is covered with a solvent guaranteed to resist rust in the ground for 15 years. It will last a lifetime. Five of these posts can be set in the same time required to dig a hole for a wood post. For full description send for our special fence post catalogue, mailed free.

No. 185. The only special tools required for driving our Steel Posts are a Driving Cap, which is placed on the post while setting it, a pair of Tongs for compressing the top of post for the permanent cap, a Wooden Maul. The driving cap must be used.

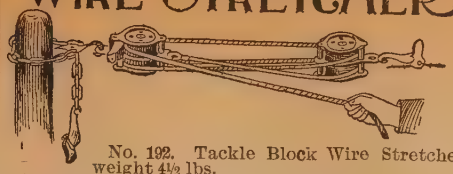
Steel Post for Woven Wire.



No. 185½. For woven wire the post is punched near the top and below for the cable—just the width of the netting. Fasten one end of the web to the end post, notice that it is square, that is, that the twists are above each other true. At the other end pass the top cable through the post and with a ratchet stretcher draw tight, then draw the lower cable until the intermediate wires are straight and even with the cables. Before stretching tight, the top cable should be stapled at intervals to hold it upright. Do not try to stretch the web unnaturally wide. In going over a hill, at the highest post fold the bottom cable back until the web will pass down straight on the other side. In starting up a hill fold the cable back. We can make posts for any other fence and have them ready for shipment in four days after receiving the order. State the kind of fence material you intend to use, and give spacing of the wires.

SCREEN DOORS are no longer considered a luxury but one of the necessities of modern life. The saving of damage to paint, paper, ceiling and furniture, and the saving of labor for cleaning in one season will pay the first cost of screens for a house. The screens which we sell (if given a coat of paint when needed) are practically indestructible and (barring accidents) should last as long as any other door. We have a superior line of these goods, but by buying them direct from the factory in large quantities for cash and selling them direct to the consumer with one small profit added we are able to offer them at prices as low as is usually got for the cheapest screen that can be procured.

No. 1110. Four Panel Screen Doors (same style as shown in picture above) made from kiln dried pine with stiles 3 inches wide. Bottom rail 7 inches wide. Flush mouldings. Put together with hardwood dowels and glued joints. They are finished and painted green with light mouldings, black or green wire cloth—the best in the market—is fastened to the frame by pressing into a groove and made secure with a wedge, avoiding the use of tacks. Stock Markers.

The Burch Tattoo Ear Marker for horses, cattle, sheep, swine and dogs.

It is well known that a mark tattooed into the skin of a man or animal will remain visible as long as the wearer lives. **It cannot be changed or removed** as ear labels or buttons frequently are, and will therefore, prevent fraud and stop all controversies as to the identification of registered animals. It is the only brand or mark which may be applied to a horse without disfiguring.

The markers are fitted with three letters or figures, whichever the purchaser desires, at **$1.80 each.** The letters are interchangeable, and can be quickly removed and others attached in their place. The letters are ½ inch square, and cut out of solid metal. If the letters are kept oiled they should last a life time.

Directions for Using.—First smear the letters with the tattoo oil, punch the ear, and then rub the oil well into the punctures with the thumb or fingers.

It takes three to five days for the ear to heal and the brand to show out clear and distinct.

On a white, pink or yellow skin the brand is a jet black, but on a brown or black skin it makes a clear blue brand.

No. 1220. Marker fitted with three letters or figures.....**$1.80**
No. 1221. Extra letters or figures, each **$0.35**
No. 1222. Tattoo Oil, per bottle (marks 500 ears).....**$0.50**
We can send the Markers by mail when desired.
The postage on each is 25 cents.

The Burch "Bar Brand" Punch.

No. 1223. This instrument is for cutting holes in the ears of animals. The die in this punch cuts out a half-inch oval slit in the ear. **An endless variety of designs and combinations** may be punched in the animal's ear. also the following letters of the alphabet may be made with it; **A, E, F, H, I, K, L, M, N, T, V, W, X** and **Z.** The die in the punch can be turned around to any angle so that the position of the punch and ear of the animal need not be changed while branding. The hole is cut instantly; the die being very sharp, tht animal suffers little or no pain. Owners of stock can register their brand at any county seat and it then becomes their private property. This instrument is one of the cheapest and most durable ever brought out for marking stock. The mark cannot be altered or removed and the holes are not large enough to disfigure the ears. In the accompanying illustration we show a few of the 200 designs that can be produced with this punch. The illustrations are full size. The smallest lamb or pig can be marked with success. The die is made of the finest tool steel and will last for years, in case it should become broken by accident, we can furnish duplicates which can be inserted instantly.

EVERYTHING IN SCALES

YOU CANNOT AFFORD to be without Scales to weigh **EVERYTHING YOU BUY** and **EVERYTHING YOU SELL.**

EVERY FARMER should own either a set of **WAGON SCALES** or **PLATFORM SCALES.**

A FARMER SHOULD NOT sell a load of **Grain**, a **Bale of Cotton**, a **Hog** or a **Steer** that has not been weighed on his own Scales.

YOUR SCALES will check mistakes and detect dishonesty and will pay the cost ten fold in a few years.

WE ARE HEADQUARTERS for everything in the line of Scales. We offer only the **best goods and at prices that cannot be undersold.**

OUR TERMS ARE LIBERAL. We will ship Scales to any address, by freight or express, **C. O. D.**, subject to examination, on receipt of sufficient deposit to pay transportation charges both ways, balance and freight or express charges payable after the goods are received.

DISCOUNT OF THREE PER CENT. allowed if cash in full accompanies your order.

FREIGHT RATES ARE LOW on Scales, they take second and third class rate, and the freight will amount to next to nothing compared with what you will save in cost.

OUR GUARANTEE. We guarantee all Scales to be absolutely perfect as to weight, made of the best material and the **HIGHEST STANDARD ON THE MARKET. There are many cheaper grades on the market. WE HANDLE ONLY THE VERY BEST.**

Best Farm Wagon Scale Made.

We have contracted for a large number of these Scales and at prices that enable us to give values never before given.

WE GUARANTEE THIS THE BEST WAGON SCALE EVER MADE. The construction is very simple and great care has been taken to arrange it so anyone with even ordinary mechanical ideas can erect it successfully. **All the materials are the very best possible.** Brass beams, sliding poise and steel pivots.

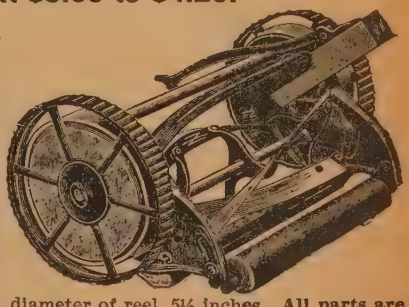
OUR ACME HIGH GRADE LAWN MOWERS.

For the coming season we offer the **Highest Grade Lawn Mowers** at prices that will defy competition. The enormous grade we were favored with last year has induced us to make very extensive preparations for the coming season. We have contracted with one of the largest and most reliable makers in the country for such a large quantity on the basis of cost to produce, that we can now offer our customers a strictly high grade guaranteed Lawn Mower for about one-half the price they would be compelled to pay local dealers. **OUR ACME LAWN MOWERS** are guaranteed the best made. While we invite a close comparison of our prices with those of any other house on strictly high grade machines, we do not wish them compared with inferior machines, which were made to sell and not for service. Every Acme Machine is guaranteed to give perfect satisfaction. The Acme has many reliable improvements not found in other makes.

THE ACME MOWERS

Have the Latest Patent Micrometer Adjustment. The adjusting box is held in position on the frame by a bolt and nut at the end opposite the set screw. By moving the set screw the adjusting box is carried upward or downward, enabling the reel knives, which are carried on the axle, to be adjusted to the cutter bar as may be desired or is necessary. Tightening one screw and loosening the other, brings the reel bars closer to the cutter bar, and vice versa. **We claim this to be the greatest improvement ever made in Lawn Mowers.** The adjustment is not only easy, simple and accurate, but it allows the reel knives or more delicate parts of the apparatus to be adjusted to the cutter bar or heavier part, instead of the reverse, as on other makes. The application of this principle makes another advantage possible, that of a solid and permanent attachment for the cutter bar, thus greatly increasing the strength and wearing qualities of the Mower.

Our $2.35 Razor Blade Acme Lawn Mower.



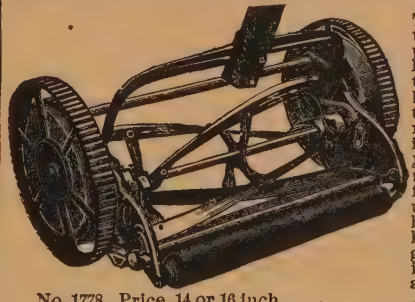
At $2.35 we offer a lawn mower which will compare favorably with any machine you can buy in your local market at double the price. After thorough and exacting tests we offer this lawn mower, confident that it will justify every claim we make for it. It is especially adapted to small lawns. It is extremely light, making it easy to carry from place to place. **Special care** has been taken in the selection of all the material entering into its construction. Simplicity of construction, easy and accurate operation, durability and finish make this undoubtedly the best light mower on the market. The mower has an improved cutter-bar of solid tool steel, tempered and oiled. **The knives** have a positive shear cut and are regulated by the improved micrometer adjustment. **The shafts** run in phosphor bronze bearings, adding greatly to the ease and smoothness of running. **New malleable iron handle brace** made in one piece. **Diameter of traction wheel,** 7 inches; **reel,** 5 inches. **All parts are interchangeable** and can be replaced at once with little expense in case of breakage or wear.

No. 1774. Your choice of 10-inch, 12-inch, 14-inch or 16-inch.....$2.35

Remember there is a 3 per cent. cash discount if cash in full accompanies your order.

Our Acme Lawn Mowers At $3.50 to $4.20.

12, 14 and 16 inch Mower at $3.50; 18 inch at $3.85 and the 20 inch at $4.20. **Three per cent. discount** allowed if cash in full accompanies your order.



This is our standard high grade Acme machine and is greatly improved for this season. The drive wheels are open for one-inch below the tread, though the working parts are completely enclosed. **It is the easiest running lawn mower made** because the handle brace is so attached to the drive wheel that the power is applied to the center of motion. **This machine** is especially designed for cutting thick and heavy grass with ease, the handle having a malleable iron hook which is adjusted to the shrubbery guard, thus holding the machine rigidly to the ground no matter how heavy the grass. In light grass this hook is thrown back on the handle. This mower has our **patent micrometer adjustment, solid steel cutter bar, noiseless ratchet, new malleable iron brace, bearings** of phosphor bronze. The body of this machine is hand painted in cream white and decorated in maroon and gold. **Diameter of traction wheel,** 8½ inches; diameter of reel, 5½ inches. **All parts are interchangeable** and can be duplicated at once in case of breakage or wear.

This mower has been greatly improved for this season. The **drive wheel** has been made open for 2 inches down from the tread, thus making it lighter and of a more elegant appearance. Its working parts are entirely enclosed. It is the **lightest running high grass machine made.** Has our **patent micrometer adjustment,** has solid steel **cutter bar,** has reel knives of highest grade crucible steel, so formed as to give a spiral and shear cut, has our **patent noiseless ratchet,** the most perfect mechanism of the kind. **Reel shafts in phosphor bronze bearings** with a perfect arrangement for taking up any wear. Has our **improved handle brace** of malleable iron in one piece, which is attached to machine before leaving the factory, thus reducing the work of setting up to the minimum, it being only necessary to insert the handle bar and fasten the bolts. The body of the machine is hand painted in cream white and decorated in maroon and gold. **Ratchet wheel** 10 inches in diameter, **reels** 7 inches in diameter. Has 4 knives. **All parts are interchangeable and can be duplcated at once.**

PUMP DEPARTMENT.

PROBABLY THERE IS NO OTHER LINE OF GOODS THAT WE SELL ON WHICH WE CAN SAVE OUR CUSTOMERS MORE MONEY THAN WE CAN ON PUMPS. We fit all our pumps, so any one can set them in the well without any trouble. The only special tool required is a pipe tong. We sell a pipe tong for $1.00, and everyone who has a pump should have one. We have tried to make explanations of pumps so plain that anyone will be able to select the pump best adapted to his needs. **If in doubt, write us, giving us this information: How deep is well? Is force pump or lift pump wanted? How much water is wanted per day? When water is to be drawn from a distance or forced to a distaace, send a rough drawing showing position of pump, position of well, and giving all angles and measurements. Also state quantity of water wanted.** We will select the outfit, which our pump man, with an experience of twenty years, thinks will give you the best satisfaction, and name you our best price for the outfit. **Don't forget our liberal 3% cash discount, when cash in full accompanies your order.**

Pitcher Spout Pump.

This cut represents our Close Top Pitcher Spout Pump. These pumps are made in the **very best manner** and have the revolving bearer which by loosening the set screw allows handle to be placed on either side or back, in any position desired. The cylinders of these pumps are bored true and polished. They have Trip Valves, by which the water may be let out of the pump in the winter by raising the handle until it trips the lower valve. They are fitted with connection for either lead or iron pipe. Pipe is not included in price. See index for pipe. We also make this pump with Brass Lined Cylinder. It is a well known fact that leather plungers operating in brass cylinders are almost indestructible. **We can fully recommend them where the best is wanted.**

Iron and Brass Lined Force Pump.

With Air Chamber, Revolving Bearer and Brass Piston Rod.

This is a Staple Pump for House Use. It is usually placed on a kitchen sink or elevated platform, and used to force water up into a tank or reservoir to supply bath rooms and wash basins. The air chamber is fitted with an outlet into which a draw cock may be screwed if desired. Hose may also be attached to the cock for sprinkling or fire purposes, in which case it is best to put a stop-cock on the upward discharge. These pumps have **brass valve seats,** and are fitted for iron or lead pipe.

No. 1815	No. 4, To fit 1 in. hose coupling.	7.10	8.57

We can fully recommend our Brass-Lined Pumps to be equal to an all brass one and much cheaper. The cylinder is lined with a seamless drawn brass tube. The plunger, piston rod, stuffing nut, and all working parts are brass, and as leather plungers operating in brass cylinders are known to be almost indestructible, **parties wishing a first-class Pump will give them the unhesitating preference.**

Anti-Freezing Wrought Iron Lift Pump.

Suitable for wells not more than 30 feet deep. It measures 4 feet from flange at platform to bottom of cylinder. The flange is adjustable, which makes it especially suitable for drive wells. Shape of spout prevents flooding at the top. Has 3x10 iron cylinder of good quality, fitted for 1¼ inch iron pipe. If well is more than 20 feet deep we recommeud placing a foot valve on end of pipe at bottom of well.

No. 1817 Price for pump as shown in cut.....$2.47

NOTICE.—This price does not include the pipe to reach from the bottom of the cylinder to bottom of well. For pipe see 1955.

OUR PUMPS

MONEY DOESN'T BUY BETTER.

Anti-Freezing Closed Top Lift Pump.

Adapted for wells not more than 30 feet deep. Has revolving top so handle may be placed on either side or at back of spout in any position desired. It measures four feet from platform to bottom of cylinder. The pipe connecting cylinder and pump, screws into the pump at the spout, thus leaving an air space around the pipe above the platform which is a preventative against freezing. The cylinder is of the best quality and is fitted for 1¼ inch pipe unless otherwise ordered. If well is more than 20 feet deep we recommend placing a foot valve on end of pipe at bottom of the well. Pipe to reach from bottom of cylinder to bottom of well is not furnished at prices named below.

Heavy New Pattern Close Top Lift Pump.

Adapted for wells not more than 80 feet deep. The bolts on cap and pitman are large, and will **many times outwear the small ones in ordinary use.** The pipe is screwed into pump just below the spout, which prevents freezing in winter. Has revolving top so handle may be placed in any desired position. Has swinging fulcrum. **The cylinder is of the best quality,** and fitted for 1¼ in. pipe unless otherwise ordered. It measures 4 ft, from flange at platform to bottom of cylinder. For wells not more than 25 or 30 ft. deep order the pump as shown in cut, and enough pipe to reach from bottom of cylinder (4 ft. from platform) to the bottom of well. **Pipe is not included with pump. For price of pipe see 1955.**

When this pump is ordered for well more than 25 or 30 feet deep, the cylinder should be placed within 10 feet of the bottom of well. When so ordered it takes more pump rod and pump rod couplings, and requires extra labor, for which we make an extra charge of 5 cents per foot for each foot the cylinder is put down. This charge is to be added to cost of pump and pipe complete.

NOTICE.—The cost of pipe is not included in above extra charge. We give below a sample order for pump and pipe complete to reach 74 feet from platform with cylinder put down 65 feet.

Heavy Lift Pump with Windmill Head.

Adapted for wells not more than 80 feet deep. May also be used for hand use. Pipe screws into standard at the spout. Has revolving top and swinging fulcrum. **All parts are strong and durable. We can fully recommend it as a first-class pump.** Measures 4 feet from platform to bottom of cylinder. For wells not more than 25 or 30 feet deep order pump as shown in cut and enough 1¼ inch iron pipe to reach from bottom of cylinder (4 feet below platform) to bottom of well. Price of pipe is not included in price of pump. For price of pipe see 1955.

Extra Heavy Lift Pump.

For Stockyard and Heavy Work.

This cut represents our Heavy Set-Length Lift Pump, adapted for stockyards and wells, where large quantities of water are required. It measures 4 feet from flange at platform to bottom of cylinder. **The Set-Lengths** are screwed in the pumps at the spout to prevent freezing in winter. **The stocks are made very heavy and strong,** and the cylinders are large and capable of throwing large quantities of water. **We fully recommend it where a large amount of water is desired.**

Heavy Force Pump.

Adapted for wells not more than sixty feet deep. The pipe which connects cylinder to pump is screwed into pump at the spout, **thus preventing freezing in winter.** It has an outlet in rear of spout where a one inch pipe may be attached if desired, as shown in cut of No. 1870. Hose may be attached to the spout by means of the clevis which we furnish as shown in cut. We can also furnish with cock at spout if so ordered at extra price named below. It measures 4 feet from flange at platform to bottom of cylinder. They are made in two sizes of standards, medium and large. The large pump will give best results in deep wells; fitted for 1¼ inch pipe unless otherwise ordered. When used for force pump, set the thumb screw down tightly; when used as a lift pump, loosen the screw.

Extras.

The above prices are for pump as shown in cut. Price of pipe to reach from bottom of cylinder to bottom of well is not included. For pipe see 1955. If this pump is ordered for well more than 25 or 30 feet deep, the cylinder should be placed within 10 feet of the bottom of the well. When so ordered we make an extra charge of 5 cents per foot for each foot the cylinder is put down. For full information read description of pump No. 1834.

These pumps can also be fitted with cock at spout, (see illustration of pump No .1870) for which we make an extra charge of 50 cents.

These pumps can also be fitted with back attachment, (see illustration of pump No. 1870) for which we make an extra charge of 90 cents.

Wind Mill Force Pump.

This pump is exactly like No. 1860 except it has a windmill head. We can fully recommend both of them as powerful force pumps. Size 8 is fitted for 1½ inch pipe, other sizes fitted for 1¼ inch pipe, unless otherwise ordered.

Extra Heavy Force Pump Standard only with Windmill Head.

For very deep wells we offer this standard only with windmill head and cock spout. Back attachment as shown in illustration of pump No. 1870 can be furnished at extra charge of 50c. if ordered. To make complete outfit besides the standard select the cylinder desired. (See No. 1926 to 1943) Order the required pipe. (See No. 1955) Say how many feet you want cylinder put down, and to cost of standard cylinder and pipe add 5c. per foot for each foot the cylinder is put down, which covers cost of pipe rod, rod couplings, labor, etc. As a guide to making order see No. 1884, adding cost of cylinder selected. We have this standard in two sizes and can have fitted for pipe as large as 3 inches if so ordered, and top outlet any size requested. When no size is mentioned we fit it for 1¼ pipe and tap back outlet for 1 inch pipe. We furnish regular for 6 inch stroke, but can furnish 10 inch stroke if ordered at extra charge named below. When ordered 10 inch stroke state if for tube well purposes or if forked rod is desired.

Underground Valve Force Pump.

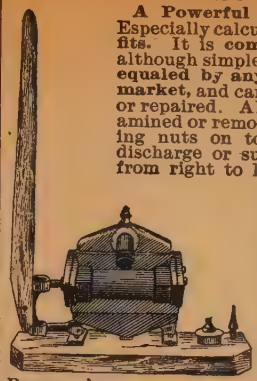
This Pump is especially adapted for 2 inch tubular wells, also 1¼ inch pipe for open or drilled wells. By operating the wheel in the top of the goose neck, the water may be discharged either through the spout or through the underground pipe at the bridge piece below. It differs from other three-way valve pumps in that the operating screw, which is of brass, is below, near the valve, and not at the goose-neck, consequently there is no liability to chill and freeze. The pipe on the right forms the air chamber. When this pump is used for tubular wells, it is made with a cap at the stuffing box which, when unscrewed, leaves an opening large enough to pull the plunger up through without disconnecting the pipe, or disturbing the pump in any way. **All parts of the pump are strong and well made. We can most unhesitatingly recommend this pump as the best of its kind in the market.** This pump is always sent for 2 inch pipe, but may be bushed for smaller sizes. One and one-fourth inch discharge pipe. Goose neck to fit 1 inch hose coupling.

Prices.

No. 1890 6 inch stroke.... ...$7.00
No. 1892 10 inch stroke.... 8.00

Suction pipe and rod coupling connect at B; discharge pipe connects at A.

Extras.



To make complete outfit select cylinder desired, and quantity of pipe wanted for suction, also number of feet of pipe wanted for discharge. State number of feet cylinder shall be put down and in addition to cost of standard cylinder and pipe add 5 cents per foot for each foot the cylinder is put down. For sample order see No. 1886-87.

Tank Pump.

A Powerful Double-Acting Pump. Especially calculated for **thresher's outfits. It is compact and strong,** and although simple in construction, **is unequaled by any other pump in the market,** and can be easily taken apart or repaired. All the valves can be examined or removed by simply unscrewing nuts on top and bottom. The discharge or suction can be changed from right to left by reversing caps. Handles can be changed to either end, making it either right or left. This Tank Pump is so well known it needs no special description. The large number sold in past years is sufficient evidence of its value.

Double-Acting Tank Pumps with Air Chamber.

These Pumps are duplicates of No. 1894 with the exception of air chambers. These pumps are **especially valuable on board ship for washing deck, wetting sails or extinguishing fires,** also around wharves, factories, mills, warehouses, livery stables, lumber yards, irrigating from ditches or shallow wells, spraying fruit trees, shrubs, drives, etc., and any other purpose where a force pump is needed, and when used with our double brake is a powerful fire pump, quickly placed in position in any location.

Wood Pumps.

Our Wood Pumps are made from selected stock, thoroughly painted, striped and varnished. They are carefully wrapped in strong paper for shipment. They are furnished with iron handle brackets and iron spouts. The plunger which is the vital part of a suction pump is of the latest improved pattern. Adapted for wells not more that 30 feet deep.

To Select a Pump.

For wells 20 ft. or less deep use 6 ft. pump.
" 20 to 25 ft, " " 7 ft. "
" 25 to 30 ft. " " 8 ft. "

Bottom of 6 ft. pump comes 2 ft. below platform. Bottom of 7 ft. pump comes 3 ft. below platform. Bottom of 8 ft. pump comes 4 ft. below platform.

Besides the pump order enough tubing of size to match pump to reach from bottom of pump to bottom of well. Tubing comes in lengths of 12 ft. and less. When more than 12 ft. of tubing will be required order a coupling to connect the tubing. Prices of tubing and couplings will be found with each pump.

Stock Pump.

Stock Pump is 7 inches square, 4 inch bore, 10 inch stroke. Capacity 80 gals. per minute. These pumps are particularly adapted to the wants of farmers and stockmen using large quantities of water. They should not be used in wells where the water is more than 15 or 20 ft. from the platform, as the quantity of water which the pump lifts at each stroke would cause it to work hard in deep wells.

Spraying Pump.

The working parts and all parts coming in contact with the liquids are constructed entirely of brass. The construction of the pump requires the pressure on the handle to be all done on the down stroke, the pressure on the cylinder acting as a cushion, and partly forcing the handle up again, thus making it very easy of operation, requiring no foot rest or other device to steady it. The hose can be detached at the top of pump and a nozzle attached in its place, either for **spraying, sprinkling, or throwing a solid stream.** No wrench or other tool is required to make this change. **This feature is peculiar to this pump only.** It is also arranged so that a small stream is discharged with great force from the bottom of the pump into the bucket or barrel, serving to thoroughly agitate the mixture at all times when the pump is in use. The agitator does not lessen the force of the spry at the nozzle. It will be readily seen that the arrangement for attaching the hose at the top of the pump has this advantage over attaching it at the bottom: it does not bring the outside surface of the hose into contact with the acids contained in the solutions, thus adding to the life of the hose. It will throw a solid stream seventy-five feet, and for washing buggies, windows, etc., it is very useful. **It can also be usee for whitewashing trees, barns, outhouses, etc., and for extinguishing fires.**

Pump Cylinders.

By means of the cylinder water is raised, and unless the cylinder is well made no good results can be obtained. A good cylinder must be bored true and plunger must fit accurately. Valves must be simple and durable. The cost of repairing a cylinder is usually more than its first cost, so it pays to get the best. Our cylinders are the best that skilled workmen can produce, and our price as low as equally well made goods can be sold for. Cylinders 10 long have 6 inch stroke and can be used in wells up to 35 feet deep. Cylinders 12 inches long have 6 inch stroke and can be used in wells up to 75 feet deep. Cylinders 16 inches long have 10 inch stroke and can be used in wells up to 200 feet deep. Cylinders 2 inches inches in diameter are fitted for 1 inch pipe. Cylinders 3½ inches in diameter are fitted for 1½ inch pipe. Cylinders 4 inches in diameter are fitted for 2 inch pipe. All others fitted for 1¼ inch pipe.

Foot Valves.

We recommend that Foot Valve and Strainer should be placed on lower end of pipe in wells more than 15 or 18 ft. deep. It makes pump work much easier and the strainer prevents anything from entering the pipe which might clog the valves in cylinder. Made in two sizes.

The Wright '96 Wrench.

Some points of improvement over other leading pipe wrenches.

Will not crush the pipe; is narrower back of the jaw—can get into closer quarters; can be easier operated with one hand; it will always release its grip when its work is done; more surface of thread on screw and nut, which makes it more durable; its checked handle; it being made of iron, will not split or break; it is better balanced, which makes it easier for the operator; in putting on pipe for extention, the handle does not become marred as the wood handle; it has less parts, which makes it less trouble to keep in repair; the jaws can replaced for less money; the spring is so covered there is no danger of its breaking.

BELTING.

Leather Belting.

We sell only the best grades in medium and full weight stock, made from carefully selected hides of oak tannage, and designate the same as Standard A and Standard B grades, **We do not sell the cheap grade of leather belt, as it will not give satisfaction.** If a cheaper belt is wanted we advise the use of a rubber belt.

Double Belts twice the price of single.
Extra heavy belts extra prices.

☞**In ordering state where belts are to run.** We do not guarantee belts run on the quarter turn, unless they are especially made for that purpose.

Endless belts made to order at short notice. The cost of making endless equals the price of 3 feet of belt.

Rubber Belting.

Our Rubber Belting is composed of the best quality of Cotton Duck and India Rubber, made in the best manner possible. These belts will stretch less than any other belts made. On this account the friction always remains firm. Not only is stretch an exceedingly troublesome defect, but it also loosens the friction, and destroys the strength of the belt. **These belts are especially adapted to moist places and agricultural purposes. They are not suitable for thresher or saw-mill belts.** We have this belt in two grades, which we designate as Standard and Extra. We do not guarantee the Standard belt, but it **is all right** for nearly any place where a light, narrow belt is used. For large widths, quick running machinery or extra heavy work, our Extra belt should be used. **We make endless belts only in Extra quality,** For making endless, we charge as much as three feet of belt would cost. **Be careful in making orders for belt, for it is sent as ordered, it will not be taken back or exchanged.**

Stitched Cotton Belt.

We have the strongest Stitched Cotton Belting that is manufactured. The rows of stitches are sewed so close together that the plies **cannot separate. It is Painted with a Composition of a Red Color which Gives it a Good Friction, and Makes it Thoroughly Waterproof.** Oil (no matter in what quantity,) will not injure the belting in the least. We feel confident that the belt will **Give Satisfaction on Any and All Kinds of Works,** as it is thoroughly waterproof, not affected by heat or cold, steam or dampness, or any of the injurious gasses, and will always be found soft and pliable. **Stitched Cotton Belting is Cheaper, More Durable and Much Stronger than Leather Belting,** as has been shown by various tests. This belting is folded in such a manner that it is **Impossible for the Edges to Fray out.** All belting is thoroughly stretched before leaving the factory.

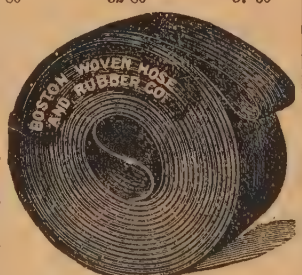
Thresher Belt.



No. 11086 **Strongest and most durable Rubber Thresher Belt manufactured.** It is a well established fact that **cotton belting is far superior to rubber belting** in a great many respects, but rubber belting excels because it does not stretch. In this belt we have combined the good qualities of the cotton belting with the superior qualities of the rubber, and produced the **only belt that will meet all the requirements of a good thresher belt.** This belt is adhered together with rubber friction, and is also sewed closely by the celebrated **"Cross-Stitch,"** which, of itself, is a guarantee of the superiority of this belt.

This is the only rubber belt that we will guarantee for thresher purposes, and in fact is the only rubber belt yet made that will stand the abuse that thresher belts get.

We carry in stock and can ship promptly the following lengths of this endless Thresher belt, all 4-ply. **Actual length is three feet less than stated.**

No. 11088. **Grain King Endless Stitched Canvas Thresher Belt** is far superior to all other canvas thresher belting on account of the process of its manufacture. The splice is made in such a manner that the belt is no thicker at this point, and **is just as strong and flexible as any other part of the belt.** The **"Grain King"** is painted with a composition of a reddish color and is thoroughly waterproof, and is not affected by any change of temperature, neither by oil. **It is a cheap, strong belting.** It is sewed with rows of stitches throughout its entire length, which makes it practically **impossible for the plies to separate.** We carry the following length of this 4-ply belt in stock and can ship promptly. The actual length of these Belts is three feet less than stated.

Tired and Banded Wheels.

(Sarven Patent.)

Cut shows style of flange used on our tired wheels.

The wheels and axles on a buggy are usually completely worn out while the other parts, with slight repairs, would be good for several more years' service. If you have a buggy in this condition, a set of our tired wheels, a set of short bed axles and a coat of paint give you a buggy which will probably last just as long as a new one. Our wheels are made by a reliable factory and closely inspected when we receive them, and any wheels not right are refused. They are tired with a round edge tire, bolted between every spoke. The flange and hub band are shown in above cut. The length of hub is the length where the box goes. We do not set boxes, or weld axles, and cannot furnish boxes only, as they would probably not fit your axles. We do not furnish painted wheels. Buggy paint, varnish, etc., is sold by our grocery department. See index.

11323	3 ft. 8	4 ft.	11.25	160

The above sizes of wheels are those most used, and we aim to carry them in stock at all times ready to fill orders as soon as received. Can also usually furnish wheels in heights of 3 feet 6 inches and 3 feet 10 inches and 3 feet 4 inches and 3 feet 8 inches at same prices without delay, if all other sizes are regular. If no height is mentioned we send 3 feet 8 inches and 4 feet wheels. **In ordering wheels for repair work give length of box in your old wheel, which will be the length of hub required.** All wheels warranted against defects in material or workmanship. Two wheels sold at half the price of a set, one wheel at one-quarter the price of a set. In ordering parts of sets **be sure to give height.**

Steel Axles.

We sell half patent solid collar swelled shoulder steel axles complete with boxing. We cannot furnish boxes only, nor axles without boxes. **A set of short bed axles** (commonly called axle stubs) consists of 4 axles with short bed, which are intended to be welded to old axles. **A set of long bed axles** consists of 4 axles with bed long enough to make axle complete by welding in the center. We sell one half set at one half the price of a full set, and one quarter set at one quarter the price of full set. We cannot weld axles or set boxes.

Wide Tire Metal Wheels.

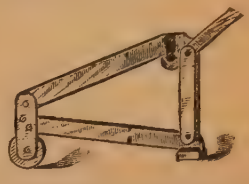
If you and your neighbors would use wide tired wheels, you would have good roads. Made and shipped from Davenport, Iowa, or Springfield, Ohio, according to which is nearest. In ordering give dimensions as indicated below.

The demand for wide tired low metal truck wheels has led us to study the demands of our customers, and caused us to catalogue standard wheels which are made by the best manufacturers, and which can be furnished at the lowest possible cost. The low wheel with wide tire has come to stay. Economy and strength are served when you have a set for use in the hundred and one emergencies arising where they may be used to great advantage. If you now have a new wagon, the gear will outlast two sets of common wood wheels. Buy a set of these up to date wide tired metal wheels, and avoid further expense that is bound to come in the constant use of wood wheels. At the same time, a day's use of these low metal wheels will convince you that you will save the cost of them in a year. You can do alone with them what would require an extra hand with the old style wheels. You can load your wagon twice as easily, and you can haul twice as much more with the same team.

Wide Tire Metal Wheels—Continued

We warrant all these wheels against defective workmanship or material, and if found defective under our guarantee, we will repair or replace them free of charge if delivered to our factory.

We urge you to give these wheels a trial. The increased demand proves their absolute success and makes other orders certain where they are once introduced. In making out your order, be sure to state size of skein wheel is intended for. These wheels have 4 inch tire. The hub is malleable iron, with a removable box, so that when worn, it can be replaced with a new one. The spokes are of straight steel, oval in form and 1 inch in diameter.



We make these wheels in 30 inch, 34 inch, or 38 inches in diameter; with 10, 12, and 14 oval steel spokes respectively.

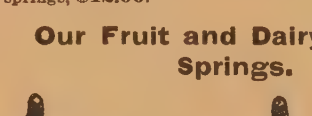
Our Common Sense Tongue Support.

No. 11371. Accompanying cut shows our Common Sense Support for wagon tongues. One of the greatest improvements of the age. One of these on your wagon will pay for itself many times over in the saving of horse flesh. Give it a trial and you will be convinced of its advantages and utility. You can put it on any common wagon, and it can be adjusted to any desired height. We consider it the most efficient tongue support made; can be put on or taken off in less than a minute. Our special price **$1.00**

BOLSTER SPRINGS.

Our Celebrated Low Down Easy Bolster Spring.



No. 11373. The accompanying cut shows our Easy Bolster Spring, positively the best wagon spring made. The illustration shows just how the spring sets on the Bolster. It raises the wagon bed less than any first-class spring in the market. There are many imitations of this spring, which fact is the best proof of its value. The medium weight leaf springs serve to convert the common farm wagon into a spring vehicle that rides as easy as a buggy empty, or with a light load. When you have a heavy load, the relief coil springs render the wagon just as easy riding, and take from the leaf springs a part of the weight. This spring is the outcome of several years' experiments. We feel that we are offering as a result a bolster spring that is the height of perfection. Where one of these sets goes into a neighborhood, a dozen more will follow.

We make these Bolster Springs for 36 inch, 38 inch, 42 inch, and 44 inch bolsters. In ordering, give careful measurements of exact width between bolster stakes. Our special prices are as follows:

Capacity to carry up to 1,200 lbs., per set of two full springs, **$5.25**; capacity to carry up to 2,000 lbs., per set of two full springs, **$6.00**; capacity to carry up to 3,000 lbs., per set of two full springs, **$7.50**; capacity to carry up to 4,000 lbs., per set of two full springs, **$9.00**; capacity to carry up to 6,000 lbs., per set of two full springs, **$12.00**.

Our Fruit and Dairy Bolster Springs.

No. 11374. Order by number.

Our No. 11374 Bolster Springs are especially adapted for fruit or dairy hauling, but are used extensively on all kinds of wagons. Truck farmers and dairymen lose many times the price of these springs through damage to fruit and milk, when being jolted over rough roads. These Bolster Springs are equally easy, whether you have a light or heavy load. For 1,000 to 1,500 lbs. capacity there are two coil springs to each Bolster. For 2,000 to 3,000 lbs. capacity there is one extra relief coil spring to each Bolster. For 4,000 to 5,000 lbs. capacity there are two extra relief coil springs to each Bolster, and for 5,000 to 6,000 lbs. capacity there are three extra relief coil springs to each Bolster. The illustration above shows the springs for 4,000 to 5,000 lbs. capacity. This Bolster Spring is simple in construction, reliable and durable. Farmers, fruit growers, and dairymen will find a long felt want satisfied in this article.

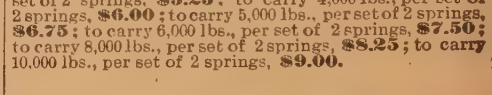
They obviate all the annoyances as well as the losses occasioned by traveling over rough roads. We put them up to fit 36, 38, 42 or 44 inch bolsters, and they have extension end shoes to fit odd sized Bolsters. Any one can instantly adjust them to fit any ordinary wagon.

We warrant every set to give entire satisfaction. In ordering, always give exact size between Bolster stakes.

Our special prices for set of two Springs:

To carry 1,000 lbs., per set, **$3.00**; to carry 1,500 lbs., per set, **$3.35**; to carry 2,000 lbs., per set, **$3.75**; to carry 2,500 lbs., per set, **$4.15**; to carry 3,000 lbs., per set, **$4.50**; to carry 4,000 lbs., per set, **$5.25**; to carry 5,000 lbs., per set, **$6.00**; to carry 6,000 lbs., per set, **$6.75**; to carry 8,000 lbs.. per set, **$7.50.**

Our Common Sense Bolster Spring.



No. 11376. Order by number.

We illustrate here our Common Sense Bolster Spring. This spring is made to meet the demand for an easy article at a small price. A set will transform your common wagon into an easy riding vehicle. This one in particular is as perfectly graduated as any spring on the market. Adapted alike for light or heavy use; we guarantee every set to give entire satisfaction. One set in your neighborhood is bound to sell others. At our low prices you can sell enough sets to your neighbors, who see yours, to pay you for your own.

The prices below are for two springs, for rear and front bolsters. Always give exact width between bolster stakes when ordering. Our special prices:

To carry 1,000 lbs., per set of 2 springs, **$2.95**; to carry 1,500 lbs., per set of 2 springs, **$3.25**; to carry 2,000 lbs., per set of 2 springs, **$3.75**; to carry 2,500 lbs., per set of 2 springs, **$4.15**; to carry 3,000 lbs., per set of 2 springs, **$5.25**; to carry 4,000 lbs., per set of 2 springs, **$6.00**; to carry 5,000 lbs., per set of 2 springs, **$6.75**; to carry 6,000 lbs., per set of 2 springs, **$7.50**; to carry 8,000 lbs., per set of 2 springs, **$8.25**; to carry 10,000 lbs., per set of 2 springs, **$9.00.**

Special Bargains in Bob Sleds.

Our Bob Sleds are made and shipped from Abingdon, Ill., by a concern who have a reputation in this line second to none. The manufacturers of these goods are recognized by all dealers as the makers of the best bobs in the country, and only the best are good enough for us to offer to our trade. We contracted for this line of goods, for the reason that we learned by investigation that nothing but the best of material entered into the construction of this work, that this line of bobs was the best on the market regardless of price.

These Sleighs are all covered by the most binding two years' guarantee, during which time, if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge. With care they will last a natural lifetime.

No. 11546. The above picture is an exact representation of our 2x3—two knee Bob Sled, engraved from a photograph.

Our Bobs are made of the very best selected material throughout; best workmanship, painted in four coats vermilion paint, striped, ornamented and varnished.

Our special offer price on the above Bob Sled complete is **$11.90.** Well ironed throughout; complete in every respect.

SEARS ROEBUCK & CO.'S BLACKSMITH TOOLS

DO YOUR OWN WORK

...ON THE FARM...

Sharpen the Plows, Shoe the Horses,

Set the Loose Tires, Mend the Machinery.

WITH AN OUTFIT selected from this list, every farmer, ranchman and mechanic can be his own blacksmith.

NO DELAY FOR REPAIRS IN A BUSY SEASON while the team and a man has gone to the blacksmith shop. Again, if you have an outfit you will improve rainy days to fix up things that are showing wear, and avoid costly vexations and dangerous breakage in a busy time.

THE COST OF A COMPLETE OUTFIT is but little. You will save it all in one year's blacksmith bills, to say nothing of the saving in time.

DON'T SAY YOU CAN'T DO THE WORK. Thousands of farmers have bought outfits from us, few articles at first, then added from time to time, and now have a complete outfit, **DO ALL THEIR OWN WORK,** and many take in work from neighbors, who are willing to pay well for the work and thus save the time of going to the town blacksmith.

A PORTABLE FORGE, ANVIL, DRILL, VISE, STOCK AND DIES, TAPER TAPS, TONGS AND SHOEING OUTFIT, and you are prepared for any kind of blacksmith work.

$25.00 WILL BUY SUCH AN OUTFIT. On the start you may not want a complete outfit, but later you will surely add until you have a complete outfit, and you will call it the best investment you ever made.

SPACE WILL NOT PERMIT our showing everything in the line. We show here the tools most commonly used.

WE ISSUE A SPECIAL CATALOGUE of blacksmith tools, showing everything in the line, and will gladly mail it free on application.

EVERY TOOL WE SELL IS GUARANTEED STANDARD QUALITY, the product of the best manufacturers. We do not handle cheap, trashy or second grade goods.

OUR PRICES, quality considered, you will find by comparison, are far below any competition.

OUR TERMS: Any goods will be sent by freight, C. O. D., subject to examination, on receipt of **ONE-FOURTH** the amount of order, balance to be paid at freight depot.

THREE PER CENT. DISCOUNT, for cash in full with order.

FREIGHT IS VERY LOW on this class of goods, and will add but very little to cost.

BARGAINS IN PORTABLE FORGES

OUR LEADER for $7.95

No. 11600.

WE BELIEVE WE ARE HEADQUARTERS FOR EVERYTHING DESIRABLE IN PORTABLE FORGES. WE HAVE MADE OUR CONTRACTS WITH SEVERAL OF THE very largest and most reliable manufacturers in the country, concerns who are strictly headquarters for the manufacture of the highest grade portable forges on the market.

THERE ARE MANY CHEAP, INFERIOR FORGES OFFERED, and even some of our competitors may attempt to meet or cut our prices, but when a forge is offered at within 10 or 20 per cent. of the price we are able to name, you can depend upon it you are not getting the same grade of work.

WE GUARANTEE OUR FORGES TO BE EXACTLY AS REPRESENTED, and if not found so, you can return them to us and we will cheerfully refund your money.

ALL OUR FORGES ARE MADE OF THE VERY BEST MATERIAL, are thoroughly well put together, and guaranteed to give the best of service. The prices we quote are for the Forges carefully packed and delivered on board the cars in Chicago. You pay the freight, but you will find the freight will amount to next to nothing, as compared with what you will save in price. There is perhaps no more necessary or economic machine on a farm than one of our strictly high grade portable Forges. In one year it will save its cost ten times over in time, to say nothing of the saving in blacksmiths' bills.

WE BELIEVE THAT WE OFFER THE MOST POPULAR LINE OF FORGES, from the fact that our Forge trade has grown until we believe we are without an exception the largest dealers in the land direct with the consumer.

WE WOULD ASK YOU TO COMPARE OUR PRICES CLOSELY WITH THOSE of other houses, compare the illustrations and descriptions, and then if you are not thoroughly satisfied that we are offering you a better Forge for less money than you could possibly buy elsewhere, send to us for a Forge and compare it with the Forge you can buy elsewhere, and if you do not say ours is better and cheaper, the best Forge ever seen for the money, return it at our expense and we will cheerfully refund your money.

No. 11600. OUR SPECIAL LEADER AT $7.95.

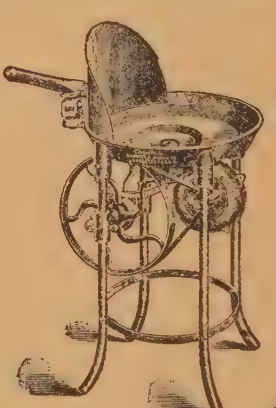
AT $7.95 WE OFFER YOU A STRICTLY HIGH GRADE, fully guaranteed Forge, which you could not duplicate elsewhere in a wholesale way at less than $10.00, and a Forge that would retail at $12.00 or more.

THIS FORGE IS ESPECIALLY DESIGNED FOR bridge, boiler and tank builders, miners, prospectors, elevated railroad builders, farmers, etc.

WE ARE ABLE TO GET THE PRICE SO LOW, $7.95, that every farmer in selecting a Forge should order this in preference to a cheaper one. The motion is a very simple device. It has a self-acting ratchet, no springs or anything to get out of order. It is made from the very best material. The lever is connected with a segment of gears which speeds the driving wheel up to a very high speed. It requires a very slight movement of the lever to get the strongest blast. **THIS FORGE IS SUPPLIED WITH A 9-INCH FAN, HEARTH IS 22 INCHES IN DIAMETER.** Having but three legs, it stands very firmly on an uneven foundation, and is purposely made for the work we claim. **HEIGHT OF FORGE, 30 INCHES; HEARTH, 22 INCHES IN DIAMETER; FAN, 9 INCHES; WEIGHT, 80 LBS.** This is the largest Forge we ever saw offered at anything like the price, and we would ask you to compare the size of hearth and fan with other Forges at about the same price, and draw your own conclusions.

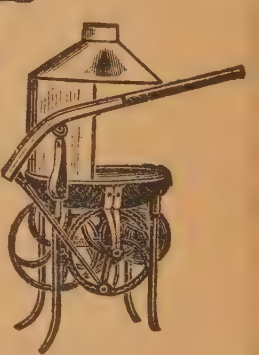
WE WANT TO SELL 5,000 OF THESE SPECIAL $7.95 Forges during the coming year, and with the expectation that we will sell this number, we are able to make our price $7.95. By making our contract on this basis, we were able to get the price down to about the actual cost of material and labor. To this we have added only our one small percentage of profit, and as a result, in buying a single Forge from us at $7.95, you are practically buying on the basis of a contract for 5,000 Forges. These Forges are accepted by the railroad companies at second class freight rate, and its weight is 80 lbs. By referring to the freight rates in the front part of the book, you can calculate very closely what the freight will be, which you will find will amount to next to nothing, as compared with what you will save in price.

PLEASE NOTE THAT ON ALL THIS CLASS OF GOODS WE WILL SHIP C. O. D., subject to examination, by freight, where a sufficient amount accompanies order to cover freight charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our special price, $7.95, and freight charges, less the amount sent with order.



A DISCOUNT OF 3 PER CENT. IS ALLOWED on all blacksmith tools, where cash in full accompanies your order. Do not overlook our 3 per cent. cash discount when comparing our prices with those of other houses. Bear in mind that the 3 per cent. cash discount on this Forge would mean to you a saving of 24c., and when comparing our prices with the prices of other houses, always deduct the 3 per cent. cash discount, which brings this Forge down to $7.71. There are Forges on the market, some offered by catalogue houses, you may have seen them illustrated and quoted. Compare this Forge with anything you can find in any catalogue at $10.00, and if you do not from the illustration and description consider ours equal or better, we will not expect you to give us your order.

EVERY ONE IN WANT OF A FORGE SHOULD PLACE THEIR ORDER WITH US, or, if in want of anything in the line of blacksmiths' tools, we should have their order. We feel we are entitled to it by reason of the prices and terms of shipment we offer. First, we have arranged with the different manufacturers to supply only the highest grade of goods that can be obtained. We have fixed the prices at the manufacturers' lowest prices. By a careful comparison of our prices with those of other reliable houses, we have found without a single exception, when quality is considered, we are much lower in price. Different from other houses, we offer to send these goods by freight C. O. D., subject to examination on receipt of a deposit only to cover freight charges. We fully guarantee everything in this line that we offer you. If not found as represented, your money is always ready, and on the basis of excellency in material and make, liberalness in terms of shipment, prices lower than any of our competitors, a 3 per cent. discount for cash, we shall hope to receive your order.



DO NOT OVERLOOK THIS FORGE AT $7.95 ON OUR REGULAR TERMS, OR $7.71 IF CASH IN FULL ACCOMPANIES YOUR ORDER. THERE IS NOTHING LIKE IT ON THE MARKET, AND YOU WILL FIND NO SUCH A BARGAIN IN ANY OTHER BOOK.

Peter Wright Anvils.

Wrought Iron with Steel Face.

No. 11626. This well known anvil has stood the test for years and is to-day the most popular anvil in the world. It is cheap enough for any body and good enough for any one. Don't buy an anvil too light for your work. A light anvil when struck a hard blow with a heavy hammer is sure to jump. We carry a large stock but occasionally are not able to send exact weight ordered, but can always cover within 5 lbs. of the weight ordered. This anvil is sold by the pound and price per pound varies with the size.

Post Drills.

No. 11637. Blacksmith Self Feed Drill, weighs 100 pounds; drills to center of a 14 inch circle; has back gear; will drill from 0 to 1 inch hole; made of the best material; well finished; spindle bored to take in ½ inch straight shank drills.

In material and finish this drill is equal to any that's made.
Price, each.....**$6.00**

11639. World's Champion Self-Feed Post Drill, 1893 pattern. The World's Popular Drill for $10.00. Weight, 125 pounds. Drills to the center of a 15-inch circle, and from 1-64 to 1¼ inch hole. Has double journal bearings with full back gear; also, two speeds on right hand side of drill, which can be changed in an instant to suit all kinds of work. Diameter of spindle, 1¼ inches. The screw has an up and down run of 4½ inches. The automatic self-feed is the latest improved. The table is large and slotted, so operator can securely bolt work on for drilling. This drill is mounted on a hard wood plank, 2 inches thick. The spindle is bored to take in ½ inch straight shank drills.
Our price.....**$7.50**

Quick Return Drill.

No. 11641. This drill is supplied with our patent quick-return attachment, by which the drill bit is removed from the work in an instant, by simply pushing a lever with the left hand, while the right hand continues turning the handle or crank which raises the bit to any height desired, and at the same time cleaning the hole bored as the bit revolves while being raised. It has two journal bearings, which are double, as in our 1893 pattern.

The drill is supplied with two true and honest speeds on the right hand side of the drill. First speed for light and medium work, and second speed for heavy work. You simply change the hub from first speed to second speed. Actual weight, 130 pounds. Will drill to a center of 15½ inches. The spindle has a run up and down of 3½ inches, and will bore from 0 to 1¼ inch hole. Spindle is bored to take in ½ inch round shank drills. No drills furnished at this price.

EVERY SEARS, ROEBUCK & CO. SAW

Is warranted as follows:

If this Saw does not prove as good or better than any Saw you ever had return it and money will be refunded. **Why pay more than our prices?**

Be sure to read our special notice before making out your order for Circular Saws. The above saws are standard gauge and size hole for each diameter. We can furnish saws with any size hole at same price. We can furnish saws of different gauge, for which an extra charge will be made. The standard saws can be shipped promptly; special saws are shipped soon as possible; but if other orders are ahead of yours it must take its turn. In writing us for price of special saws be very particular to give full description, and you will receive a prompt reply. We furnish blanks which will aid you in making specifications, which will be sent free on request.

SPECIAL NOTICE.

Cross Cut Saws.

Sears, Roebuck & Co. Saws are sold without dictation from any combination or trust at our usual small profit. Our guarantee is fair and complete, and without conditions that would make it practically worthless. Each and every Sears, Roebuck & Co. Saw is etched with our trade mark and this guarantee: **If this Saw does not prove as good or better than any Saw you ever had, return it and money will be refunded.** We have these Saws made for our trade by a manufacturer whose reputation for making first-class Saws is not excelled by any one anywhere. We have contracted for an immense quantity and are able to sell them to consumer for less than the average dealer can buy at wholesale. These Saws are all ground thin back with a true taper from edge of teeth to the back. You can't possibly buy better Saws. Why pay more?

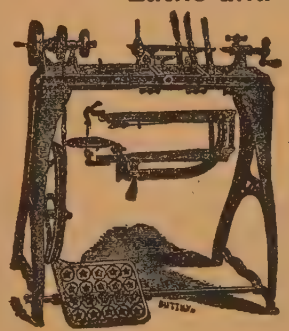
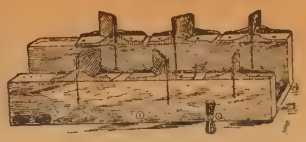
Foot Power Bracket Saw.



No. 12068. To meet the demand for a cheap and good foot power saw, we have had made an all iron machine which we offer for $2.25. For scroll sawing alone it is about as good as the higher price saws, and the finish is the same as our Rogers Saws. It has an iron tilting table, second growth ash arms, 18 inches long, improved clamps, etc. Weight of saw, 17 lbs.; weight when boxed, 35 lbs. Boxed for shipping without extra charge.
Price.....**$2.25**

No. 12069. **Bracket Saw.** Has a rubber dust blower, improved clamps for holding the saw blade and a roller inserted in the table back of the saw, which makes it run perfectly true. We have no hesitancy in declaring this to be the best cheap saw ever offered to the public. The entire frame work is made from iron, painted and japanned black, and ornamented with red and gilt stripes. **The arbors are made of steel, carefully gauged and fitted to their bearings. The bearings** to the arms are carefully sized to bring them in perfect line. **The stretcher rod is jointed,** which allows the upper arm to be thrown out of the way when adjusting work or saw. The balance wheel is 4½ inches in diameter, with iron spoke center and rim of solid emery. The attachment for drilling is on the **right hand** side of machine, which is an advantage. With each machine we give 12 saw blades, wrench, sheet of designs and 3 drill points. The saw alone weighs 25 lbs.; when boxed for shipment, about 42 lbs. Price.....**$3.30**



Lathe and Saw.

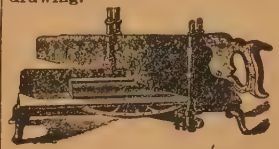
No. 12070. This lathe is provided with a long and short toolrest, five turning tools, wrench and drill points. Swing of lathe, five inches; length of bed, 24 inches; distance between center, 15½ inches. The large drive wheel has two grooves of varying depths on its face to give it a change of speed; the higher speed is 11 to 1; the lower, 7 to 1; the lathe head has a two inch face plate, a spur center, a screw center for turning cups and also a drill chuck to hold from 1-32 to ¼ inch round twist drills for drilling wood or iron. The lathe is thoroughly built and highly finished, the plain and polished parts being nickel plated. Price.....**$8.25**

No. 12071. Same lathe, with scroll saw attachments. Price.....**$10.00**

Mitre Boxes.

No. 12072. **Olmstead Improved Mitre Boxes.** In this mitre box the irons which guide saw are adjustable to any thickness of saw. When putting the saw into the slots have the teeth of saw below the irons.
Size A will saw molding 1½ in. x 3 in.....**$1.00**
Size B " " 2½ in. x 4 in.....**1.50**

The New Langdon Mitre Box, Improved.



This is the best mitre box made, and has all the latest improvements. Ordinary New Langdon Mitre Box cuts from right angles to 45 degrees, inclusive. This box, by using the circular arms or guides, cuts from right angles to 75 degrees on 2¼ inch stuff, varying more or less with width of stuff. It is the only box adjustable for mitreing circular work in patterns and segments of various kinds.

No. 12073. The Langdon New Improved Mitre Box, with saw, 22x4, gives 6 inches width at right angles and 4 inches at mitre. Weight, 10½ lbs.
Price, each.....**$8.20**

No. 12074. The Langdon New Improved Mitre Box, with saw 24x4, gives 9½ inches at right angles and 6½ at mitre; weight, 11½ lbs.
Price, each, with saw.....**$10.35**

No. 12075. The Langdon New Improved Mitre Box, with saw, 28x5, gives 9½ inches width at right angles and 6½ inches at mitre; weight, 12½ lbs.
Price, each, with saw.....**$11.75**

Should any part get broken at any time we can furnish repairs cheaply. Parts are all interchangeable, so any one can repair them. When ordering part, state size and number of the box it is for, and, if possible, send a drawing.

A STRICTLY GUARANTEED SAW. NO BETTER MADE.

During the year 1896 we did not have a Sears, Roebuck & Co. Saw returned to us.

Now made with Carved Handle.

No. 12085. This is **the best Saw made.** We have it made especially for our trade by a manufacturer whose reputation for making first-class goods is not excelled by any one anywhere. We contract for immense quantities, and are able to sell to consumer at less than retail dealers can buy at wholesale. Our selling price is not controlled by any combination or trust. We give our customers the same guarantee that we demanded and secured from the manufacturers, and that is the best, fairest, and most complete guarantee we could write. No other saw is sold with any such guarantee, free from all restrictions and conditions. On the blade of each Saw is etched our trade-mark and the following guarantee: If this Saw does not prove as good or better than any Saw you ever had, return it and money will be refunded. **You can't possibly buy a better Saw. Why pay more?** The blade is made from selected spring steel, patent ground and tempered, handle carved and polished, five improved screws, hand filed and set. Order No. 12085.

Criffin's New Hack Saw Blades.

These are tempered by a new process by which a very high degree of temper is given to the toothed edge of the blade, diminishing in hardness to the back, which is of a low spring temper.

This process enables us to produce a blade which combines the best cutting and wearing quality with the least liability to breakage, and is stiffer, holds its shape better, and will not stretch when used in a machine.

The Old Reliable Morrell's Saw Set.

If this Saw Set is used intelligently it will be impossible to break a tooth out of a saw while setting it. No prying required. Simply shutting the handles sets the tooth. The point of tooth when in position on anvil can be seen by the operator. We have the following sizes:

No. 12133. Morrell's Perfect Saw Set No. 1, for setting hand, band, panel, buck and meat saws.
Each.....**60c**

No. 12134. No. 3, for common tooth circular and cross cut saws from 20 to 14 gauge. Weight, 1 lb. 6 oz.
Price, each.....**$1.00**

No. 12135. No. 4, for Champion or M tooth cross cut saws from 22 to 14 gauge. Weight, 1½ lbs.
Price, each.....**$1.12**

No. 12136. Hammer Saw Set, Aiken's genuine cast steel. So well known, a description is not necessary.
Price, each.....**50c**

No. 12137. Henry Disston & Sons' Star Saw Set for hand, band, back, web, buck, meat and small circular saws not thicker than 18 gauge. Prominent among the advantages of this set is that **it can be operated** by the foot by means of a treadle, thus leaving both hands free to guide the saw. Or it can be used by striking on the top with a light mallet. **We do not furnish the treadle,** but any one can easily rig one.
Price, each.....**75c**

The Practical Saw Jointer.

No. 12142. It is simple and effective. A very useful tool for carpenters, cabinetmakers, patternmakers, carriagemakers, and in fact for all using, making and repairing saws, as it makes a great saving in time and insures accuracy in jointing the teeth to an equal length. It is used on the saw as shown in the cut, and the file in the slot is adjustable, so that the full width of the file may be utilized on one side, then the file reversed and used in the same way until it is all worn out. Its good qualities will be appreciated by those having gone on so long in the old way, by the saving of the wear and tear on the fingers, and the ease and facility with which it can be used. No mechanic's kit is complete without one.
Price.....**30c**

FILES.

We will carry in stock this season a brand of files which our buyer considers as good as it's possible to make. Having had an experience of twenty years, his opinion is certainly worthy of consideration. **We do not handle seconds.** The manufacturer requests us not to print the maker's name this year, as we are selling to any one at his regular wholesale price to dealers. The maker's name is on each package, and each file has the manufacturer's brand on it. They are goods of acknowledged excellence and the favorite with many of the largest file users in the country. The **"Tang,"** or part which goes in the handle, is not included in size of files.

Emery Oil Stones.

These stones are destined to supersede all other stones used with oil. The lightning rapidity with which they sharpen a tool, without taking the temper from the steel, is marvelous. A keen edge may be obtained in half the time required by the use of the quarried stone. They are made with a coarse and fine side, thus combining two stones in one, the coarse side to be used for taking out nicks and for rapid cutting; the fine side for putting on a fine, keen edge. Their phenomenal sale attests their merits and growing popularity.

Emery Knife Sharpener, or Steel.

A new and useful device for imparting a keen edge to the dullest knife or scissors in half the time required by other means.

This knife sharpener is composed of a solid shaft of emery, firmly secured to a handsomely finished handle by means of a steel rod extending its entire length, making it strong and durable.

It is one of the most popular household articles we have and every kitchen should have one in it. Although our price is low, we guarantee it to be exactly as represented and of the best quality it's possible to make. It's not a wood stick covered with sand and glue, although that kind is usually sold at this price. Made in two sizes with nickel plated shield and hardwood handle with nickelplated ferrule.

EMERY WHEELS.

The Acme Emery Wheel is made especially for our trade by manufacturers who have established a most enviable reputation for making high grade satisfactory wheels. The wheels made for us are exactly the same grade in every respect as those which they have made for years and on which they have built up their business and reputation. The only way they differ is in the label. Our label instead of theirs don't detract a particle from the value of the wheels, but it makes the price lower. The manufacturers sell this wheel to the consumer at nearly twice the price we charge and would not furnish us with goods with their labels to sell at our prices. But they will take off their labels and put on our label and they think we couldn't give them away to their customers. Perhaps they are right. But if any user of emery wheels will give our wheels a trial we believe he will recognize their merit and give us all his future trade.

Directions for Ordering.

Always state Diameter, Thickness, **Size of Arbor Hole** and shape of face, the kind of material to be ground, whether surface or edge grinding and fine or coarse work is required; whether the work is light or heavy; speed at which wheel is to run.

Directions for Using.

Acme Emery Wheels will do the best work when run at a surface speed of one mile a minute, but for hardened tool grinding a slower speed is advisable. Before putting a wheel on the mandrel tap it lightly with a hammer to ascertain that it is sound. If it rings it has not suffered from ill usage, and may be safely put to use.

All our wheels are thoroughly tested at a very much higher strain than that to which they are subjected in use and all are packed carefully. In transportation they may be broken, hence the necessity of testing immediately before running them.

Always use iron flanges on both sides of the wheel. The flanges ought to be about one-third of the diameter of the wheel or larger. Rubber or leather washers should be used, especially with thin wheels.

All emery machines should be provided with rests on which the article to be ground is held.

Wheels should run toward the operator, with the rests close to the face of the wheel. Very often wheels are broken by castings being caught between the wheels and rests by getting out of the workman's hands.

Emery Wheel Stands.

No. 12199. Emery Wheel Stand, for power. Will run two 6-inch emery wheels, 1 inch thick, has ¾ inch steel spindle, ½ inch between flanges, pulley 2 inches in diameter, 1⅝ inch face. Weight, 9 lbs. Price, each.....**$3.95**

Price does not include wheels.

No. 12200. Emery Wheel Stand, for power, will run two wheels 10 inches in diameter and 1½ inches thick, has steel spindle 1 inch in diameter in bearings, ¾ inch between flanges. The bearings are 2 inches long and adjustable, mounted with brass oil cups. Pulleys 2¼ inches diameter, 1¼ inch face. Two adjustable knuckle joint rests, as shown in cut. Weight, 25 lbs. Price.....**$8.00**

No. 12201. Emery Wheel Stand. Will run two wheels 12 inches in diameter and 2 inches thick, has steel spindles 18 inches long and 1 inch diameter in bearings, ¾ inch between flanges. The bearings are 3 inches long and same style as engine lathe bearings, mounted with brass oil cups. Pulleys 3¼ inches diameter, 2¼ inch face. Exactly like cut of No. 12200 only larger. Weight, 40 lbs. Price.....**$12.00**

No. 12202. Emery Wheel Stand. Will run two wheels 16 inches in diameter and 2½ inches thick; has steel spindles 1 3-16 inch diameter in bearings, 1 inch between flanges. The bearings are 4 inches long and same style as engine lathe bearings, mounted with brass oil cups. Pulley 3¾ inches diameter, 2½ inch face.

These stands are provided with two rests which are knuckle jointed, and can be set at any desired angle, as shown in cut of 12200; weight, 65 lbs. Price....**$16.00**

Notice.—An important feature of all these stands, establishing their superiority over all others, is the bearing protectors, which not only keeps the emery dust from off the journals, but also the oil from penetrating the emery wheels, which when saturated with oil, become worthless, a notable defect in other emery wheel stands which has hitherto not been overcome.

Emery Wheel Dresser.

No. 12203. The Emery Wheel Dresser is a very simple device for sharpening, trueing, or dressing an emery wheel on its arbor at full speed. It leaves the wheel clean and sharp and in the best possible condition for cutting. An emery wheel is a cutting tool composed of innumerable sharp grains of emery, which become dull by use. To sharpen the wheel these grains must be brought to the surface, and this dresser is the best tool in the market for the purpose. Price, each with 2 sets of cutters **95c**

PLANES.

The Genuine Bailey Planes, made by the Stanley Rule & Level Company, are so well and favorably known to mechanics **the world over,** that they need no recommendation from us. The cutter is stamped from a solid piece of the best quality of **English cast steel,** of equal thickness throughout, finely tempered and ground sharp ready for use. By means of a lever, located under the plane iron, and working sidewise, the cutting edge can easily be brought into a position exactly square with the bottom of the plane. The patents having expired, planes of same style and description are now made by various manufacturers and are sometimes offered as Bailey Pattern, or even for the genuine goods. We have designated such planes as **Imitation Bailey Planes,** as we want customers to perfectly understand what they are ordering. **Our Imitation Bailey Planes are made by a reliable firm, and will give satisfaction in every way.**

Stanley's Adjustable Planes.

Stanley's Circular Plane.

No. 12570. Stanley's Adjustable Circular Plane, with flexible steel face, which, by turning the knob on the front of the plane, can be easily shaped to any required arc, either concave or convex. Weight, 3¾ lbs. Price, each..... **$1.52**

Stanley's Adjustable Chamfer Plane.

The front section of this plane, to which cutter is attached, can be moved up and down. It can be firmly secured to the rear section, at any desired point, by means of a thumb screw. Without the use of any other tool this plane will do perfect chamfer, or stop chamfer work of all ordinary widths. When the faces of both sections are even it can be used as an ordinary bench plane.

No. 12571. Adjustable Chamfer Plane, as above. Length, 8 inches; 1⅝ inch cutter. Weight, 3 lbs. Price, each **$1.18**

No. 12572. Beading Attachment for above chamfer plane. For beading or molding a chamfer an additional attachment can be furnished, with six cutters, sharpened at both ends, including a large variety of ornamental forms. This attachment is not included with above plane. Price, for attachment **60c**

Stanley's Improved Rabbet Plane.

No. 12573. Stanley's Improved Rabbet Plane. This plane will lie perfectly flat on either side, and can be used with right or left hand equally well while planing into corners or up against perpendicular surfaces; has spur, which can be removed when not wanted. Length, 8 inches; 1½ inch cutter; weight, 3½ lbs. Price, each **60c**

Stanley's Duplex Rabbet Plane and Fillister.

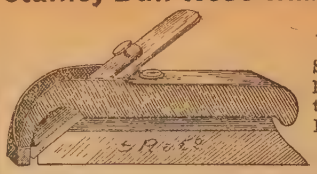
Remove the arm to which the fence is secured and a Handled Rabbet Plane is had, and with two seats for the cutter, so that the tool can be used as a Bull-Nose Rabbet if required.

The arm to which the fence is secured can be screwed into either side of the stock, thus making a superior right or left hand fillister with adjustable spur and depth gauge.

No. 12574. Duplex Rabbet Plane and Fillister as above. Length, 8½ inches; 1½ inch cutter; weight, 3¼ lbs. Price, each **89c**

Stanley's Adjustable Tonguing and Grooving Plane.

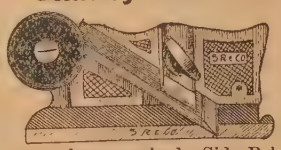
These planes have two separate cutters a suitable distance apart. When the guide or fence is set as shown above, both cutters work and a tongue can be made.



The fence is hung on a pivot, and can be swung around end for end. This movement covers one of the cutters, and also furnishes a guide for grooving an exact match for the tongue.

In working thicker than 1 inch stuff, with No. 48 Plane, or ⅛ inch stuff with No. 49, place the extra wide cutter in right hand side of the plane. The tongue and the groove will be equally removed from the center of the edges, on extra thick or thin boards, but a perfect match will be made.

No. 12575. Tonguing and Grooving Plane (commonly called Match Plane), as above, which will match board of any thickness from ¾ to 1¼ inches thick. (No. 48.) Weight, 2¾ lbs. Price, each **$1.48**



No. 12576. Tonguing and Grooving Plane, as above, which will match board any thickness from ⅜ to ¼ inch. (No. 49.) Weight, 2¾ lbs. Price, each **$1.50**

Buck's Chisels.

Buck's Chisels and Gouges have attained a reputation for excellence of their fine cutting qualities known everywhere. When you get a tool stamped Buck you are getting the finest tempered and keenest cutting tool that can be bought. Three generations have made the work of forging, hardening and tempering edge tools a practical life study, and now have attained a standard that cannot be excelled. All goods warranted against flaws and not to be too soft. Do not condemn the cutting quality of any new tool until you have ground it more than once, as you will often find a perfect edge on the second if not on the first grinding.

PINCERS AND NIPPERS.

Carpenters' Pincers.

Did you ever see a Carpenters' Pincer that was good enough to suit you? We've got them. Some dealers say they are too high-priced to sell. We sell ten times as many of this grade as we ever could of the others. We like to sell this grade better than the cheaper ones. That's our plan, not how cheap, but how low-priced on good goods. Remember these pincers are not for cutting, but for pulling.

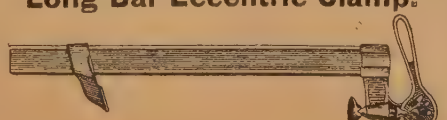
Eccentric Clamp.

This Clamp is manufactured from the best quality of malleable iron; its main bar, or shaft, being double flanged upon each side, gives it the required strength without excessive weight.

The clamping arm, or jaw, is so adapted to the **H** shaft as to slide loosely upon it, or fasten immovably at any point the instant opposing pressure is brought to bear against it from the eccentric.

Thus, by placing the adjustable foot of the eccentric bolt against the work to be clamped, and moving the jaw up the shaft to oppose it, then simply raising the eccentric lever, the work is instantly clamped with all the power desirable, and with many advantages over the slow operating screw.

First, The work is accomplished with much greater facility, and with at least equal efficiency.



Second, The liability of slipping and displacement of the work by turning a screw against it is wholly obviated by the direct application of lever power.

Third, By the automatic adjustment of the foot, or bearing, it can be used upon beveled surface with the same facility as upon those that are square or right angular.

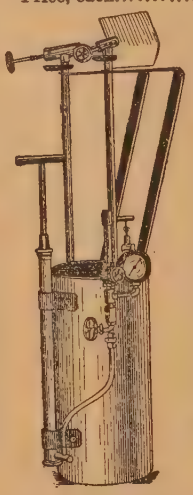
Prices of metal are constantly fluctuating; we can't guarantee these prices on coppers and solder for the season. At all times we sell as cheap as possible, and should there be an extreme advance we should write you before filling order.

Blow Pipe or Torch for Gasoline.



No. 13200. With this torch large or small flame can be used as desired. Made of brass, highly polished and lacquered. It is small enough to go in a tool bag, and is a favorite with electricians, painters, gasfitters, plumbers, etc. Price, each....**$2.00**

No. 13201. A complete tool for soldering, brazing, burning paint, melting metals; for heating soldering coppers, frozen pipes, heavy soldered joints, etc., etc.
A convenient, durable, reliable tool, adapted for a hundred purposes. Simple and safe in operation.
Each tested before leaving our factory and warranted. This Blow Pipe, with an established reputation, exceeds all others for strength, results and general excellence.
Price, each.....**$3.00**

Hot Blast Brazer.

Most powerful machine made. Simple, durable, economical. Warranted to give satisfaction. Two burners.

Points of Superiority.

Our tank is tested to 200 lbs. pressure to the square inch. Our pump is attached to tank solid; others connected with rubber tube. Can pump up pressure in two minutes; five minutes required by others. Can work under 100 lbs. pressure. Can thereby braze under 100 lbs. pressure. Can braze with one flame in one minute; more time and two flames required by others. Our machine costs double to make, and sold at same price as others.

MACHINISTS' TOOLS.

Spring Dividers.

No. 13212. Yankee Spring Dividers. These dividers are very finely made goods and nicely finished. Length 3 inches, each **66c**; 4 inches, **70c**; 5 inches, **74c**; 6 inches, **76c.**

Inside Calipers.

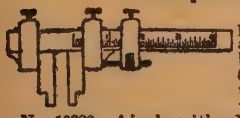
No. 13213. Yankee Inside Calipers, like the above spring dividers, are fine tools made on scientific principles, the spring being so applied that a firm joint is always maintained and an even tension is secured, whether the legs are closed or open to their full extent. Back lash in these calipers and dividers is impossible. Price, 4 inch, **58c**; 5 inch, **62c**; 6 inch, **67c.**

No. 13214. Outside Calipers. Same description as No. 13213. Inside Calipers. Length, 3 inches, each, **56c**; 4 inches, **60c**; 5 inches, **65c.**

We have no salesmen, no accounts, no bad debts, none of this expense, and you don't have to pay for it. Do you see the point?

Bronze Dividers.

No. 13222. Starrett's Improved Bronze Divider. Nickel Plated.



The head and socket legs of this tool are made from drawn (not cast) bronze metal, and are hard, tough, strong, **finely finished** and nickel plated. The joint is large and firm. Our patent locking nut between the arms, against which a spiral spring acts, is a valuable feature. After the fine adjustment is made, the nut may be turned back, locking spring and arms firmly, thus remedying the weak point in the common wing divider, which is only as stiff as the adjustable spring. The quadrant is fastened by our improved method.

A common pencil fits either socketed leg, while an auxiliary holder fits reversed end of either short point for an extension. The head, with short point, is eight inches long; may be extended two inches more; will caliper 10 inches outside and 12½ inside. With short points will scribe a 24-inch and with long points a 34-inch circle.

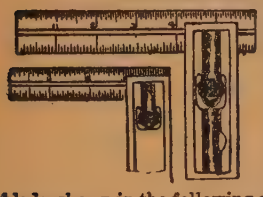
With short points only.....**$1.75**
Set complete.....**3.25**

Caliper Square.

This cut represents an improved tool for both outside and inside measure. The beam is nicely graduated, 64ths on one side, 100ths on the other. For close work this is a reliable tool.

No. 13223. 4 inch, with adjustable screw.
Each.....**$3.60**
No. 13224. 4 inch, without adjustable screw.
Each.....**$2.92**

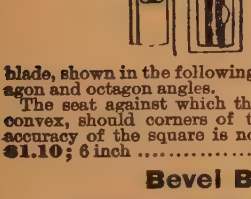
Scriber.



No. 13226. Scriber for mechanics' use, made in three pieces, the center piece being heavily knurled, into which is screwed the two points which are made of fine steel, nicely tempered; is 7 inches in length. Each, **35c**

Depth Gauge.

No. 13228. Depth Gauge for machinists' use. The back is made from sheet steel, nicely polished; the edge is ground straight so that by removing the needle it may be used as a straight edge, as one edge of back is beveled and one side of needle is ground away, bringing the point of needle directly under edge of back; it may be rocked, thus determining the depth of hole or slot more accurately than can be done with a tool having a broad base. Price, each.....**18c**

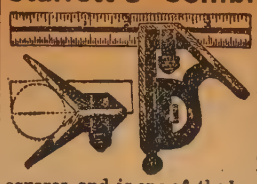


Double Square.

No. 13232. Patent Double Square. This Square is conceded the most practical one for machinists and fine tool makers' use ever offered. The sliding scale, shortened or extended full length, makes it more valuable than a full set of common kind, while with the extra bevel blade, shown in the following cut, we have both the hexagon and octagon angles.

The seat against which the blade is clamped being convex, should corners of the blade get injured, the accuracy of the square is not affected. 4 inch, each, **$1.10**; 6 inch.....**$1.80**

Bevel Blades.



No. 13233. This cut represents the 4 inch and 6 inch double square, with hexagon end of blade applied. Reverse it and the octagon is in position for use. Bevel blades are made to fit only 4 inch and 6 inch sizes. These prices below are for the bevel blades only, and can not be used without the above square. 4 inch, each, **32c**; 6 inch.....**42c**

Starrett's Combination Square.

No. 13234. Patent Combination Square with the adjustable scale. Every tool warranted accurate. With the adjustable scale this forms one of the most convenient and useful tools ever devised for mechanics' use. One is a complete substitute for a whole set of common try-squares, and is one of the best gauges made for transferring exact measurements or laying out work. It is also convenient for a depth gauge, or to square in a mortise. For a mitre it is perfect, while with the auxiliary center head it forms a centering square, both inside and outside, which for convenience and accuracy has no equal. Made in three sizes with center head and level. Each, 6 inch, **$1.55**; 9 inch, **$1.95**; 12 inch, **$2.32**.

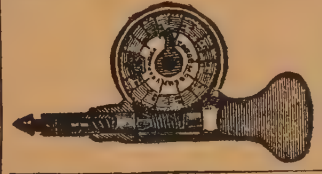
Starrett's Combination Inclinometer.

No. 13235. Patent Inclinometer, Try-Square and Bevel Protractor Combined. This cut represents an Inclinometer, try-square and bevel protractor combined. It is compact, convenient and a complete and perfect substitute for several costly tools. It consists of a stock and disc, both slotted to receive the blade, which folds in the stock. The blade attached to the graduated rotary disc may be secured at any angle from 0 to 90 degrees, and by loosening the clamp screw it may be shortened or extended full length, or removed for a straight edge. The working face of the stock, extending both sides of the blade, admits of its being reversed, so that the same angle may be laid off in opposite directions **without changing** the angle in the tool, thus requiring but ¼ of a graduated circle to obtain all angles both ways. At 90 degrees, the blade brings up against a case hardened screw, accurately adjusted, thus forming a **try-square**; by holding the blade perpendicular (the level in the stock being at right angles), a **plumb**; by folding the tool, a **level**, length of blade. Open it to any degree, and work may be leveled to that incline. Each, 12 inch blade, **$4.50**; 18 inch, **$5.40**; 24 inch, **$6.30**.

Bevel Protractor.

No. 13236. Improved Bevel Protractor. An adjustable rule, held firmly at any point by a thumb nut, passes through a revolving turret which is nicely graduated in degrees from 0 to 90, both right and left, and can be accurately adjusted to show any angle. A valuable auxiliary is made in the shape of a small level to be attached in place of the rule removed, forming an adjustable level to show any degree, thus greatly increasing the usefulness of the instrument. Each, 9 inch rule, 5 inch head, **$2.33**; 12 inch rule, 7 inch head, **$2.52**; 18 inch rule, 7 inch head, **$3.10**; 24 inch rule, 7 inch head, **$3.49**.

Universal Bevel.



No. 13237. Improved features. The set-off in the blade increases its capacity and usefulness for bevel gear work, etc., so that any angle however slight, may be obtained. Another valuable feature is, one edge of the case being solid forms a rest directly under the blade, where thin templets may be placed and accurately fitted. Price, 3 inch...**$1.30**

Screw Pitch Gauge.

No. 13238. Improved Screw Pitch Gauge. This gauge has twenty pitches, viz: 9, 10, 11, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. This is the only gauge made that can be used inside a nut as well as on the outside of a screw or bolt. A further improvement has recently been made in reducing the width of the leaves having the finer pitches, so that they will enter small nuts. Each.....**75c**

No. 13239. Speed Indicator. The Tabor Revolution Counter, with stop motion. A good, simple speed indicator. Each, **90c**; postage, 5c.

SEARS ROEBUCK & Co's INCORPORATED.

BUILDER'S HARDWARE & MATERIAL

UNREASONABLE PROFITS are usually asked on goods in this line.

YOU WILL REQUIRE Doors, Sash, Building Paper, Paint, Lime, Hair, Cement, and Hardware, when you get ready to build a house, and most of the articles named when building a barn or granary or other building.

WE MAY NOT SELL YOU, but if you will have your carpenter make out a bill of just what goods you will require in this line, **we will quote you a price, delivered at your nearest railroad station,** and **if we don't sell you,** we will compel your local dealer to lose money and **sell the cheapest bill he ever sold** and in either case **we will save you money.**

LUMBER DEALERS often sell lumber on a small margin and make it up by charging **unreasonably large** profits on **Doors, Sash, Building Paper and Paint. Look out for your Lumber merchant** on these lines.

Look out for your Hardware merchant on **Locks, Door Knobs, Hinges, Latches, Sash Fixtures,** etc. These are big profit goods with retail dealers. **We can save you 25 to 50 per cent.** on everything in this line, and no matter how little you wish to buy, **you will save enough** to well pay you for sending to Chicago for the goods.

Freight rates on hardware and Building Material are low and will amount to next to nothing compared with what you will save in price.

OUR TERMS ARE VERY LIBERAL. On all except **Doors and Sash,** which are always **net cash with order, no discount,** we will ship any goods by freight **C. O. D.,** subject to examination, on receipt of **one-fourth** the amount of the bill, balance to be paid when received.

Three per cent. discount allowed if cash in full accompanies your order.

Cronk's Anti-Friction Steel Barn Door Hanger.

No. 13790. This hanger is made from heavy steel, so it will carry the door with perfect ease and no trouble. We make a round bearing at the ends of the run, so if used on wider doors than made for, the axle will not wear into the rider bar, and the round bearings also make it run much easier than it otherwise would, or than any other hanger will that is not made this way. The groove is U shape, so it will not touch or grind on the edges and create friction, and also having a deep groove, will not jump the track. These hangers are marked with a gauge to put them up by, which saves time and insures getting them up right, even if done by a man not posted in the business. No screws or bolts furnished at prices quoted.

Cronk's Double Braced Steel Rail.

No. 13791. This rail, being double braced and double riveted, is the strongest rail in the market. Being braced both ways it will not sag. The joint is made so that it is perfectly solid. It can be used for any grooved wheel hanger, and a heavy door will not make it spring or tremble. Guaranteed to hold a door weighing 2,000 pounds, and used in connection with our Anti-Friction Hangers will work perfectly on large or small doors. If 1¼x10 screws or wire nails are used it will hold any door made.

Ives' Sash Locks.

14069-14070.

Ives' Burglar Proof Sash Locks are pronounced by architects and builders to be the best in use. When locked they draw the two sashes tightly together, which prevents their rattling. They cannot be opened from the outside by putting a thin knife blade between sash and pushing the hook open, as is the case with common sash locks. They are ornamental and easily put on. Packed with screws.

Sash Balances.

Sash Balance, for use instead of weights, can be applied to old houses where weights cannot be used: is easily put in and operates almost noiselessly. This style of balance is becoming very popular, is very neat in appearance, works smoother and lasts longer than sash cord. The tension or brake band is operated by an adjusting screw in face plate, which makes it adjustable to varying weights. If directions are fully carried out we will warrant the balance to work perfectly. Where there is not room enough to use a Side Balance we make a special balance for the top of the window, and can also be used in Mullen windows.

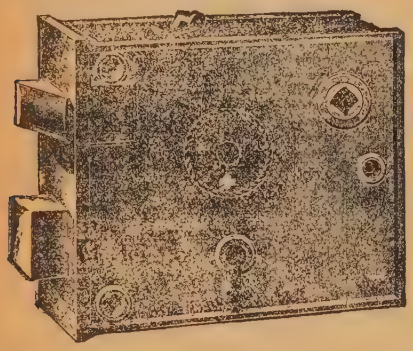
Common Knobs, Locks, Etc.



The line of Common Locks which we sell is admitted to be the best line of low-priced goods in the market. The construction is such that they are durable and easy working. A lock is something you buy to wear out, and reliable good wearing locks cannot be sold at less than our prices. We could sell you cheaper locks. No one can sell these locks at less than our prices. Our constant aim is to raise the quality and lower prices; but not at the sacrifice of quality. On this basis we seek your trade.

Ornamental Bronze Plated, and Solid Bronze Builders' Hardware.

Bronze Plated Goods are made of iron, heavily electro-plated with bronze, on the same principle used in plating table knives, forks and spoons with silver. They are handsome, cheap and durable. The most popular goods in the market to-day.

Solid Bronze Goods are made of **solid, genuine cast bronze, and will wear forever.** Cost of solid bronze goods is governed by weight. If weight is cut down, goods are cheaper, but not so strong. All our **solid bronze** goods are **full weight, full size** and **full value. No cheap stamped trimmings used on anything.**

Ornamentation. The background is finished in black enamel. The raised surfaces (which are shown by white lines in illustrations) are finely polished. The pattern is neat and popular.

We show in the following pages a **complete line** of builders' hardware, in both plated and solid bronze, and **all of same ornamentation.** This enables one to select solid bronze for better rooms, and plated for common rooms, and **all will match.** We claim this is the most complete line offered by any one, and the arrangement is such that an expert is not required to select the hardware for a house.

BUILDERS' MATERIAL.

We illustrate a line of Builders' Material which we trust will meet all ordinary wants. We are prepared to make **anything** in this line, and will cheerfully and promptly give estimates on special mill work from architects' plans. **Don't wait until you are ready to use before ordering.** During the busy season it will sometimes be ten days before we can ship an order complete. Compare our prices with those of your local dealer. When you build let us furnish the doors, sash and blinds, as well as the hardware. We will save you enough to pay the painter or carpenter bill, possibly more. Freight amounts to nothing compared to what you save.

We guarantee a better grade of goods and an incomparably lower price.

No matter how large a house you are building, **order from this catalogue** or write us for an estimate on any special work.

Building Paper.

We buy our Building Papers from the largest and most reliable makers in large quantities for spot cash, and sell them at our usual small profit. Samples sent free on request. Building paper is not intended to be exposed to the weather, but is intended to be used under shingles, clapboards, floors, etc.

The cost is very little, and can be saved in one season in your fuel bills, to say nothing of the comforts secured by its use.

S., R. & Co. Felt Roofing.

When you build you will want roofing (we will save you 33⅓ per cent. on it); **you will want hardware** (we will save you 33⅓ per cent. on it); you will want paint (we will save you 33⅓ per cent. on it); you will want paper (we will save you 50 per cent. on it); you will want doors, sash, moldings, blinds, etc. (we will save you 50 per cent. on it). Why not figure with us before you build?

So much of this Roofing has been sold, we think almost everybody must be acquainted with its good qualities. It has been used in **all climates and has given universal satisfaction.** It is easily and cheaply applied, no tools being required except a jack-knife, hammer and brush. Complete directions with each roll. The Two-ply Roofing consists of two layers of Felt Roofing with a layer of waterproof asphalt cement between, the whole being united under great pressure. The Three-ply Roofing consists of three layers of Felt Roofing with two layers of asphalt cement between, the whole being united under great pressure. We have this roofing made for us in enormous quantities, by manufacturers of established reputation, and can offer our patrons all the advantage which large purchases for spot cash can secure. This Roofing is 32 inches wide, and is put up in rolls containing 108 square feet. Allowing for laps each roll will cover 100 square feet. The Two-ply Roofing weighs about 75 lbs. per roll; the Three-ply Roofing weighs about 100 lbs. per roll. If this Roofing is kept well coated with **our Roofing Cement** it is practically indestructible.

Neponset Red Rope Roofing Fabric.

This is an air-tight and waterproof roofing paper, and makes a durable covering for roofs and sides of buildings at one-quarter the cost of shingles. A coat of good paint adds to its durability. It is also used extensively instead of plaster, being tacked to furring or laths and covered with wall paper. It is made in one grade only, and that is the best it is possible to produce. With each roll we furnish sufficient caps and nails to apply it to roof or siding.

No. 14485. Neponset Red Rope Roofing Fabric, in rolls of 250 square feet. Per roll.....**$2.55**

No. 14486. Neponset Red Rope Roofing Fabric, in rolls of 500 square feet. Per roll.....**$4.60**

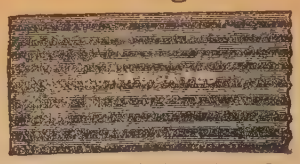
Steel Pressed Brick Siding.

This has no equal as a handsome covering surface. Insurance companies generally give same rating for this as for stone. Sheets are 60x28 inches, painted on both sides. We furnish 10 sheets to the square, including nails to put it on, and sufficient dry paint for second coat. Weight, per square, 75 lbs.

No. 14502. Price, per square, for less than 5 squares, **$3.10**; price, per square, for 5 squares or more..**$3.00**

We do not sell less than one square.

V-Crimped Roofing.



The popularity of this roofing is evidenced by the very large quantity sold by us continually. It is par excellence the farmer's roofing. It is the cheaper of all roofs offered and costs less to put it on the roof. Any person can apply it who can drive a nail. It is painted on both sides.

May be laid over sheathing, shingles, lath or direct to rafters placed 24 inches from center, on any roof having a pitch of more than two inches to the foot. The ends of sheets can either be lapped three inches or more, or put together with lock-joint.

For a square of this roofing we ship: 6¼ sheets, 24 inches to the centers, 8 feet long (or equivalent lengths); 1 lb. 1¾ inch, No. 10 barbed wire nails; 1 lb. dry mineral paint; 50 feet V sticks.

No. 14503. Price, per square, for less than 5 squares, **$2.85**; price, per square, for 5 squares or more..**$2.70**

Corrugated Iron.

Corrugated Iron being used in such very large quantities, and for so many useful and varied purposes, it would seem useless to enter into any discussion concerning it. It is light, cheap, durable and fire proof. Used for roofing, siding, ceilings and partitions. When ordering state what it is to be used for, and give dimensions of space it is to cover, and we will send sizes that will cut and lay to best advantage and the proper corrugations.

Our iron roofing is put up in squares consisting of 6 sheets, 96 inches long by 26 inches wide (or its equivalent) with sufficient nails to put it on, and enough dry paint for second coat.

No. 14505. Price, per square, for less than 5 squares, **$2.80**; price, per square, for 5 squares or more..**$2.60**

We do not sell less than one square.

Wringers.

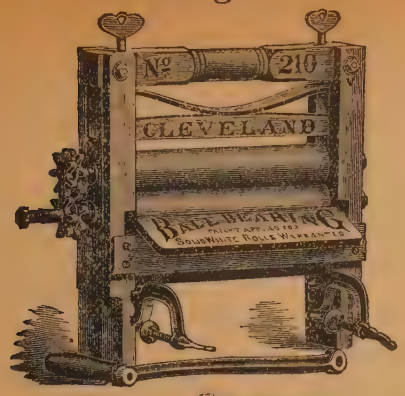
Our Wringers are manufactured by a firm who have been in this business for thirty years. The workmanship is of the highest order. All parts are closely matched, with no rough ragged or chipped edges. Even the under parts and inside of posts are finished smoothly. The rubber rolls are the vital part of the machine. The warranted rolls in our Wringer are made of **solid white rubber** and they are vulcanized immovably to the shaft. **We guarantee that should any warranted rolls turn on the shaft, become loose, bulge or give out because of defects within a year from time of being put into service, we will replace them free of charge.**

Wringers weigh about 10 lbs. each.

No. 15364. The Cyclone Iron Frame Wringer, with steel springs, galvanized malleable iron apron. Rolls, 10x1¾ inches. This wringer will give satisfaction for the price, and we have never seen its equal sold at anything like this price. Only.....**$1.30**

FOR FEAR YOU MIGHT FORGET IT,

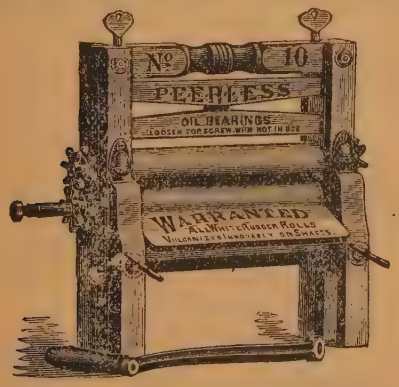
We direct your attention to our



BICYCLES

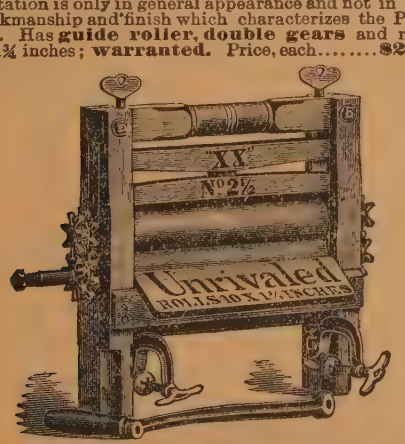
(See pages 611 to 619).

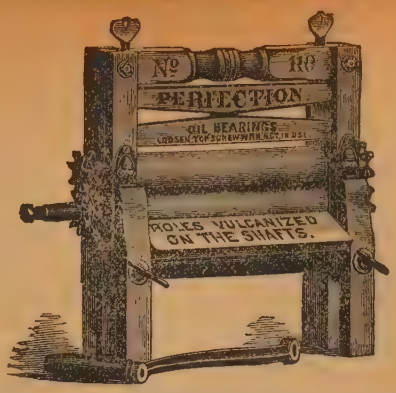
If you couldn't afford a Wheel before, we now hang them within easy reach.



We invite the most careful investigation of our reliability before you order. If you have any doubts about trusting your order and money with us, don't send it to us until you have been satisfied we are all that we claim.

The Cleveland Ball Bearing Wringer.





No. 15367. The Cleveland Ball Bearing Wringer. The greatest improvement yet applied to clothes wringers. Turns with half the strength required for others. This **ball** bearing must not be confounded with the roller bearing introduced some years ago. The arrangement of this bearing is almost identically the same as applied to bicycles. The cones and bearings are made of steel, hardened and tempered, and the balls of hardened steel, same as are used in bicycles. Has wood frame, steel adjusting spring, 2 adjusting screws; rolls, 10x1¾ inches. **warranted.** Price, each.....**$3.00**

No. 15368. The Peerless Wringer is the most popular wringer with high class trade, and we can not recommend it too highly. The distinguishing feature of the Peerless is the clamping device which has recently been imitated by other makers, but comparison shows the imitation is only in general appearance and not in fine workmanship and finish which characterizes the Peerless. Has **guide roller, double gears** and rolls 10x1¾ inches; **warranted.** Price, each.....**$2.00**

No. 15369. The Unrivaled Wringer. Desiring to give our customers a large variety of wringers to select from, we have added this first-class wringer to our line. The material for the frame is carefully selected from first-class lumber. Has guide roller, 2 top screws and swinging iron clamps. Rolls, 10x1¾ inches: **warranted.** Price, each.....**$2.00**

No. 15372. The Perfection Wringer. While this wringer will give excellent satisfaction for the price, and is as good as the first quality of some makers, the frame is not made from the same **selected** material as our other wood frame wringers. The frame is good and strong and the rolls of good material. Size, 10x1¾ inches; not warranted.
Price, each.....**$1.50**

No. 15375. The combination of Wringer and Bench combined is popular, and the Peerless is the best in the market. The bench is constructed on the principle of the truss bridge, and is exceedingly strong, though light. When folded for shipment or putting away when not in use it occupies but little space. With the ordinary tub wringer it is about as much work to hold the tub as to turn the wringer. The Bench Wringer does away with all this trouble. Rolls, 10x1¾ inches: warranted.
Price, each.....**$3.00**

Carpet Sweepers.

Something New. Cheap as a Broom.

No. 15379. Bissell's Baby Sweeper is a toy that every parent will want. It is **useful**, durable, beautiful and cheap. The maker's name is a guarantee that it is first class in material and **workmanship**. It is 8 inches long, 4½ inches wide; has broom action, strongly made, and nicely finished.
Price, each.....**40c**

No. 15380. Bissell's Child Sweeper is a toy or a light small sweeper for practical use. Is 8 inches long, 5¼ inches wide, has broom action. Price, each.....**75c**

OUR CARPET SWEEPERS ARE NOT MERE CRUMB BRUSHES. They do away entirely with the need of a broom on the carpet. They go into the nap and raise the dirt from where the broom never reaches. They will follow up a broom and remove more dirt than the broom did.

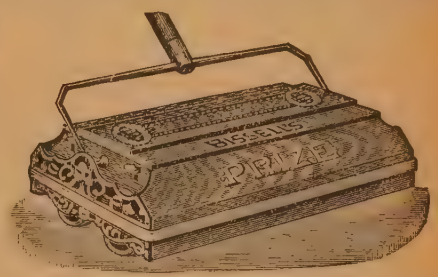
They sweep without dust or noise or wear on the carpet—almost without labor. They sweep any carpet.

The largest sweeper makers in the world make them. Sixty-five patents cover their devices.

And the price is low. Quantity makes it low.

No. 15382. The Sears, Roebuck & Co.'s Sweeper is unquestionably the best low priced sweeper ever put on the market. It is a good sweeper and a good looker. It has the broom action—everlasting pure bristle brush—and spring dumping device.

The case is made with selected 3-ply veneer top, gracefully curved and attractively finished. Price, each.....**$1.75**



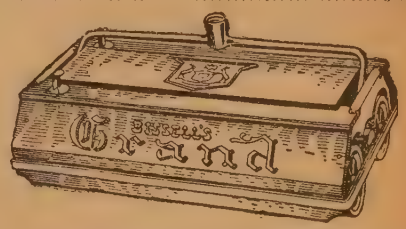
No. 15384. Bissell's "Grand Rapids." The best known and most widely sold carpet sweeper in the world.

Contains the famous Bissell broom action, and every other patented feature necessary in a first-class sweeper.

Made from the best selected cabinet woods in an assortment of attractive finishes.

Has rubber furniture protector encircling the case. Bissell's patent reversible bail spring, wheels outside the case, our everlasting pure bristle brush, both pans open at once by an easy pressure of the finger. Weight, 6 lbs. Price, each.....**$2.30**

No. 15385. Bissell's Prize Carpet Sweeper, the latest of the Bissell patterns, and differing in appearance from any other sweeper on the market.



A sweeper of the highest grade, with one of the handsomest patent case designs.

The case is hand polished. The bail, trimmings and iron end pieces are plated with nickel, brass, or antique copper, according to the finish of the case.

It contains our broom action, our patent reversible bail, and our pure bristle wire staple brush, adapted to be easily removed from the sweeper.

Its spring dumping device is convenient, opening one pan at a time. Length of case, 14 inches.

Its construction throughout is as perfect as care and skill can make it.
Price each.....**$2.95**

No. 15388. Bissell's Grand is constructed after one of the handsomest of our patented designs. The wheels do not project outside the case.

The bail and trimmings are nickeled, and the case is hand decorated.

The spring dumping device is one of the most convenient that we make.

This sweeper is made in natural walnut, maple with mahogany finish, and oak with the 16th century finish. Length of case, 17 inches.

No. 15398¼. This is the best known and most popular apple parer ever invented. Every machine works perfectly, all parts being accurately fitted and put together in the best possible manner. Machine should be fastened to corner of table, as shown in cut. Parings fall clear of machine and table. Gearing cannot clog with parings. Has curved knife and all latest improvements. Price, each, **75c.** Price per doz.....**$8.00**

No. 15398¾. This is a strictly first-class machine at a low price, and is not intended to replace the inferior devices in the market. **With one hand you can pare, core and slice an apple, and withdraw the fork from the core. Directions**—Place the apple on the fork. By one turn of the crank the small knife pares the base of the apple—other machines require the base to be pared by hand. A few additional turns enables the machine to completely pare, slice and core the apple, leaving it perfectly smooth, unbroken and in a perfect coil. The shaft is then drawn back to release the apple, when the Automatic push-off removes the core from the fork, thereby requiring but one hand to operate the machine. By loosening the machine screw you can drop the coring and slicing knife down to the side, and pare only. The knives on this machine are of tempered steel, will retain their edge during constant use for a long time, and will not bend. Price, each, **40c.** Per doz.....**$4.50**

Ice Shredder.

The operation of our shredder requires no explanation, being simply to draw the blade upon a piece of ice—the pressure applied producing fine or coarse pieces, as desired. To remove the finely cut ice from the cup, grasp the shredder firmly in the right hand and strike it, inverted, upon the left, at the same time being careful to keep the lid closed. Then scrape the ice into some convenient receptacle. It is not necessary to take the ice out of the refrigerator, as you may reach in and fill the cup from the side, end or top of a cake of ice without disturbing anything or wetting your hands. Its use will be appreciated for fruits, drinks, oysters and clams on the half shell, olives, celery, radishes, iced tea, sliced tomatoes, etc., and for many purposes in the sick room. It is also adapted for use in making "snow balls," which are variously flavored and sold to children on the streets and at their schools, also to the general public at fairs. Men engaged in making "snow balls" are making from $5 to $9 per day.

WHAT THE PEOPLE SAY.

Better Suit Than He Could Buy Elsewhere for Much More Money.

ROCKWALL, Tex., Jan.—1897.

SEARS, ROEBUCK & Co.

Kind Friends:—I received that suit of clothes some time ago. I was glad to get them. They were all right and a better suit than I could have got here for a right smart more money. I received them and paid for them. I have been thinking I would write to you sooner, but haven't done it until to-day. Yours respectfully,

W. A. PRESCOTT.

We Try to Make Every Order Satisfactory.

SINNAMAHONING, Pa., Dec. 30, 1896.

MESSRS. SEARS, ROEBUCK & Co., Chicago, Ill.

Gentlemen:—It affords me pleasure to write you again, thanking you for your promptness in regard to the suit of clothes ordered. It came on Christmas morning and in due time, and will say it was perfectly satisfactory in every way. Now if everything goes as I expect you will receive another order from me some time in next month. Again thanking you,

I am yours very truly,

N. H. MCCLOSKEY.

P. S.—Mrs. Mc. would like if you would send her some samples of henriettas, cashmere, serges; dark green.

Very Well Pleased With Overcoat.

SPICER, Minn., Dec. 28, 1896.

SEARS, ROEBUCK & Co., Chicago, Ill.

Gentlemen:—Accept my best thanks for the overcoat which I have received, and I am very well pleased with it. Yours truly,

O. E. CLAUSSON.

"I Don't See How You Can Make Anything Selling at the Price."

EAST PEMBROKE, Dec. 26, 1896.

SEARS, ROEBUCK & Co.

Sirs:—My suit received last night, the 25th, and was very much pleased with them. I don't see how you can make anything selling at the price. **Coat** is a nice fit. Please print my testimony in your catalogue.

Yours truly, HENRY MEYERS.

Highly Pleased With Suit.

GRAND HAVEN, Mich., Dec. 24, 1896.

SEARS, ROEBUCK & Co., Chicago, Ill.

Gentlemen:—I received the clothes invoiced **No. 283960 all O. K.** Everything all right, and highly pleased with same. Yours truly,

WM. L. PHILLIPS.

Surprised at Such a Bargain and Complimented On All Sides.

ASHEVILLE, N. C., Dec. 24, 1896.

MESSRS. SEARS, ROEBUCK & Co., Chicago, Ill.

Sirs:—I beg to say that overcoat No. 1004 arrived in good order, and that I am highly pleased with it. The material and workmanship is simply excellent, and notwithstanding your ability to do just what you say, I was certainly surprised at such a bargain as you gave me. I get compliments on all sides about my fine over coat. Many thanks,

A. M. GOODMAN.

We Surprise Our Customers With the Value We Give in Clothing.

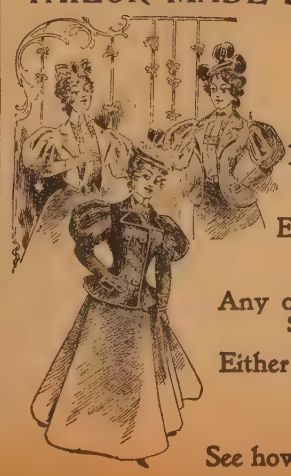
WEST PIKE, Pa., Dec. 20, 1896.

SEARS, ROEBUCK & Co.

Dear Sirs:—The clothes came to hand O. K., and they are far better than I expected they would be. By the way, I stepped into a clothing store, and the proprietor asked me who made my suit and what it cost, and I said you tell. Oh, he says, they are a $40 suit. Yes, I am very well pleased. Please send samples of dress goods for fall and winter. Yours,

J. S. BARTE.

We Always Give the Full Worth of Your Money.



CORTLAND, N. Y., Dec. 28, 1896.

SEARS, ROEBUCK & Co.

Gentlemen:—The clothes arrived O. K., and are a good fit all around, and, I think, well worth the money they cost. I have shown them up, and I think you will get more orders by so doing. Wishing you a happy and prosperous New Year, I remain,

Respectfully yours. R. G. LEWIS.

OUR REFRIGERATOR DEPARTMENT.

We offer the Acme Refrigerators as the highest grade dry cold air refrigerators on the market.

FROM THIS ILLUSTRATION WE ENDEAVOR TO SHOW the construction of our Acme Refrigerator. The illustration shows the circulation of the air, arrangement of shelves and drip cup in position. It will be noticed that **the air after passing over the ice falls directly under** the provision chambers, displacing the warmer and lighter air and forcing it up the flues on either end, where by contact with the ice it is purified, cooled, and again falls, thus keeping up a constant circulation.

PLEASE NOTE that we do not have any condensation on exposed metal plates, but carry the air directly to the ice, which is the greatest purifier known to modern science.

THESE REFRIGERATORS are constructed with an inside case of **odorless and tasteless lumber**, matched and clamped together with nails and glue, and fastened to hardwood cleats, making it a thoroughly airtight, strong cabinet in itself. The insulator used is charcoal sheathing, which is odorless and tasteless and a perfect non-conductor.

THE OUTSIDE CASE OF OUR CHEAPEST LINE IS SOLID ASH, and on our finer grades it is of **solid antique oak, highly polished.** It is nailed and glued to the cleats which bind the inside case, thus making it one of the strongest and most durable refrigerators ever built.

THE DRIP CUP IS SHOWN IN THIS CUT CLOSED. To empty it, pull the wire and it will throw it over. The spring between the cup and loop will spring into position again. This is a very strong feature in our refrigerators, and is protected by U. S. patents.

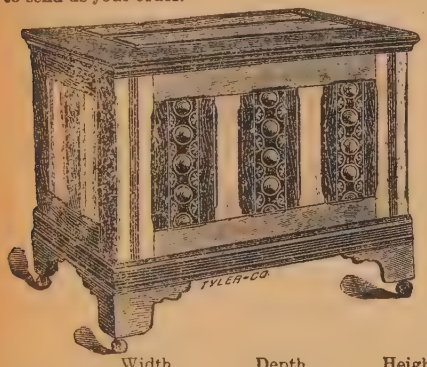
ALL THE WOOD IN THE PROVISION CHAMBER is covered with metal, and there is no chance for it to become tainted or musty.

On all our Acme Refrigerators the foot-board is fastened with hinges instead of dowel pins; hence, if broken off can be quickly repaired by any one.

DO NOT COMPARE this Acme line of refrigerators with the many cheaper grades on the market, poorly constructed, often made of elm wood, and not built on scientific principles. We could furnish you a refrigerator for much less money, but could not guarantee it as we can the Acme.

WE BELIEVE OUR CUSTOMERS are entitled to the best, and we have carefully arranged with the manufacturers to supply us with as high grade a line of refrigerators as can be built. Every piece and part of the material used is of the very best, and the finish the very highest. Our refrigerators are paneled, top, sides, back and bottom, and finished as in no other make.

OUR CHEAPEST REFRIGERATORS have all the latest improvements that can be found in the highest grade of other makes; in fact, the Acme possesses all the good points of every refrigerator made, with the defects of none.



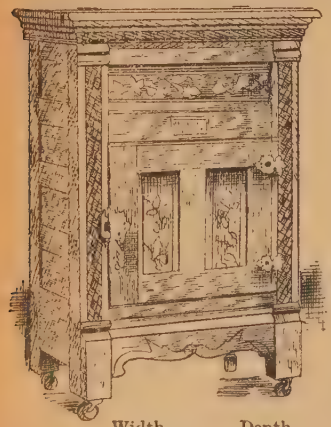
OUR BINDING GUARANTEE: We guarantee every Acme refrigerator to be made of the very best material throughout, to be constructed on the latest improved and most scientific principles, to be found exactly as represented in every respect, and to give universal satisfaction; and if found otherwise than as stated, we will cheerfully refund any money sent us and pay freight charges both ways.

OUR LIBERAL TERMS: We will ship refrigerators to **any address anywhere in the United States upon receipt of a sufficient, deposit to cover freight charges both ways.** You can examine the refrigerator at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our prices and freight charges, less the amount sent with order.

DISCOUNT FOR CASH. We allow a discount of 3 per cent. if cash in full accompanies your order. If you send the full amount of cash with your order you may deduct 3 per cent. from our prices. Nearly all our customers send cash in full. Please consider the 3 per cent. cash discount when comparing our prices with others.

Our Acme Hard Wood Ice Chest at $2.93 to $8.00.

We offer the best-made ice chest in the market at from **$2.93** to **$8.00**, and we would invite you to compare these prices with those of any other house, and if we can not save you money and furnish you a much better chest we will not ask you to send us your order.



Please observe these chests weigh from 65 to 180 lbs., and when ordering to be shipped C. O. D. be sure to enclose enough to cover freight charges both ways. Balance and freight charges you can pay when the chest is received. Please note the 3 per cent. discount allowed if cash in full accompanies your order.

The Acme ice chest as illustrated is made of hard wood, has beautifully carved panels, is lined throughout with extra heavy metal, wooden slat rack on bottom for ice, heavy metal shelves. It is mounted on the very best anti-friction casters, and is offered to you as a first-class chest for little money. This chest has no circulation.

This refrigerator is an entirely new design for this season, and one of the handsomest and best we have to offer. It is made from the very best selected kiln dried oak, finished antique, highly polished, beautifully carved. It is trimmed with fancy heavy bronze trimmings throughout. The top is solid and makes a very useful sideboard, besides being a perfect refrigerator. As will be seen from the illustration the upper doors are arranged so that the ice can be placed in the chamber without the inconvenience of raising the upper lid, and when the ice does not fill the large chamber it serves as a place for storage around the ice.

The ice chamber of this refrigerator is made extra large, and will take artificial ice. It is constructed with a view to giving the greatest amount of room possible. We recommend this refrigerator either with or without sideboard above all others. It is the most popular size, is highly finished, and possesses the good points of every refrigerator made with the defects of none. We do not hesitate to guarantee it in every respect, and we are offering it at about one-half the price charged by retail dealers. We can only repeat that when comparing our prices with those of other houses, be sure that you are comparing ours with a high grade antique oak refrigerator, one which is made in the best possible manner from the very best material on the latest and most approved scientific principles.

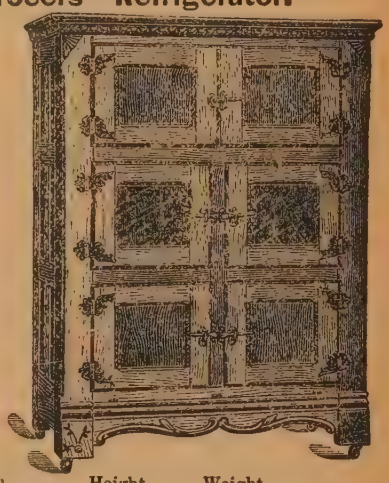
Our Highest Grade Acme Dining Room Sideboard and Refrigerator Combined, $50.00.



During the past several years our customers have asked us to make a combined sideboard and refrigerator suitable for a well furnished dining room, consequently we have designed and made one, as shown by the illustration. They are a combination of sideboard, refrigerator and water cooler. They are made of selected kiln dried quarter sawed oak, rubbed and polished. The refrigerator is entirely separated from the tank for ice water, and the drawers behind have a double partition lined with non-conducting material. It contains all the improvements of our celebrated Acme, and is one of the handsomest pieces of dining room furniture furnished in the country. It is not only highly polished but is heavily paneled, beautifully carved, decorated and ornamented. It is fitted with a very large beveled edge French plate mirror, trimmed throughout with heavy solid bronze trimmings, old copper finish, and is the handsomest thing in the way of a refrigerator ever produced.

POCKET CUTLERY.

For cutting quality, durability and finish our line of pocket cutlery has been selected with a view to meeting the wants of our customers. Our patterns are the latest, **warranted knives.** All knives which we warrant are guaranteed to be free from flaws and not too soft, and if found otherwise can be returned at our expense and exchanged or money refunded. No knife can be returned, however, except it is clean and shows no evidence of abuse. A broken blade must show signs of flaw in the steel or will not be replaced. In this line also we save our customers from 25 to 75 per cent. on retail prices.

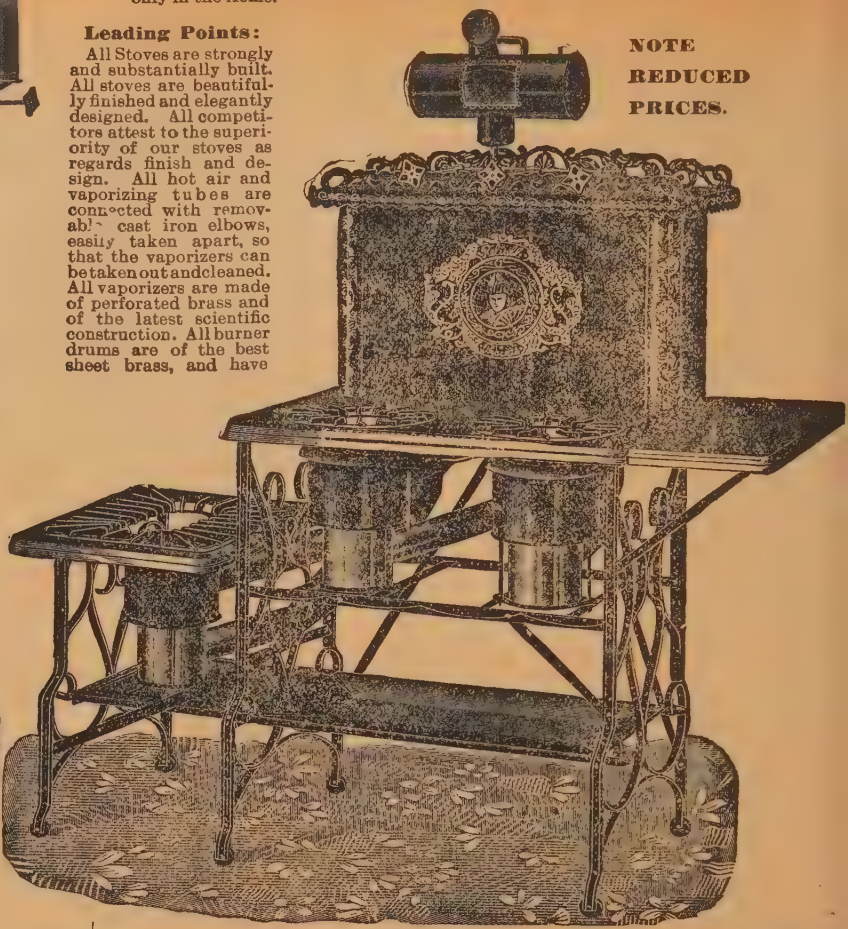
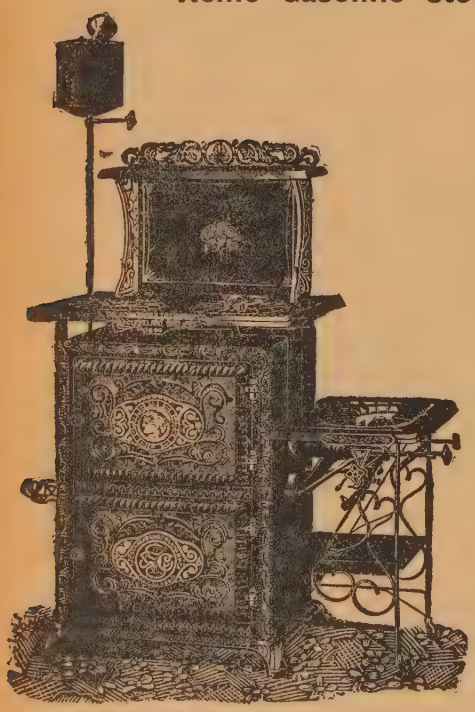
Acme Gasoline Stove.

1897 Acme Process.



Finest on earth. Greatly improved for 1897. These improvements to be found only in the Acme.



Leading Points:

All Stoves are strongly and substantially built. All stoves are beautifully finished and elegantly designed. All competitors attest to the superiority of our stoves as regards finish and design. All hot air and vaporizing tubes are connected with removable cast iron elbows, easily taken apart, so that the vaporizers can be taken out and cleaned. All vaporizers are made of perforated brass and of the latest scientific construction. All burner drums are of the best sheet brass, and have cast iron tops and bottoms. All cone seats are made of cast iron. All cone seats have large iron flanges so as to protect the drums from heat, grease and dirt, which have always caused burner drums to either burn or rust off at the top. This improvement makes all hot air conductors indestructible—a great improvement and one worthy of your consideration. All burners are fastened together with two bolts easily taken apart. All tanks for 1897 are simple, perfect and a proven success. All needle points on valves are made of German silver wire; they will never rust or corrode, and will always insure a steady drip. All tanks are so constructed that they cannot be removed for filling until all valves have been closed. All Acme Process Stoves will run perfectly in cold weather. All in all, the Acme Process is the king of evaporating stoves.

The most beautiful stoves ever manufactured.

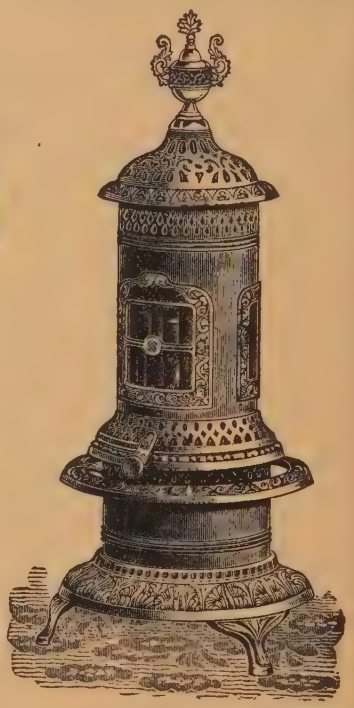
Oil Heaters.



No. 15814. **The Acme Oil Heater.**

No. 1775. Extreme height, 32 inches; diameter of lower Russia iron section, 7 inches; diameter of top section or heating drum, 6 inches; circumference of central draft wick, 5½ inches; circumference of pure white flame, 12 inches.

This is our smallest stove, and is a very powerful heater for its size, and is as well made in every way as our largest and most expensive stove. It was brought out expressly for heating bath rooms, sewing rooms and small bed rooms, and will be found far more desirable for these purposes than a large, heavy stove.

Being very light, it is easily carried from one room to another, and does not require casters. Price each, **$6.00**

No. 15815. **The Acme Oil Heater.**

No. 1776. Extreme height, 36 inches; diameter of lower Russia iron section, 8 inches; diameter of top section or heating drum, 7 inches; circumference of central draft wick, 7½ inches; circumference of pure white flame, 15 inches.

This is our second size heater, and will be found one of the most desirable sizes for bedrooms, small offices and large bathrooms, and will throw more heat with corresponding size wick than any similar heater on the market.

The best proof of its merits is to test it.

This stove is fitted with hardwood casters in legs. Price each...**$7.33**

STOVE DEPARTMENT.

In our stove department will be found a complete line of stoves, ranges and heaters in all the various sizes, styles, prices, etc., suitable for any kind of fuel. Notwithstanding the advance in cost of material and labor, we are able to make prices lower than ever before. Our sales have heretofore been phenomenal, but there is no limit to our ambition. We propose to sell twice as many stoves in 1896 as we did in 1895. Read our description carefully and notice many improvements. Note carefully the weights and size, and you will find no one can compete with us.

..GUARANTEE..

In each and every Sunshine Stove or Range sold by us will be found a fair, full, legal guarantee, engraved and printed on bond paper and signed by the manufacturers, warranting the stove to be perfect in manufacture and perfect in operation; that any defects in material or workmanship will be made good to the purchaser without charge. Never before has any stove manufacturer given any such liberal, broad, legal guarantee in black and white. It could only be done with the very best goods possible to be made.

We can save you about 50 per cent. on everything in this line, and you will also be sure of getting the highest grade goods on the market, goods made by one of the largest and most reliable manufacturers in America, a concern whose enveiable reputation for the manufacture of strictly high grade stoves ought to be a guarantee for the quality.

Freight is very low on stoves. They are accepted by all railroad companies at third (3d) class freight rate, and you will see by weight of stove given under each description and third class freight rate to different states, as shown in front of book, that freight amounts to nothing compared with what you save in price.

Our terms are very liberal. We will ship any stove to any address within 1,000 miles of Chicago, by freight C. O. D., subject to examination, on receipt of $5.00 as a guarantee of good faith. You can examine it at the freight depot and if found perfectly satisfactory and exactly as represented pay the freight agent our price and freight charges, less the $5.00 sent with order.

Three per cent. discount will be allowed if cash in full accompanies your order. **You take no risk** for we will immediately refund your money, if you do not find goods perfectly satisfactory.

DIRECTIONS FOR OPERATING STOVES.

To secure a good operation in all kinds of stoves and ranges, see—

First—That the flue stopper is in its place.

Second—That the chimney is clear and has a good draft at pipe hole. Many chimneys are made too low, and draw better when a "smoke stack" is put on them.

Third—That the pipe fits closely on the stove and in the chimney. No air should go in outside the pipe.

Fourth—That the pipe does not go too far in the chimney.

Fifth—That no ashes from chimney get into the end of the pipe.

Sixth—Avoid having the pipe telescope at the elbow. If you have all these parts properly adjusted and well arranged, open the direct draft damper and see if you can get a good fire in the stove, together with a strong draft. If the stove will not burn well then, the trouble is not in the stove but above it.

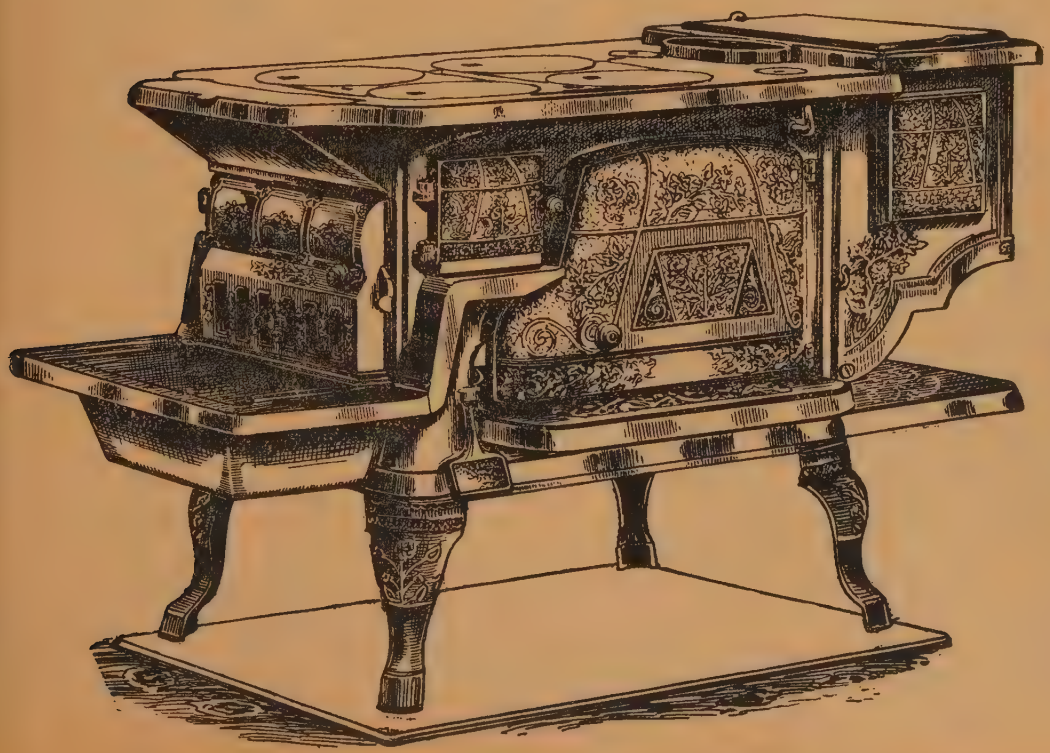
If the fire burns well on the above direct shaft, close the oven damper; then if it will not heat the oven and bake well, please examine the flues and damper, and see—

First—That all the flues are open and clear, so that the smoke can clearly pass through them. In cleaning flues, many do not clean all the flues and frequently push soot and ashes into back corners, and in that way stop them up.

Second—Examine all the dampers in the flues, and see that they open and close tightly and do not get out of place.

Third—Be sure that you know how they operate, so they may not be open when you think they are closed.

If you are trying a stove without a hot water reservoir, and have everything in good order as heretofore described, it cannot possibly fail in operation if you close the direct draft damper and throw all the heat around the oven. Time should be given to get the oven hot before trying to bake.



If you have a stove with a reservoir, be sure that the damper (if one is in the stove) to force the heat under the reservoir is closed, so that all the heat must go around the oven. Many reservoir stoves have two dampers, and in that case both should be closed.

We have known many persons who have tried to use such stoves with the damper under reservoir open when they thought it was closed. On that account the oven heated too slow, but worked fast enough when they closed the damper.

No pipe or utensils furnished with stoves at prices quoted. We can furnish repairs promptly for any stove we sell. We do not black stoves to make them "show up" better, but ship them just as we receive them from the foundry. Our prices are free on board cars, in Chicago.

PERFECT SUNSHINE RANGE.

For hard or soft coal or wood, with Reservoir and High Shelf.

The Perfect Sunshine Ranges have four holes, but are as large on the top as the general run of six-hole ranges. First-class in every respect. Has flues of such large capacity as to insure a quick, strong draft and perfect operation, even with the poorer qualities of coal. Has Read's patent check damper, which gives the user perfect control of the draft. Oven ventilating device, the most sensible and convenient arrangement in use for ventilating the oven. Heavy flat covers and cross pieces, which are far more durable than those deeply ribbed or fluted. Beautiful design and finish, which would alone give the Perfect Sunshine the lead over any of its competitors. The length of fire box given below is the size when stove is ordered to be used for wood.

NEW SUNSHINE RANGE.

For hard or soft coal or wood.

No. 15856.

The New Sunshine is faultless in construction, containing every useful invention known to stove manufacturers. The duplex grate, quick draft damper and patent pedal attachments are all found on this range. Our oven ventilating device, first used by us in 1876 because of its simplicity and common sense, has reached a success and popularity not attained by any rival method of oven ventilation. Our device enables the user to change the range instantly, by simply operating a slide, from a ventilated oven to a tight oven range, and to regulate the volume of inflowing or outflowing air at will. Six hole top. The length of the fire box given below is the size when stove is ordered to be used for wood.

THE STERLING SUNSHINE STEEL PLATE RANGE.

With high closet and reservoir for hard or soft coal or wood. To meet the demand for a steel range we offer the **Sterling Sunshine**, in which is combined solidity, durability, efficiency and convenience. It has no devices for mere show and appearance, but it has **every good feature** that will promote **utility, convenience** and **durability. Special features:** The entire outer body is one piece of heavy, cold-rolled wrought steel. Inside the outer body there is a wall of asbestos (the best non-conductor known), and inside the asbestos a lining of sheet steel. All other parts of the range (except the oven) are also lined with asbestos. This method of construction concentrates the heat in the oven and secures an economy in fuel never heretofore attained. The top rim is cut in four sections. The slip plates, covers, and cross pieces are heavy and durable. The reservoir holds 15 gallons and the water is heated by a half-size water front by circulation, which does not interfere at any time with baking. Has six holes.

No. 15865. With coal fixtures.
No. 15866. With wood fixtures.
No. 15867. With both fixtures, add $5 to prices quoted.

We can also furnish this range with low closet and high shelf **with a horizontal circulating boiler** above the high shelf, with connections all complete for the plumber to connect with the hot water delivery pipe and with the water system of the city or town. The boiler is out of the way and does not take up any floor space, and is near the water-back, which causes the water to heat rapidly, saves pipe and lowers the plumber's bills. Where there is no public waterworks system it may be connected with an elevated tank, placed at sufficient height to force the water to any part of the house where hot water is desired. **There must be a constant pressure of cold water into the boiler, either from a water-works system or from a tank, or this range with circulating boiler cannot be used.**

RADIANT SUNSHINE.

No. 15908. The Radiant Sunshine is the most beautiful, as well as the most complete and practical, of all the round fire pot Franklin stoves in the market. By closing the upper sliding mica doors, the stove can be used as an air-tight surface burner. These doors are so made that they never warp or stick. An efficient dust-flue carries away into the draft all the dust produced by cleaning the fire.

The center discharge grate as applied in this stove is unexcelled for effectiveness and convenience.

The design and ornamentation of the Radiant Sunshine are highly artistic. The skirt base, foot rail, dome plate and swing cover are nickel plated and the appearance of the stove is further enriched by six specially designed circular art tiles.

GEM SUNSHINE.

For hard or soft coal.

No. 15940. We sell the Gem to those who want a good, durable, reliable heating stove for a small amount of money. Though very low in price, it has every essential feature of a good heating stove of this class. It does not, of course, have all the fancy frills and ornamental extras that are found on the highest priced goods of this kind, but nothing is lacking that will promote service and durability. And isn't it pretty? It costs no more to make a handsome stove than an ugly one.

ROYAL SUNSHINE.

Revertible Flue.

No. 15945. A new revertible flue surface burner, with Russia iron body, shaking draw center grate, cast iron revertible flue on the outside of the stove, thus giving a very much larger fire space to a given size of stove over the old style of construction. This flue stands clear of the stove, except at the upper and lower ends, allowing a greater radiation of heat from both the body of the stove and the cast iron column that forms the flue. We respectfully ask an impartial examination and test of this stove, as we believe it will fill the requirements of our patrons. With ornament on top, nickel plated name plate, foot rails, pins and knobs.

THE MERRY SUNSHINE HEATER.

No. 15960. Revertible flue Parlor Stove. No better parlor stove has ever been produced for the price. Among all the heating stoves which have been placed on the market few have attained the popularity reached by the Merry Sunshine. Its admirable qualities have commended this heater to all who have used it, and one sold will cause the sale of several more. More points of merit are embodied in the Merry Sunshine than are found in any of its competitors. The nickel is elaborate and effective and so arranged as to display the graceful and artistic outlines of the stove to the best possible advantage. Stove has **full nickel top**, Ransom's improved duplex grate and shaking rings.

STOVE REPAIRS.

We can furnish repairs for any stove we sell. **We will not attempt to fill any orders** unless the following instructions are observed: Give name of stove, size, maker's name and dates. **Face the hearth** and state if repair goes on right or left hand side. Cash in full must accompany orders. Weigh up your old casting and you can tell about what the new one will cost. The average price is 9c per lb. If that price won't purchase the repair you order we will write you. If more than enough, we return balance.

STEEL RANGES.

The price of Steel Ranges has always been too high. On account of the high price the sale was limited, and they were not made in large enough quantities to be made economically. We have contracted for a Steel Range to be made especially for us, and in quantities which reduce the cost of manufacturing to a reasonable basis. The material, workmanship, design and finish will be equal to the best in the market and the price lower than was ever before named for a Steel Range. We would rather sell 3,000 of these Steel Ranges and make only $1.00 on each sale than to sell 30 and make $10.00 on each sale. By selling 3,000 we make 3,000 friends and customers, and nearly every one who buys this range will induce his friends and neighbors to send to us for goods. These Ranges are now being made and will not be finished for two or three weeks. As soon as they are finished we shall get out a special circular on this Range, and any one wishing to purchase a fine Steel Range should not buy before sending to us for our prices and descriptions on this Range.

AIR TIGHT STOVE.

No. 15961. The **Acme** Air Tight Heating Stove burns wood, chips or any offal. Will easily keep a wood fire over night. The most powerful heater for the least money. It is made strong, durable and neat. The ashes can be removed from the draft opening with an ordinary fire shovel. Put some ashes in bottom of stove when building first fire in stove, and always leave an inch or so of ashes in bottom of stove. We make it lined and unlined, and in smooth steel and planished iron (usually called Russia iron). We advise the use of the lined stove, as it is much more durable at little more cost.

Pancake Griddle.

No. 16099. The Sun Pancake Griddle is made of wrought steel; is strong and durable, heats quickly and retains the heat, and is lighter than any other griddle made. All others are too heavy for convenience, absorb grease, are hard to clean and break easily, besides wasting fuel and time in waiting for a sufficiently hot fire.

The illustration above shows the Sun Pancake Griddle with its 3 hinged pans. The batter is first poured into the little round hinged pans. When done on the first side the round pans are turned over with a fork into the long pan, and while the cakes are finishing, the round pans are refilled and so on, thus baking at the actual rate of six cakes a minute. The cakes are served perfectly round, with smooth edges, are light and spongy and will tempt the most fastidious appetite. It is an absolute necessity in every household. Price, each, **35c**; per doz., **$3.75.**

Egg Poacher.

No. 16106. Egg Poacher; is designed to be placed within a spider or cooking vessel containing boiling water about one-half inch deep. Its merit is very evident. Each egg is of uniform size, perfectly cooked. "A round of white dotted with a firm golden center." Eggs are quickly and easily removed, etc. Adapted equally well for baking biscuit, gems, patty cakes, etc. Made of IX charcoal tin, without solder. Every joint and seam smooth and perfect. Price, each, **25c.**

Broilers.

No. 16108. The illustration shows the two sections of the Broiler and the cover, the corrugated cross pieces being V-shaped into which the gravy drips during the broiling. It is thus self-basting and instead of the gravy falling into the fire, creating a suffocating smoke and disagreeable odor, it runs into the corrugations, is broiled into the meat, making an otherwise dry, tough steak tender and juicy.

The cover fits over the top, confining the appetizing flavor to the meat and prevents the escape of smoke into the room.

For toasting the Morgan Broiler is perfection. It makes no difference what kind of stove you use, gasoline, wood, coal, gas or oil, the Morgan Broiler is adapted to them all. Will not crack, warp or break; is easily cleaned, fits any stove; does not affect the draught nor deaden the fire. Price, each, **40c.**

Stamped Tinware and Enameled Ware.

Plain stamped tinware is formed from a sheet of tin plate. Retinned stamped ware is made in the same way and is given another coating of tin after being finished. Will last longer and looks better, but costs more to make than plain. Gray enameled ware is formed from a **sheet of steel** enameled, inside and outside, a gray color slightly tinged with blue, and presents a wave-like appearance which is very ornamental. For cleanliness, purity, durability and beauty this ware is unexcelled by any other gray enameled steel goods on the market. **It is entirely free from lead, arsenic and antimony,** metals so often used in enamels of this appearance. We buy all tin and enameled ware direct from the makers and are satisfied with our usual small profit. All goods are regular standard size. **No seconds or imperfect goods sold.** The market is just now flooded with cheap grades of enameled goods, many of which are not **good** as our tinware. Honest goods can not be sold for less prices than we name. We buy goods only from reliable manufacturers, who have an established reputation which is too valuable to them to be lost by sending out worthless goods. All tinware and enameled ware goods do not hold as much as represented. Sizes given are manufacturer's measure. Same as used by all manufacturers. Notice size given in inches, which is exact.

The Dairyman's Favorite.

No. 17036. The accompanying cut represents an article having all the essential points of a perfect Strainer Pail. Among its points of excellence we mention the breast and front half of the pail being formed in one piece, making but two up and down seams in the body. It will be noticed that the breast is funnel-shaped, and will not slop over in pouring. Besides the wire gauze strainer there is a brass spring clamping around the mouth to hold a cloth, thus making a double strainer without extra labor or loss or time. Another important feature is, there is no part but what can be thoroughly washed, and no rough and unsoldered seams in which dirt can accumulate and sour.

Challenge Odorless Commode and Slop Bucket Combined.

No. 16495½. Beats everything of the kind on the market. It is impossible for the foul air to escape, even when the lid is removed, as there is inside the lid a receptacle that holds a deodorizer and which neutralizes all gases inside the commode. The disinfectant (2 tablespoonfuls of chloride of lime) needs only to be renewed once in two weeks at a small cost.

It is indispensable in the sick room, especially in cases of contagious diseases and fevers. Does not have to be emptied until filled, no matter how long it stands.

Made of heavy galvanized iron, and has no paint to hold stench or disease germs. Has removable seat, etc. It needs only to be seen to convince you of its wonderful merit.

Cream City Flour Bin and Sifter.

No. 16560. Made of I X tin, japanned and nicely ornamented. Packed one in a veneer package.

The sifter proper is protected from pressure by the flour in the bin by our **new shield** which enables the reels to work easily and smoothly, and obviates all grinding through of foreign substances. The flour is protected from coming in contact with the iron crank by an **annular tin sleeve**, and a **tin skirt** below the sifter prevents the flour from scattering all over the bottom of the bin, but instead directs it into the proper receptacle. The sifter rests on a strong ring which extends all around the inside of the bin, holding it securely in place, and still allowing it to be easily removed for cleaning.

PURE ALUMINUM WARE.

Beautiful as Silver—Pure as Gold.

Aluminum being now nearly as cheap as copper, no one who has consideration for purity, cleanliness, durability, and the other peculiar quality of aluminum ware, should use any thing else. There are several reasons why this metal is so well fitted for kitchen utensils, among which are its lightness, its absolute purity (it is entirely free from all poisonous elements, no verdigris, or salts of tin), its remarkable heat-conducting and retaining properties. The fact that it will not rust, and that it will not corrode under the conditions usually met with in cooking; that there is no enamel to flake off, and that vinegar and fruit acids have no effect upon it, and last but not least, its beauty and its durability (being pure solid metal all the way through, it is practically everlasting), render it most desirable.

As we have made special arrangements with one of the largest aluminum ware producers to use their entire output, we are enabled to give you prices never before heard of for pure aluminum ware. Compare our prices with other concerns and be convinced.

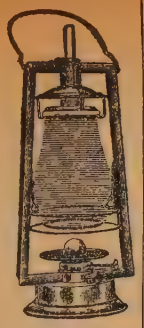
LANTERNS FOR EVERYBOBY.

In selecting a lantern you should aim to secure the safest and best. Remember there are some makes of cheap lanterns that cause much annoyance as well as damage. The difference in price between our lanterns—the very best—and inferior makes is but a few cents.

Tubular or Barn Lantern to Burn Kerosene.

No. 19280. Side Lift or Victor Tubular Lantern, for kerosene; No. 1 burner, ⅝-inch wick, No. O globe.
This is the most popular lantern on the market today.
The crank at the side raises and lowers the globe and locks the burner in place when down.
A late improvement on this lantern consists of a bend on the guard wire over which the crank moves, thus perfectly locking the globe frame and burner down. Price, each 40c



No. 19281. O. K. Tubular Lantern, for kerosene; No. 1 burner, ⅝-inch wick, No. O globe.
We consider this the best low-priced lantern on the market, and advise those in want of a cheap, reliable lantern to give it a trial.
The globe and frame are easily moved out of the way for lighting and trimming, tipping back on a hinge.
This is far ahead of any other hinge lantern on the market for ease of operation and safety. Price, each..... .....40c

No. 19282. Square Lift, or Star Tubular Lantern, for kerosene; No. 1 burner, ⅝-inch wick, No. O globe.
This is the old reliable Square Lift Lantern.
We have sold it for years, and it gives universal satisfaction.
One of our most popular lanterns.
The globe is raised by the thumb piece on top. Price, each..... .....40c

We shall esteem it a favor if customers will notify us promptly of any errors in their orders. We do not claim to be infallible, and an error may occasionally occur. When such is the case we are only too anxious to adjust it.

Brass Tubular Lantern.

No. 19286. Star Brass No. O square tubular lantern, for kerosene. No. 1 burner, ⅝-inch wick, No. O globe. They are made of heavy brass. Are handsomely polished and finished with two coats of lacquer. They will hold their color and always remain bright. This is the most elegant tubular lantern made. It is suitable for a present. Price, each.....**$1.75**

Cold Blast Storm Lantern.

No. 19288. Cold Blast No. 2 round tube, bottom lift, tin tubular lantern; No. 2 burner, 1-inch wick No. O globe. Globe removable without taking off the guard. This lantern being made on the same principle as a street lamp, with **wind break**, makes it a superior lantern in its burning qualities—very desirable for use in places where there are strong drafts of wind. It is especially adapted for use in mills and other places where is considerable dust, as the burner will not clog up. The tubes are made from one piece, without elbows or joints. Gives a fine light. We have noticed when one of these lanterns goes to a town we get more orders from the same locality.

Price, each.....**85c**

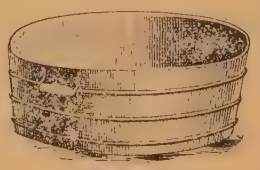
WOODENWARE DEPARTMENT
Cedar Ware, with Electric Welded Hoops—Galvanized,
No wood known to man will resist decay equal to Virginia white cedar.



The Electric Welded Hoops used on this ware are sunk in grooves, and are three to four times as strong as a flat hoop, and consequently do not stretch when the wood expands, as is the case with a flat hoop, and therefore do not fall off when the tub or pail dries out. These hoops are **"too strong to break and can't fall off."**

Cedar Tubs.
With Electric Welded Hoops.

Made from the best Virginia white cedar. These tubs have met with wonderful success among our many customers. They are light, still very strong and durable, and are painted with the best oils and paint. They are guaranteed never to "fall down."

No. 16700.

Those familiar with the lasting qualities of cedar shingles and posts will appreciate the value of this material when used in tubs and pails. We have four sizes.

No. 16700.

Cedar Water Pails.
With Galvanized Electric Welded Hoops.

These pails have proven to be the greatest selling article we have ever put on the market.

They are **impervious** to water; very light and strong, and in every way superior to any pail ever made.

Made of the best Virginia white cedar.

No. 16705. Two-Hoop Cedar Pail, painted with the purest and best lead and oil on the outside. Diameter inside of top, 11¼ inches; diameter inside of bottom, 8⅞ inches; depth inside, 8 inches; holds 2¾ gals. Price, each, **15c**; per doz.....**$1.68**

No. 16706. Three-Hoop Cedar Pails, painted with the purest and best lead and oil on the outside. Diameter inside of top, 11⅝ inches; diameter inside bottom, 9½ inches; depth, 9⅜ inches; holds 3¾ gals. Price, each, **18**; per doz.....**$1.92**

No. 16707. Three-Hoop Cedar Pail, made of the best selected Virginia white cedar, and finished in natural wood. **Nickel plated** electric welded hoop, smoothly finished; a very handsome pail. Diameter inside top, 11¼ inches; diameter inside bottom, 8⅞ inches; depth inside, 8 inches; holds 2¾ gals. Price, each, **22c**; per doz.....**$2.50**

Cedar Water Can or Sugar Bucket.

No. 16710. This is one of the most useful articles we sell. It has a handsome knob cover to lift off. Especially adapted for drinking water, as it keeps all dust and trash out. It is a well-known fact that the oil of cedar is death to nearly all forms of insect life. This property of the wood makes this bucket especially valuable to preserve anything from the attacks of ants and other insects. Finished in natural wood, with 3 flat brass hoops.

We have them in three sizes.

Size.	Diameter, top.	Diameter, bottom.	Depth.	Holds, gallons.	Price, each.
1	9	11	8½	3	.55
2	8½	10½	8	2½	.48
3	7⅞	9	7¾	1½	.38

Washing Machines.

Warrantee.

The Anthony Wayne and the Western Star and the Electric Washers are warranted to be well made out of good, dry, sound material, and to do good work better, easier and quicker than can be done on a washboard; they will wash clean and will not tear the clothes. This warrantee is good only when the machines are used according to directions.

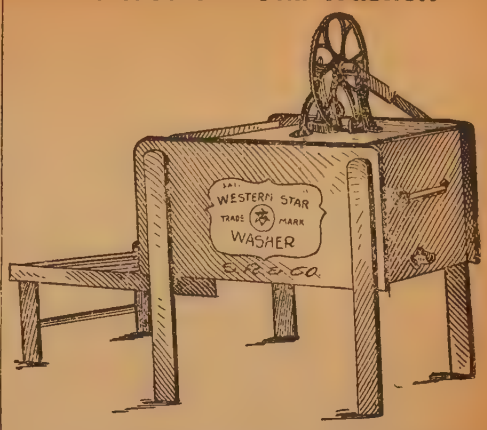
The Anthony Wayne Washer.

No. 16744. The Improved Anthony Wayne Washer No. 2. This machine is of the same capacity as the No. 2 Western Star. Made out of white pine, painted and grained an ash color. The staves and bottom are corrugated. Wringer can be attached. Shipping weight, 46 lbs. Price each.....**$2.50**

DIRECTIONS.

How to Use Either the "Anthony Wayne" or "Western Star" Washer and Do a Quick and Clean Washing Without the Use of a Washboard.

On the evening before wash-day place all the clothes you wish to wash in a tub, fill the same up with water (rain water preferred), so that they may be thoroughly soaked over night. On the following morning fill your wash boiler three-fourths full of rain water, put the same to boiling and cut into it one-half bar of hard soap and one teacupful of washing fluid, the recipe of which is found below. When boiling put in your clothes and boil from 10 to 15 minutes, after which wring them out, place them in the machine, work them from 5 to 10 minutes in the same, wring your clothes into the basket, rinse them through clear water, blue and hang on the line.



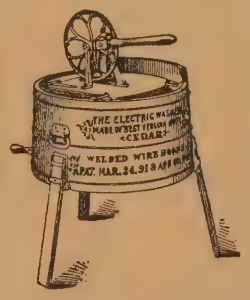
Do not put over five shirts or four sheets at a time into the machine, and see that the same is kept well filled with soap suds; the more water you can put in your machine and the freer the clothes will work in the water, the easier the machine will work.

We warrant, if these directions are followed closely, that the washing will be as clean as any lady can desire them. Proceed with all the rest like above and the largest washing can be done in two or three hours. The suds need not be removed every time, but can be used until they become too dirty; but always add hot water, soap and compound in proportion and keep the machine well filled.

Recipe for the Anthony Wayne Washing Fluid.—Take 1 pound of potash, 1 ounce of salts of tartar, 1 ounce of ammonia, place the potash into a large crock or earthen vessel and pour a gallon of hot water slowly into this vessel. Wait until this cools, then add the salts of tartar and the ammonia, and when all is fully dissolved bottle the fluid for use. All the ingredients can be bought at any drug store at a cost not to exceed 25 cents.

Send for our special washing machine circular. It is free for the asking.

The Western Star Washer.



No. 16742. Western Star Washer No. 2 is the popular family size washer. Inside dimensions, 17¾x23½x10½ inches; capacity, 5 shirts or its equal in bulk. This machine is too well known all over the country to require any extended remarks in regard to its utility. It has been in the market so long that it is known by thousands of housekeepers to be the standard family machine. The construction, material and finish of our Western Star Washer will be held to the same high grade as heretofore and will not be excelled by any other make. We wish to call attention to the fact that we do not use any nails in this washer below the water line, and that all iron parts that can come in contact with the clothing are heavily tinned, so that there is absolutely no danger of rust spots on the clothes. Shipping weight, 61 lbs.
Price, each, only.....**$2.49**

No. 16743. The Western Star Washer No. 3 is made same as the No. 2, only it is larger. Inside dimensions, 19½x25½x11½ inches; capacity, 7 shirts or its equivalent in bulk. This machine is made to meet the demand for a Western Star Washer of larger capacity. Suitable for large families, small hotels, etc. Weight, 68 lbs.
Price, each.....**$2.75**

Electric Washer.

No. 16745. Made of the best Virginia white cedar, electric welded wire hoops. Price.....**$3.50**

The cut shows the exterior of our celebrated **Electric Washer.** This machine is constructed of the **best Virginia white cedar,** and is stronger, more nicely finished, and is larger than any round machine on the market. It is supplied with our improved gearing, fully galvanized. The inside of the machine is fully corrugated, similar to a washboard, there being no nails or blocks of any kind on the inside. The machine is made with large end of tub down, allowing plenty of room for water and clothes. The hoops are made of extra heavy galvanized wire, are **electric welded,** and are warranted not to break or fall off.

Instead of using a square wooden post to work the dolly, we use a square galvanized iron rod, making it impossible to tear the most delicate fabric, as the dolly and standard are automatically adjusted to the quantity of clothes contained in the machine, so it offers nothing in which the clothing can catch.

The **electric** closes tight and retains the heat in the water for a long time, and prevents the odor of foul steam from the clothes. The Washer can be used on a carpet without soiling the same. It has a large, convenient place for holding the wringer, which need not be moved while using the machine. Our Electric Washers are guaranteed to be perfect in every respect. All we ask is a trial. Guaranteed to do the work and give satisfaction.

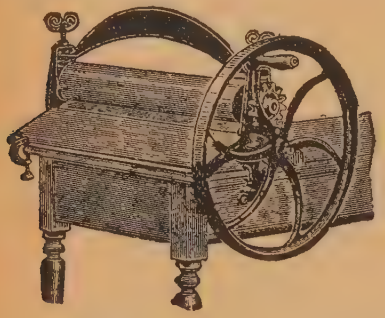
Cline's Improved Steam Washer.

No. 16747. Cline's improved Steam Washer has several new features that others do not have. Has a corrugated cylinder, sliding cover and a faucet attached to the boiler for removing the water without lifting the boiler from the stove, which is a decided advantage. Weight, 32 lbs. Price, each.....**$5.50**

When you buy at home, you think you save the freight, but you don't. The freight, with a big profit added, is in the price.

Mangles.

Hand power mangles have been in universal use in European countries for many years, and are considered as much a household necessity as a sewing machine.



Fully two-thirds of the week's washing can be put through these mangles, such as table and bed linens, towels, handkerchiefs, spreads, blankets, underwear and all plain articles. (They are not suitable for starched shirts or clothes with hard buttons.) These mangles will save 20 per cent. of the household labor, and in hotels and institutes where our machines are used they enable the proprietors to save the wages and board of from 1 to 5 helpers in the laundry.

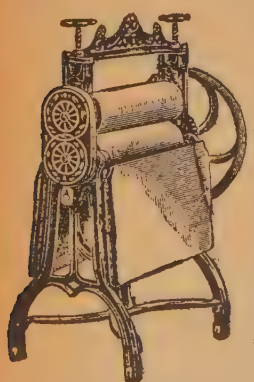
The work is done by pressure. And they give a **gloss** and **finish** to linens and all plain articles far superior to that possible to attain by any other method. Laces of all kinds are finished beautifully on these mangles.

They not only produce a smooth and uniform finish throughout the surface of the goods mangled, but bring out the figure and design on table linens, etc., and cause the goods to always retain their **pure whiteness**, having the same appearance as when new.

As an ordinary ironing can be done on these mangles in one-sixth the time required by flat irons and without heat or fuel, their great economy is at once apparent, and as they do not discolor the goods or destroy the fiber, as is done where heat is applied by hot irons or heated rolls mangles, the goods will wear at least twice as long.

It requires but little experience to become thoroughly familiar with the operation of these mangles and how to properly prepare the goods for them, and when well understood the results obtained are so superior and satisfactory that they would not be dispensed with for many times their cost.

No. 16748. Table Mangle; designed for small families and particularly where economy in room is to be considered. This machine is made sufficiently strong to sustain the necessary pressure to do good work. It is light and easily handled and takes up about the same space as a wringer. It is constructed with strong coil springs at the ends of the rolls, the pressure being adjusted by the thumb screws.



The shaft of the upper roll revolves in sliding journals so that the rolls adjust themselves to the varying thicknesses of the goods.

This mangle is made so it can be readily attached to any table; is reversible, so it can be operated by either right or left hand.

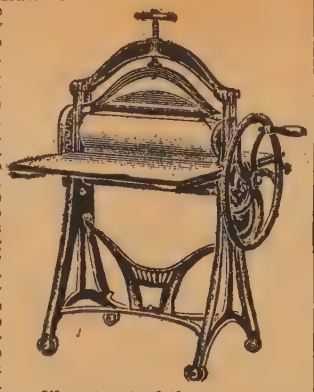
It will do all plain work much better than can be done with flatirons and in one-quarter the time.

Heretofore the price of mangles has kept many from purchasing; this objection has now been removed and we offer here a mangle first-class in every particular and at a price within the means of all. It will last for years and more than save its cost each year. Made in one size.

No. 15638. Table Mangle, rolls 23x3½ inches. Price.....**$11.25**

No. 16749. These mangles are adapted for families, small hotels and laundries, restaurants, barber shops, etc. They do good work and will endure a ton pressure.

They are furnished with our patent automatic table adjustment, mounted on casters, are double geared with gear guard and have our combination driving gears, causing them to turn easy under great pressure. The pressure is obtained by heavy coil springs at the ends of the rolls and is easily regulated. Made in 2 sizes.



Size of Rolls.	Floor Space.	Ship'ng Wgt.	Price.
28x6 inches	21x34 inches	250 lbs.	$28.12
24x6 inches	21x30 inches	240 lbs.	24.75

We can furnish these machines with tight and loose pulleys for power in place of hand wheel if desired, at $12.00 extra. Where power is used the machines are bolted to the floor.

BEST MADE LAUNDERED SHIRTS ON PAGE 207.

Hotel Mangle.

Indispensable to the economical management of any hotel or public institution.

No. 16750. These are our heavy machines, and are especially adapted for use in hotels, laundries and institutes. They are built to sustain great pressure and are reinforced in all parts exposed to wear or strain. They are double geared, making the action of the rolls positive, and, being fitted with our combination driving gears, are very light running. The machines are mounted on casters, and can be easily moved from place to place, and when not in use are readily set out of the way, occupying but little more room than a sewing machine.

The gears are covered with a handsome guard, preventing the possibility of any danger to the operator.

Our patent automatic table adjustment (furnished only with our mangles) is a very desirable feature in a machine of this kind, being convenient and secure for shipping, and makes the machines always ready for use. The tables, being permanently attached to the machine, are not knocked about and marred or misplaced when needed.

For use it is only necessary to raise the tables parallel with the rolls, and our device automatically secures them firmly into that position. In lowering them they are raised about ten degrees, which releases the lock and they can be lowered to the side of the machine.

Made in Two Sizes.

We can furnish these machines with tight and loose pulleys for power in place of hand wheel if desired at $12.00 extra. Power machines bolted to the floor.

Schmuck's Mop Wringer.

No. 16754. The Schmuck Patent Mop Wringers, for simplicity, durability, dry wringing and adaptability, have no equal. They are manufactured of wrought iron, the rollers made of hard maple, chemically treated, and will fit any size pail. Every wringer "warranted." Space permits us to mention only a few of the advantages gained by using Schmuck's Mop Wringers. 1.—Boiling hot water can be used to mop up the floor, which will cause the floor to dry quickly. 2.—Grease stains and dirt can be loosened with concentrated lye, potash or soda, and floor then mopped with Schmuck's Mop Wringer. 3.—Schmuck's Mop Wringer, by means of the wooden rolls, wrings the mop dry, and the water forces the dirt downward into the pail, leaving the mop clean and free from dirt, while all other mop-wringing devices and hand-wringing, twist the mop, wring out the water, leaving dirt in center of mop. 4.—Schmuck's Mop Wringer is a self-wringing mop, and while mopping, gloves can be used, as the hands do not come in contact with water. In fact, what has heretofore proven the dirtiest work in and about a house, is now made the easiest and cleanest by the use of Schmuck's Mop Wringer. Price for wringer with pail, each.....**$2.25**

No. 16755. Self-Wringing Mop. The mop is made of cotton coils, large and full size. As the hands do not come in contact with the water, chapped, scalded and sore hands are avoided. The mop being wrung at arm's length, there is no stooping or straining of the back or shoulders. The hands are not soiled or disfigured by the wringing of a filthy, greasy cloth. As the clothing is not drenched or disfigured as in ordinary mopping, no special preparation is required. A silk dress can be worn with impunity. The floor can be mopped in case of need and other duties resumed as though no interruption had taken place.

The use of scalding water is another important advantage impossible with the ordinary hand-wringing mop. The floor washes easier, cleaner and quicker, and dries more readily. The grease and dirt being cut out by scalding water, it saves soaps and alkalies. Price, each.....**25c**

Extension Step Ladder.

No. 16840. Cut shows ladder extended; upper part can be instantly lowered, making an ordinary step ladder. When in position as a step ladder, two persons can work on it at the same time; being very strong and well braced, does not require strings to keep it from spreading. It is easily adjusted to the position as a long ladder and often of great convenience in reaching high ceilings and skylights. Can also be used as a trestle, and in the several positions can readily be appreciated by the carpenter, painter and fruit grower. It recommends itself to everyone who has use for a ladder.

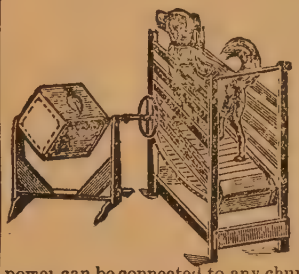
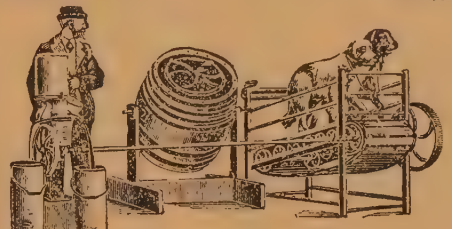
Dairy Supplies.



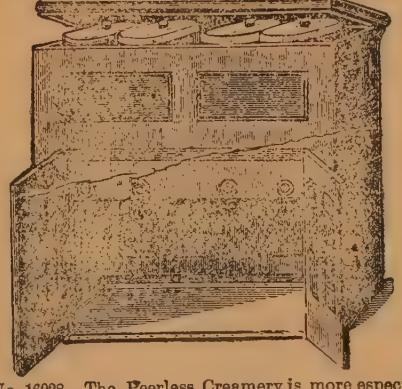
The goods which are most commonly used by dairymen are illustrated and described in the following pages. We will be pleased to give information and quote prices on anything not found here, and are in a position to give our patrons very low prices.

No. 16920. The Young America Cream Separator, for hand or power; capacity, 300 lbs. per hour. This is a departure from anything of its kind on the market in construction, style and finish. The frame is very compact and simple, with no movable lugs or parts to get out of order. The bowl is of special design, the result of years of experiment, and is made of the best steel obtainable, of the greatest tensile strength. The wings are simple in construction, easy to clean, as they may be quickly removed. All parts are interchangeable, which is a point which should receive consideration. For workmanship, material, finish, ease of cleaning, ease of turning, this separator cannot be excelled. It will give you an improved quality of butter, smoothest of cream and bluest of skim milk.



Price, each.....**$97.00**
Single pulley for power, extra..... **2.00**

First Prize Dog Power.



No. 16924. This power can be operated by a dog, goat or sheep; yields 25 per cent. more power from a given weight of animal than any other, and with adjustable bridge to regulate the required power and motion, a 30 pound animal will do the churning; if you keep a dog, make him "work his passage." The power can be connected to any churn sold by us.

Price.....**$15.00**

The illustration above shows how the double dog power can be used in operating a cream separator. When the separator is not in use and you desire to churn, connect it to tumbling rod sent with machine. A corn sheller, fan mill or sawing machine can be connected by belt from balance wheel. Separators require a high gear, and for this purpose we recommend our steel pulley, 3½x36 inches. This we can furnish at $6 extra. If iron coupling rod and coupling as shown in illustration are desired to connect and run cream separator, we can furnish them at $3 extra.

The Peerless Creamery.

No. 16928. The Peerless Creamery is more especially intended for water alone. The cans are oblong, 14 inches long, 5 inches wide and 14 inches deep, thus giving larger cooling surface. We have a large ice space in rear of and also between the cans. In the No. 4 we have the space between the two middle cans, 7 inches; also, in all the other sizes we have a large space between the second and third, fourth and fifth, and sixth and seventh. In these, as in the round can creamers, we use a straight faucet underneath, which is easily cleaned. The class to observe the cream is in the nut, and not in the can, so is easily repaired if accidentally broken. In the No. 3 and larger sized creameries the faucet for drawing water from the tank is placed outside of creamery, as shown in illustration. Where ice is not used, we would suggest emptying tank of water about a half hour after milk has been placed in cans, and refilling tank with cold water. This will save a few hours time in the gathering of cream. Furnished complete, with cream pail, strainer and dairy thermometer.

Sturges' Steel Churn.

The latest and best thing out. It is exceptionally well made, being heavily coated inside with chemically pure tin, while the stand, which is also steel, is tastefully decorated in colors to brighten the home of the housewife.

An important feature, and one that can not but be appreciated by those desirous of keeping their churn sweet and clean, is the diameter of this churn's mouth, which is full size. The inside of the churn is perfectly smooth, making it as easy to clean as a crock. The cover has a half-inch cork lining around the edge, which prevents any possibility of a leak. A glass vent and peep hole adorns the cover for the purpose of determining when butter comes and also to let off the gases.

No. 16932. Five gallon Sturges' Steel Churn, for one to four gallons of cream. Price.....**$5.00**

No. 16933. Nine gallon Sturges' Steel Churn, for four to seven gallons of cream. Price.....**$8.00**

The Star Barrel Churn.

This style of churn is old, tried and reliable, easy to operate and keep clean; it is absolutely impossible for this churn to leak, as the wear can be taken up as simply as any one can turn a thumb nut. The fastenings are attached to the outside of the churn, and it will be seen from the cut that the bail and cover fastening is a compound leverage which increases the pressure ten times more than any other make of churn.

No. 16934. Five gallon Barrel Churn, for 1 or 2 gallons of cream. Each.....**$2.85**

No. 16935. Nine gallon Barrel Churn, for 1 to 4 gallons of cream. Each.....**$3.05**

No. 16936. Fifteen gallon Barrel Churn, for 2 to 7 gallons of cream. Each.....**$3.30**

No. 16937. Twenty gallon Barrel Churn, for 3 to 9 gallons of cream. Each.....**$3.75**

No. 16938. Twenty-five gallon Barrel Churn, for 4 to 12 gallons of cream. Each.....**$4.40**

No. 16939. Thirty-five gallon Barrel Churn, for 5 to 16 gallons of cream. Each..**$5.60**

Curtis' Improved Square Box Churn.

No. 16915. Its compactness, durability and efficiency make it very desirable for a dairy of one cow or fifty. It is a great favorite and has been improved in many respects, until it is believed to be absolutely the most perfect box churn to be found anywhere. The cover is of heavy tin and securely fastened. The corners are protected with iron caps and are so constructed that when the buttermilk is drawn out and cleansed it will drain perfectly dry.

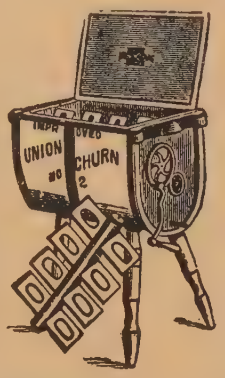
The three largest sizes are adapted to large dairies. They have a crank on one side, a long gudgeon for pulleys on the other; strong bands and rods running around the churn make them very substantial. Tight and loose pulleys are worth $6 extra.



Rectangular Churns.

No. 16940. The Rectangular Churn works the easiest and quickest of any churn on the market. At the Dairy Fair, held in Chicago, December, 1878, it received the highest award, a cash premium and diploma in competition with the world. Wisconsin butter won five medals at the Centennial Exhibition at Philadelphia, and four of these were awarded to butter made in the Rectangular Churn.

Boyd's Automatic Cream Vat and Fermenting Can for Farm Use.

No. 16987. This cut represents Boyd's Automatic Cream Vat, for farm use, and it can truthfully be said that no other known process will produce as much and as good butter from a given amount of cream. It accomplishes for butter making what has never been done before. It enables the butter maker to work to a given rule every day in the year, and produces absolutely uniform results. It does away entirely with the necessity of coddling the cream around the stove. This vat is so constructed that when the cream is put into the vat the temperature of the cream will scarcely vary over three or four degrees in twenty-four hours. It is a perfect refrigerator vat with a cover. Quotations are for ripening vats only. Fermenting cans are quoted separately.

Boyd's Automatic Fermenting Can.

No. 16990. The Boyd process of fermenting is very simple, yet more scientific than appears at first sight. It consists of making a lactive ferment from sweet skimmed milk, divested of its butter fat, taken from a fresh cow or cows. The milk is treated to a warm water bath and brought to a certain required temperature, when it is placed in the fermenting can and the vessel closed tightly. In a given time the lactive ferment is ready for use. A small percentage of this ferment is placed in the cream at a required temperature, and the cream vat is closed in the same manner as the fermenting can. In so many hours the result is ripe cream that is, cream of one chemical condition. The operation is uniform; so also is the result. If the rules are strictly obeyed, the operator is at all seasons master of the situation. He has perfect control over the conditions, consequently his work is all down to rule, nothing being left to chance or good luck. The automatic fermenting can and automatic ripening cream vat are sold only in connection with each other, and are essential to the process.

Small Cream and Cheese Vats. Curtis' Improved Channel.

No. 16992. These vats are made to meet the wants of a large class of dairymen who make up their own milk on the factory or creamery plan. The bottom of this vat inclines toward the center channel or groove, which gradually increases in depth throughout its entire length to the outlet, draining the contents from the vat completely. The channel or groves, being swaged in the bottom tin, stiffen the vat bottom, thus rendering it less liable to move up and down as steam is applied, breaking the joints and causing the vat to leak. The water space underneath the tin vat will be appreciated by everyone who has had any experience in cooling or warming up vats of cream or milk They are made in a superior manner. Perfection gates are used, and no expense is spared to make them the best vats the dairy public has seen. Price 25-gallon vat, with ice box on end, **$18**; price 50-gallon vat with ice box on end, **$21**. We can quote prices on large vats, same as above, holding from 100 to 800 gallons.

Curtis' Improved Self-Heating Cheese Vats.

No. 16993. This vat is designed for large and small dairies. It is built same as No. 16992 vat. Price, 25-gallon, **$21.00**; 50-gallon, **$24.50**. We can quote prices on self-heating cheese vats holding from 75 to 600 gallons.

Family Cheese-Making Apparatus.

No. 16994. This is a very simple apparatus, adapted to the wants of all farmers or dairymen who keep from 2 to 10 cows, or more. It will make from 2 to 10 lbs. of cheese each operation, according to the quantity of milk; so simple that any boy or girl of average intelligence can learn the process in a very few operations. It makes a perfect cheese each time, whether 2 lbs. or 10 lbs.

You will admit that 2 cows give at least 6 quarts at a milking, making 6 gallons a day. A gallon of milk will make a pound of cheese; 6 gallons make 6 lbs; for 30 days is 180 lbs. of cheese, which at 10 cents per lb. is $18 for 1 month. This is a low wholesale price. The milk is heated by a coal oil lamp, which is easily kept under control. The heating vat is so constructed that the lamp gives all the heat that is necessary. The management of the heat is the secret of success in making good cheese. The entire apparatus is so light in weight that a lady can move it from one place to another with ease. It does not take up quite as much room as an ordinary kitchen table. A lady can make cheese in the kitchen or pantry, and carry on her household work at the same time. With each machine we send simple and full instructions how to make cheese successfully. Each apparatus is complete with heating vat, press, curd knives, lamp, and thermometer, made of good material, strong, and well finished. The apparatus is guaranteed to do the work exactly as represented. We also include sufficient rennet tablets, bandages, and cheese color to make a nice little batch of cheese.

Standing Press for Cheese.

The illustration shows the method of making a good standing press for cheese factory or private dairy. The construction is so simple that any person familiar with the use of saw and hammer can make it. It consists of a frame, which is supported on legs, and the loose boards on which the hoops stand, and which are grooved to allow the whey to run off. For making a 4-hoop press, as shown, it takes 5 sets of rods and saddles, 4 heavy press screws, and 4 hoops and followers. The rods pass up one side and over the iron saddles, shown on the top of the press, and down on the other. Holes are bored through the top timber to allow the screws to project up through when raised to allow the removal of the hoops. The divisions between the hoops are made of 2-inch plank, and support the upper timber when the screws are raised. The presses can be made any length desired. Explanation: A set of screws consists of 1 screw and 1 washer; a set of rods, saddles, and washers means 1 bent rod, with nuts and washers for fastening same.

Curtis Babcock Farm Tester.

No. 17024. Every dairyman or farmer who keeps a half dozen cows ought to provide himself with one of these milk testers, if he cares the snap of his finger to know whether he has a cow in the herd that is worth keeping. (More than one cow "eats her head off" every year she is kept.) This tester is designed expressly for farm use, and so low a price put on it that every man who owns two cows can have a 4-bottle machine. Price, 4 bottle Tester complete, **$5.00**; 6 bottle Tester, complete, **$6.00**; 8 bottle Tester, complete, **$7.00**. With each machine there is a pipette acid measure, a bottle of acid and directions for operating.

Babcock Milk Test.

With each machine is included testing bottles, pipette acid measure and acid for 50 to 200 tests according to size, and full directions for operating.

Cooley Creamer.

No. 17010. This is an illustration of the Cooley system of setting milk in submerged cans. These cans are 20 inches deep and 8½ inches in diameter; the covers are fastened down, and the air under the rims of the covers prevents the passage of any water into the cans. The cans are set in the water coolers, which are lined with metal and fitted with inlet and overflow for using flowing spring water. A thermometer is inserted in the front of each cooler, in order that the temperature can be ascertained without raising the cover. This apparatus is very simple, dispensing with costly milk rooms, as but little room is required.

If the temperature of the water in the cooler is kept at 45 to 50 degrees in spring and summer, and at 40 degrees or below in winter, the cream will rise in 12 hours, in which case only cans enough to hold a single milking are required. By this system of setting milk we have sweet cream from sweet milk, raised in the shortest possible space of time. Prices include cans with bottom faucet and glass panel in the side of can, showing depth of cream.

In connection with the Cooley Creamer, if Boyd's Automatic Fermenting Can and Automatic Ripening Cream Vat are used, nothing can be more simple for making prime butter every day in the year. It is making butter by rule. No process in the world like it.

Cream Setter.

No. 17040. This cream setter has tinned iron bottom, glass panel in graduate case. The glass panel in can is graduated so that if parties are buying cream two degrees will make one pound of butter. Thousands of them are in successful and satisfactory operation. They are easily cleaned and raise as much cream and as quickly as any other cream setting can in the market. The can has a bail on it so that a man can carry two of them at a time. Size, 8¼x20 inches; weight, 4¼ lbs. Price, each.....**60c**

Plain Cooley Can.

No. 17045. The submerged system of setting milk for gathered cream is recognized everywhere as a superior way of raising cream. The milk is away from the flies and dust, and any foul odors that may be floating in the air from the barnyard or pig sty. The milk is set in cold water immediately after milking. The cream is all thrown up in twelve hours. The can holds 18 quarts. Price, each.....**$1.25**

Cooley Can with Bottom Faucet.

No. 17046. For private dairies this can has no equal. The milk is drawn off through the bottom faucet, leaving the cream in the can to be poured into the cream pail. (We do not furnish bail on can as shown in cut). The value of sweet skim milk over sour milk for feeding purposes will more than pay for the cans every three months. All of the Cooley cans are made from the best tin obtainable. They hold 18 quarts. Price, each.....**$1.75**

The Common Sense Milk Jar.

No. 17048. This milk jar is giving the best of satisfaction, as it combines economy of time, labor and expense of materials; it discards the use of glass or metal tops, wire bails or other fastenings which render the ordinary milk jar so difficult to keep clean and in good order, and reduces the cost of manufacture and breakage to the smallest degree possible, and requires no washer; the old style attached cover interferes to a considerable extent with washing the jars; this jar having no cover, either attached or detached, is cleansed thoroughly and with dispatch, having only a slight shoulder within the neck of the jar which serves to hold the cap or cover in position when adjusted, and is all glass without separate parts; the cap or cover is made of heavy wood fibre prepared so as to resist the moisture from within and without, and when pressed into the neck of the jar to the shoulder with the thumb or finger it forms a tightly fitting cover; the operation of capping is quickly and easily accomplished, and when completed is perfectly tight and can be handled in any position and transported without danger of leakage; the disc can be removed when the milk is required for use by inserting the blade of a penknife or any other sharp instrument and lifting the cap out; the cap can again be used and will seal the jar reasonably tight, but their nominal cost allows the dealer to discard them after using them once; large dealers or milk depots can stamp the cap with date, etc., giving the producer a number that will enable them to keep a thorough record of milk, and trace the same to the producer when the milk proves unsatisfactory.

Milk Cans.

The Improved Breast.

New Seamless Neck.

The illustrations above show the improved breast used on all our milk cans; the most important feature is to make a breast that is proof against being "jammed in." Our heavy half oval hoop accomplishes this; the hoop is forced on the breast in the block, securely fastened and afterwards retinned, which makes it absolutely safe against being knocked off. We have also adopted a new seamless neck on all our cans; this, you will observe, is drawn in one piece. The advantages of the new seamless neck, as compared with the old style bowl and neck in two pieces, are many. There are no seams to come unsoldered, no edges or joints to rust, no bowl to work loose. Adds to weight of your can, being heavier material. Strengthens the weakest part of your can. Is perfectly smooth inside and out.

BUTTER MOLD.

No. 17129. These celebrated molds are made of selected white wood, and only brass hooks and screws are used throughout, so that there is no possibility of rust and consequent discoloration of the wood. The bottom is prevented from warping by strong wooden cleats, while the sides are grooved sufficiently deep to allow for swelling when in use, and are "lock-cornered" together, thus securing the utmost possible rigidity. One great advantage of these molds over most other patterns on the market is that the prints are released by a single motion and in perfect shape instead of being pushed forcibly through a form by a plunger, which injures the grain.

As shown in Fig 1, the operator can not only put his entire weight on the print, but at the same time he may clasp the base with his fingers, thus add the power of the grip; and, further, by giving the print block a rocking motion by pressing alternately with each hand. The mold with the butter in it may be quickly turned the other side up by lifting it with a finger of each hand in the small depressions in ends of box, when the base may be removed and the butter pushed out, as shown in Fig 2. Curtis' Shipping Box for Print Butter.

No.17142. This shipping box is made with two dead air spaces around the box, doing away with the can of ice and water in center of the box that causes such a muss when tipped partly over by careless shippers, often injuring the sale of butter. The butter being thoroughly protected, no ice is needed and the shipping box need not be so large and cumbersome. In these days of questionable butter, parties who buy are glad to get it direct from the farmer or creameryman, put up in nice prints. A little attention in this matter secures a good customer the year around. The boxes are made in the most substantial manner, the trays being dovetailed together, and all inside work being of white wood, which is free from taint or smell. Chest handles are put on the ends for convenience in handling. A shipping box will many times pay for itself in three or four shippings. Preservaline.

This is the only article that can be used by creameries, dairies, milkmen, farmers, ice cream manufacturers, and all those requiring pure, sweet milk and cream. Preservaline is a harmless substance, which, when added to milk or cream in accordance with directions accompanying each package, will keep milk and cream for weeks in an absolutely perfect and wholesome state in any kind of weather—even through thunder storms—without requiring ice or any refrigerator; absolutely tasteless, odorless, simple and cheap to use; does not affect the flavor or qualities of the milk; for preserving composite samples of milk for test purposes. Preservaline is unsurpassed; if used in the manufacture of butter Preservaline will hold the fina, natural flavor of the butter and prevent it from spoiling; butter put up with Preservaline will never get rancid, and can be held years or exported anywhere. We furnish two kinds of preservaline for the use of creameries and dairies.

No. 17190. BB Preservaline is used to keep milk and cream which is intended to be made into butter and cheese, and for keeping butter and cheese. Price, 1 lb. boxes, **26c**; 5, 10 and 25 lb. boxes, per lb., **23c**; 50 to 100 lbs., per lb.....**21c**

No. 17191. M Preservaline is used to keep milk and cream for drinking, and which is made into ice cream; also buttermilk. Price, 1 lb. boxes, per lb.. **33c**; 5, 10 and 25 lb. boxes, per lb., **30c**; 50 and 100 lb. boxes, per lb.....**28c**

Ozaline.

No. 17194. The finest disinfectant for creameries and dairies. Has no smell and gives out none. Removes every offensive smell at once. Positively marvelous in its actions. The only perfect disinfectant for creameries, dairies, stables, pig-pens, outhouses, etc. Cheap and reliable. Prevents flies in creameries. Its use in creameries and dairies is of untold advantage, as it kills all germs in the air, gives off oxygen and thus keeps the air pure, and by this means helps to keep butter, milk and cream sweet. Positively odorless and ever active. Contains no carbolic acid or chloride of lime. In use by hundreds of creameries. A small quantity of Ozaline sprinkled on dung heaps and in manure pits, and on offal in outhouses, and on anything having a bad odor, will remove all smell at once and for good. A great advantage of Ozaline is that it is a valuable fertilizer. If used alone it is equal to the highest grades of fertilizers. It will also prevent chicken lice. Price, in small quantities, **6c** per lb.; in 100 lb. sacks, **5c** per lb.; in 250 lb. sacks, per sack.....**$10.25**

Feverine.

A Safe and Sure Cure for Milk Fever.

No. 17196. Dairymen should ever have a bottle of this remedy on hand, and upon the first appearance of the malady follow the directions closely. There is not a dairyman in the country who has not lost valuable cows with milk fever. At last science has come to our aid and given us Feverine, a positive cure and an infallible preventive. Everything Is Just As Represented.

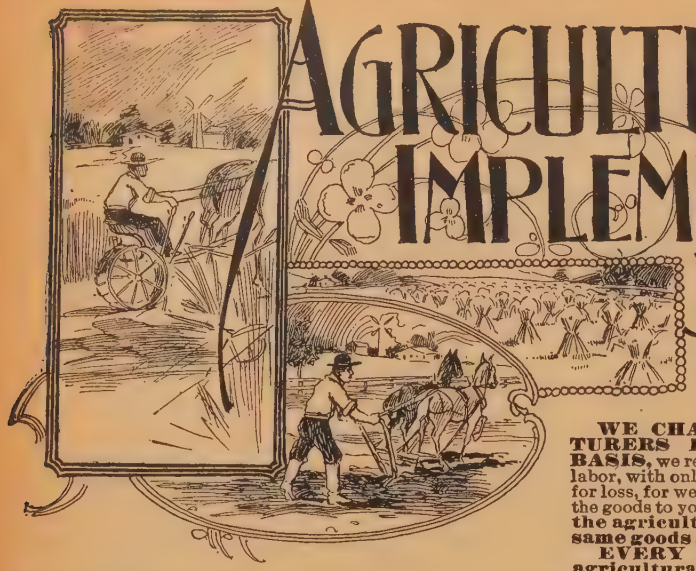
JOHNSON'S, Orange Co., N. Y. Aug. 14, 1896.

MESSRS. SEARS, ROEBUCK & Co.:



Gentlemen:—I received my clothes and watch yesterday, and everything is just as represented. I also appreciate the promptness with which these goods were sent. You can expect future orders.

Respectfully yours,
NICOLAS NELSON.

Freight cuts but little figure when you consider what we save you. Remember that when you buy at retail you pay a profit on the freight which the retailer had to pay.

SEARS, ROEBUCK & CO.'S

AGRICULTURAL IMPLEMENT DEPT.

THE GROWTH OF OUR AGRICULTURAL IMPLEMENT DEPARTMENT the past few years has been phenomenal. **It has grown until it now ranks among our largest departments.** Our sales of agricultural implements of every kind are very great in number and extend into every state and territory in the Union.

THERE IS NOTHING IN THE LINE OF STRICTLY HIGH GRADE AGRICULTURAL IMPLEMENTS that we can not furnish and at a saving of from 25 to 50 per cent. in price.

BIG PROFITS TO MANUFACTURER, WHOLESALER AND RETAILER have heretofore compelled the farmer to pay two prices for everything in the implement line, and our farmer customers know too well that the excessive prices asked for agricultural implements are responsible for many a mortgage which industrious farmers are laboring under.

THE OLD SYSTEM OF HANDLING AGRICULTURAL IMPLEMENTS is very expensive, and works great injury to the farmer. The actual cost of producing an implement seems to have had no bearing whatever on the price that would be finally asked by the retailer. **The manufacturers have made enormous profits,** often sold to dealers whose credit in many cases was none too good, and in addition to adding their **exorbitant profits** they **have added a large percentage to cover the risk of loss. The dealer has, as a rule, sold** these goods on time, adding a large percentage for risk of loss, **also a large profit,** and the result has been that even though a farmer paid cash he has paid his proportion of two, three or four exorbitant profits and the percentage of loss calculated by three or four dealers.

WE CHANGE ALL THIS. BY CONTRACTING WITH THE MANUFACTURERS DIRECT FOR LARGE QUANTITIES AND ON A SPOT CASH BASIS, we reduce the cost of the agricultural implements we offer to actual cost of material and labor, with only a small manufacturing profit allowed. To this we are not compelled to add anything for loss, for we make no losses. **We add simply our one small percentage of** profit, ship the goods to you direct from the factory, and as a result **our customers can own anything in the agricultural implement line, which we are able to offer at much less than the same goods are sold by the manufacturer to the retail dealer in quantities.**

EVERY IMPLEMENT WE OFFER IS GUARANTEED. We guarantee every agricultural implement to be exactly as represented, and if not found perfectly satisfactory we will refund your money.

EVERY IMPLEMENT WE OFFER IS MADE BY A MANUFACTURER OF ESTABLISHED reputation for only the highest grade goods, and on this class of goods we invite a close comparison of our prices with those of any other house in the land.

WE WOULD CALL YOUR SPECIAL ATTENTION TO OUR LINE OF PLOWS. We show a complete line of high grade plows, suitable for all sections of the country, and all classes of soil. No matter where you live we can supply you with a plow that we will guarantee to scour, guarantee to give the best satisfaction, and at a price about one-half that charged by retail dealers.

WIND MILLS. We have made arrangements with two of the best manufacturers in America, and are this season able to offer a line of wind mills which we believe are equal to anything on the market at any price, and by a comparison of our prices you can see for yourself the saving to be gained by placing your order in our hands.

OUR LINE OF GRINDING MILLS CAN NOT BE EXCELLED.

WE OFFER THE BEST LINE OF HARROWS THAT have ever been shown, and our prices can not be met even by any wholesale house.

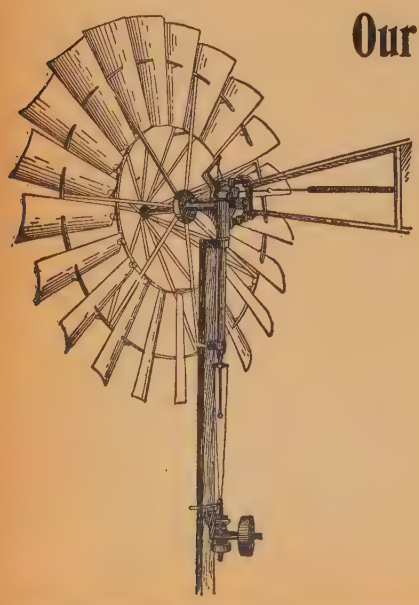
TERMS: Our terms are very liberal. We will send agricultural implements to any address anywhere in the United States by freight, C. O. D., subject to examination on receipt of a sufficient deposit to cover transportation charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our price and freight charges less the amount sent with order.

DISCOUNT FOR CASH.

PLEASE NOTE THAT WE ALLOW A DISCOUNT OF 3 PER CENT. if cash in full accompanies your order. If you send the full amount of cash with your order you can deduct 3 per cent. from our prices.

IN COMPARING OUR PRICES WITH THOSE OF ANY OTHER HOUSE do not overlook this 3 per cent. cash discount. It means a saving to you of 30c on every $10 purchase, and is quite an item when figuring profit on the basis we do, and should be carefully considered when comparing our prices with others.

ABOUT THE FREIGHT. You pay the freight, but you will find the freight will amount to next to nothing as compared with what you will save in price. As a rule we give the weight of the different implements under the different descriptions, and by referring to the freight classification in front of book you can calculate very closely what the freight will amount to on any implement. Add the approximated freight to our net cash price, and you will see we are saving you at least 25 to 33⅓ per cent.



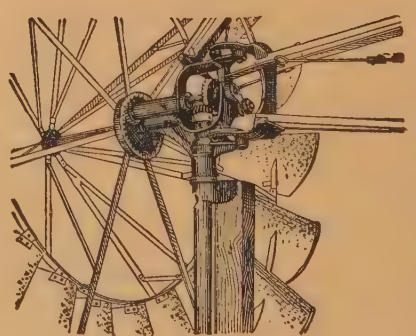
DO NOT HESITATE TO SEND YOUR IMPLEMENT ORDERS TO US. Don't allow the local dealer to deceive you. He may endeavor to make you believe he offers a better grade of goods, but we will guarantee, we will stake our reputation, such is not the fact. On the contrary, our goods are the best that are made, there is nothing better on the market, and the chances are two to one that notwithstanding the great difference in price in our favor the implements you buy from us will be better than the ones you would buy at home.

NO MATTER WHAT YOU MAY BE IN THE MARKET FOR, A WIND MILL, HORSEPOWER, SAW, FEED MILL, HARROW, SEEDER, PLOW, CULTIVATOR, HAY RAKE, HAY PRESS, OR OTHER AGRICULTURAL IMPLEMENT, send us your order and see **how much money we can save you. We are more than anxious to receive your orders for agricultural implements,** not so much for the little profit there is in them to us, for these goods are sold on the smallest kind of a margin, but for the good it will do us as an advertisement.

THERE ARE MILLIONS OF DOLLARS INVESTED IN IMPLEMENTS EVERY YEAR, and the amount of money farmers **needlessly throw** away in the way of exorbitant profits, as before explained, is enough to go far towards paying off the mortgages resting on thousands of farms. **If we could only get one implement sale in each township** we know that the purchaser would be so well pleased with the goods received, and the **big saving in price** would be so apparent, that it would soon become generally known throughout his neighborhood. The result would be that our implement trade would be trebled in volume, and a large part of this money now needlessly thrown away could be saved by the farmers and thus divert the trade into legitimate channels, which would compel manufacturer and dealer to sell on legitimate margins.

WE REPEAT, DO NOT OVERLOOK THE 3 PER CENT. CASH DISCOUNT WHEN COMPARING OUR PRICES WITH OTHERS. DO NOT OVERLOOK OUR BINDING GUARANTY. DO NOT OVERLOOK the fact that we guarantee all implements are the highest grade made, and do not wish them compared with inferior goods, which are offered by many.

Our Celebrated Acme Power Wind Mill.



These mills are made for driving machinery, such as shelling, grinding, cutting feed, sawing wood, churning, etc., also for pumping water. We believe we offer the best power wind mill on the market at anything like the price. The prices quoted are for the mills delivered on board the cars at Kalamazoo, Mich., where the mills are made for us under contract, and from which point you must pay the freight. You will find the freight will amount to next to nothing, as compared with what you will save in price.

In the illustration herewith we show the mill, also the gearing and manner in which it is attached to the grinder.

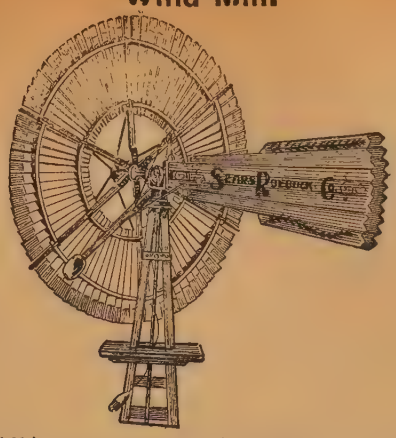
We will be pleased to furnish further information regarding our power mills on application. We are in a position to save you at least 25 per cent. on anything in the line of power mills, and shall be pleased to quote you anything special you may desire. On our power mills the shaft makes 4½ revolutions to 1 revolution of the wheel. The pulley on the grinders is 14 inches in diameter.

If you want more complete information about our mills, write us and we will send specially illustrated pamphlet giving a more detailed description.

The Celebrated Acme Galvanized Steel Wind Mill at $19.00 to $28.00.



No. 18000. 8-foot mill..... **$19.00**
No. 18001. 9-foot mill..... **25.75**
No. 18002. 10-foot mill..... **28.00**

The Acme Steel Mill is the best mill on the market at anything like the price. There are in this mill many points of superiority over any other. Among the most important are the following: The mill is manufactured to do good service and last for years, instead of cheap affairs made only to sell which blow to pieces in the first storm. It has a long spring to govern the mill, which governs much more easily and evenly than a short spring and with less strain. The tension of this spring can be regulated at will to hold the mill in either light or heavy winds as desired. The gearing is fully covered, making it proof against sleet, ice, etc. We use self-oiling brass oiler on pitman, carrying three months' supply of oil, which is too expensive to be put on cheaper mills made to sell at a less price. We have a positive brake which effectually prevents the mill from turning when thrown out of gear. We use ten to twenty pounds more steel in the wheel alone than is used in any other mill; also 10 to 15 pounds more in the vane, making it light and strong. The wheel of this mill makes 2½ revolutions to one stroke of the pump. When thrown in gear it will head to the wind instantly. When thrown out of gear it instantly turns edgeways to the wind and remains perfectly still. Every mill is guaranteed, and can be used either on patent tubular steel tower, angle tower, or wood tower. When ordering be sure to state what kind of tower mill is wanted to be used on.

At our special prices of **$19.00, $25.75,** and **$28.00** we will hope to receive your order. The prices quoted are for the mills delivered on board the cars at Kalamazoo, Mich., where they are made for us under contract, and from which point you must pay the freight. We will accept any orders for these mills on receipt of sufficient deposit to cover transportation charges both ways. You can examine the mill at your freight depot when received, and if found perfectly satisfactory and exactly as represented, pay the agent our price, less the amount sent with order, and the mill is yours. Three per cent. discount allowed if cash in full accompanies your order.

Our Solid Wood Wheel $24.00 Wind Mill.

$24.00 is our price when sent by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways. Such a mill as this was never before offered at anything like the price. The manufacturer has sold these mills to dealers in quantities at 25 and 30 per cent. above the price we offer.

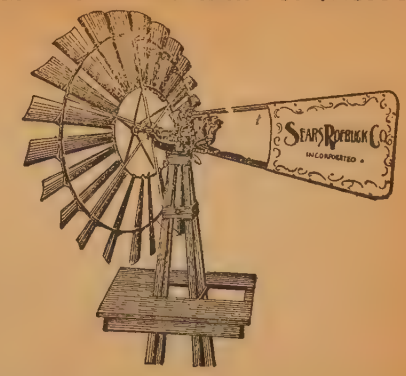
Three per cent. discount allowed if cash in full accompanies your order, in which case $23.58 pays for the mill.

Please note our price for this mill net cash with order is $23.28 when comparing our prices with those of other houses.

Do not buy a wind mill from your local dealer and pay his long profit price when you can get one of the best wind mills made for $23.28.

This illustration, which our artist engraved from a photograph, will give you a slight idea of the appearance of this mill. It is a solid wood wheel with the proper dish to secure strength; maintained by iron rods. To put the mill out of motion the vane is swung around parallel with the wheel which turns the edge to the wind, and it remains firm and motionless.

The main casting is perfect in its design, and all parts are simple and will not get out of order.



We furnish the wind mill complete with long bolts to secure the top of the tower and 40 feet of pump rod. The purchaser makes the material for and erects his own tower, which can be done by any good carpenter in a short time at from $10.00 to $15.00. We furnish printed instructions for the erection, by means of which any one can put it up. These instructions are very complete, giving full description of the work from beginning to end. The mill is so simple that no one could possibly have any trouble in putting it in working order.

This is the best mill made for a simple pumping mill, or to grind feed by means of a shaft or power connected to pumping rod.

The shipping weight of this mill is 575 lbs. You will find the freight will amount to next to nothing as compared with what you will save in price.

Sears, Roebuck & Co.'s Royal Grinder Wind Mill for $23.00.

$23.00 is our regular price when sent by freight C. O. D., subject to examination on receipt of the necessary deposit.

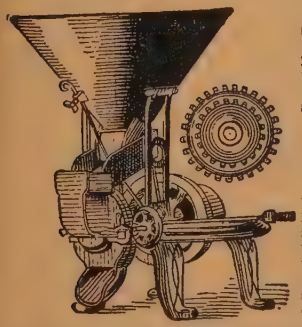
Three per cent. discount allowed if cash in full accompanies your order, in which case $22.30 pays for the mill. In comparing our prices with those of other houses, please note our 3 per cent. cash discount.

An all steel mill, the best steel wind mill ever offered at anything like the price.

The manufacturer of this mill has been building wind mills for the last twenty years, and his experience has enabled him to build a steel wind mill which is second to none and superior to many, a mill embodying new patents, new and valuable features not found in other mills. The six sections of this mill when bolted together and strongly braced in front as shown in the illustration, make a very rigid, strong and safe wheel. The wheel shaft having its two bearings 8 inches apart in the drive pinion just inside the outer bearing, is extremely well arranged for effective work and durability. An effectual brake is applied as the mill is pulled out which absolutely holds the wheel still against weather and wind. The vane is a single sheet of steel riveted to a bow shaped bar of angle steel, the two ends hinging on the pivot casting. The construction of the wheel, which is all steel, is such as to give the mill a light, airy appearance, yet make it strong and most substantial.

The arms, double bolted to the spider casting, are made from angle steel, being the strongest possible form for the weight of the material employed. The outer girths are made of channel steel bent on a circle. They are so shaped as to form a bearing the full width of the sail, thus strengthening the same and holding its curved form securely.

We guarantee this mill to stand the test of all kinds of weather and to equal in power any other mill of a similar size. It is put together in the most substantial manner, nicely painted throughout by hand, and fully guaranteed. The mill complete weighs about 300 lbs.



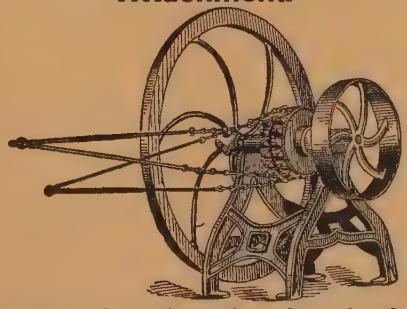
No. 18014. 8-foot steel mill. Our price..... **$23.00**
No. 18015. 9-foot steel mill. Our price..... **26.00**

For Tower. With this mill we furnish any angle steel tower at **60c** per foot. Anchor posts, per set of four..... **$3.00**

In ordering the mill be sure to order a tower of the height wanted. The price is **60c** per foot.

We believe we offer you a first-class mill which, when put up with one of our very best steel towers, will mean a saving to you of from $15.00 to $25.00.

The Celebrated Acme Wind Mill Grinders for $18.00.



The illustration shows this mill with the pulley attachment and the smaller illustration shows the sprocket wheel attachment. The sprocket grinder was gotten up especially for chain wind mills and is adapted to 12 to 14 feet geared wheels. It is furnished with a double sprocket wheel by which the speed of the mill can be changed to correspond with the speed of the wind mill. The sprocket wheels are 6 and 10 inches in diameter fitted with link chain and belting. We can also furnish the link belting and driving sprocket with spring clutch complete for line shaft on wind mill, which taken together makes a complete outfit at a very reasonable price. Capacity, 8 to 15 bushels per hour according to the velocity of the wind and size of wheel used. In ordering this kind of a mill be sure to give the diameter of the line shaft if driving sprocket and spring clutch are wanted.

The pulley grinder is similar in all respects to the sprocket grinder as described above, only it is furnished with a 6 or 9 inch pulley with a 6 inch face. Both of these mills have adjustable slots in the standard or legs whereby the belt or chain can be tightened without being taken off, which is a great advantage. Both these mills are shipped with right hand burrs unless otherwise ordered.

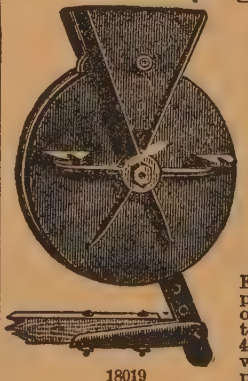
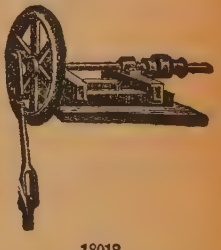
Our $12.75 Pumping Wind Mill Attachment.



No. 18017. This attachment is used very largely for churning.



The above illustration represents a device for transmitting the perpendicular motion of a pumping wind mill to a rotary. By using the same device that operates our wind mill grinder we are able to get a continuous forward motion. By the use of a heavy balance wheel we are able to produce a rotary power driven by the perpendicular stroke of the pumping wind mill. For driving light machinery, like churning, turning a grindstone, shelling corn, this machine will be found very useful. Size of pulley, 12½ inches, 2½ inch face; size of balance wheel, 28 inches. Full instructions for setting up are furnished with each machine.

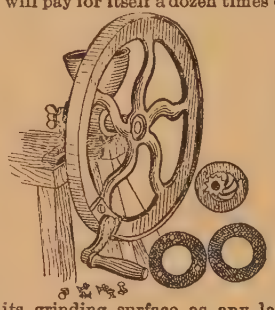
The Genuine Monarch Corn and Cob Mill.

No. 18023½. The question of grinding food for stock has been practically settled by the almost unanimous adoption of ground feed among our largest stock raisers and most successful farmers; the one important point now seems to be to secure the best mill for the purpose, the mill that will grind the largest quantity with the least power, the most durable and the least complicated—one that will grind corn and cob, shelled corn, oats and other small grain, and also make family meal. We have no hesitation in saying we have that mill. Our mills have met with a success far exceeding our most sanguine expectations.
Weight, 540 pounds. Price $18.75
Extra burrs, per pair 3.90

Our New Improved Acme Sweep Grinder for $19.00.

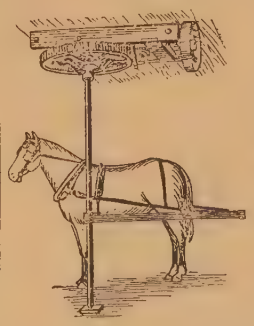


This is one of the best grinders on the market. Grinds ear corn, new or dry, shelled corn alone or mixed with other grain for chopped feed, oats, etc., and is so arranged that the interior parts of the mill revolve with the revolutions of the team. The power is applied directly to the grinding parts, thereby making the draught very light.

Our grinder rings or burrs have a peculiar dress by means of which the broken pieces of cob and hull grains are gradually reduced to the fineness desired, so that we produce a better quality of feed with less work to the team. We make two sets of grinding rings, one for coarse and one for fine grain. The capacity for fine grains is: Corn in the ear, 12 bushels of feed per hour. Shelled corn, 15 bushels of feed per hour. Corn and oats (chopped feed), 10 bushels of feed per hour. To grind very fine the amount will of course be reduced. With coarse plates the mill can grind: Shelled corn, 15 to 20 bushels of feed per hour. This mill is warranted not to choke on new or old corn, wet or dry. A perfect sweep mill of large capacity.

No. 18024. Price of mill complete, with one set of plates $19.00
Extra grinders, additional 2.50

Our $3.65 Crist Mill.



To any one who has use for a hand mill this machine will pay for itself a dozen times over in a single season.

This machine is well adapted for grinding corn meal, hominy, split peas, cracked wheat, Graham flour, fine table or butter salt; in fact, everything that is ground at a custom mill, except fine bolted family flour. In these mills the grinding plates are removable, and can be changed in a moment's time. They are of the hardest cast steel. This hand mill will grind just as much in proportion to its grinding surface as any larger mill, ½ lb. to 1 lb. per minute being the average, according to the grain and fineness. We warrant these mills to be equal to any of the same size made. Weight, 36 lbs.
Price $3.65

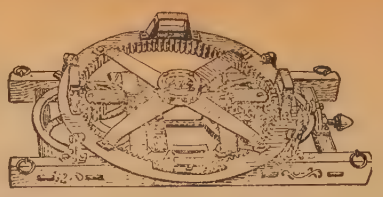
Our Acme Overhead One Horse Power for $18.00.

No. 18025. **$18.00** is the price when sent by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways.

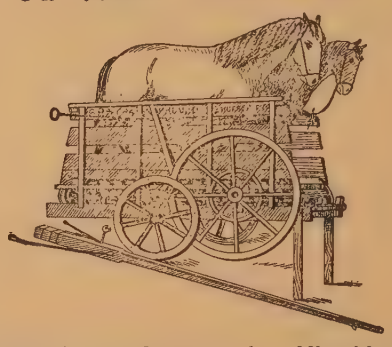


Three per cent. discount is allowed if cash in full accompanies your order, in which case **$17.45** is the price.

This power has many advantages over a down power for light work. For use in a barn where several horses are kept or in small livery stables it is excellently adapted. When not in use the center shaft can be set one side. When it is desired to run, set the shaft in place, hitch the horse to the power and go ahead. No jack is required with this power. Length of sweep levers is 8 feet. The horse makes therefore a circle of 16 feet. The upright shaft is wood and can be cut off to suit the height from floor to ceiling. The height of stake as furnished is 10 feet. This power makes about 125 revolutions per minute. Unlike any other sweep power, the tumbling rod is overhead and the gear out of the way of snow in winter and mud and dust in summer. Weight, 400 lbs. Price of power complete $18.00

WE HAVE $5,000 in the bank which has been sent us with no name or address in letter, and leaving us no means of identifying the owner. ARE YOU CARELESS?

The Genuine Carey Pitts Horse Power for $46.50.



The Pitts horse power as illustrated above is too well known to require much comment from us. It is made of the best quality air seasoned white ash, charcoal iron gears, the frame is of steel and the gear is heavier than in any other power of the same horse power made. The weight is so distributed as to give the greatest possible strength. This power is especially adapted for farm work, such as wood sawing, cider making, etc. The height of the main gear wheel is 4 feet. Measurement across power from one end of sweep to end of opposite sweep, 24 inches. Number of revolutions, 50 to one turn of the wheels. Two sweeps, one 16 foot tumbling rod and a 24 inch pulley go with each power.

Please remember that this power weighs only 1,150 lbs., hence we do not recommend it for the work of a 6 or 8 horse power which should weigh from 1,500 to 2,000 lbs.
No. 18025½. Price $46.50

We can furnish horse powers of any size and will be glad to quote special prices on special sizes upon application.

Our $95.00 Tread Power.

We offer these tread powers to the public with entire confidence in their being superior to any other line of treads ever manufactured. This power is made upon purely scientific principles and is constructed of the very best materials. The rods are of best Bessemer steel, the trucks are bored to a perfect fit and have the end center guide instead of pressing against the rim of the truck. Our end circles are large, allowing the roller to pass without any jerking or back lashing motion. The rear circle is adjustable to take up wheel. Full directions for operating this tread accompany every machine.

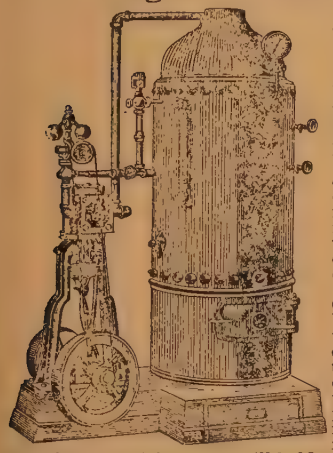
Can't You Find What You Want?

Look in the INDEX; it's there.

We Are Headquarters for Engines and Boilers.

The past year has developed such inquiry from farmers, mechanics, manufacturers, and others for medium low priced boilers that we have set about to make satisfactory arrangements—in fact, such arrangements as will enable us to meet this demand, and at a saving to our customers of the profit of the retail dealer and a portion of the profit of the manufacturer.



That we can save you this profit our prices and descriptions we feel sure will clearly demonstrate.

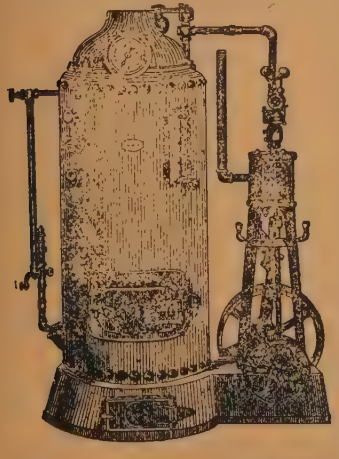
The engines and boilers that we handle are made by one of the largest and most reliable manufacturers in this state, and are guaranteed in every respect. If not found exactly as represented, we will pay the freight both ways and cheerfully refund your money.

The prices are net cash. There is no discount whatever from the prices quoted on these goods. We have succeeded in getting the manufacturer down in price to practically the cost of material and labor and to this we have added but a few dollars on each outfit for ourselves and can not give a percentage of discount for cash without depriving us of all our profit.

We are prepared to furnish almost any kind and any size of engines or boilers, and will be very glad to quote special prices on application.

Our $125.00 Two-Horse Power Engine and Boiler.

We offer for $125.00 a 2-horse power boiler and engine complete, which we believe is greater value than has ever before been sold at less than $160.00 to $175.00. It is one of the best outfits that are made and should not be compared with a cheap class of machinery.



A Binding Guarantee. A binding guarantee goes with every outfit by the terms and conditions of which if any piece or part is not perfect in mechanical construction, material, etc., we will hold ourselves responsible to make the deficiency good.

The above illustration of our 2-horse power boiler and engine is engraved direct from a photograph. In comparison with many motors seeking recognition at the hands of the public our Acme engine and boiler occupies a position far in advance. An examination into its construction will convince any reasonable person that it is the lowest priced good medium power on the market, the best small engine now offered. The engine is constructed on exactly the same principle as the larger engines we build, except that the cylinder of steam chest and crank shaft bearings are all made of one solid piece, hence can not get loose or out of line.

No. 18031. Our special net spot cash with order price for the engine and boiler complete is **$125.00**

Our $135.00 Four-Horse Power Boiler and Engine Combined.

We furnish a 4-horse power boiler and engine combined for $135.00, and larger engines up to 10-horse power boiler and engine for $235.00. The above prices are net spot cash with order, and we believe are fully 25 to 30 per cent. lower than any other on the market.

The above is an illustration of our 4-horse power boiler and engine which we are able to quote at $135.00 net cash. To meet the demand for a plain, well finished, reliable, moderate priced boiler and engine we are able to offer our trade a combination which fulfills these conditions, and which we call our Acme. It is made in four sizes, 4, 6, 8 and 10 horse power, and at the price includes all the attachments that go with the boiler and engine, including even an injector for feeding the boiler, pipe connections for same with valves. The price at which we are offering this is lower than any boiler and engine of equally good quality has ever been offered before. The boilers we offer are made of homogenous plate steel, 60 thousand lbs. tensile strength to the square inch, with best lap welded wrought iron flues, and include the following fittings; safety valve, blow off valve, steam gauge, water gauge and three compression gauge cocks, injector fitted to boiler with pipes and valves. The shells of these boilers are made of ¼ inch steel, fire box of 5-16th inch steel, heads ⅜ inch steel. The engines furnished with this combination are center crank engines of the very best grade and are guaranteed in every respect.

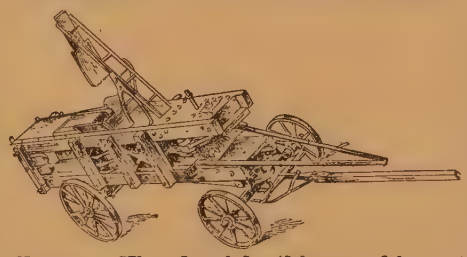
We feel perfectly safe in assuring our customers of a saving of from 25 to 50 per cent. on anything in this line.



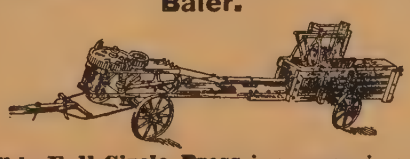
Hay Presses.

We are headquarters for Hay Presses, and have arranged with one of the **largest and most reliable manufacturers in this country,** a concern located at **Ann Arbor, Mich.,** who, we believe, make more presses than all other manufacturers combined, and the reputation they have gained for the manufacture of **the best hay presses on the market** has warranted us in making our contracts with them.

Limited space prevents our giving a lengthy and detailed description of these machines; but we shall be pleased to furnish any special information desired upon application, and we would say before you buy a hay press elsewhere communicate with us.

Whether you finally buy from us or not, we believe we can be the means of saving you from **$25.00 to $75.00 on your machine.**

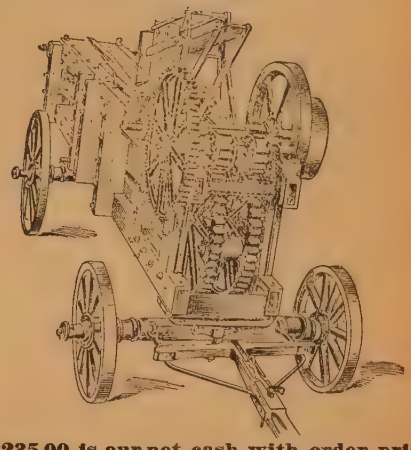
Our $195.00 Half Circle Baler.



No. 18042. **We furnish this machine at $195.00 net cash with order,** and guarantee it to be exactly as represented and the best press ever made at the price. If it is not found as represented you can return it and we will refund your money. For more particulars concerning this machine, or for larger sized balers, communicate with us.

The principle of power used in this machine is nearly the same as that in the full circle presses, and is just as effective. Two horses can do the work easily on a 4 foot sweep. The leverage increases in proportion as the pressure increases. It is simple in construction, having but few parts. Not a link, chain or pulley. Nothing but a crank, pitman and lever. It is made as strong and substantial as any machine on the market. The frame is of the very best seasoned hard wood and is well bolted together with Norway iron bolts. The castings are very heavy. The bale chamber is lined with the very finest Bessemer steel. It is otherwise the same in construction as that of the steam and full circle presses. The tension rods are similar to those in all our presses. Size 17x22. **Our price, $195.00 net cash with order.**

Other sizes made to order.



Our $225.00 Advance Full Circle Baler.

This Full Circle Press is a success in every respect. It has been in use for the past three years and we have not heard a complaint from them, nor have we had a call for repairs. It is what every man wants in a baler, large capacity, light draught, simple construction, durability, ease and safety, and is easily transported. It is well constructed of the best seasoned hardwood, Norway iron and Bessemer steel. Its power is centered and accumulated. As the pressure of the hay increases the fulcrum of the lever moves towards the center, thus increasing the power in proportion as the pressure increases. Two horses can do the work easily and make heavy bales. The plunger is all Norway iron. Two 12-foot sweeps. Bale chamber is lined with the best Bessemer steel. Two feeds to each round of the horse. Bale indicator. Chaff grate in bottom of bale box. Large feed table, wrench, and everything complete. In this machine as in any other the capacity depends upon the men and horses doing the work. Actual results vary from 10 to 15 tons per day. We make this press in two sizes.

Our $235.00 Belt Power Hay Press.

$235.00 is our net cash with order price, the price from which there is no discount to any one under any circumstances. The price quoted is for the hay press delivered on board the cars at Ann Arbor, Mich., from which point you must pay the freight. We can offer no discount for cash. For a more complete description of this hay press please correspond with us. We know we are headquarters on this line of goods and can save you so much money that you can not afford to buy elsewhere.

The power of this press is the most simple and direct that can be adopted. It consists of two crank wheels between which a pitman is pivoted and connected direct to the plunger block. It is driven by two pinions on an intermediate shaft to which the belt and balance wheel are geared, thus securing rapid momentum to the balance wheel and requiring but a small, light belt. Steady motion and power are obtained by the momentum of the balance wheel, the balance wheel being secured by friction so that if the belt is overcharged or abused the wheel will slip and avoid accident or breakage.

The castings are made of the best iron we can buy, thus securing strength. The frame is entirely of hardwood, which, as every press man knows, is better than iron. Heavy ¾ and ⅞ inch rods put through the frame both ways hold it together. A wooden frame is preferable to iron or steel because for the same strength hard wood is lighter than iron, and also because it is impossible to keep bolts tight on an iron or steel frame, as there is no give to these metals, and bolts furthermore are liable to be cut in two in a heavy metal hay press. The shafting is of heavy 2¼ and 3⅞ inch cold rolled iron, and very tough iron. The boxes are strongly babbeted, well bolted to frame and double nutted. The top boxes are in one casting and main box is separate, so that if you break one box you do not have to buy a whole hay press nearly as you do in many machines. The plunger block is in one casting. It moves on ways that are oiled like those of a steam engine, thus less power is needed to push it. The pitman is wrought iron and is just as long as can be used. The longer pitman is the longer lived will be the machine and the less power used. The arms of the feeder are of wrought iron and gears are all 2⅝ inch face, very widest used, with heavy round cogs. Baling chamber is lined with steel. The feeder is perfect. There is not the slightest danger in dropping the divide oars in without stopping the press if dropped when the blade of the feeder is in the feed chamber going down. At this time the boards can not get out of position. A bell, which can be easily moved to lengthen or shorten the bale, rings when it is time to drop in a board. The tension is obtained by means of heavy bolts put through, up and down and crosswise. The ball box also condenses some. Every part performs its work to perfection and makes a nice looking bale.

A hay press is a machine subjected to very great strain, greater than any other machine on a farm, so it must be very heavy to have strength to stand the strain. Our machine has a heavy wood frame, the best made, that will stand up to business. The capacity of a hay press depends upon the men who handle it. Ours will do as much as any other of the same size on the market. Our larger sizes will press from 4 to 10 tons per hour. The weight of bale is governed by the tension of the bale chamber. 14x18, 17x20 and 17x22 are our sizes, these sizes loading the car best. Either iron or wood wheels furnished.

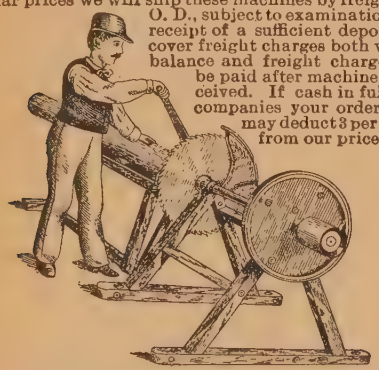
Our Eclipse Self-Feed Drag Saw for $56.00.

We furnish these outfits in two sizes, one at **$56.00** and one at **$61.00**. The prices quoted are our regular prices, at which we will ship the outfit by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover transportation charges both ways. Three per cent. discount allowed if cash in full accompanies your order, in which case you may deduct 3 per cent. from our prices.

The Eclipse self-feed drag saw machines are the best on the market. They are manufactured at Manitowoc, Wis., by a concern which has a reputation for making the best drag saws made. They have heavy hardwood frames, steel shafts and well babbeted boxes. The large fly wheel has weighted balance to perfectly offset the weight of saw pitman, thus giving an easy, steady motion. Occupies less space than any other machine, thus making it convenient for staking or fastening for work. Each pulley is easily detached and belt can be used to run a circular saw or other machine when you have more power than is required to run drag saw alone. Pitman boxes are so arranged that they are easily adjusted to compensate for any wear that may occur. Strokes of saw can be adjusted to either 16, 20 or 24 inches; 20 feet of log carriage, trucks, rollers, boxes, etc., are always furnished as extras. Can be geared to fit any style, sweep, tread or steam power.

No. 18048. Our **$56.00** machine is recommended for all ordinary farm and timber work.

No. 18049. Our **$61.00** machine has extra heavy shafts and boxes, otherwise the same as the **$56.00** outfit. Is recommended where extra heavy work is required or if the machine is to be driven by steam power. The outfit weighs about 1,000 lbs. and the price quoted is for the same delivered on board the cars at Manitowoc, Wis.

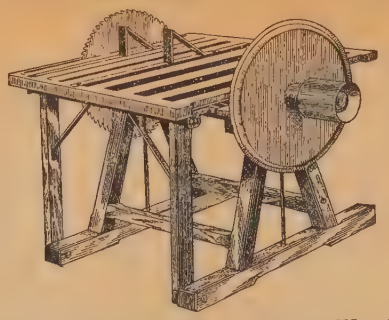


We can furnish everything in the line of sawyer's goods and we will cheerfully quote prices on application.

Our Celebrated Eclipse Circular Saw Machine

Complete with the Best Disston Circular Saw, Guaranteed in every respect, at from $23.45 to $27.75.

If you desire the machine without saws we can quote you special prices.



Please consider the price is complete with saws in comparing our prices with others; also please observe our 3 per cent. discount. We allow a discount of 3 per cent. if cash in full accompanies your order. At our regular prices we will ship these machines by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways, balance and freight charges to be paid after machine is received. If cash in full accompanies your order you may deduct 3 per cent. from our prices.

We believe the Eclipse circular sawing machine is superior to any other made. The frame is of hardwood, strongly mortised, the joints fastened by iron bolts at both top and bottom. The shaft of saw or mandrel is steel, and is not weakened by being turned down at the bearings. The chain rests in well babbeted long bearing boxes. The boxes or bearings are extra long to insure steadiness. The feed frame holds long or short timber with equal facility. The feed frame returns to position automatically by means of a suitable mechanical device, not, as on most machines, being pulled to position by the operator. The lever holds the timber, thus avoiding any danger of the operator's hands coming into contact with the saw. The pieces as cut fall to the ground and do not require as on many machines an extra man to remove them. The saw blade itself is the very best procurable, and is not furnished by the manufacturer simply because it can be purchased at a bargain. The machine is warranted to give satisfactory results in actual trial. Most machines possess some of the features described above, but we make the assertion and with no fear of successful contradiction, that the Eclipse saw is the only saw on earth which possesses all of them, and it stands without a rival as a successful general purpose farm saw machine. Our prices are as follows:

Our Acme Lever Cutter for $2.80.

Our trade the last year on these Cutters was enormous, so large, in fact, that we were induced to arrange for a large number for the coming season, and while the Acme lever cutter last season was equal to anything on the market of its kind, we have materially improved it for this year. It is stronger and heavier, and in every way is, we believe, much more durable than any other cutter on the market.

This cutter is made on the most approved manner with adjustable gauge to regulate the length of cut. Has the best steel knife, which can readily be ground, and a double tension nut with which to set the blade close up to the work. This is a standard and well known implement and one of the best of its kind made.

High Grade Cummings Feed Cutter for $14.75.

We offer you for $14.75 a feed cutter that your retail dealer would ask $20.00 to $25.00 for. The manufacturers have arranged to furnish us these goods on the basis of but a very small profit above actual cost to manufacture, and to this we add only our one small percentage of profit, and we believe we are entitled to your orders on the basis of the best goods on the market at prices below all others.

This cutter has been manufactured for the past 25 years. Improvements have been made from time to time until now the machines are practically perfect. This is a hand machine only and is not used with power. This cutter has ⅜ and ¼ inch knives and will cut material of all kinds easily and rapidly. For a hand feed cutter it is the most suitable size for all purpcses. It is heavy, strong and durable in all its parts and very easy working. Nothing has as yet been made to equal it. The power is applied direct to the knife shaft without any intermediate gearing. It has an upper cut and a regulating feed roller. Length of cut ⅜ and ⅝ inch. Weight, 200 lbs. Capacity, 400 lbs. per hour.

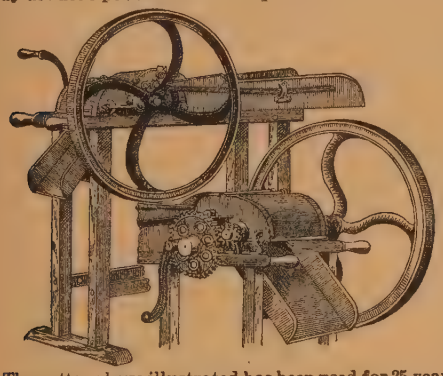
Our Special $9.50 Cutter.

No. 18065. **We believe we have the best cutter on the market at the price.** Last year we handled a cutter almost identical in design to this, which we offered at the same price, but for this season we have materially improved the machine. The frame is stronger and the general workmanship is better. We guarantee this cutter equal to any cutter made, regardless of price.



The cutter illustrated above is adapted to general work on hay, straw, etc. For rapid and easy cutting, large capacity, hand power, simplicity of construction, strength and durability, at a moderate cost, this cutter cannot be excelled. It is not intended to do the work of the largest horse-power cutter, but will do more work than any other cutter of its size. It has one spiral knife geared to make four cuts to one turn of the crank, giving it a splendid cut at the least expense of power. Length of knife, 10 inches. Gears are few and strong. Workmanship and material both are equal to that of the most expensive cutter made. Weight, 150 lbs.

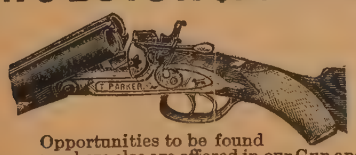
Our $10.00 and $13.25 Acme Cutters.

We believe the Acme Cutters at $10.00 and $13.25 are the best cutters on the market regardless of price. The prices quoted above are for these cutters when shipped by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover freight charges both ways, balance and charges to be paid after cutters are received.

Three per cent. discount allowed if cash in full accompanies your order, in which case you may deduct 3 per cent. from our prices.



The cutter above illustrated has been used for 25 years and it will continue to lead. Beauty of design, simplicity of mechanism, superiority of construction, strength and easy running qualities are the features which have gained for it the reputation it enjoys, and which associates it in the minds of dairymen and farmers with all that is best in ensilage and fodder cutting machines. It is made with strong hardwood frame, heavy balance wheel, one knife, which makes three revolutions to each turn of the crank, and which can be adjusted to cut any length from ¼ to 1 inch, a handsome low priced machine for hand use only.

For poultrymen we build the same machine, with two knives instead of one, designed especially for cutting clover and feed extra short for poultry.

The illustration above shows the wheel both with the fly wheel side and with the crank side, and from the illustration you can get some idea of the appearance of the cutter.

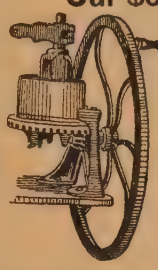
Bone Mills at Manufacturers' Prices.

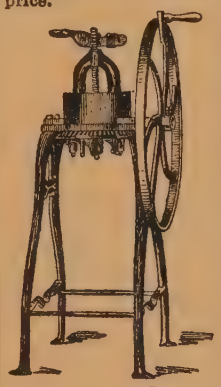
We Lead All Others on these Mills.



OUR $3.45 HAND BONE MILL.

Poulterers who have never fed bone meal will be surprised at the increase of eggs where ground bone is supplied. By furnishing the material for egg shells in ground bone you increase the production of eggs at once. Feed only corn and you induce the production of fat. Bone meal retails for **4c** per lb., and is worth three times its cost for fowls on any farm. With this machine we reduce the cost of the meal to merely the labor, and as the capacity is large and the power required comparatively slight you will find yourself handsomely rewarded by the use of this machine. It has been advertised by many at from **$5.00** up. We reduce the price to **$3.45**. The teeth of this mill are very strong and coarse and will not grind corn for family use. Allow fresh bones to dry before grinding; will not grind green bones. Weight, 35 lbs. Our special price.....**$3.45**

No. 18069. Patent bone mill same as above, but on iron legs. Weight, 65 lbs. Our special price.....**$5.75**



Our $6.95 Bone Cutter.

No. 18070. We believe this is the best bone cutter on the market at any price, and no farmer should be without one. Our price, **$6.95**, is for the cutter when sent by freight C. O. D. subject to examination on receipt of sufficient deposit to cover freight charges both ways. A discount of 3 per cent. allowed if cash in full accompanies your order, in which case **$6.74** pays for the machine. This is the strongest, easiest operated and best cutter of its size manufactured. There is no better mill on the market. The knives and cutting parts are very carefully made and will never give out. Our special price.....**$6.95**

Our $16.50 Bone Cutter.

This is the genuine Mann's green bone cutter, and we believe the best on the market at any price.

This is a thoroughly practical machine for cutting green bones either by hand or power. Simple in construction, with nothing to get out of order, and easy to operate. They cut fast and fine. The knives are made of the finest steel, can be taken out when dull, sharpened, and replaced in a few minutes.

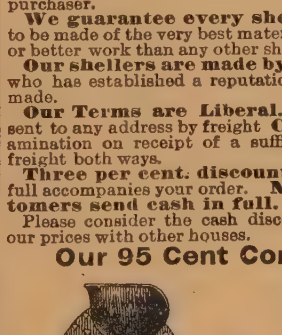
Corn Shellers.

We believe we offer the best corn sheller made and at a saving in price of at least 33⅓ per cent. to the purchaser.

We guarantee every sheller in every respect, to be made of the very best material and to do as good or better work than any other sheller of equal size.



Our shellers are made by a reliable maker, who has established a reputation for the best sheller made.

Our Terms are Liberal. Any sheller will be sent to any address by freight **C. O. D.** subject to examination on receipt of a sufficient deposit to cover freight both ways.

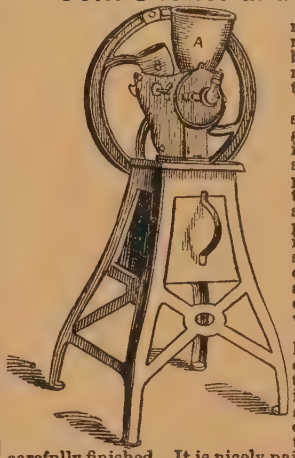
Three per cent. discount allowed if cash in full accompanies your order. **Nearly all our customers send cash in full.**

Please consider the cash discount when comparing our prices with other houses.

Our 95 Cent Corn Sheller.

No. 18075. This is the most simple and effective arrangement for corn shelling made. There are only six pieces in the entire machine, main frame, shell disc, shaft, tension, ring and crank. This sheller separates the corn from the cob, and deposits the corn in the box on which it is mounted and the cob outside. It has a perfect tension that can be adjusted instantly, will shell all sized ears, popcorn to the largest southern dent. Weight, 12 lbs. Price, **95c**

Patch's $2.30 Corn Sheller.

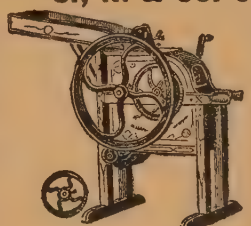


No. 18075½. We offer this corn sheller at $2.30, about one-half the price charged by retail dealers. We have sold a vast number of these machines and the universal satisfaction they have given everywhere prompts us to say that we will guarantee the machine to give the best of satisfaction, and if it does not you can return it at our expense and we will refund your money.

This machine is made from the best malleable iron. It is almost impossible to break it with any ordinary usage. It will shell all sizes of corn easily and rapidly. It is considered to be one of the best hand shellers made and is thoroughly covered by patents.

Weight, 15 lbs. Price.....$2.30

Our Great Acme $4.80 Combined Corn Sheller and Grinder.



This is the strongest, most perfect, easiest running and best combined machine ever made at anything like the price.

This machine is designed to shell and grind corn and does it perfectly. The shelled corn or meal passes into the receptacle below. The sheller is the most perfect implement of its kind and does not scatter the corn. The cobs are thrown out at the rear of the machine and do not mix with the shelled corn.

B is corn sheller hopper and A is grinder hopper. The entire sheller is built of iron, being put up in a machine shop by men of good mechanical training, and then carefully finished. It is nicely painted.

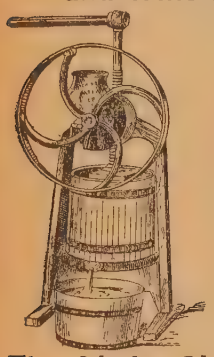
Our Great $10.80 Two Hole Corn Sheller.

No. 18080. This corn sheller is equal to those that are being sold at retail at from $15 to $20. Our special price is $10.80. This two hole corn sheller is made of the very best material throughout. The frames are handsomely striped and varnished, and finished in natural wood color so that the quality of the lumber is open to inspection. The castings are of the very best grade of charcoal iron, making repairs for breakage very seldom if ever necessary. They are put together by skilled mechanics and guaranteed in every respect. Whether the ears of corn are large or small it will shell perfectly clean without breaking the grain or throwing any out with the cobs. Such a thing as choking is unknown. We warrant this corn sheller in every respect. We always furnish it complete with feed table, fan, belt, pulley and handle. **Weight, 220 lbs.** Price, **$10.80**



Our Special $14.90 Two Hole Corn Sheller with Cob Carrier.

No. 18081½. This sheller is built with a square frame to support the cob carrier.

We are able to offer this machine at **$14.90** only by reason of large and favorable contracts with the manufacturer, which makes it possible for us to get the price down to the basis of actual cost of material and workmanship. The Celebrated Hutchinson Cider and Wine Mill for $7.50.

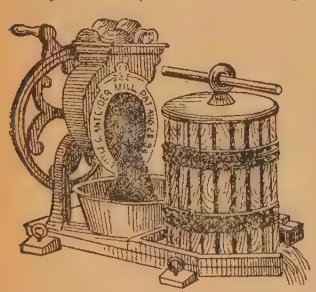
No. 18082. **$7.50** is our price to be shipped by freight C. O. D. subject to examination on receipt of sufficient deposit to cover transportation charges both ways.

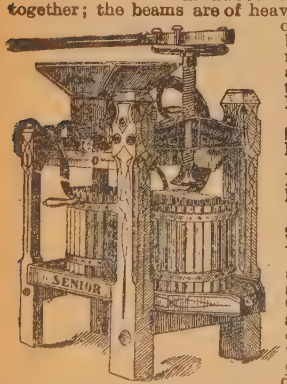


Three per cent. discount allowed if cash in full accompanies your order, in which case **$7.27** pays for the mill.

This is a well known implement, one of the most economical and useful cider mills manufactured. Thousands of these mills are in use. Warranted to do fine work. Capacity, 2 to 3 barrels of cider per day.

No. 18082. Weight, 105 lbs. Price..... **$7.50**

The Little Giant Cider Mill for $7.65.



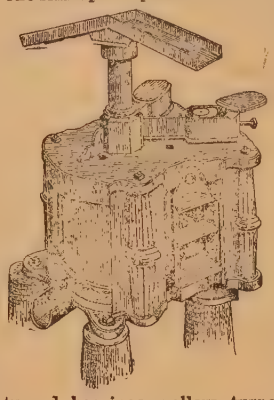
No. 18083. This is a strong, serviceable, and handy machine, the smallest, lightest, and cheapest made. The cutter is made of tinned steel, and by its motion it cuts the fruit and carries off the cut apple before it touches any portion of the hopper or other metal, from which it might be stained. By the operation of the press the fruit is brought up with a screw and away from the cider. The Little Giant is not intended for extensive cider making, but distinctively for family use, though its capacity is quite sufficient for making large quantities. Considering that it is operated by one person, its results will compare favorably with larger mills.

No. 18083. Weight, 95 lbs. Price..... **$7.65**

Our Improved Cider Mill at $13.75.

These mills have hardwood frames strongly bolted together; the beams are of heavy cast iron, screws are of wrought iron, capable of standing the most severe pressure applied by the lever or the crushing roller. Made in three sizes:

No. 18084. Price of Senior; weight, 410 lbs..... **$20.50**



No. 18085. Price of Medium; weight, 230 lbs..... **$17.50**

No. 18086. Price of Junior; weight 165 lbs..... **$13.75**

Our $16.00 Cane Mill.

We offer cane mills at from **$16.00** to **$48.00** according to size and weight, and if you are in the market for anything in this line we hope you will favor us with your order. By a careful comparison of our prices with those of other houses we feel sure you will see where we can save you at least 25 per cent. We have succeeded in bringing the prices of cane mills down to about one-half the prices at which they are usually retailed. This we have been able to do by contracting with the manufacturers for quantities and compelling them to figure on the cost of material and workmanship, eliminating the exorbitant profits heretofore asked and any percentage of allowance for loss, of which we know nothing in our method of dealing direct with the user on our manufacturer to consumer one small profit plan.

The Acme cane mill as illustrated here is, we believe, the best cane mill on the market. It has the best turned rolls, steel shafts, brass bearings, gearings and rollers of the very best cast steel, cast separate. The cog gearing is cast separately from the rollers and made very heavy with two clutches on each wheel which fit into two corresponding ones in each roller, thus doing away with all screws and the consequent danger of splitting the wheels when driven too tight, also enabling any one to take up the mill. These wheels have steel shaft with turned bearings, rollers turned and serrated. The main rollers are flanged at top and bottom, preventing the cane from passing either up or down. We can furnish these mills in the following sizes:

Cook's Portable Evaporator for $14.63.

We offer these evaporators in different sizes at prices ranging from **$14.63** to **$21.56**. Please note carefully the descriptions and illustrations and compare our prices with others before placing your order elsewhere.

Our special descriptive circular of cane mills and evaporators is free. If interested send for it.

These evaporators are made of galvanized sheet steel or copper, heavily bound and riveted, strongly made, and the whole mounted upon rockers of angle iron, thus furnishing a complete portable furnace of iron and brick combined in one with all the advantages of both, and yet so light that it can be easily moved by two men. This is the most convenient arrangement for small house operation, and for custom work it is well-nigh indispensable. With it the operator can move from field to field, from farm to farm, and thus avoid the labor and expense of hauling the cane. The evaporator pan is made of galvanized sheet steel or copper of a thickness proportionate to the length of the same.

To avoid mistakes in ordering please notice that the evaporator means to include both pan and furnace. Our prices are for furnace, pan, grate, chimney and two skimmers complete.

If you send the full amount of cash with your order you may deduct 3 per cent

This is a strictly first class implement, balance dump rake, made with 20 steel teeth of the highest grade of steel, carefully tempered. It has wrought iron wheel spindles and the axle is stiffened by a truss rod, which prevents any sagging. In operative qualities it will meet the requirements of the farmer, being a perfect lock lever which can be operated with great ease while teeth can not raise except when required to dump. The workmanship is first class. 20 teeth 4¾ inches apart. Weight, 200 lbs.

No. 18107. Price, with wood wheels..... **$11.55**
No. 18108. Price, with steel wheels..... **13.00**

Our $13.25 Acme Hand Dump Rake.

No. 18109. **$13.25** for rake with wood wheels, **$14.50** for rake with steel wheels. This rake possesses a number of excellent features that are not found in any other make. It is built of the very best material and will wear as long as any rake on the market. Its dumping arrangement is so simple and unique that it is practically a self-dump rake. It only needs the slightest movement of the lever to break the lock, which can be done with the foot or hand, and after this is done the operation becomes automatic. The lever is convenient to right hand of the driver, and when the moment for dumping has arrived he has only to take hold of the lever and raise it up, or rather start it up. It requires no power to do this. The throw or sweep of the lever is very short, and the smallest movement upward breaks the lock. The foot or hand may then be removed from the lever and the rake will dump itself.

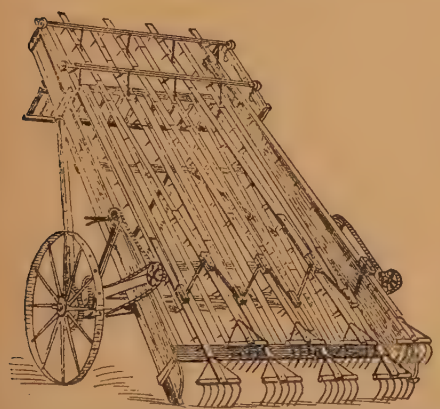
Price, with steel wheels..... **14.50**

Our Celebrated Acme Self Dump Rake for $16.50.

No. 18110. **$16.50** is the price for this 20-tooth rake with wood wheels; **$17.75** with steel wheels.

We believe this is the best self dump rake on the market. The mechanical device for effecting the dumping is a most ingenious yet simple and effective arrangement, and operated as follows: When the driver wishes to dump he places his foot gently on the chain which is connected to the trip, thereby releasing the pauls, which immediately engage with the teeth of the revolving ratchet wheel on the axle. The rake head is thus connected with the revolving axle and turns with it until the end of the trip lever strikes against the stop. The rake teeth are thus raised up, permitting the hay or whatever the material may be to drop off. As soon as the teeth have reached the proper height the trip lever coming against the stop forces it back into its former position, thus withdrawing the pauls and locking them away from the ratchet wheels, permitting the rake head to turn on its axles, by which the teeth are restored to their raking position. The rake can thus be automatically dumped at any time by simply tripping the lever. It may be dumped when either wheel is in motion. It is a perfect self-dump rake, obviating the usual side draught or jar. The teeth are made of the best steel and are thoroughly tested before leaving the factory. Weight, 200 lbs. Price, **$16.50** and.....**$17.75**



The Acme Hay Tedder.

No. 18111. We offer at **$21.00** the celebrated Acme hay tedder.

The main frame of this tedder is constructed in the simplest and most substantial manner, thoroughly bolted together with angle brackets to prevent racking and is arranged for either shafts or combination pole and shafts. The tedder forks are made of the very best quality crucible spring steel on our peculiar pattern, and the shape and sweep of the fork are just right to do perfect work. The chain drive is effected by means of sprocket wheels connected to the main crank shaft and the use of sprockets and chains dispenses with the cumbersome cog gearing, materially reducing the draught of the tedder. The shifting device is very simple and located within convenient reach of the operator. The driver's seat is adjustable and may be secured at any height to suit a small boy or a tall man. The height of the fork is controlled by lever with ratchet stand located within convenient reach of the driver. You can by the use of this lever set the forks to run close to or any distance from the ground. These tedders are furnished complete with shafts, pole attachments, double trees, single trees and neck-yoke. Weight, 490 lbs. Our special price.....**$21.00**

The Acme Hay Loader for $41.00.

No. 18112. **$41.00** is the price when sent by freight C. O. D., subject to examination, upon receipt of sufficient deposit to cover freight charges both ways. Three per cent. discount allowed if cash in full accompanies your order, when **$39.75** pays for the loader.

We offer this Hay Loader with the assurance that its possession will place its owner in the best position for taking care of his hay crop in the most economical manner. The Hay Loader, as illustrated above, we offer to our customers with the assurance that it will in every particular do its work as well, if not better, than any other now in use. It is offered with the further guaranty that it is constructed of better material, is better made, and more handsomely finished than any other now on the market. It is intended particularly as a swath loader, but will work very satisfactorily in windrows; in fact, where the hay is light it is better to rake it in small windrows first. Weight, 800 lbs.

PLOWS.

We are headquarters for everything in the line of plows. We have spared no pains in selecting a line of goods that we can guarantee in every respect, plows that are suitable to all sections of the country and for all purposes. **Our line of riding and walking plows is for quality,** durability, draught and all requirements second to none. Our plows are made for us under contract by several of the largest and most reliable makers in the country, concerns who have devoted their life's work to the manufacture of this class of goods and are turning out the highest grade of work that can be produced. **Our line of riding and walking plows for the western prairies is, we believe, without exception the best on the market. There is nothing superior to our prairie breaking plows, if indeed there is anything on the market that will equal them. Our Texas and southern style plows are designed and** made especially for that territory, and guaranteed to scour in any soil. **Every plow we sell is fully guaranteed for two years. We issue a binding guaranty with every plow,** by the terms and conditions of which if it fails to scour and is not found exactly as represented, or if any piece or part gives out by reason of defect in material or workmanship within two years, we will replace it free of charge. **Do not pay your local dealer long retail prices for a plow when** we can save you 33⅓ to 50 per cent. We can sell you a plow for as little or less money than your local dealer can buy in quantities.

Our $4.75 Cotton King Plow.

This Cotton King plow is made with new shape boards, adopted after a thorough investigation of the requirements of a plow for the blacklands of Texas and the south.

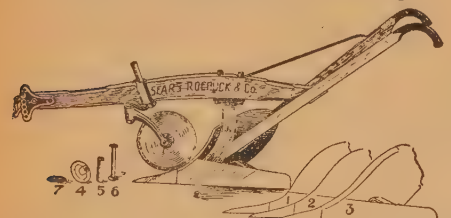
No. 18124. 12 inch cut, wood beam, weight 100 lbs., **$9.52.** Steel beam, weight 110 lbs. **$11.75**

Our $9.75 Walking Plow.



We believe we offer the best steel beam walking plow on the market. It is a plow that we guarantee to scour in any soil. It is especially adapted to the prairies of Kansas and Nebraska, Minnesota and the Dakotas, but is used in every state.

We illustrate this plow with rolling coulter, but the prices quoted are without coulter. We will furnish 13 inch rolling cast coulters at $2.00 extra when desired. This plow is made with a very heavy solid steel point and extra wide shares, warranted to scour in any soil—to scour where all others fail. Remember we guarantee to use a one-half inch wider share than any other manufacturer.

These are our double board plows, made from a solid wedge-shaped piece of steel which is as thick again at the front or wearing side as it is at the rear, extending with a true taper throughout in thickness to the wing of the moldboards. This is by far the most durable and economical method. The plow will wear just twice as long, and the moldboard can be tempered more uniformly throughout.

No. 18125. 12-inch plow, weight 90 lbs.....**$ 9.75**
No. 18126. 14-inch plow, weight 100 lbs..... **9.95**

Double Moldboard Plow.

No. 18128. Price for 12-inch Plow.....**$10.00**
No. 18129. Price for 14-inch Plow..... **10.25**
No. 18130. Price for 16-inch Plow **12.75**

We show this Plow with rolling coulter attached, but the prices quoted are for the plow without the rolling coulter, which we will furnish at **$2.00** extra. This is our double moldboard and bent standard plow. The advantages of the bent standard are apparent to any one. We warrant the double moldboard to wear twice as long as the ordinary single shin, or the welded double shin made by other manufacturers. It is well understood by all practical farmers that a patch welded on the shin of a plow is an actual damage to the board. Any farmer that will examine our double moldboard plow will be convinced that it will wear twice as long as any of the other styles. It is the cheapest plow on the market; has a double thickness of steel on the face of the boards. In the illustration we show our new patent cutter and cutter hub. Other cutters attach to the round part of the beam, and so far forward that they do not do good work, and lift the plow out of the ground. Our cutters are attached to the square part of the beam, and nearly over the cutter blade; have a perfect crank adjustment, and made for either wood or steel beam plows. Price of cutter, **$2.00.** Figure No. 1 shows sectional view of plow; Fig. No. 2 shows sectional view of plow, with patched or welded shin; Fig. No. 3 shows sectional view of plow, without double moldboard; Fig. No. 4 shows our cutter hub proper, that can not break, and never wears out; Fig. No. 5 is the hub center, or thimble, that works in the hub; Fig. No. 6 is the steel pin, on which the thimble turns, and if kept well oiled it will last for years. The thimble and pin are the only parts that can wear out, and are cheap and easily replaced. The new hub can be put on any of our old cutters without trouble, as well as on most other kinds in the market.

Our $3.95 Wood Beam Plows.

The above prices are the net cash with order prices for these plows delivered on board the cars at Alton, Ill., from which point you must pay the freight. The prices quoted are net cash. There is no discount to any one under any circumstances. These plows are designed to scour in all kinds of soil, they are made by a manufacturer whose reputation for the manufacture of strictly high grade plows is second to none, and they are guaranteed in every respect. There is nothing better on the market at any price. Made with curved standard, best land side, bar or slip share as desired, right or left hand, as desired, very finest hardened board.

No. 18140. 14-inch with Quincy cutter and iron strap.....**$10.40**

The above illustration engraved from a photograph will give you some idea of the appearance of this, the best brush plow on the market. It comes complete with cutter and iron strap under beam. This plow is intended for new and brushy land, where there are stumps and roots. It is very strong and does its work perfectly in all kinds of land. It is also generally used for a road plow, and as such gives universal satisfaction. Weight, 80, 85, 90 and 100 lbs., according to size.

Our $7.00 Stubble Plows.

We believe these are the best all purpose stubble plows on the market, and we are satisfied our prices are below any competition.

This is a very strong substantial plow with 3-horse clevis, adjustable heavy wrought iron standard with extra hardened land side share and moldboard, material used being the best in the market. Is nicely constructed and is furnished with wrought iron frog. Extra shares can be furnished which we guarantee to fit. Points are made heavy and strong. Beams and handles are made of the best southern white oak, well braced, and the plow is finished in a very attractive manner. They are made throughout of soft center steel, extra hardened. Made for either right or left hand, as desired. This is a very popular plow throughout the central and western states, made especially for the west and northwest, and guaranteed to scour in any soil.

Our $21.00 Mountain Plow.

This plow is made especially for the great mountain wheat fields of Washington and other mountainous states, and our price is about one-half the price charged by the ordinary local dealer in those sections.

While this plow is made especially for mountainous country, it is equally adapted for loose and level countries, and especially desirable where the farmer does not want his field cut up with dead furrows or back furrows. It is arranged so that one movement of the lever changes it from a right hand to a left hand plow; at the same time the rear wheel is automatically changed from behind the plow so that it is raised and placed behind the plow that is to do the work. The side levers are so arranged that the wheel can be raised and lowered 12 inches, so that the plow can be run level on any hill side or set to run with the hill to suit the wishes of the operator. You will find with this plow on a hill side you can turn a furrow down 24 inches wide, and not only do the work well but with less draught than a narrower furrow on level ground. There is a perfect adjusting lever to throw the draught where wanted without the driver leaving his seat as the plows are changed. It is perfect in every respect, thoroughly tried, and has two complete plows. It is the cheapest riding plow on the market.

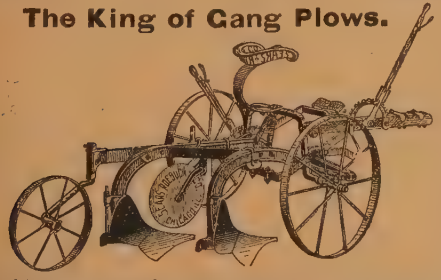
No. 18152. Our price, 14-inch.....**$21.00**
No. 18153. Our price, 16-inch.....**$24.00**

The Best Sulky on the Market.

No. 18154. **Your choice of 14 or 16 inch. Our net cash with order price is $29.00,** and the price quoted is for the sulky delivered on board the cars.

The above illustration represents our new tongueless three wheel sulky with cast wheel in the furrow both at rear and in front of plow, and which is warranted to turn a square corner better than any other sulky made. It is light draught, simple in construction, very easily handled, and made of the very best material, and at the price we quote is the cheapest sulky on the market. Is made with best Bessemer steel wheels with movable boxes and has steel rolling coulter. In turning at end or moving about the doubletrees rise off the ground and the brake keeps the plow from running into the horses' heels.

Our Gang Plow for $42.00.



$42.00 is our net cash with order price for this plow. There is no discount. At **$42.00** we furnish this plow complete with land lever, wide shares, steel seat, double board, two large rolling coulters, weed hooks and four horse evener. It turns a square corner to perfection.

The above illustration represents our new tongueless gang plow which works perfectly with four horses abreast or strung out, the off horse in all cases walking in the furrow. It has the best steel wheels, spring lift, large rolling coulters, leveling lever, adjusting land lever and perfect lifting lever, which gives it an advantage over all other wheel plows. It is also made without riding attachment when desired. Plows are made with double boards and steel seats. We can furnish it with arch or moldboard breaker bottom when desired. All our tongueless gang plows and sulkies are provided with a device for holding the plow from running on the horses' heels when the plows are out of the ground. This is a valuable improvement over all others. Weight of plows, about 500 lbs.

No. 18155. Our price for gang with 2 12-inch plows.....**$42.00**

The King of Gang Plows.

$43.00 net cash with order, no discount. We do not make any discount on plows, but we make you the price of **$43.00** for this gang plow delivered on board the cars at the factory from which point you must pay the freight.

No. 18156. Our price with 2 12-inch plows complete.....**$43.00**

No. 18157. Our special price with 2-14-inch plows complete.....**$46.00**

The above illustration shows our improved old reliable gang, which works perfectly with 4 horses abreast, or 2 ahead of 2. Has steel wheels, spring lifts, 2 cutters, 4 horse evener and neckyoke. Beams are very strong. It is very easy to handle, very easily carried on three wheels, and is guaranteed to be lighter on the team than any other walking plow in proportion to the work done, and lighter with driver than any other wheel plow made. Plows are made with double board and chilled cast shares. We recommend cast shares for hard or sandy ground. Rods or moldboard breaker bottoms can be furnished for our sulkies, gangs, etc., when desired. Special prices on application.

Our $13.00 Subsoil Lister with Wood Beam Complete with Runners.

No. 18158. We furnish this lister in either 14 or 16 inch as desired. We guarantee this lister will scour in all soils. The only lister on the market furnished with runners, easy to handle and will almost run alone. Weight of lister, 100 lbs.

Price.....**$13.00**

Our $13.00 Subsoil Lister.

No. 18159. Complete with steel beam and runners.

Our price of **$13.00** is the net cash price, from which there is no discount, and the price quoted is for the lister delivered on board the cars at the factory in Alton, Ill., from which point you must pay the freight.

This is a 14 inch subsoil lister complete with steel beam and runners. Weight, 100 lbs. Made with wide or narrow boards as desired; is very light and perfect in every respect. We claim for it the following advantages over any other lister made. It has patent double runners, which carry the plow in an upright position. It has patent frog, which enables us to use a lister lay much cheaper than any other. It has covering shovels so arranged that they rise up with the wheel in turning around, and with the aid of the covering shovels the furrow is made highest in the middle, and the corn comes up in the highest place and is much less liable to be washed out by sudden rains. This lister is high under the beam and will not clog up with trash. We guarantee this the best lister on the market regardless of price, and earnestly solicit your orders.

Our $22.95 Lister, with Runners.

We can furnish this lister in both 14 and 16 inch.

No. 18160. 14 inch, with both wheels; weight, 175 lbs. Price.....**$22.95**

No. 18161. 16 inch, both wheels; weight, 180 lbs. Price.....**$23.95**

We furnish this lister, with either sprocket or solid wheel, or both, as desired. When solid wheel is used, a spring scraper is attached. Deduct **$1.00,** if only one wheel is wanted. We claim for this lister the following advantages over any other lister on the market: It has double runners, which carry the plow in an upright position. Farmers who have handled a lister without runners will appreciate this; has new patent triple cut off dropper box, which rarely ever misses, and is guaranteed not to cut the corn, the only perfect drop on the market; has our new patent frog, which enables us to use a lister lay much cheaper than any other; is less liable to break, and is more easily sharpened; has covering shovels, so arranged that they rise up with the wheel when turning around, and with the aid of the covering shovel the furrow is made high in the middle, the corn comes up in the highest place, and is much less liable to be washed out by a heavy rain; it is also much easier to cultivate when the corn comes up in the highest part of the ditch; has a subsoil drill separate, and can be adjusted to break up the ground and plant at any required depth; that is, corn may be deposited one-half as deep as your subsoil, placing the seed in the soft ground instead of the hard, cold bottom. Practical farmers will readily appreciate the advantages of this plan. The lister is high under the beam, and will not clog up with trash. The rear wheel can be raised up when turning, and when raised throws the dropper out of gear. The drill is made substantial, and the plates can be changed in a moment without the use of a wrench. It has 3 dropper plates, with different holes, and can be adjusted to drop 12, 16, or 20 inches apart, as desired. Is warranted not to cut the corn, and we furnish sorghum or broom corn plates when desired, at **$1.50** extra.

Prices on riding listers furnished on application.

OUR MEN'S CLOTHING IS

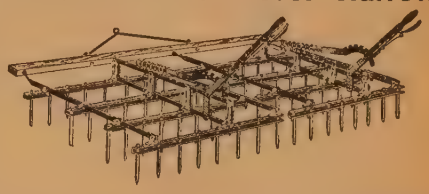
New triple cut off, spring lift and all the latest improvements. It has exactly the same frame as our old reliable sulky, and any farmer that has that sulky can obtain an attachment to convert it into a listing sulky at **$22.00** for 14-inch, **$22.50** for 16-inch, which includes triple trees, drill and fixtures. Weight of this sulky lister complete is 450 lbs. Price quoted is for the sulky lister delivered on board the cars at Alton, Ill., from which point you must pay the freight.



Our Channel Steel Harrows at from $7.90 to $12.75.

No. 18162. 48 teeth, 2 sections. Price.....**$ 7.90**
No. 18163. 72 teeth, 3 sections. Price..... **11.00**
No. 18164. 96 teeth, 4 sections. Price..... **12.75**

We consider our channel steel harrow the best harrow on the market of any kind. It is simple and durable. It has no bolts and nuts to work loose. The teeth reverse automatically and it does perfect work in all kinds of soil. Has hinged drawbar and same steel rail as on our lever harrows. We have put our prices below any competition and we shall hope to be favored with your orders.

Our $9.25 Steel Lever Harrow.

No. 18165. Price with 64 teeth, 2 sections, flexible harrow.....**$ 9.25**
No. 18166. Same harrow with springs..... **10.00**
No. 18167. 96 teeth, 3 sections, flexible harrow. **13.00**
No. 18168. Same harrow with springs..... **14.50**

We make these harrows with both light and heavy rails, and guarantee the heavy harrow in any work; will furnish new rails free if you break them. We make these harrows in 2 sections, 64 teeth, and in 3 sections, 96 teeth. We make these harrows with flexible or rigid frame as desired, the flexible frame having cross or truss bars only on the top, while the rigid have the cross or truss bars across both top and bottom. The rails are made of channel steel, very light and very strong, with a square hole at the bottom and a round hole at the top, enabling us to get the full strength of the teeth, which are fastened in by a hexagon nut on top of the rail. This harrow is a great improvement over any other harrow made and has features covered by our patent that no farmer will do without when once understood. The illustration above of our flexible harrow shows the spring device which we can put on either style harrow at an additional expense of 50c a section. The spring gives the teeth a vibrating or dancing motion which keeps them from gathering trash, causes them to pulverize the ground more thoroughly and prevents the teeth from being injured or bent when striking an obstruction. The springs can be changed to the ordinary style by changing the pin from the hole in front of the casting to a hole through the casting, and thus giving the operator both styles of harrow in one. This is the easiest harrow on the market to set up, the castings being fastened to the rails and the cross bars attached with bolts.

If there is any way we can serve you on any purchase whatsoever, do not hesitate to write us. We can save you money on almost anything that is made.

The $7.70 Harrow.

At **$7.70** we will send this harrow to any address by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover transportation charges both ways. Three per cent. discount will be allowed if cash in full accompanies your order, in which case **$7.46** pays for the harrow. Please observe our 3 per cent. discount in comparing prices with other houses.

Made at St. Paul. This harrow is made at St. Paul by one of the largest manufacturers there, and the price quoted is for the harrow delivered on board the cars at St. Paul, from which point you must pay the freight. This harrow is intended especially for northwest and western trade. For Minnesota, the Dakotas and Iowa there is perhaps no more popular harrow made. This harrow is constructed to accomplish the greatest amount of work in the least possible time, and in such a manner that the farmer can have two or more harrows by purchasing one, the changes being made by adding or taking off the sections as a narrow or wide harrow is wanted. The bars are made 2 by 2½ inches, eveners 2 by 4 inches, of the very best seasoned oak. Each bar is insured against splitting by long double clinchers on either side of each tooth. Teeth are ½ inch square, steel with dagger point or square center point. The sections are independent and connected with evener by eye-bolts so as to secure a perfect hitch, allowing the sections flexibility and vibration without permitting the teeth to drag or follow each other. Each tooth cuts its own way. To insure deep cutting and thorough pulverization, dagger teeth are used. The two-horse harrow consists of center section and two next sections. The three-horse harrow of center section and three sections adjoining. The four-horse harrow consists of all the sections shown. We furnish draw bars to match number of sections ordered.

No. 18169. Two-horse harrow, 78 teeth, cuts 13 feet; weight, 190 lbs. Price.....**$7.70**

No. 18170. Three-horse harrow, 82 teeth, cuts 16½ feet; weight, 240 lbs. Price.....**$9.95**

No. 18171. Four-horse harrow, 150 teeth, cuts 26 feet; weight, 360 lbs. Price.....**$14.00**

Remember the prices quoted are for the harrow delivered on board the cars at St. Paul, Minn., and we allow a discount of 3 per cent. if cash in full accompanies your order. If you live within a thousand miles of St. Paul, either east, west or northwest, you will save 25 per cent. in price by ordering this harrow from us.

Our Boys' Cultivator at from $12.00 to $14.00.

We offer at from $12.00 to 14.00 a strictly high grade cultivator which we can guarantee in every respect, and that can not be equaled by any other in the market at less than $20.

The illustration above represents what we have named our "Boys' Cultivator," because it works so easily and is so easily adjusted that the boys all like it. We claim it has the best and most perfect spring in the world, one that needs no fixing and does all that you want a spring to do. In the work there is no lift. The shovels run naturally by the hitch when started. The swinging chain is so arranged that there is no tendency to draw the shovels together or to swing apart, the chain always being straight over the load. We use the finest steel wheels with chilled boxing, and the casting is A No. 1. We believe in making the best regardless of cost. Do not buy a steel wheel cultivator without movable boxes. Weight of cultivator, 210 lbs.

Our Tongueless Cultivator at $12.00.

No. 18186. **$12.00** is our net cash with order price, from which there is no discount. All orders for this cultivator must be accompanied by cash in full. We offer for **$12.00** a cultivator which you could not duplicate for less than **$20.00.** The price quoted is for this cultivator delivered on board the cars at Alton, Ill., from which point you must pay the freight.

We guarantee this the best tongueless cultivator on the market, regardless of price.

Your choice of wood beam or steel beam, as desired. The price is the same.

The above illustration, engraved from a photograph, will give you some idea of the appearance of this perfect, high grade cultivator. It has a perfect lateral, or vertical adjustment; has hang-up hooks, which can be turned out of the way when at work; runners, which can be put in a carrying position quickly without the use of a wrench; has the same device for taking up slack or wear as our regular tongue cultivators; has an arch that does not fall down when turning at the end of the row; has shovels on a gang, shaped so as to turn the earth the same way, and throw it over like a plow, and yet, when both are set to turn the same way, they perfectly follow the line of draught, and do not swing off to one side, and when pushed out to dodge the corn will instantly swing back; has a tongue attachment, by which it can be changed into a perfect tongue cultivator, and when used as a tongue cultivator there is no vibrating or swinging of the tongue to fret or wear the horses—has the very best malleable break pin—the highest grade movable boxes over wheels. Weight, 171 lbs.
Our special price **$12.00**

Our Acme Wood or Steel Beam Cultivator for $12.95.

No. 18187. We build this cultivator with either wood or steel beam, as desired. The price is the same.

The above illustration represents our new Acme cultivator, which is a great improvement over all others of its class, being a perfect tongue cultivator, and can be changed to the best tongueless cultivator on the market in a few minutes. The wheels, being hinged to the frame or arch, are always in line with the draught of the team and turn easily and naturally; it makes no difference in what position the team may be. Other cultivators having the vibrating movement and the wheels attached rigidly to the frame or arch are always parallel to the frame, and when the team is turning and one horse stands ahead of the other the wheels must scrape or slide sidewise, thus making it hard on the team and liable to break the wheels or axle. This hinging of the wheels to the axle is a feature that belongs to the Acme exclusively, and puts it ahead of all others of its class. Examine the Acme carefully and you will at once see its advantages over all others. Has malleable break pin and low hitch. The wheels have movable boxes, making them wear resisting.

We can furnish the Acme cultivator with "Eagle Claw" beam or "Spring Tooth" beam at 50c extra when so desired. The prices quoted are for the cultivator delivered on board the cars at Alton, Ill., from which point you must pay the freight. This is one of the most popular cultivators on the market, and there are more of them in use in Iowa, Kansas, Nebraska, Missour and Illinois than any other three cultivators made.

Our Celebrated Riding Vibrating Hitch Cultivator for $22.00.

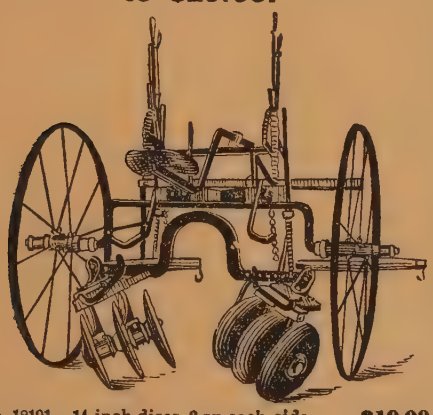
No. 18188. **Combined riding and eagle claw hitch cultivator. $23.25.** The above are our prices when shipped by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways.

Three per cent. discount will be allowed if cash in full accompanies your order.

These cultivators have been thoroughly tested the past eight years by practical farmers and pronounced an entire success. With this cultivator the team is hitched close to the work and practically direct to the shovel beams. Each horse is made to pull his own gang or shovels and it entirely does away with the vibrating or swinging of the tongue. Has patent double hitch which perfectly controls the tendency of the tongue to rise up when the operator rides, and takes the weight off the horse's neck when he walks. Has springs which can be adjusted to carry the shovels to any desired lift or to be non-acting when at work. By the use of these springs the combined riding cultivator can be changed into a perfect walking spring cultivator. Has a perfect foot lift, which enables the driver to raise the shovels with his foot in turning. When the cultivator is used as a rider, the shanks or beams can be carried on a stationary chain in the usual way or allowed to work free, and the depth of the shovels can be changed while the team is in motion. We furnish twisted or straight shovels as ordered, but where no special orders are given we send them with two twisted and two straight shovels and shields. Bull tongues and moldboard shovels furnished extra when desired. Can also be changed to an eagle claw or spring tooth cultivator. Price, **$22.00**, or **$23.25** when furnished with a combined eagle claw.

When you order your Cultivator or Plow you can have small articles, such as Clothing, Dry Goods, Notions or Books, sent along at no extra expense.

Our Single Row Two Horse Riding Corn and Cotton Stalk Cutter for $22.00.



The illustration above shows the new patent single row corn and cotton stalk cutter. The double row has two revolving discs and the machine is just double the width of the single row cutter. Has double pole to use three horses. The plan is different from all others. Instead of cutting by the weight of the cutter head and machine, the power comes entirely from springs. The combination of lever and springs enables the operator to apply any force to the knives that may be necessary to do the work, and when raised from the ground to turn the same springs raises the cutter head, making the easiest cutter to handle in the world. The seat and wheels are high and the driver well up out of the dust. The wheels running into low places have no effect on this cutter, as the frame never rides the cutter head, which has always plenty of room to work, and the knives are never crushed into the ground as with all other cutters, making them do poor work and overstraining the horses. The steel wheels have malleable boxes, which are bored and fitted as perfectly as those on a buggy. The axles are also turned upon a lathe and are protected by a hub nut instead of a hole in the axle fitted with a pin to keep the wheel on. The machines are made of the very best material, elegantly finished wheels with adjustable hubs and perfect in every respect.

Our Acme New Riding Disc Cultivator at from $19.00 to $25.00.

No. 18191. 14-inch discs, 3 on each side.....$19.00
No. 18192. 16-inch discs, 3 on each side.....$21.00
No. 18193. 14-inch discs, 4 on each side.....$24.00
No. 18194. 16-inch discs, 4 on each side.....$25.00

This cultivator possesses all the advantages of all other riding cultivators, and has in addition cultivating discs that can be set at any angle and any distance apart. They can be reversed so as to turn the ground up or away from the corn. Has light hitch. Each horse pulls his own side of the cultivator. No swinging of the tongue. The wheels and gangs work parallel and are thrown sidewise by simply bearing down on the foot pedal, leaving both hands free to handle the team. This makes plowing of the crookedest rows very easy, overcoming a great fault with all other discs. We hitch the drag to the front end of a beam with a clevice and are able to gauge the depth just the same as on a walking plow. Made with 3 or 4 discs on each side. When 4 discs are put on the implement can be used in place of a disc harrow, and it is but a moment's work to change from 3 to 4 discs and vice versa. Weight 450 lbs.

Same with center shovel, cut 9 feet..... 31.00

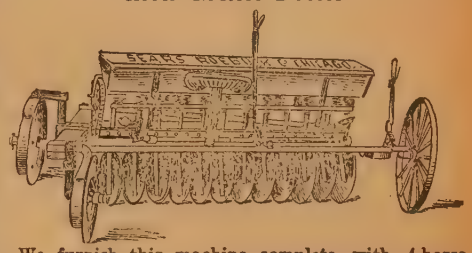
At the above prices we furnish this harrow, delivered on board the cars at Alton, Ill., from which point you must pay the freight.

We believe this to be the best disc harrow in the world. The gangs are set the proper distance apart for cultivating corn, while with others the machines have to be taken apart to get the inside discs off, and when they are off they are too far apart to do good work. Cuts 6 inches deeper than any other of the same size on account of leaving a space between the sections. The space left is cut by the shovel, which leaves the earth behind the machine, while others leave a little ridge in the center with a ditch on either side, and do not pulverize the center. The center shovel can be raised with the foot when turning or passing an obstruction. The center shovel can be taken out and sections put close together for cutting sod. The box which bears the pressure of the side dish of the gangs is made of the same hard material that is used in our moldboards, is guaranteed to wear longer than any other, and the wearing parts can be replaced for 50 cents. All our harrows are arranged to work with 2, 3 or 4 horses, but we furnish combined 2, 3 and 4 horse evener that works perfectly either way. There is no side or gang draft. We can furnish our harrows with 16 discs, and you can reduce the size to any number of discs desired by simply taking them off. This is a great advantage, as it enables the farmer to enlarge or reduce his disc to suit his team or work. We make all sizes, so that the sections can be set close together for cutting sod or spread apart and used with the center shovel. The advantage of the center shovel is so apparent that no one who investigates the matter will use any other, as it does better work, cutting out the center left untouched by other harrows, and adds 6 inches to the amount cultivated every round.

Our Special $36.50 Side Throw Disc Harrow.

We furnish this harrow with 12 16-inch discs and 6½-foot cut, for $36.50.

Price with 12 20-inch discs and 6½-foot cut, $40.50.



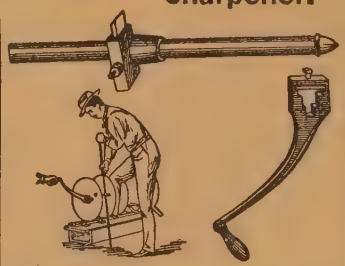
The prices quoted are for the harrow when shipped by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways, balance and freight charges to be paid after the harrow is received. Three per cent. discount will be allowed if cash in full accompanies your order. We feel safe in saying that we are quoting this harrow at at least 33⅓ per cent less than it can be had at retail.

With discs throwing all one way; is carried on wheels and with a flexible tongue. We claim the following points of superiority over all others: The discs being in one gang and turning the earth in one direction, there is no ditch left in the middle or any ridge made where the earth laps or comes together. All farmers who have used the old style discs will see the advantage of this point. It being carried on wheels, the depth can be perfectly controlled, as the discs will run at full angle without running so deep the team cannot pull it. The old style disc when set at full angle in soft ground ran too deep, and when the angle was changed to keep them out of the ground did not do good work.

It can be raised off the ground to move about the farm or to turn around at the end of the land. The discs can be raised or lowered in an instant without stopping the team, and from the driver's seat. The rear wheel being a cast wheel, the machine is very easy to turn at the ends when it is unlatched. Our disc boxes are oiled through the top of the standards, the oil going just where wanted, and the oil holes being where no dirt can get in them. If it is necessary to move the discs over rocky ground, the flanges or knives on the wheels can be easily taken off by removing 4 bolts. The disc harrow is a perfect cultivator and weed killer and the best machine for cultivating summer fallow.

No. 18201. Price for 12 16-inch discs, 6½-foot cut.....$36.50
No. 18202. Price for 12 20-inch discs with 6½-foot cut.....$40.50

Our Combination Disc Harrow and Grain Drill.

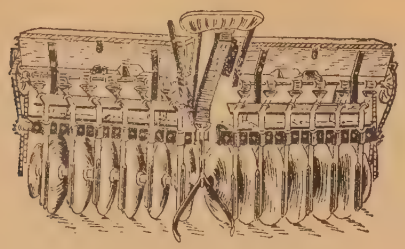


We furnish this machine complete with 4-horse evener and polished discs at from $44.00 to $51.00 according to size.

No. 18204. Machine complete with 12 20-inch polished discs.....$44.00
No. 18205. Machine complete with 14 20-inch polished discs.....$47.00
No. 18206. Machine complete with 16 20-inch polished discs.....$51.00

There are many advantages in this machine over all others. The disc drill when polished will cut through sod and trash, and run where no other drill can go. Drills in rows over 6½ inches apart, so that the grain is more perfectly distributed and less likely to grow with a line of weeds alternating with a row of grain. The discs perfectly cleave the ground at the time of putting in the grain and leave it in better condition. The grain is deposited in the bottom of trench behind the discs, put in at a uniform depth and covered perfectly, and thus needs no wheel behind to cover the grain. The wheels make a furrow over the rows of grain and may cause it to be blown away by a strong wind or washed out by rain. The drill devices are adjustable so that the grain can be discharged at any height, which is an important point, as when cutting in sod the drill must discharge the seed near the ground or it will scatter and not fall in the furrow, and be left on top of the ground. Do not forget this point when selecting a drill. In our drill the driver at all times can see the cups or drill spouts, and know that they are working perfectly. We guarantee our seeding apparatus to be as good as any made, and to sow from one-half to four bushels to the acre perfectly. All our drills are furnished with broadcast seeder attachment and the drill can be changed to a broadcast seeder and vice versa in a few moments' time. This disc harrow is a perfect cultivator and weed killer, and the best machine made for summer fallow. The drill or seeder attachment can be removed, and then you have a perfect disc harrow, giving you the use of two machines in one.

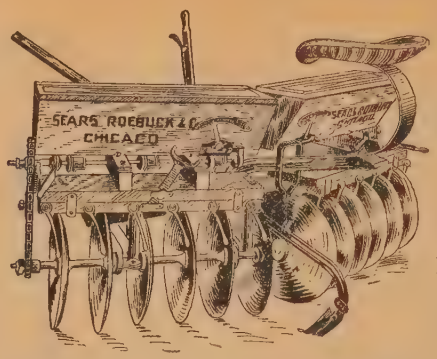
Our $2.15 Little Giant Disc Sharpener.



No. 18207. This is the most practicable, portable disc sharpener manufactured. Any disk harrow or cultivator can be thoroughly sharpened without taking apart in less than an hour, and practically at no expense, as it can be done at odd times or at the noon hour. It is very simple and only requires that the harrow be turned upon its back disc upwards and the crank attached to end of shaft as shown in illustration. The crank is made to fit any shaft, any size, round or square.

The sharpener is all iron and will last a lifetime. The plate or chisel is made of Mushat steel hardened, which will bring the disc to a sharp keen edge without destroying the temper and without the use of water. The iron stand which holds the sharpening disc is made adjustable so that it will slide up and down in the bar in order to get the desired distance from the ground. The sharpening chisel is also adjustable and can be extended as it wears away and thus one chisel will last many years. One set screw operates both adjustments. Rolling coulters can also be sharpened nicely by taking them out of the bracket and passing them through the posts the proper height from the ground. Attach the coulter to post and attach the crank same as to harrow. Weight, 7½ lbs. Price.....$2.15

Compare our prices if you will with those of any other Mail Order House, and if you don't find our prices the lowest and our terms the most liberal, don't buy of us.



Our Combination Disc Harrow and Grain Drill Complete with Four Horse Eveners and Polished Discs at $44.00 to $51.00.

No. 18208. Price with 12 20-inch polished discs complete **$44.00**
No. 18209. Price with 14 20-inch polished discs complete **47.00**
No. 18210. Price with 16 20-inch polished discs complete **51.00**

The above illustration shows the drill ready for operation. It can be changed in a few moments to a regular broadcast seeder, which you can work anywhere a disc harrow will go. Please note the following advantages: The drill device can be set up or down to suit the operator; the boxes are set apart so that they will not strike together when at work; we use 12 seed cups, or double the number others do, and thus the grain is distributed evenly regardless of wind or side hills; the covering plates in the center not only cover the grain but level the ground; the drill deposits the grain at a uniform depth where it is well covered, and can be set to sow any depth as deep as the discs run; can be thrown out of gear on one side, leaving the other to work and enabling the operator to sow a narrow strip or finish the land when running near a fence; it has an adjustable chain tightener which enables you to take off and put on the chain without trouble. The drill can be taken off and discs used separately. The shields prevent the dirt from interfering with the driving sprocket wheel. It has a perfect index, showing the quantity sown to the acre. It has a perfect force feed. We warrant our improved drill to work in as many kinds and conditions of work as any drill made, and to do good work in places where no shoe or hoe drill will work, but there are places and conditions where it will not work, and in such cases the broadcast seeder attachment, which goes with the drill, covers the case, making a machine that the farmer can always work with, wet or dry. We guarantee the drill to sow perfectly ½ bushel to the acre, or any larger quantity, and not clog or cut the ground. The seat is so arranged that the operator sits comfortably on a good spring seat, and back of the drill so that he can see that the seed cups are properly discharging.

The prices quoted are for the harrows delivered on board the cars at the factory at Alton, Ill., from which point you must pay the freight. You will find the freight will amount to next to nothing as compared with what you will save in price.

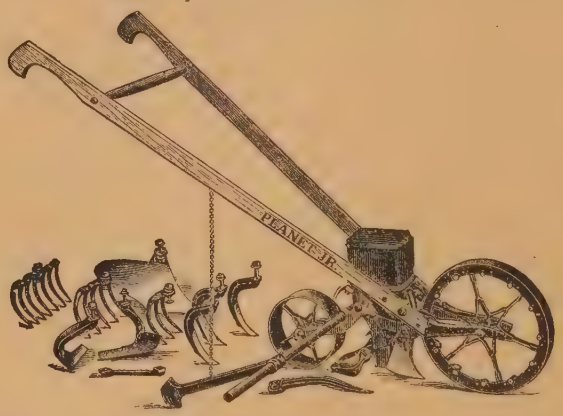
This improved disc with seeder attachment has the same features as our drills, except that the seed is scattered broadcast in front of the blades where it is covered. We claim for it the following advantages over all other machines of the same character: It has a perfect force feed, which is a very essential feature; it is driven from both sections, and the drive chain is always in line; it is provided with a spring chain tightener, which enables you to take the chain off or put it on without removing the wheels and preventing it coming off; either side can be thrown out of gear; the driver sits where he can see at all times whether the seeds are discharged properly; it has a perfect index, showing the quantity sown to the acre; it is nicely and substantially put up in every way. We have a center shovel which covers the grain sown in the middle, which no other has, and they not only leave a ditch, which we do not, but they leave grain in the center which is not covered. It can be used without a shovel if desired. It has shields which prevent the dirt from interfering with the driving chain sprockets. This machine is made of the very best material, and is guaranteed to give the most perfect satisfaction when properly operated.

Please note that the seeder can be taken off and the disc used as a separate machine, giving you two perfect machines in one.

"PLANET JR." GARDEN TOOLS FOR 1897.

We issue a Special Catalogue of "Planet Jr." Garden Tools, which is mailed free on application.

The "Planet Jr." No. 5 Hill Dropping Seeder.



No. 18211. This beautiful new tool will be a delightful surprise to every gardener who tries it. We all know that a garden seed sower that does not drop in hills is fast becoming a thing of the past, for there are but few now who do not wish to plant beans and corn, spinach and salsify, carrots and turnips, parsnips and beets, in hills. All crops that are to be grown from seed and then thinned to a regular stand, should be planted in hills and at just the distance apart the plants are desired; for in drilling, unless the seed is sown unnecessarily thick, there will not always be a plant at the proper spot, and the crop is therefore irregular. This means that nowadays a seed sower should drop in hills and at almost every distance apart. The new No. 5 "Planet Jr." drops at 5, 6, 8, 10, 12, 16, 24 and 48 inches apart, and also beautifully in a continuous row. It drops without injury, can be changed from hill to drill or from one distance to another very quickly, and without any changing of bolts, and without any loose wheels or parts so easily lost or mislaid; and a neat, clear index with brass screw regulator and quick cut-off is arranged most conveniently just at the top of the handle.

The newcomer is a great favorite, too, because it is unusually large, holding three quarts, yet very light running withal; and it is also a model of simplicity, strength and durability. Its large capacity will suit all large growers, and yet it works so perfectly that it will sow a single paper of seed or drop it in hills accurately, to the very last grain.

In a word, no seeder has ever been made that compares with this newly perfected No. 5 "Planet Jr."—the 1897 surprise. Price..... **$12.00**

The "Planet Jr." No. 4 Combined Hill Dropping Seeder and Single Wheel Hoe, Cultivator, Rake and Plow.

No. 18218. This is exactly the same fine strain of blood that has proven such a marvelous success in the No. 5 "Planet Jr." Hill Dropper. As a drill, the points of difference are: First, that it is smaller in capacity, though still of good size, holding three pints, and that it does not drop at so many different distances apart; however, it drops at all the most important distances, at 6, 9, 12, 18 and 36 inches. The index is just as fine and accurate and plain, though being a combined tool it is not placed at the top of the handle. It is like No. 5 in dropping in just the same way, just as accurately, and in handling the smallest paper of seed perfectly and to the last grain; has no loose parts, and is simple, durable and very light running. The drill is quickly detached and the tool frame substituted. It then becomes the most admirable Single Wheel Hoe of the "Planet Jr." family. Has a fine garden plow, two elegantly shaped, new-style hoes, three delightful cultivating rakes, made new form and specially to fit 6, 9, 12, and, using two at once, 14 and 16 inch rows; and a practical leaf guard. Price, complete, **$10.00**; as a drill only **$7.00**

The "Planet Jr." No. 2 Seed Drill.

No. 18219. This tool is used the world over, and with the exception of the "Planet Jr." Hill Dropping Drills, is the most perfect drill known. It holds two and one-half quarts.

The sowing cylinder is a drum of spring brass, set between the driving wheels. Around this drum is a brass band, drawn tight to the drum by a cam which joins the ends. In both drum and band are corresponding diamond-shaped discharge openings; by loosening the cam and sliding the outer band the discharge may be regulated to suit any kind or thickness of seed. The index contains the names of the principal seeds, and when the name wanted appears through the index slot, it is set right for that seed. The drill sows in an even, regular stream, whether there is much or little in the hopper. The opening plow, being directly between the wheels, follows all irregularities of the ground, is adjustable, and once set, opens the furrow at a uniform depth, and the seeds are deposited in a very narrow line. The machine is extremely simple; having no agitators, belts or gearing, the seed cannot be injured, even if sprouted. It received the highest award at the World's Fair at Chicago. Price **$6.50**

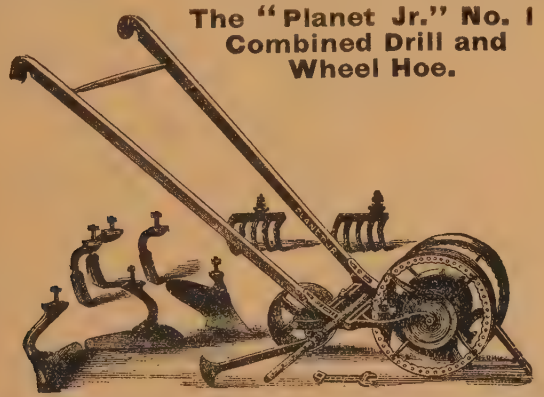
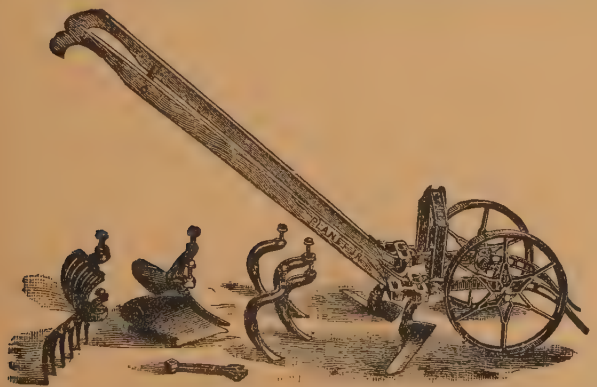
The "Planet Jr." No. 3 Hill Dropping Seeder.



Sows either in Hills or Continuous Row.

No. 18220. Until recently there was no such thing as a Hill Dropping Seeder, modern drills sowing continuously only. This drill will sow in a continuous row, in the ordinary way, with the greatest regularity; but its distinctive feature is that it will drop neatly in hills, either 4, 6, 8, 12 or 24 inches apart. It opens the furrow, drops in hills, or drills, covers, rolls down and marks the next row, all at one operation. The hopper holds three quarts. The wheel is 15 inches high, with a broad face. It is changed in a moment from hill dropping to drill work. It has a rubber force feed, sows equally well whether the hopper is full or contains only a paper of seed, and will not injure delicate seeds, such as radish, cabbage, etc., which are so often peeled or crushed by drills having agitators or metal feed wheels. It is nicely adapted to all conditions of land, working especially well in fresh ground or when planting on a ridge. The plow is adjustable and opens a very narrow furrow, which is a great advantage for after-cultivation.

1896 was the first year that this machine was sold widely by the manufacturers of the celebrated line of "Planet Jr." goods, but the machine was bought very largely by careful gardeners and nurserymen during the season, and gave entire satisfaction. Price **$9.00**



The "Planet Jr." No. 1 Combined Drill and Wheel Hoe.

No. 18221. This is the most popular combined tool known, and its friends have been gained by substantial merit alone. It won the highest and only award at the Chicago Exposition. As a seed sower it is identical with the No. 2 "Planet Jr." Drill, except in size, and has all its merits, its strength, durability, ease of operation and perfection of work.

This combined tool has a complete set of cultivating tools, and all its operations are rapid, easy, perfect and delightful. When used as a drill the seed is sown with great regularity and at uniform depth, regulated at pleasure. The hopper holds one quart. The door, when opened, forms a convenient spout for filling with seed. From a drill it is changed to its other uses by unscrewing but two bolts, when any of the attachments shown in the cut can be instantly attached. In short, every purchaser of this machine will find it an excellent seed sower; a first-class double wheel hoe, for use when plants are small; a first-class single wheel-hoe; an excellent furrower; an admirable wheel cultivator; a capital garden rake; a rapid and efficient wheel garden plow; and that it is without an equal in variety of tools, easy adjustment, lightness, strength and beauty. Price **$9.00**

The "Planet Jr." Double Wheel Hoe.

No. 18222. Thousands of farmers and gardeners who own this tool save its cost one or more times every year, for in an onion field and among many other crops one can do more and better work with it than six men with ordinary hoes. It is invaluable for all market garden crops. The wheels are only ten inches high, as a high wheel is wrong for a Wheel Hoe, since the wheels are simply depth regulators, not load carriers.

The "Planet Jr." Double Wheel Hoe will straddle plants eighteen inches high, and finish rows from six to eighteen inches apart at one passage. One hoe sets slightly ahead of the other, to prevent dragging out young plants. The new frame permits the changing of attachments without removing the nuts. All the tools shown in the cut go with the machine for the price; and all the blades are steel, hardened in oil and polished. The wheels are adjustable to make the work shallow or deep, as required, and to adapt the machine to all width rows. The tool is charming in every style and kind of work, the admiration of all who see it in operation, and is the acknowledged standard the world over. Price.. **$6.00**

To accommodate those who have little work but hoeing, we offer the above machine, with hoes only, under the name of "Planet Jr." Plain Double Wheel Hoe, at..... **$3.50**

The other parts can be added at any time, and will be found to fit.

The "Planet Jr." 12-Tooth Strawberry Cultivator and Harrow.

No. 18223. This comparatively new tool has rapidly grown into favor with market gardeners and strawberry growers. It is carefully made and finished, has a high frame and the chisel shape teeth cut an inch wide each, and may be worn down three inches before that width is lessened or the teeth worn out; even then they are cheaply replaced.

It may be set with teeth trailing, by simply changing one bolt in each tooth.

The foot lever pulverizer is a capital addition for preparing ground for the seed drill or for plant setting. Hand levers regulate both width and depth while in motion; it contracts to 12 inches, and may be further reduced in width by taking off the outside teeth; it expands to 32 inches. It cultivates deep without throwing earth upon the plants, and the smooth, round-throated teeth turn strawberry runners without injuring them. Price, plain, **$4.90**; with wheel, **$6.15**; complete. **$7.50**

The "Fire-Fly" Wheel Garden Plow.

No. 18225. This tool is invaluable for those who have small gardens. The moldboard is tempered and polished steel. The depth may be changed very quickly. The low price brings it within the reach of all. Price..... **$2.00**

Very useful to plow up the chicken yards.

The "Planet Jr." Grass Edger.

No. 18226. The grand secret of attractiveness in grounds surrounding a house is extreme neatness. The "Planet Jr." Grass Edger assists wonderfully in producing this effect. It will do either straight or curved edging at a speed of a mile an hour. It should be the constant companion of the lawn mower.

Strawberry growers will find the Grass Edger, with the hoe removed, a rapid and perfect tool for cutting off surplus runners. Price..... **$5.00**

The "Planet Jr." No. 8 Horse Hoe.

No. 18227. Probably no other cultivating machine is so widely known as the "Planet Jr." Combined Horse Hoe and Cultivator, for it is in use throughout the civilized world. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle.

For 1897 we offer important improvements in our No. 8 "Planet Jr." Horse Hoe and Cultivator, as described below:

The Frame is longer than usual and about one and a half inches higher, making a tool that will not clog easily.

The Standards are formed up hollow with round throats of stiff steel; they polish quickly and free themselves readily from obstructions, and they clasp the frame and strengthen it.

The Depth is under perfect control by means of a new lever wheel and the new patented depth regulator, which are moved instantly in unison by a single lever, making exact work, steadying the machine and relieving the operator.

The Expander. This is an entirely new pattern, superior to all other forms; exceedingly strong, simple, accurate and positive in all positions.

Handle and Braces. These are also absolutely new and the most effective stiffest combination known, at once making the tool rigid, yet allowing adjustment of handles in height and sidewise.

Every part is perfected to make the tool acceptable to the intelligent farmer, who knows the best is aways the cheapest. Price, **$7.50**; without Depth Regulator **$7.00**

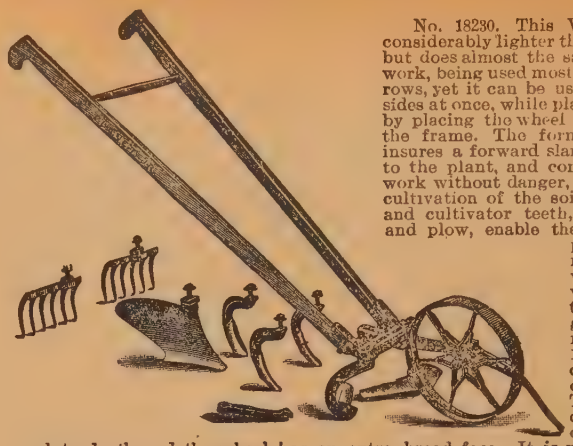
The "Planet Jr." No. 5 Horse Hoe.

No. 18228. This tool is similar to the No. 8 Horse Hoe, but it has a plain wheel instead of one operated by a convenient lever. It has the same standards and teeth, but is made in other respects like the popular 1895 pattern. It does not have the improved depth regulator and the expander and braces of the No. 8, yet it is strong and serviceable and will give full satisfaction. Has an excellent expander and handles adjustable, both perpendicularly and sidewise. Price..... **$6.25**

We quote a complete assortment of Garden, Grass and Flower Seeds on Page 25. Profits of dealers are very large on these goods, and you can save these profits by buying of us.

The "Planet Jr." No. 15 Single Wheel Hoe, Cultivator, Rake and Plow. Price, Complete, $6.00.

No. 18229. This new Wheel Hoe has the advantage of a high wheel with broad face, of a convenient arrangement of the frame, and a very full set of tools, most of them being of new, special design, such as have been found to perform wheel hoe work in the very best manner. It also has the great advantage of being convertible into a hill dropping and row seeder, by buying the seeder attachment. Price.....**$4.50**



The tools are: A well-shaped garden plow, for plowing, marking out, covering and late cultivation; a pair of neat shield hoes, just right for hoeing in rows 9 to 12 inches, and with the assistance of a cultivator tooth or rake, rows up to 16 inches; a set of three hoes, cutting 3½, 7 and 10 inches wide, respectively, just right for 6, 9 and 12-inch rows, and, two together, for rows up to 16 inches. With two arranged side by side, the rakes are just the thing for preparing ground for the seed drill. It has also a practical leaf guard for fallen plants, such as peas, and for wide spreading plants. It raises the leaves and allows perfect cultivation without injury or increased labor.

It is also sold without rakes and leaf guard. Price.....**$5.00**

Also plain, having only one pair of hoes and one pair of rakes. Price..**$4.00**

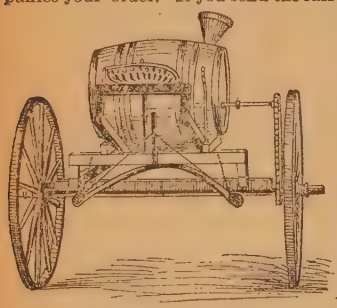
The seeder attachment is quickly exchangeable for the wheel hoe frame; it is identical with the "Planet Jr." Hill Dropping Seeder No. 4, and drops at 6, 9, 12, 18 and 36 inches apart. Price.....**$4.50**

The "Planet Jr." Single Wheel Hoe.

No. 18230. This Wheel Hoe is considerably lighter than the double, but does almost the same variety of work, being used mostly between the rows, yet it can be used to hoe both sides at once, while plants are small, by placing the wheel at one side of the frame. The form of the hoes insures a forward slanting cut next to the plant, and consequent close work without danger, and thorough cultivation of the soil. The rakes and cultivator teeth, and the hoes and plow, enable the operator to perform almost every variety of work, either in the field or garden. All rows from 6 to 18 inches apart can be hoed at one passage. The frame is quickly raised or lowered to regulate depth, and the wheel has an extra broad face. It is pronounced by practical men without an equal in design and finish, ease of operation, variety of adjustment and perfection of work, and we feel confident that every one who tries this tool will be glad that he did so.

Price.....**$4.50**

To supply a demand for a cheap Single Wheel Hoe, we offer the above machine (plain, with the hoes only) at **$2.75**, and the other attachments can be added at any time and will be found to fit.



The "Fire-Fly" Single Wheel Hoe, Cultivator and Plow.

No. 18231. This popular tool is exactly the same as the "Planet Jr." Single Wheel Hoe, excepting that it does not have the rakes or leaf lifter. The attachments are a pair of hoes that can be set to work to or from the row, a set of three reversible cultivator teeth, and a large garden plow. The whole tool is light and strong, and capable of standing hard usage for years. Price.....**$3.75**

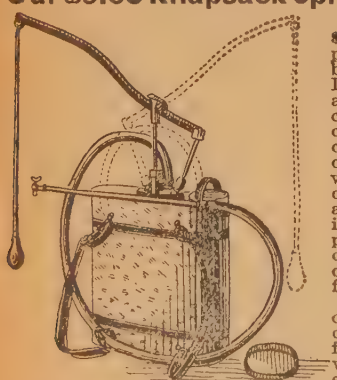
Our $25.00 Western Potato Bug Sprinkler.

No. 18232. $25.00 is our regular price when sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways. Three per cent. discount allowed if cash in full accompanies your order. If you send the full amount of cash with your order $24.25 pays for the sprinkler.



This is the best potato bug sprinkler on the market. It applies the poison upon two rows at once, and will cover 12 to 15 acres per day. It is the cheapest, simplest and most perfect potato bug sprinkler ever invented. Any boy that can drive a horse can perform more easily the same amount of work it heretofore required 12 men to perform in the same time. You have complete control over the quantity of water you wish to throw, opening or closing the valve with the lever.

The wheels run on tubular axles and can be shifted to any width of rows desired, 2 to 3 feet. Weight, 450 lbs.

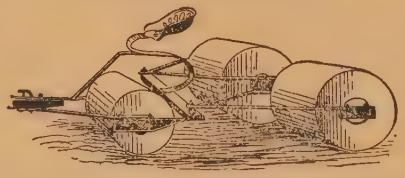
Our $5.50 Knapsack Spray Pump.

No. 18233. **$5.50** is our price when sent by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways. Three per cent. discount allowed if cash in full accompanies your order, in which case **$5.35** pays for the pump.

This is a thoroughly first-class outfit, designed for orchard, vineyard or general use. Four to six acres of vines can be covered in one day. The tank holds five gallons and is fitted with lid and strainer which can be removed. It is a brass bucket spray pump with air chamber, ball valves, solid plunger and agitator. We wish to call attention to the fact that this is the only knapsack spray pump on the market with an agitator. It is so arranged that no water can drip on the operator.



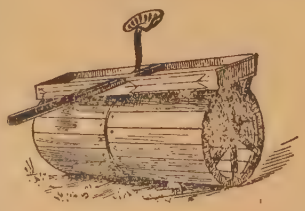
Our House is the

CENTER

From which great bargains emanate.

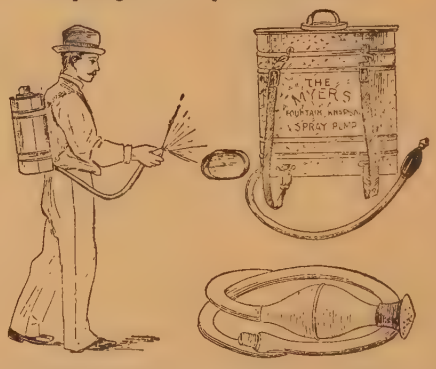
The pump can be removed easily. It can be carried by hooking snap in staple on opposite side provided for the purpose, as shown by dotted lines. The handle lever can be shifted from right to left shoulder at will. Price.....**$5.50**

$15.00 for the Celebrated Sherwin Patent Adjustable Field Roller.



The rollers are made from 18 to 22 inches in diameter, and 3 feet in length, covering 8½ feet of ground. They are turned from solid oak logs and painted. The gudgeons are cased with a flange, and bolted to the rollers, not driven in.

The weight is in the rollers, and rests directly on the ground, not in a box on top of the bearings to produce friction. Weight, 1,200 to 1,700 lbs., according to the size of rolls. When the rollers are to be shipped a long distance parties ordering can save by ordering the frame and seat only, and supplying the log sections themselves.



No. 18234. Price, without rolls.....**$15.00**
Price, complete, with rolls **20.00**

Our $16.75 Land Roller.

No. 18235. This is the best Land Roller on the market, at anything like the price. It is a light-running, easily balanced roller. Each drum turns independently of the other. The drums are 3 feet 8 inches long, and 30½ inches in diameter. The stays are of white oak, bolted to strong, cast heads. The box is 22 inches wide by 8 feet long, supported by heavy brackets in the center and at both ends, to an axle 1¼ inches in size, running through both drums. Weight, 700 lbs. Price...**$16.75**

The Celebrated Myers Knapsack Spray Pump at $2.75.

$2.75 is our regular C. O. D. price. **$2.67** pays for the pump if cash in full accompanies your order.

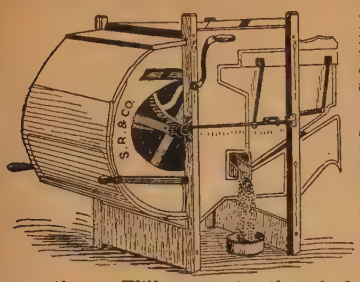
This pump is constructed of the very best galvanized iron with round corners. Built with tight lid to prevent the liquid from splashing on the operator. It is fitted with adjustable straps so as to be carried on the back where it can be carried by the bale. The hose and bulb are made of the best white rubber and protected at each end by coiled wire to prevent breaking. The valves are made of brass and will not corrode. Have large openings which permit a free flow of water and shut off instantly when under pressure. Nozzle is made of brass, nickel plated. Has 50 small openings and throws a spray 6 feet wide, a distance of 12 feet. Will work at a rapid walk. Holds 5 gallons. Weight 75 lbs. when full.

No. 18236. Pump complete with one tube, rubber bulb and hose. Our special price.....**$2.75**

Paris Green Sprinkler.

No. 18237. Every one that raises potatoes should have one of these sprinklers.

It enables you to protect your potatoes from bugs. Requires only ¼ the amount of Paris green used by any other method.



Will sprinkle 1 acre per hour and not wet the person carrying it. Is painted inside and out, and has an apparatus inside by which the Paris green and water is kept mixed constantly.

The quantity to be used is regulated by pressure of the fingers on the hose at the connection of hose and tin pipe.

$11.90 for an Acme Fanning Mill.

$11.90 is our regular price when shipped by freight C. O. D., subject to examination, upon receipt of a sufficient deposit to cover freight charges both ways. Three per cent. discount allowed if cash in full accompanies your order, when $11.54 pays for the fanning mill. Please consider our net cash with order price when comparing our prices with those of other houses.

The Acme Fanning Mill is we believe the best mill on the market at anything like the price. It has plenty of wind and shake and carries more screen than any other mill on the market. Will separate wild seed from wheat in one operation. Will separate the foul seeds, such as mustard, pigeon grass, etc., from flax on once going through the mill. Is a perfect cleaner of clover and timothy. We ship all mills knocked down so as to secure the lowest freight rate possible, and you will find the freight will amount to next to nothing as compared with what we can save you in price. We furnish this mill with one wire wheat hurdle, three sieves, wheat screen, wheat grader, corn and oat sieve and barley sieve. This is a fanning mill that is being retailed everywhere by implement dealers at $20.00 to $25.00. When we are able to offer you such a mill at **$11.90** and send it to you by freight C. O. D., subject to examination, we believe we are entitled to your order.

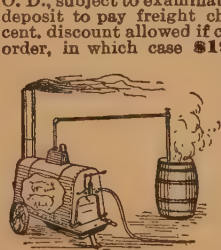
Our $4.75 Improved Acme Tank Heater.



No. 18281. This tank heater is used for warming water in stock tanks. Five cents worth of soft coal per day and the Acme Tank Heater will heat the water for 50 head of stock. This heater can not possibly be burned out, as it is entirely surrounded by water. No trouble to keep it cleaned out, as the fire box can be taken out by a ten-year-old boy; has an adjustable draft, by means of which it can be heated to any desired temperature. The cover is hinged in the center, giving ready access to ash chamber, making it easy to remove the ashes or replenish the fuel. The partition can also be withdrawn—grate can be removed—and the entire contents of the heater cleaned out in a few moments' time. It can be located at such a place in the tank as is most convenient; can be secured in place, or removed at pleasure without injury to the tank. The heater is cob-long in shape, as shown in cut; is made of galvanized iron; has a cast iron slide, which partitions the ash chamber from the other chamber; removable grate, with ample space beneath for ashes; cover is of cast iron, fitted closely, and not liable to warp, as is the case with sheet iron. A draft regulator is provided in the cover. The heater is fastened to the tank bottom by means of rod and wood screws. A poker and shovel accompany each heater. Size, 24 inches deep, 24 inches long and 13 inches wide. Weight, 113 lbs.

The Acme Feed Steamer for $19.75.

No. 18282. **$19.75** is the price if sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to pay freight charges both ways. Three per cent. discount allowed if cash in full accompanies your order, in which case **$19.16** pays for the machine.

This steamer, as illustrated above, has a large and convenient fire-box, the whole length of the boiler—40 inches—being covered with water entirely over the top and down both sides to the bottom, which gives the full benefit of all the heat from the fuel, and making it of greater capacity than all other steamers. It is easily and simply filled. Made of best boiler plate steel with heavy cast iron heads put together with bolts that pass through the flanges on the heads; therefore there is not a single hole in the steel inside the fire-box. There is water over the thin sheet down both sides of the fire-box, which gives it the same capacity as a fine boiler without any of the disadvantages. No clogging up or leaking. They are easily and quickly filled with an apparatus furnished with each steamer and can be filled when steaming. There is a stopper on each side of the pump on the bottom to open and insert a rod to loosen any and all sediment, and which will clean it out in five minutes. They are also used for letting the water out. The steamer is mounted on large wheels, and is easily moved to any place where needed. The fire-box is 3 feet long, 10 inches deep, 12 inches wide, has an adjustable partition, and can be used for coal, wood, or cobs. As many as six barrels can be steamed without moving either barrels or steamer. Will steam sufficient to cook two to three barrels with only one filling. Is very useful for heating water for slaughtering, for making soap, and for laundry and dairy purposes. Will get up steam in 10 to 20 minutes, and will cook up a barrel of turnips or potatoes in 15 to 20 minutes. We furnish this steamer equipped with a small hand pump for putting water in the boiler, which is a great improvement. Boiler is 40 inches long. Weight, 350 lbs.

The Little O. K. Stock Fountain.

No. 18284. Is the only absolutely Automatic Fountain made. Can easily be placed in operation by anybody who knows how to bore a hole in the side of a barrel or tank. Simply bore a hole and then screw the pipe (which is part of the fountain) into the barrel, and it is ready for use, requiring no further attention.

It is simply a watering trough made of metal, with a pipe shank to screw into the barrel or tank, with automatic valve, furnishing water as fast as consumed; one that will easily supply water each day to one hundred animals. No part is operated by springs, floats or "nose pressure," but simply a positive equipoise valve. This fountain is all iron, except valve. It will last a generation.

Sheep, calves and chickens, as well as hogs, always find the drinking bowl of the fountain full of fresh water, and as fast as it is consumed more flows in to take its place without any pressing down of the animal with his nose to open the valve.

This fountain has no working parts in the drinking bowl to get detached, lost or stolen by mischievous boys, or under which corn cobs or sediment may lodge and prevent its operation. Nothing can obstruct it, and it is always in order and full of fresh water. It has no working part except the valve, which is beyond the reach of the stock and located where dirt or sediment cannot lodge. Weight, about 11 lbs.

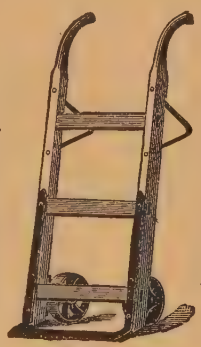
Our $3.50 Boss Sickie Grinder.

No. 18285. If you pay us **$3.50** for this grinder you will save more than the cost of it in time the first season, to say nothing of the amount of satisfaction in doing the work in the field with greater comfort. **$3.50** is our regular price; 3 per cent. discount allowed if cash in full accompanies your order, in which case **$3.40** pays for the grinder.

This implement comprises a first-class grind stone with a sickle grinder attachment, and as either is worth double its cost, the cost of it is a trifle more than the ordinary grind stone, and it will answer for all purposes. The stone is accurately centered, hung true, and does perfect work. The height of the stone is 18 inches; it is 2¼ inches thick, and the complete outfit weighs 123 lbs. Our special price, **$3.50** on regular terms; **$3.40** if cash in full accompanies your order.

Our $3.25 Truck with Sack Holder.



No. 18286. This is an implement that is almost indispensable on the farm. It is worth its cost a dozen times over every season. We believe it is the best combination truck and sack holder made. We can guarantee it superior to those offered by many at from $3.50 to $5.00.

The illustration represents the sack placed on the holder and truck ready for filling. The holder is composed of a semi-circular malleable casting, to which is hinged a steel spring bar. The casting has a flange on the outside over which the sack is placed. The spring bar is then brought over the top of the flange and placed directly under it. This holds the sack firmly and cannot injure it in the least. Our price for truck with combination sack holder, complete **$3.25**

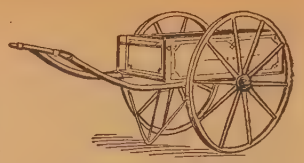
Our Combination Barrel and General Utility Cart.

This is a combination implement that is almost indispensable on any farm. At the low price we offer it will pay for itself a dozen times over every year. We sold so many of these combination outfits last year that we have arranged for the coming season for a large number. We are having them better made than ever before. The manufacturer has agreed to put in better material and so construct them that they will be practically indestructible. While there are similar combination carts on the market we believe there is nothing that will compare with ours in quality of material, strength, durability and finish.

A complete combination for **$6.00;** without box, **$5.25.**

These prices are subject to 3 per cent. discount if cash in full accompanies your order, making the prices **$5.82** and **$4.12.** Always consider this discount when comparing our prices with those of other houses.



The two illustrations above show this combination barrel and general utility cart used as a hand cart with box, the dotted lines in the illustration showing the manner in which the box can be dumped, also as a barrel cart with the box removed, which can be done in an instant. The attachment to barrel and the attachment for the automatic dumping of the box are also shown in one of the illustrations. The barrels have iron gudgeons bolted to each side. The cart will pick up the barrel or box in a moment. One cart answers for any number of barrels required. We furnish everything here shown (except the barrel) for **$6.00.** Wheels are 30 inches high. Box is 4 feet long, 2 feet 6 inches wide, 6 inches deep; weight, 100 lbs. CLOTHING DEPARTMENT

OF SEARS · ROEBUCK & CO ·

Above we show an interior view of our Clothing department, as drawn by our artist. For want of space we can only show a portion of the north and south wings, but from this you may be able to form some idea of the extensive scale on which this portion of our business is conducted.

The Clothing Department occupies the entire sixth floor, from where we ship more clothing direct to the consumer than any other five concerns in the United States combined.

For the coming season we have made far more extensive preparations than ever before. We have contracted with some of the largest and most reliable woolen mills for their entire product of certain fabrics, and in doing so have been able to get prices lower than ever before, and prices that will enable us to make the goods up in the very best manner and offer them direct to our customers at lower prices than merchants can buy in quantities.

HOW OUR CLOTHING IS MADE.

Every garment we offer is cut on the very latest style patterns by expert cutters and by the latest perfect fitting process. **They are made by first class tailors,** the linings, fittings and general finish are strictly first class, and those on all suits we offer above $6.00 will compare favorably with the trimmings and general finish of any custom tailor work. The cheaper suits will be found far superior to ready made goods offered by the average retail dealer.

We recognize no competition whatever in this line. We operate directly in connection with the woolen mills, and our customers own the garments they buy from us at the actual cost of producing the raw material and putting it together with only our one small percentage of profit added, with no allowance whatever to be made for bad debts, traveling men's expenses, collections, and the various other expenses which go to make up the regular wholesaler's calculation of cost, to say nothing of the exorbitant profit usually added by retail dealers.

If you buy your Clothing from us you will own it cheaper than any one who does not buy from us. **You will be sure to have the very latest styles,** no carried-over stock, and goods that are made up by manufacturers of established reputation and manufactured by mechanics who are exclusive men's clothing tailors.

Terms—Our terms are very liberal. Any regular sized suit or garment will be sent to any address by express C. O. D. subject to examination on receipt of **$1.00. You can examine it at the express office,** and if found perfectly satisfactory and exactly as represented, pay the express agent our advertised price and express charges, less $1.00 paid in advance, and the goods are yours. **If not found perfectly satisfactory and exactly as represented,** you need not pay the express agent a cent and the goods will be returned at our expense.

Cash Discount.—We allow a cash discount of 3 per cent, if cash in full accompanies your order. If you send cash in full with your order you may deduct 3% from our price. **You take no risk in sending cash in full,** for if the goods do not suit you in every particular you can return them at our expense and we will cheerfully refund your money. The best way is to send cash in full with your order. You not only save the 3% discount but you also save return charges on money to us. **Nearly all our customers send cash in full.**

How to Order. **Select the garment or suit wanted** by number as described on following page of this catalogue; see that it is furnished in the style wanted as shown in the several illustrations or in our fashion plate, the style being noted by number, follow our rules for measurement closely as given on page 158 **or fill out one of our regular order blanks if you have it,** and send to us either with the full amount less 3% cash discount or with a deposit of not less than $1.00; allow us three to five days to get the goods ready, and they will be sent to you by express C. O. D. subject to examination if only a deposit is sent, or by express not C. O. D. if cash in full accompanies your order, and your money of course will be cheerfully refunded if the goods do not fit you and are not perfectly satisfactory.

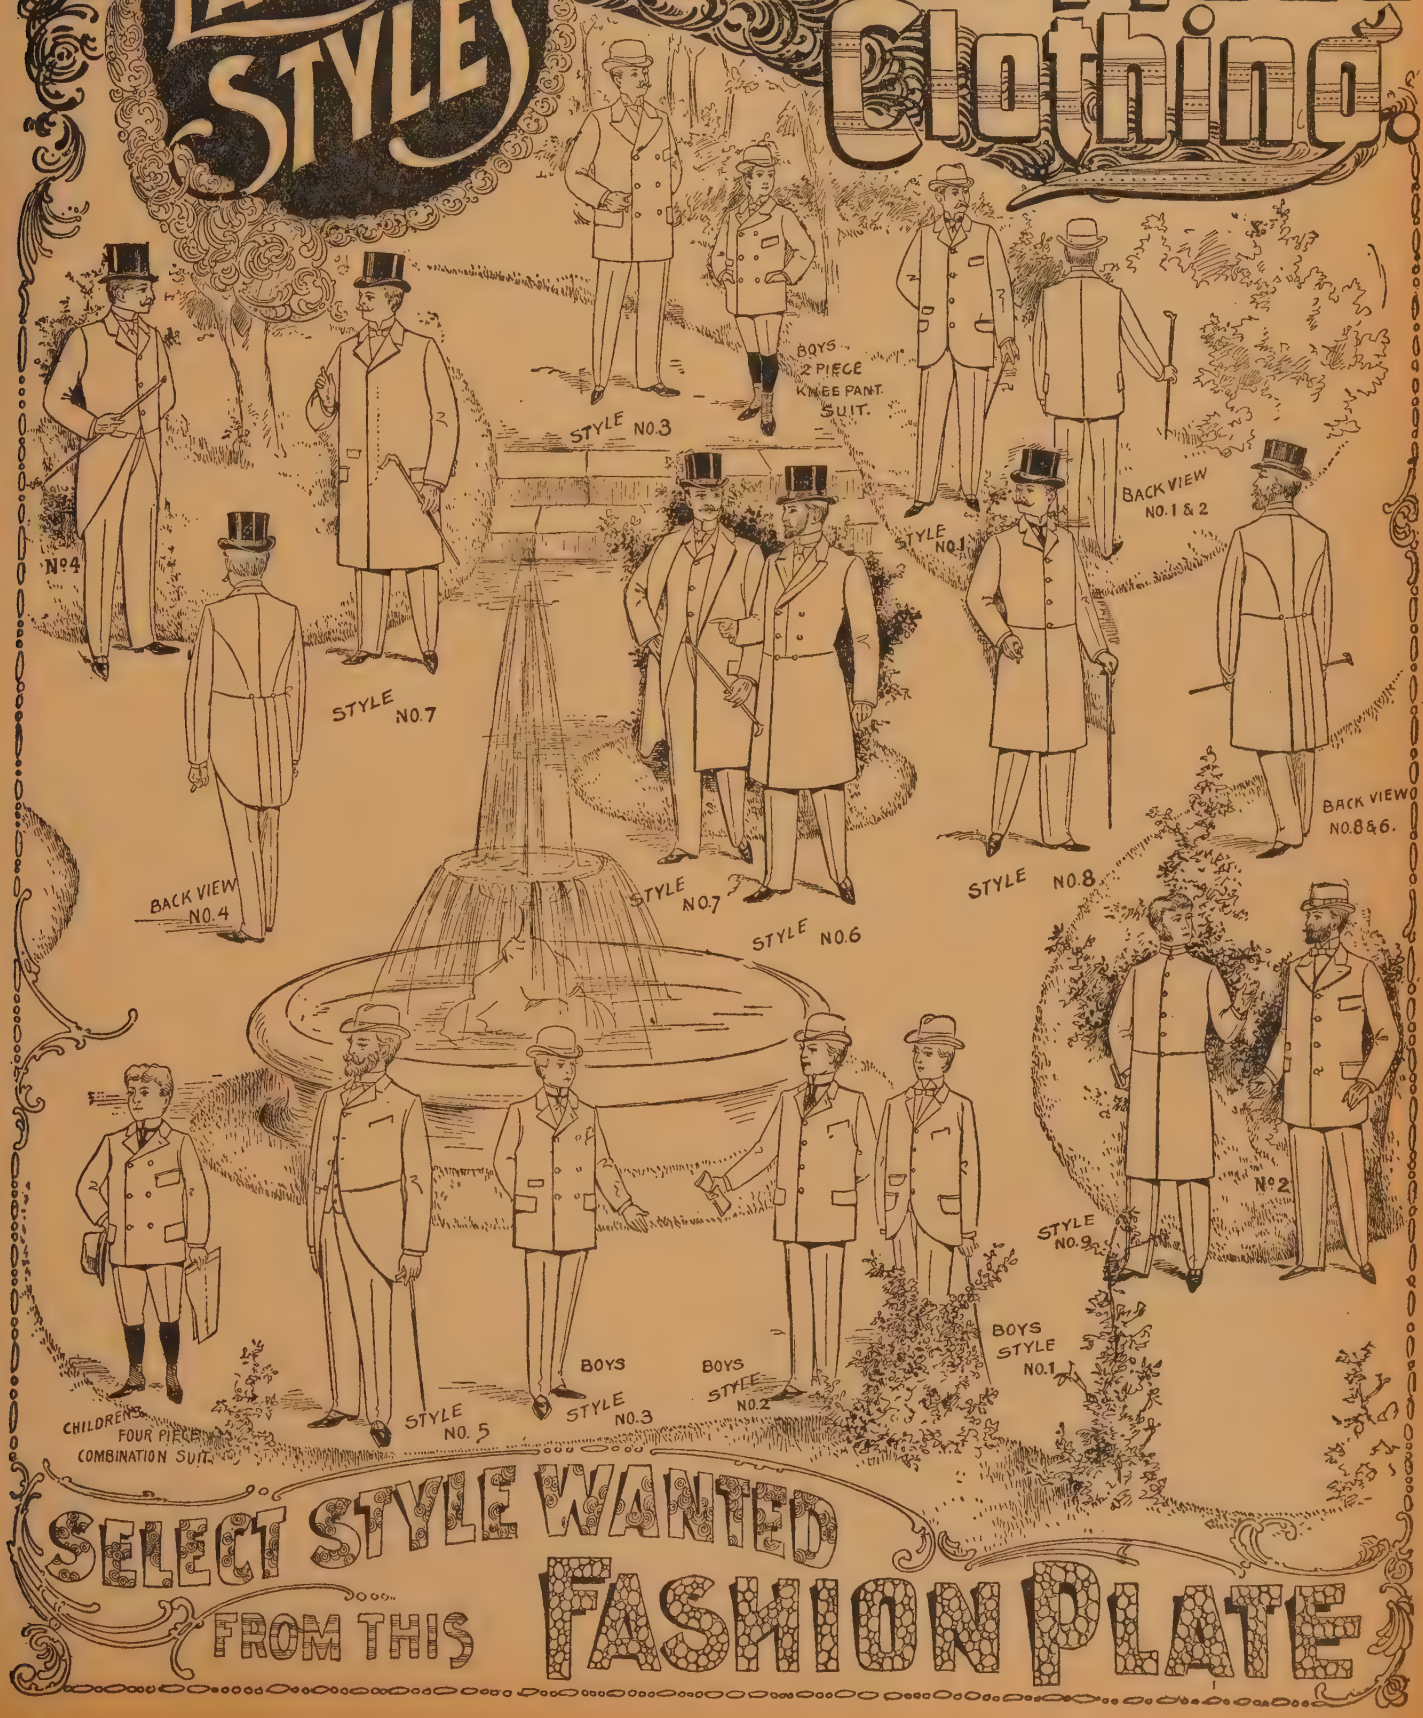
Do not think you live too far away. **The express charges are very low.** See full information concerning express rates on pages 5 and 6. A suit of clothes, nicely packed in a strong paper box as we ship them, weighs about 5 lbs., and the express charges range about as follows:

For 200 miles or less	25c.
For 500 miles or less	50c.
For 1000 miles or less	75c.

So you see you have but little express charges to pay, and if you send cash in full the 3% discount will usually nearly or quite pay all express charges, and you have the satisfaction of not only saving one-half on your suit, but of getting a better suit than you could possibly buy in the average retail store.

ABOUT FREE SAMPLES.

We can furnish cloth samples of everything we catalogue, and we will at all times take pleasure in sending free of charge any samples our customers may ask for.



We issue a special card of cloth samples and would recommend that you ask for our special sample card rather than ask for samples of any particular number, for this card is arranged to show our best bargains. **We have made the selection** with a view to showing our customers cloth samples of such goods we catalogue as are special leaders with us, and which we can recommend above all others. **Drop us a postal card saying,** "Please send cloth samples of men and boys' suitings and pants," and this card will be mailed to you post paid at once.

20 Per cent. extra for extra sizes. Regular sizes run for men's suits from 34 to 42 inches chest measure, and for pants 30 to 40 inches waist measure and 30 to 35 inches leg measure. Any size above these is termed extra size, and for which we charge 20 per cent. extra on all suits $10.00 or upwards; on all suits less than $10.00, $2.00 per suit extra. Please consider this in taking your measurement, and if you require an extra size suit be sure to include the extra charge.

We guarantee a perfect fit. Follow our rules for measurement closely, using our regular clothing order blank and following the rules for measurement there given if you have a blank. If not, give the measurements as per instructions given on page 158, and if you have a sample of the cloth **be sure to attach a piece of the cloth to your order,** allow us three to five days to get your suit ready, and we will guarantee to ship you suits that will fit you perfectly and of such value as were never seen in your section **at anything like the price.**

OUR $5.50 WONDERS

This is the first time a Genuine Worsted Suit of this character was ever offered at anything like the price.

We have arranged with the manufacturer for his entire product of these goods in two certain patterns, which will be all the style for the coming season.

They closely resemble the expensive Genuine French Worsteds which first-class tailors use in their finest $40.00 and $50.00 suits, in fact, made up, at a short distance you can not tell one cloth or one suit from the other.

No. 4306½. THIS IS A WOOL AND COTTON MIXED WORSTED, extra heavy, a very closely woven goods, and a goods that there is practically no wear-out to.

They come in Black or Navy Blue, as desired. We are able to make the exceptionally low price of $5.50 only by reason of our very favorable contract with the mill that makes the cloth, and our very economic method of manufacturing and handling. Samples of cloth will be furnished free on application.

BLUE FLANNEL GRAND ARMY OF THE REPUBLIC SUITS

Our trade on Grand Army Suits the past two seasons has been so large and increased so rapidly that we have decided to make much more extensive preparations this year than ever before, and at $6.50 to $8.00 we will furnish Grand Army suits in sizes from 34 to 42, or at $2.00 extra in larger sizes wanted, that can not be produced by a tailor at 50% advance.

Don't compare our G. A. R. Suits with those offered by the average clothing merchant. **There is absolutely no comparison.**

Our G. A. R. Suits are made up in a thoroughly first-class manner, cut by expert cutters and made by first-class tailors. The linings, trimmings and general finish are far superior to those used in ready-made stock.

The old soldiers all over the United States are patronizing us by the thousands, and in honor to them and the G. A. R. we have cut our per centage of profit on G. A. R. suits lower than on anything else we handle.

Almost cost, is the way we sell G. A. R. Suits. Yet we are anxious for your trade, we appreciate it just the same, builds up our business and makes many new customers for us.

Many G. A. R. Posts join in a body and give us their orders for 20 to 100 suits for the entire post, but the price is the same whether you buy one suit or 100 suits. **You will find our prices on G. A. R. Suits** far below the price charged by retail dealers. **As before explained,** you will find there is no comparison in the goods or make.

We furnish these Suits in either style 1, 2 or 3, round cut sack or square cut sack, as illustrated above, or double breasted square cut sack style 3 at 50 cents extra. We also furnish an extra set of G, A. R. brass buttons with each suit. The buttons are detachable and can be easily removed.

☞ Samples of cloth sent free on application.

No. 4386. Our $6.50 Blue Flannel G. A. R. Suit. We guarantee this suit to be equal to anything your local tailor can offer at $12.00, and is better value than those carried by the average clothing store. **It is made from a Fine Indigo Blue Flannel,** fast color, warranted not to fade. **If one fades we will send you a new suit.** Nearly all wool, a very small cotton chain one way of the weave to make it firm and wear resisting, in fact, goods that will wear like iron. It is a suit that is generally sold for all wool.

Our Special Price **$6.50**

No. 4387. Our $7.50 Blue Flannel G. A. R. Suit. This suit is made from a finer and closer woven material than our $6.50 suit, the trimmings are somewhat better and it is well worth the difference in price.

With Odd Pants to Match. Wonderful Values in Men's Coats and Vests and Mixed Suits,

coat and vest of one pattern and pants of another pattern. **Handling, as we do, over a thousand suits a day** in the season, we get an accumulation of broken suits. **Among a lot of a thousand suits** of one pattern which are made up, after 900 or 950 are sold from the lot, we find we have left a broken lot of goods. **The pants are not the size to fit the coats and vests.** We then throw them into what we call our "Odd Lots," or mixed suits, offering the coats and vests alone or as mixed suits, coat and vest of one pattern and pants of another, always, however, a very desirable pants pattern.

As mixed suits are now very stylish and are worn everywhere, and especially in large cities, the coat and vest of one pattern and pants of a special pants pattern, there is nothing in which you can get such value and general satisfaction as from this lot. We do not expect any profit on our coats and vests, single coats, single vests or mixed suits.

We are willing to sustain a loss, and for that reason we feel that this offering will interest you.

As described under the different numbers, we have these goods in all shades, in all the most desirable patterns, in all weaves and all styles, but we can not furnish cloth samples for we close the lots as fast as possible, and if we furnished you a sample, by the time you were ready to order the exact pattern might be sold. **Sizes run from 34 to 42 inches** chest measure. **Extra sizes $1.00 extra.** We can furnish these coats and vests in styles 1, 2, 3 or 4. Styles 3 and 4 will be 50c extra.

☞ **The prices quoted above are about one-half our regular prices** for complete suits out of regular stock. We make these prices so very low only with a view to interesting you to place your order for these goods to assist us in keeping our broken stock cleaned up.

Special offer of only $1.00 additional for extra sizes on mixed suits.

In our made up stock of Clothing

there are constantly accumulating **odd pieces** where a big lot of a thousand or more suits will not run out even. **We find we are left with Coats and Vests** with no pants to match in size, or with vests where the coats do not match, and coats where neither the vests nor pants will match; and where we have used all the piece goods we are unable to cut any garments to match the suits and are therefore compelled to sell the odd garments at any prices they will bring.

Having arrived at a price that we know they will bring, and will advertise our house and give our customers such value as was never seen or heard of before, we fix the price regardless of value, profit or cost.

We do not expect to make any profit on these broken lots, we are willing to sacrifice a big percentage of loss. **We have these coats in all styles** and in all regular sizes, in all shades, all patterns, in all qualities of material and all qualities of make.

If you will give us an idea of what you want in the way of material, shade, weight, pattern and style, we will guarantee to please you in every respect, and as for price we will furnish you a thorough surprise.

No cloth samples can be furnished of these garments. The piece goods have all been consumed.

The lots, while very large in the aggregate, are very small to each pattern. You will have to leave it to our judgment to give you the most desirable goods we can.

MENS READING, PA.

TAILOR MADE PANTS

FOR $1.98 AND $2.55

We offer the Genuine Reading Pants at $1.98. **No. 4484. At $1.98 we offer a line of pants** that are being sold direct to dealers by the largest jobbers in the country at from $2.50 to $2.75. You will pay your retail dealer $3.00 to $3.50 and in some cases $4.00 for these pants. **The all wool Reading Cassimere** manufactured by one of the oldest and most reliable manufacturers of Reading, Pa., is perhaps too well known to require much comment from us. There is no better wearing material made. It will wear until you are tired of it. These pants are ready made. They are made by the mill. The manufacturer of the cloth does not figure one penny profit on the manufacturing. **We buy the pants from him in thousand lots** at the lowest manufacturer's price for the cloth, with the actual cost of manufacturing added, and they guarantee that if a pair rips or a button comes off, or when the garment is found defective, they will replace it free of charge, and we extend the same guarantee with any pair you may buy. They are all wool and extra good weight. They are closely woven and there is practically no wear out to the goods. They come in a medium dark gray with a fine hairline stripe effect and there is nothing more desirable nor more stylish for pants material.

When we offer them to you at $1.98, we feel that we have done our part towards encouraging your orders, for our price is based on the smallest percentage of profit possible, and the price is about one-half the price you have been in the habit of paying for similar goods.

No. 4485. GENUINE READING PANTS FOR $2.55. This mill makes only two grades of cassimere, and we offer you this, the very best grade they make, which is somewhat heavier, finer and closer woven than our $1.98 pants. Like the $1.98 they are guaranteed in every respect. If a pair rips or a button comes off, return them to us and we will replace them with a new pair. They come in the same pattern, a dark gray narrow stripe.
$2.55

WE OFFER THE MOST ATTRACTIVE LINE OF SUMMER CLOTHING

that has ever been shown, and we believe you will be interested in some of our offers. **Our line of light coats, vests and suits, white duck pants, vests, fancy vests, etc., etc.,** is very complete, and embraces everything desirable in wearing apparel for all summer outing occasions. **We offer only strictly high grade goods** made from the best domestic and imported fabrics, and every garment is tailor made and cut on **the latest style patterns for this season's wear. This department we are sure will interest a great many customers,** for it will afford them an opportunity to get just what they want for summer wear, an opportunity to make your own selection from everything the market affords, whereas in your local market you are compelled to take what is carried in stock even though inferior goods or the style of a year or more ago.

TERMS. THE SAME TERMS APPLY ON SUMMER GOODS as on all other clothing. We will accept orders to be sent by express C. O. D. subject to examination on receipt of $1.00. The goods can be examined at the express office, and if found perfectly satisfactory and exactly as represented, pay the express agent our price and express charges, less the $1.00 sent with order.

A DISCOUNT OF 3 PER CENT. if cash in full accompanies your order. Nearly all our customers send cash in full.

ABOUT SIZES. Sizes to be the same as for any other clothing. Always be sure to give height and weight. For coats and vests, state number of inches around the body at chest taken over vest under coat. For pants, number of inches around the body at waist, around the body at hips, and length of inside seam from tight in crotch to heel.

NO SAMPLES CAN BE FURNISHED. We have found it very difficult to furnish samples of summer clothing and then be sure of filling orders that might come in later for certain patterns that are sold out from time to time, and many a customer is disappointed and we are unable to fill the order when received. We will therefore ask you to order from the descriptions we have given, and if we are unable to send the exact pattern we will reserve the right to send you as near the pattern described as possible, always guaranteeing to send you equally as good or better goods, never poorer.

SEARS, ROEBUCK & Co., Chicago, Ill.

DEAR SIRS:—I received my goods I ordered of you last night, everything was just as you represented it and much better than I expected, the pants fit me better than any I ever had, you could not have done better if I had been there. I thank you very kindly for sending by freight, as it did not cost half as much as by express, everything suits me to my entire satisfaction. I will thank you once more for your honorable dealing with me and await my further orders. Yours respectfully,
W. D. STEWART.

BOYS CLOTHING DEPARTMENT

OUR BOYS' AND CHILDREN'S DEPARTMENT HAS DEVELOPED INTO ONE OF THE LARGEST IN THIS COUNTRY, and we have facilities for supplying the very finest wearing apparel at prices that will mean a saving to our customers of from 25 to 50%.

FOR THE COMING SEASON WE WILL SHOW A LARGER LINE OF JUVENILE CLOTHING THAN EVER BEFORE. It includes everything desirable in **Boys' Long Pants Suits for boys from 10 to 19 years of age, Boys' Long Pants, Children's Knee Pants Suits, Four-Piece Combination Suits, Reefer Suits, Sailor Suits, Kilt Suits, Head-to-Foot Combinations, Children's Knee Pants,** in fact, **everything that goes to make up a thoroughly complete JUVENILE CLOTHING DEPARTMENT.**

WE OFFER YOU EVERY ADVANTAGE, EVERY INDUCEMENT TO PLACE YOUR ORDER WITH US. Different from buying in the average retail clothing store where you must confine your selection to the limited stock carried, often made up of goods one, two and three years old and consequently out of style, **we offer you an opportunity to select only the very latest styles** and that from an endless variety and almost unlimited stock.

EVERY GARMENT IN OUR CHILDREN'S DEPARTMENT IS GUARANTEED THE VERY LATEST STYLE, cut on the latest style patterns by expert cutters to fit perfectly, cut by the latest perfect fitting process to insure a perfect fit, **every garment fine tailor made,** made by tailors who are employed exclusively on juvenile clothing.

OUR JUVENILE CLOTHING DEPARTMENT IS A BIG DEPARTMENT in itself.

With few exceptions the cloth is woven expressly for juvenile clothing, goods that are designed for wear, and the same care is given to the manufacture of these garments as is given to our regular clothing for men.

DO NOT OVERLOOK OUR JUVENILE CLOTHING DEPARTMENT when making up your spring or summer order. **Include a Suit, Pair of Pants or a Combination Outfit for the boy. It will add next to nothing** to the transportation charges if to be shipped with other goods by freight or express.

TERMS.

OUR TERMS ON JUVENILE CLOTHING ARE EXACTLY THE SAME AS ON ALL OTHER CLOTHING. Any goods will be shipped by express C. O. D., subject to examination on receipt of $1.00 as a guarantee of good faith. You can examine the goods at your nearest express office, and if found perfectly satisfactory and exactly as represented pay the express agent our price and express charges, less the amount sent with order, and the goods are yours.

A DISCOUNT OF 3 PER CENT. will be allowed if cash in full accompanies your order. Nearly all our customers send cash in full.

BOYS' LONG PANTS.—Continued.

No. 4610. OUR $1.95 LINE. We have a very fine line of boys' $1.95 pants, a line of pants that would retail at from $3.00 to $4.00; in fact, goods that are equal to anything a local dealer would make at $5.00 to $7.00. We have these $1.95 pants in endless variety and patterns, made specially for the spring, summer and fall wear and for the season of 1896, but they are heavy enough for year-around wear. They are cut on the latest style patterns by experienced cutters to fit perfectly, fine tailor-made throughout; in fact, you cannot get a better pair of pants if you go to your local tailor and pay $6.00 or $7.00. They are reinforced in every respect, nothing but silk and linen thread used in the sewing, hip pockets reinforced, both side pockets reinforced, made from a very fine quality of all-wool Wisconsin cassimere and regular wear-resisting material. Makes up very neat and dressy, and give the appearance of pants that would cost double the price. We have this line of $1.95 goods in endless variety, as above explained, including light gray with small pin check, gray with small plaid, dark gray, gray pin check, light brown pin check, light, medium and dark stripes; in fact, if you will give us an idea of what is wanted in the shade and color we will take pleasure in sending you such a pair of pants as was never seen in your section at anything like the price.

No. 4611. OUR $2.95 CLAY WORSTED LINE. We offer at $2.95 a fine tailor-made worsted pants that no local dealer would make at less than $6.00. These pants will be sent to any address by express, C. O. D., subject to examination, on receipt of $1.00. They are made from a fine grade of 16 oz. all-wool imported black English clay worsted, one of the highest grade clay worsteds made. Made by a mill in England whose reputation for the manufacture of high grade worsted is so well known that no comment from us is necessary. They are elegantly lined, trimmed and finished, and we offer them at $2.95 in competition with anything that you can get made at double the price.

CHILDREN'S DEPARTMENT JUVENILE CLOTHING.....

The Most Stylish, Best Wearing, and Cheapest ever Sold.

We dress the boy from 3 to 19 years of age, HEAD TO FOOT, EVERYTHING FOR SPRING AND SUMMER OF 1896. All the latest styles, all the novelties for the season. **OUR FANCY JUVENILE SUITS** will make the **BOY'S HEART GLAD.** It will make the **proud mother happy and SURPRISE THE FATHER,** for at last he can clothe his boys in the nobblest of suits at a cost **NEXT TO NOTHING.**

DON'T FORGET THE BOYS this summer. The suit you buy him now he is likely to remember the longest day he lives, one of those tender recollections we are wont to look back into our childhood days as the much-appreciated, never-to-be-forgotten gift of a generous parent. **DON'T BE STINGY WITH THE BOY. We have 2-piece suits, 4-piece combination suits, sailor suits, reefer suits. SUCH A COMPLETE LINE** as can be had nowhere else.

WE CAN FIT YOUR BOY. State age of boy and say whether large or small for age and we will guarantee a fit.

OUR TERMS are so reasonable we will send any suit by express, C. O. D., subject to examination on receipt of $1.00. You can examine the suit at the express office and if found perfectly satisfactory, and exactly as represented, pay the express agent the balance and the express charges and the pants are yours.

It will pay you to order several suits at a time.

By so doing you will save transportation charges. A boy's 2-piece combination suit weighs but very little, for the express company will charge from 25 to 35 cents for transportation, according to the distance, no matter how small or light the package may be, and by adding two or three suits in making your order you do not increase the express charges. **We would, therefore, advise you to influence your neighbors to join with you in** making a club order and thus reduce the express charges on a single suit to next to nothing.

Where it is practicable to send by mail we have quoted the postage rate and on all garments weighing 24 ozs. or under, we would recommend shipping by mail, the rate being 1 cent per oz., in which case enough extra should accompany your order to prepay postage.

You will observe many of our 2-piece suits can be sent by mail at from 8 to 15 cents, thus saving you from 17 to 25 cents express charges and delivering the goods directly at your nearest postoffice.

In making up your order for clothing do not omit any item you may be likely to need, for understand the addition of one or two items adds nothing to the transportation charges when it is to be shipped by express or freight; but when ordered separately it is quite expensive, and to this end we would urge you to make up a club order when possible, getting as many of your friends and neighbors to join with you in sending their order. **You can examine the goods at the express office,** and any that are not perfectly satisfactory can be returned at our expense; those that are satisfactory will be delivered and the agent will collect the same.

Understand, you take no risk in ordering from this department whether you send cash in full or order the goods shipped C. O. D., subject to examination. **Every garment is guaranteed to be exactly as represented** and if not found so and perfectly satisfactory and a perfect fit, you can return it at our expense and we will cheerfully refund your money.

The encouragement we have received that the past season has induced us to make the Juvenile Department one of the leading features of our business and no pains have been spared in selecting a line of staple and novelties, which in variety, style, finish and price cannot be equaled by anything in the market. We have selected only the very latest styles for the season of 1896; everything is strictly modern, up to date in every respect. **Our goods are all made by first-class tailors,** cut by experienced cutters and gotten up in the highest style of the art.

You will find a distinctiveness in our juvenile clothing which is not seen in goods carried by the average retail dealer. Such goods as we offer are gotten up specially for city trade and will be found in the representative clothing stores in large cities, for on our system of one small profit direct from manufacturer to consumer, under the terms and conditions of our contract for this line of goods for the season of 1896, we are able to offer you the highest grade of juvenile clothing made and at prices against which our competitors will not be able to compete even on the cheap commonplace goods with which the market is always flooded.

No. 4185.

First in this line we would call your attention to our wash goods suits, a line of high class children's novelty suits; gotten up by one of the largest and most reliable manufacturers in New York, a concern whose reputation for the manufacture of high-class juvenile clothing is second to none. **Every garment is fine tailor made,** of the latest style, made to fit perfectly and such goods as are sure to meet with the approval of the buyer.

No. 4184. OUR 75 CENT LINE. We offer here a line of children's two-piece suits at 75 cents which cannot be equaled in your local market at less than $1.25. **We are extremely anxious** to receive your trade, anxious to receive your order for one of these suits, not for the little profit there is in it to us, but for the good it will do us as an advertisement; for we know you will be so well pleased with the suit that you will show it to your friends, tell them where you bought it and what you paid for it, and in that way we will get many more orders in your neighborhood.

These suits run in sizes from 3 to 10 years of age. Be sure to state age of boy and whether large or small of his age.

No. 4199.

No. 4200. OUR SPECIAL $1.95 FOUR-PIECE COMBINATION SUIT, consisting of one jacket, two pairs of knee pants and one cap; sizes run from ages 3 to 10 and in navy blue, brown, tan and drab. If to be sent by mail, send 15 cents extra to pay postage. The suits are exactly the same as our No. 4199, with the exception of the extra pair of pants and cap which constitutes the four-piece combination suit.

We are offering you at $1.95 a special leader, and we would urge you to place your order immediately, as the demand will surely exhaust the supply before the season is very far advanced. There is nothing on the market that will begin to compare with these, either for style, quality or finish at anything like the price. Give us a trial order; let us send you one suit, and if you do not pronounce it the greatest bargain you have ever seen in a boys' four-piece combination, all-wool, tailor-made sailor suit, return it at our expense, and we will cheerfully refund your money. Understand, we are offering these goods to you as strictly up-to-date, high-art, tailor-made novelty suits for children, and the goods should not be compared with those handled by the average retail dealer.

Under the old system of a long chain of profits from manufacturer to your local dealer, it has been impossible to get these goods at anything like our price; but bridging all this unnecessary cost and offering goods to you direct from the factory, we are able to put you in possession of strictly high-grade novelty suits at prices that will admit of your getting the best. We have the cheaper and more common children's suits in the different styles in combination and at correspondingly low prices, as hereinafter illustrated.

No. 4200.

No. 4201. OUR $2.25 TWO-PIECE BROADCLOTH SAILOR SUIT, in navy blue, slate color, or tan, as desired. These suits come in sizes, ages 3 to 10. Be sure to state the age of boy and whether large or small of his age, and also state color desired. If you wish the suit sent by mail enclose 18 cents extra to pay postage. Understand, any of these goods will be sent by express C. O. D., subject to examination, on receipt of $1.00, but if ordering only one suit, you will save transportation charges by enclosing the additional amount to cover postage and have the suit come by mail. It will pay you handsomely to order several suits at a time, as the express charges on three or four suits will not amount to over 25 or 30 cents to any point in the United States. Order one of these suits at $2.25, examine it at the express office or in your home, and if you do not say it is a bargain worth more than the price asked, as we are saving you at least 33⅓ per cent., return it at our expense and we will cheerfully refund your money. These $2.25 suits are high-art garments, made by one of the best and most reliable makers in New York, a concern that employs none but skilled tailors. The garments are cut on the latest patterns for the season of 1896 and such as will be found only in high-class clothing stores in cities. On our system we put you in a position to own the best at prices heretofore paid for inferior goods. These suits are made of good weight, serviceable broadcloth, large square back sailor collar, with lapel front and cuffs, handsomely trimmed with hercules braid, one inch wide, surplice fronts, with anchor, handsomely embroidered and underlined, outside pocket, double stitched and extra well-made throughout, heavy elastic gathering-string at waist, rubber buttons. The pants are extra well-made, with a felled outside seam and continuous band, small buttons to match the blouse. This is indeed a very stylish garment and something we can recommend to give perfect satisfaction.

No. 4201.

No. 4202. OUR $2.25 TWO-PIECE CHILDREN'S JUNIOR SUIT, in sizes ages 3 to 8. Be sure to state age, and say whether boy is large or small of his age. If to be sent by mail, enclose 15 cents extra to pay postage. This garment is made of a fine gray mixed cheviot cassimere, handsomely bound neck, front and cuffs trimmed with a fine galloon braid and very small silk buttons, finely lined, with inside pocket, extra well-made pants, continuous band, extra well-made button holes and the bottom ornamented with small nickelplated buckle. Something very neat and pretty for the junior.

No. 4202.

No. 4203. OUR HIGH-ART $2.30 EXTRA FINE QUALITY NAVY BLUE WOOL CHEVIOT children's junior suits, age 3 to 8. Be sure to state age and say whether the boy is large or small of his age. If to be sent by mail enclose 15 cents extra to pay postage; but the better way is to order several suits and have them come by express and thereby reduce the transportation charges. We offer this suit at $2.30 in competition with two-piece junior suits that retail at clothing stores from $3.50 and upwards. If, upon examination you do not find the suit equal to those sold by retail dealers at $3.50 you are at liberty to return the suit at our expense and we will cheerfully refund your money. This suit is handsomely cut in a new design, round sailor collar and taped front, which is handsomely trimmed with silk braid and two rows of silk ball buttons, with cuffs to match; slashed on each side of the back and trimmed with soutache braid, with pants to match.

No. 4203.

No. 4204. OUR SPECIAL $3.40 FANCY ZOUAVE CHILDREN'S SUIT, ages 3 to 10. Be sure to state age of boy and say whether large or small of his age. If to be sent by mail enclose 16 cents extra to pay postage. This is one of the finest two-piece suits we make, and would retail at any first-class house for nearly double our price. If you will send us $1.00 and allow us to send you this suit by express subject to examination we feel confident that you will not only accept it and be well pleased with your bargain, but we think it will be the means of our selling more goods of this department in your neighborhood. This suit is made of a fine brown pin stripe cassimere, neck handsomely bound and stitched, large lapels, beautifully trimmed with five rows of soutache braid and small silk ball buttons, slashed on each side of the back and trimmed with soutache braid, cuffs handsomely trimmed with three-quarter inch braid and one row of soutache braid, ornamented with two little silk ball buttons to match the front. Very handsomely lined with one outside pocket bound with silk braid. Pants are extra well-made, double stitched, continuous band, extra well made buttonholes, one hip pocket and ornamented with buckle and bow at bottom of each leg. This makes a very stylish and dressy little suit.

CHILDREN'S TWO-PIECE REEFER SUITS.

OUR LINE OF REEFER SUITS IS VERY COMPLETE and we are prepared to furnish you these goods in endless variety at prices that will admit of no competition. **We present for your consideration four special bargains** selected from our stock, bargains such as have never been before offered. They are made by a concern whose reputation for the manufacture of high-art juvenile goods ought to be a sufficient guarantee for their quality, and on the basis of the highest grade of goods at prices that will save you from 33⅓ to 50 per cent we earnestly request the privilege of sending you at least one suit to examine and if not found perfectly satisfactory and exactly as represented, you can return it at our expense and we will cheerfully refund your money. These suits run in sizes, ages 3 to 8. **Be sure to state age of boy and say whether** large or small of his age.

No. 4205. A TWO-PIECE REEFER SUIT AT $1.58, made of a good grade of all-wool imported navy blue cheviot is a suit that is sure to please you, as it is one that cannot be equaled in your local market within 50 per cent of our price. It is nicely lined throughout with serge lining and fancy sleeve lining, well sewed throughout, full-sized flaps on pockets, lined throughout, three outside pockets to coat, large square sailor collar nicely finished with three rows of soutache braid all around, collar lined throughout with good quality serge lining, sleeves trimmed with three rows of soutache braid and finished with two buttons on each sleeve. Knee pants well made with continuous reinforced band, three buttons at bottom of each pant leg, two pockets in pants.

No. 4205.

No. 4206.

No. 4206. OUR $3.35 FINE ALL-WOOL CASSIMERE REEFER SUIT for boys from ages 3 to 8. By mail 25 cents extra to pay postage. This is one of the very finest all-wool reefer suits, made of an extra quality of all-wool cassimere gray mixed basket pattern, made up in a very dressy manner, square back sailor collar, handsomely trimmed with two wide and four narrow braids, three outside pockets and cuffs trimmed to match the collar, double-breasted and slashed lapel front, beautifully lined with fine Italian cloth, one inside pocket, sleeves lined with fine striped silecia, extra well made pants with reinforced bands, extra well made buttonholes; also having the elastic loops for the back buttons, extra well stayed at crotch, with one hip pocket and side pockets, each leg ornamented with three satin bows with steel buckle, making something extra fine and desirable.

No. 4207. OUR $4.35 REEFER. If you can afford to pay $4.35 for a high-grade reefer suit we will take pleasure in sending you such a suit as has never been seen in your section at anything like the price; a better suit no doubt than has ever been seen in your market. At least if you do not find it so upon examination, you are at liberty to return it at our expense and we will cheerfully refund your money. It runs in sizes ages 3 to 8, and when ordering be sure and state age of boy and say whether large or small of his age. If you wish the suit sent by mail, enclose 22 cents extra to pay postage. We are exceedingly anxious to get your order for some of our higher grade suits, not that there is any more profit in it for us; but they are works of art, strictly first-class tailor-made; nothing has been spared or left undone to make them the best that can be had at any price, and such suits as are sure to advertise us wherever they go; in fact the best advertisement we can possibly have is a well-pleased customer, and these are suits that are made to satisfy.

This suit is made of a very fine imported all-wool dark gray and brown mixed cassimere. It is regular wear-resisting goods and will outwear three of the ordinary suits such as you will see every day in the local clothing stores. Cut on the latest pattern of 1896 it presents a very stylish appearance, lined throughout with a good quality of serge lining in a suitable color to match, very good grade of sleeve lining, very large square sailor collar, lined throughout with high-grade Italian lining, large fancy lapel lined with material same as the suit. It is finished with

No. 2227. Our $2.35 Suit. These suits are fine tailor made, cut on the latest pattern for the season of 1896, made by one of the best and most reliable makers in this country. They are lined throughout with a very nice quality of serge lining, fancy sleeve lining, four pockets to coat with flaps on each pocket, lined throughout with good serge, have large lapel collar, nicely made and pressed, sleeves are finished with buttons on each cuff. The suits come double-breasted as shown in cut. The knee pants are nicely made, reinforced throughout, reinforced waistband with hand-worked button holes. In fact, this is a suit we have never sold before at anything like the price; but by reason of the large contract for the coming season, we are for the first time able to offer you for $2.35 a suit which will compete favorably with anything you can buy at your local market for double the money.

We are extremely anxious to receive your order, not so much for the little profit there is in a single suit to us, as for the good it will do us as an advertisement. We feel confident that if we get your order for one of these suits at $2.35 it will result in our getting further orders for our various departments.

CHILDREN'S COMBINATION KNEE PANTS SUITS.

These suits consist of the following 4 pieces: 1 jacket, 2 pair knee pants and 1 cap.

WE RECOMMEND the four-piece combination suit, for jacket will outwear two pairs of pants, and by buying the four pieces the boy has a whole suit as good as new twice the time he would a two-piece suit.

OUR COMBINATION SUITS are all fine tailor made, made by one of the largest and most reliable manufacturers in New York, a concern which employs only skilled tailors; all are cut by expert cutters on the latest patterns for 1896, and every garment warranted. **SIZES RUN FROM 4 TO 14 YEARS.** Be sure to state age of boy and say whether large or small of age.

We will send all combination suits by mail, post paid, on receipt of 35c extra to pay postage.

The best way is to have them sent by express, and you will save money by ordering several suits at a time.

As above stated, all combination suits will be sent by mail, postage prepaid, on receipt of 35c extra to pay postage. We recommend ordering one or more suits by express. The express charges on from one to four suits will range from 25c to 40c, according to the distance. It pays to make a club order and save on transportation charges.

No. 4228. THIS FOUR-PIECE SUIT AT $2.25 consists of one double-breasted coat, one cap and two pairs of pants, exactly as illustrated. The suit is made of a very good quality dark gray wool cheviot, from one of the best Michigan mills. It is a material that will wear, always look neat and dressy, and sure to give the best of satisfaction. The coat is lined throughout with a good quality of serge, fancy striped sleeve lining, large collar lined with serge, large well-made lapels, producing a very nice effect. Two pockets to coat, with flaps on both pockets. Both pants are well made, with side pockets, reinforced waistband, button-holes worked in waistband, reinforced crotch, finished with buttons at bottom of each pants leg. We offer these suits for $2.25 in competition with suits that retail at $3.00 and upwards. We have only to get your first order to be sure of getting your future orders.

Situated as we are, and in a position to furnish you goods direct from manufacturers on the basis of actual cost to produce, with our one small profit added, we can supply you with staple merchandise at prices that will admit of no competition.

WHAT THE PEOPLE SAY.

One Sale Makes More Customers.

SIMPSONVILLE, S. C.

SEARS, ROEBUCK & Co.

GENTLEMEN:—I have seen the suit you sent to Thomas F. McKinney and I was exceedingly pleased with the suit. It is a very fine piece of goods and handsomely made, and a very low price. It is highly probable that we shall be some of your customers in the near future

Respectfully yours, W. D. LEAGUE.

You Can Make Money Selling Our Clothing.

TASCOSA, TEX.

SEARS, ROEBUCK & Co., Chicago, Ill.

DEAR SIRS:—The suits came to hand O. K. and permit me to say they have given entire satisfaction, in fact I have not seen anything to equal it for the money invested.

I sold one of the suits the same day received, and the party who bought the suit from me is so well pleased with it, that he assured me, that he would never buy any more clothing here at home, but would get me to order his clothing for him or he would send his orders direct to your house. I remain

Yours truly, Y. ROMERS.
